### THE SPECULATIVE MARKETS.

Strong Bullish Influences Felt in the Wheat Pit.

CORN SPECULATION DRAGGING.

Oats Also Rule Heavy Despite a Large Decrease in the Visible-Provisions Strong-Cattle Lower -Hogs Active.

CHICAGO PRODUCE MARKET. CHICAGO, July 16 .- [Special Telegram to THE BEE. |The great feature of the market to-day was the bullish foreign news. Cables came in strong from every important En glish and continental market, and everybody had them direct or reflected. St. Louis opened %c up, New York %c, and Chicago 5.6014c. December showing the greatest strength at the beginning. Foreigners have been covering extensively in this and other American markets for a week, and they seem to be going the other way to a great extent. Purchases for foreign account are becoming quite general, and for large lines in many instances. The alarm that is beginning to be felt abroad is not for the immediate present, but for the future. Thus it occurs that while an export demand of moderate proportions is taking some wheat out of the country day by day-twenty loads being taken in New York to-day-the bulk of foreign buying is for later months. There was more export buying to-day than for weeks. However, weather abroad is still unsettled and backward, and an advance in wheat in all positions is noted in the market cables. The deficiency in the French crop is being confirmed continually and the crop outlook in Europe is worse than at any time. Incessant rains are threatening crops everywhere across the water. The domestic situation is not weak. The condition of the growing crop of spring wheat has not improved, while the harvest ing of winter wheat continues backward. A leading St. Louis commission house writes as follows of the situation there: "The total receipts of wheat in this market for this week were 225,000 bushels. The same week last year the receipts were 960,000 bushels. This of course is accounted for by the fact that the season is fully two weeks behind last year and wet weather has also prevented the free move ment of the crop. After a careful investiga tion we find that the sack houses which lease sacks to send into the country to bring wheat into market have up to the present time firnished less than one-half the number of sucks that they had furnished up to the same time last year. We also ascertain from all buyers and commission houses who bring cash wheat into the market that they have not bought, up to the present time one-fifth of the amount of wheat to arrive that they had bought up to the same time last year, and this also extends into the nurchase of wheat sacks to send into the country to bring wheat this also extends into the purchase of wheat for August and September shipment, so that the outlook is that the movement of that the outlook is that the movement of wheat will not come anywhere near the movement of last year, running up to the middle of September or the first of October." First sales of August and September in this market to-day were at 80c, December being quoted at 83c. August advanced to 80%, September to 80% and December to 83%. Later, in sympathy with corn, the market worked off 1.60%. pathy with corn, the market worked off 14@ 24c, but recovered subsequently and averaged steady at within 14c of the top most of the session. Scalpers were playing for a strong reaction, but the buying was of a sub-

stantial character and speculative offerings were readily absorbed. Hutchinson was a free and open seller principally for Septem-ber, but his attack made no impression on the market except to check the advancing tendency to some extent.

Corn opened steady at a small advance over Saturday, August selling at 47%c, September at 47%c and October at 46%c. August sold up to 47%c, September to 47%c and October to 46%c. The market then turned down and the price of August went to 46%c, September to 40%c and October to 46%c. A moderate shiming inspire is as tendency to some extent. 461%c. A moderate shipping inquiry is reported for domestic and foreign account but receipts promise to be heavy—370 cars for tomorrow and the liquidation is still going on in the speculative market. The tone of the market, therefore, still continues heavy, though many of the most conservative houses on change are predicting an improvement in the state of trade. The closing range shows a small moderate shipping inquiry is

trade. The closing range shows a small shrinkage on the day. The decrease in the visible supply of oats was nearly a million bushels. But while the opening of this market was a trifle firmer, opening of this market was a trine firmer, there was little or no strength worthy of note at any time, and the liberal decrease in the supply caused scarcely a ripple of interest, although it was slightly greater than expected, and was offset by early anticipated strivals of a new crop, which will begin to come ferward lively in a few days. The recent cold weather exerted no appreciable change in values and trading soon settled into a quiet and practically soon settled into a quiet and practically steady channel with fluctuations confined within narrow limits. July opened 1/c higher than Saturday afternoon at 31c and soon soid off to about that day's closing figures, with the next month selling about 1/2 either way from 25% and September at 25/4 early and off to 25c. Interest in futures was lagreely in those two months, although there was some inquiry for selling May. In store lots were quiet around 31c for No. 2. Cash oats generally

and the morning provision call sales were made of 575 bbls of pork, 1,000 tieres of lard and 150,000 lbs of short ribs. The strength shown in the general product trade at the close of last week was more fully developed No great amount of activity was exhibited yet a fair business was transacted and a buil ish tendency characterized the movement. Higher prices were easily established, and, based on Saturday's closings, pork rested at an appreciation of 2214@25c, lard of 10@1234c and short ribs of 1234@15c.

