Wheat Continues Strong, but Buying Orders Decrease.

CORN RULES DULL AND LOWER.

Oats Open Firm and Later Score a Sharp Advance-Provisions Nervous-Little Change in Cattle-Hogs Still Declining.

CHICAGO PRODUCE MARKET.

CRICAGO, August 3 .- [Special Telegram to THE BEE.]-The grain markets were steady to-day at a lower range. Yet the situation seems to be extraordinarily strong, but it is with difficulty that advances are held. Wheat is actually selling for less money to-day than it did at the opening Monday morning. The week started in wrong end first. The natural improvement was all made between Saturday night and Monday morning instead of by easy gradations through the week. The bulls have since been fighting to hold the ground gained. Still further gains have been made but not maintained. Nevertheless the undertone of the market is apparently strong as ever and buying is of a good sort. To day the opening was lower and speculative sentiment weaker on "heavy" cables. The weather abroad is rather better, but it is still unsettled and both English and continental markets are sensitive to an unusual degree. Under cover of this discouragement there was a steady and, in the aggregate, large buying here and in New York by exporting houses. Some of the local houses with foreign connections were sellers early in the day, but they were buyers later. The buying was led by local parties, however, Ream and Cudahy openly espousing the bull side. Ream gave it as his opinion, based on private advices, that under no circumstances could the yield of spring wheat be within 10 per cent of last year's, when there was raised, secording to government figures, 156,000,000 bushels. The continuation of unfavorable weather conditions would, he thinks, still further reduce the yield from the estimate given. This, coming from Ream, who is one of the last men to place confidence in crop damage reports, was not without influence. Practically all the reports from the north-west are corroborative of the estimates of a probably reduced crop. The basis of most of the reports that are sent out from the northwest, in which special stock is taken ranged at 843,6085c, and closed at 84%,6085c, There was no particular pressure to sell, but the majority of buyers seemed more anxious to get wheat cheap than they were to boom things. Trade was rather below an average

corn was dult and somewhat lower with-out being heavy. There was a noticeable absence of general speculative trade, but in shipping circles trade was brisk enough, Receivers find plenty to do. Price ranges of the day were within 3/62/4c range, and clos-ing prices work a shrukage of 1/4/63/4c in the day. Last prices were fractionally better than the opening.

Oats opened firm and later ruled higher,

Oats opened firm and later ruled higher, with August at one time exhibiting an advance of fully 1c, while extended futures were relatively less strong, though all options indicated a fractional gain. Country shippers evidently prefer to hold back new oats a few days rather than undergo rigid inspection rules on soft grain, hence receipts continue light. The advance in August at the near hour was attributed to the demand the noon hour was attributed to the demand from shorts who feared a retarded move-ment of new oats. September and May were in fair request at 1/4001/2c advance, and inter-mediate months quiet but correspondingly firm. The in store market was quiet, with No. 2 old oats quoted at 281/2c and cash sales

The provision trade was nervous and somewhat unsatisfactory. Yesterday's severe "slump" upset operators in their calculations and made outsiders reluctant to take hold, and disturbed generally the entire market. Fair activity, however, charactermarket. Fair activity, however, characterized to-day's trading, but the offerings were much larger than the demand was able to absorb and a weak feeling prevailed. Prices all around suffered a fresh break, and at the close of business pork showed an actual decline for the day of 10@15c, lard of 10@12½c and short ribs of 15@17½c.

CHICAGO LIVE STOCK.

CHICAGO, August 3 .- | Special Telegram to THE BEE |-CATTLE-There was little or nothing new in the market to-day. Fat cattle are scarce and sold generally as well as any day this week, but after that class was disposed of the general market ruled slow, weak and unsettled, with common natives and Texans dragging along at the lowest prices of the season, and fully as low as at any time last year. Native cows and bulls were selling at very low prices, and there is no money for shippers of this class, until Texans become scarce, and begin to move up in the scale of prices. From the present outlook that period would seem in the remote future, as there are at present 50,000 to 120,000 in sight from day to day s0,000 to 120,000 in sight from day to day in the various markets. There were no range cattle among the arrivals to-day. The stocker and feeder trade remains steady. Veal calves are plentiful and cheap. The receipts include 3,500 Texas cattle. Choice to extra beeves, \$6,00@6.25; medium to good steers, 1350 to 1700 lbs, \$5,20@5.90; 1200 to 1350 lbs, \$4.50@5.30; 950 to 1200 lbs, \$3.60@4.50; stockers and feeders, \$2,30@3.60; cows, bulls and mixed \$1.40@3.40; bulls \$2.40@3.00; bulls and :nixed, \$1.40@3.40; bulk, \$2.40@3.00. Texas cattle easier; steers, 950 to 1050 lbs, \$3.10@3.75; 750 to 900 lbs, \$2.70@3.50; cows, \$1.75@2.50

-Values were again on the down turn, the decline resulting in a drop of any-where from 5c to 15c-a good 10c off on the average-and at the decline trade was slow and unsatisfactory. Packers are out of the market on account of the sharp decline in provisions. Shippers were buying sparingly on account of the limited orders, and the general market was dull and unsatisfactory all around. Light receipts for a week or so and cooler weather would make a wonderful change in the opinions of buyers. At the close prime heavy hogs, closely assorted, could have been had at \$6.50@6.55; mixed, \$5.90@6.40, and assorted light at \$6.50@6.55. large number were carried over, largely in first hands.