#### CHICAGO LIVE STOCK.

CHICAGO, July 16 .- | Special Telegram to THE BEE. |- CATTLE-Trade was slow at the opening and prices were 10@15c lower on all grades of fat cattle with no exception. Some salesmen, however, funcied that really prime cattle were about the same as on Friday. Texans and common natives were also about the same on Friday. Native butchers' stock, especially good cows, were steady as compared with last week. Canning cows and bulls were slow and weak. There was nothing new in the stocker and feeder trade. Veal calves sold the same as last week. Choice to extra beeves, 1450 to 1600 lbs, \$5,90,26.25; medium to good steers 2500 to 1500 lbs, \$5,30,25.90; 1200 to 1350 lbs, \$2,60,25.95; 950 to 1200 lbs, \$4,00,24.60; stockers and feeders quiet at \$2,35,23.80; cows, bulls and mixed, strong at \$1.75,23.25; bulk, \$2,25,25.20; slop fed steers, \$5,25,25,570, Texas cattle active and firm; steers, 950 to 1050 lbs, \$3,50,24.00; 750 to 900 lbs, \$2,96,234.00; 600 to 700 lbs, \$2,0,25; cows, \$1,75,250. Hoos—Business was active with a downturn of about a nickle on heavy, and steady on light. Best selected heavy made \$5,90,25,0,5, and best mixed, \$5,80,25,5, with plain and common mixed at \$5,65,25,75; light sorts, \$5,85,25,90. week. Canning cows and bulls were

#### FINANCIAL.

NEW YORK, July 16.- [Special Telegram to THE BEE.] - STOCKS-Although there are more bulls in Wall street than a week age a good many who got in when prices were at the bottom early in June have taken their profits and are waiting for a reaction to set in again. The impression prevails in many places that the market has had its advance, which on an average has been about as great as all the former movements in years past. St. Paul has advanced 10 points, which the bears claim is as much as the sitnation warrants. It was asserted by parties claiming inside information that St. Paul lost \$1,100,000 net in the first three months of this year, and for six months will aggregate \$2,000,000. There was free realizing in this

stock but the price only dropped % and then rallied 36. The opening was active, but most of the list was unchanged from Saturday's figures. Early trading was feverish and somewhat irregular, though the general tendency at first was upward and advances in some stocks were made ranging up to 1/4 per cent, Rock Island and Missouri Pacific showing most strength. The improving tendency soon disappeared, however, and the list retired below opening figures, though net losses were confined to small fractions except in Burlington, which displayed a marked weakness and declined 15 per cent. There was less activity toward 11 o'clock and the market was generally weak at about the lowest prices. About noon the market became irregular and Oregon improvement advanced 1/4 and Wheeling & Lake Erie 11/4.

The only road to take for Des Moines, Marshaltown Cedar Rapids, Clinton, Dixon, Chicago, Milwankee and all points East. To the people of Nebraska Colorado, Wasming, Utah, Idaho, Nevada, Oregon, Washington and California, it offers superior advantages not possible by any other line. Among a few of the numerous points of superiority enjoyed by the patrons of this reast between Omaha and Chicago, are its three trains a day of DAY COACHES, which are the nest that human art and ingenuity can create. Its PALACE SLEEPING CARS, the equal of which cannot be found eisewhere. At Council Bluffs, the trains of the Union Pacific Railway connect in union depot with those of the Chicago & Northwestern Ry. In Chicago the trains of the line line make close connection with those of all other Eastern lines.

For Detroit, Cotumbus, Indian apolis, Cincinnati, Niagora Falls, Buffalo, Pittsburg, Toronto, Montreal, Boston New York, Philadelphia, Bultimore, Washington, and all points in the east. Ask for tickets via the "NORTH-WESTERN" Merchant. Correspondence solicited. 1014 North 16th Street, Omaha, Neb.