FINANCIAL.

NEW YORK, August 3 .- [Special Telegram to THE BEE.]-STOCKS-There were no special developments in the stock market this morning. A good many of the best operators who have been on the bull side for some time past have realized good profits and gone to the country for a rest. Others are preparing to follow, hence there were few operators on change and duliness prevailed all day. Up to noon only 71,600 shares had changed hands. London was a seller of Union Pacific and St. Paul and disposed of over 3,000 shares of the former. This rather upset bull calculations and caused a general weakness, except in the Vanderbilts and New England, which were strong, and Michigan Central advanced 134 points. Recent heavy purchases of Lake Shore by Hollins are now said to be for the Keene interest, which has been so prominent of late. Slayback remains bullish, and says that the bears can sell more stocks in a day than they can get back in a week. Opening prices showed declines of 1/6% per cent, the ket developed strength immediately, however, and small fractional advances were soon established throughout the entire list. The improvement was soon checked, however, and the list thereafter remained stagnant and dull without feature of any kind. The St, Paul statement for the fourth week in July showed an increase of \$41,740 and for latter in Louisville & Nashville. The mar-

THE SPECULATIVE MARKETS, the month of \$77,045. This, it should be remembered, is on a largely increased mileage membered, is on a largely increased mileage over last year and the net earnings may show a decrease. Crop advices from the west were unfavorable and caused a moderate selling of grangers. The movement was not heavy, however, and declines were triffing. Taking the day on the whole, with the exception of Michigan Central, which closed 1% higher, the market was dull and narrow and closing sales showed no changes of importance from Thursday. The total sales

H. Schinstock, West Point, was in and marketed a load each of cattle and hogs. Charles Bresee came in to-day from Gor-don with a load of sheep and two of cattle. E. D. Gould, Fullerton, was here and marseven loads of cattle of his own feeding

A. Jenkins, Manley; C. W. Day, Rising; John S. Wood, Dawson, Mo., and Mr. Hoagland, De Witt, were in with hogs. "Rat" Doty, an old time commission man of Chicago, more recently a speculator on the market, was among the visitors at the yards. Grassy and trashy stock is arriving in such large number; as to disgust buyers and give the nightmare to sellers.—[Chicago Live Stock Commercial.

According to the Drovers' Telegram there was a falling off in the receipts of hogs at Kansas City during the month of July of 98,721 as compared with July, 1887.

Armour & Co.'s drove of hogs bought on this market yesterday cost \$6.30, while their Chicago drove cost only \$6.14. The day be-fore the hogs bought here cost 8c and the day before that 13c more than the Chicago drove.

OMARA TRADE CONDITIONS.

There has been a good deal of talk the past few days among parties interested in the trade of northern Kansas about the drought said to prevail in that section. The crop of corn in that region was pretty well barned up last year, and a reliable party of prominence, who had spent the last four or five days there, stated to-day, in conversation with the cashier of one of our national banks, that there is no doubt but what a severe drought is prevalent in northern Kansas this season. The hot dry winds blowing from the south and west are drying up the corn in the husks and the inhabitants are said to be very blue over the prospect. on this account many will move into Ne-braska, where we have no drought, next year. The sympathies of our people are with the sufferers who are likely to have a repetition of last year's crop failure, and they are cordially invited to make their homes in Nebraska, where the crops are reasonably certain. reasonably certain.

Produce, Fruits, Etc. Friday, August 3, 1888.

Lemons are lower, so are chickens. Mar-Lemons are lower, so are chickens. Market active and supply ample,
BUTTER—Faucy creamery roll, 20@
21c; solid packed, 16@17c; choice country
butter, 15@16c; common grades, 10@13c.

When the Energies Flag Use Horsford's Acid Phosphate. Dr. T. C. Smith, Charlotte, N. D., says: 'It is an invaluable nerve tonic, a delightful beverage, and one of the best restorers when the energies flag and the spirits droop.

ersian Way of Building Railroads Persia is building a railroad from Teheran to the Caspian sea. Instead of beginning the railroad at the sea and building inland, bringing forward the rails and other materials on the road as it progresses, the Persians have had al the rails carried on mules across the desert to Teheran and have begun the building there. The transportation expenses are the biggest item almost in the cost of the road.
