### THE SPECULATIVE MARKETS.

A Flurry in Wheat Despite Many Bullish Influences.

CORN AGAIN SHOWS WEAKNESS.

Oats Active but Lower-A Quiet Tone Prevails in Provisions-In Cattle Prices Favor Buyers -Hogs Firm.

CHICAGO PRODUCE MARKET.

CRICAGO, August 13 .- [Special Telegram to THE BEE. |- The wheat market had a fairly firm opening at a slight advance from Saturday. The general tendency thereafter was downward and values suffered a depreciation equivalent to about 1c per bushel. Market cables have not been so generally strong in weeks, but domestic markets were in a perverse mood. The increase of 2,227,000 bushels in the visible supply was a "back-breaker," from a speculative point of view, that nothing could offset. An analyzation of the statement showed that most of the increase was on lake and canal, but that made no difference. It was somewhere, and that was enough. The most conspicuous feature in early dealings was the freedom with which Hutchinson's brokers sold wheat. They bore down on the market very hard, selling heavily from 83%c for September to 81%c and from 85%c to 84%c for December. The bull crowd was overtaken with a feeling akin to a panic and dumped a great mass of property at a loss. They were unable to comprehend how the market, with so many and divers buil features, could be prevented from advancing, but they could see that instead of advancing it declined, and many of them took to flight in consequence. "It is a bull raid," exclaimed one operator as he stood gazing over the edge of the pit. Certainly the bulls helped to break prices and to aggravate the flurry, for it was nothing else. Hutchinson had brokers buying this dum ped wheat as fast as the bulls could lighten their load, and it is not unlikely that his books tonight will show as much bought as sold on the day. Last prices were 4005c above the bottom, but fully 5c lower than Saturday The volume of trade in the pit was large and The volume of trade in the pit was large and the temper of the market was oncof extreme nervousness and uncertainty. The bears were in a state of cestacy. They had won an unexpected easy victory and took what fortune gave them without question. The course of the market was a surprise to the majority of traders excepting the scalpers, who are never surprised at anything. Corn again ruled weak. The decrease of 1,160,000 busitels was insufficient to check

of a tremendous crop were never better, and as the indications are for im-proving weather few could be found who were willing to buy corn for investment. The inquiry was chiefly to fill contracts made The inquiry was chiefly to fit contracts made at higher figures. Marble & Moore were the largest buyers. This firm is generally supposed to have been standing short on a line of several million bushels put 8 to 10c above current quotations. But for the covering of shorts by this and two or three other firms the market must have declined further, it was, prices worked down nearly Mc nearby months, year and May ruling stead-ier. From the point of extreme depression prices reacted 4c or such a matter, closing at the recovery. September corn ranged @4314c, October 4314@4234c and May 39 The oat market was more active in a spec-

the weakness. Crop advices continue to be all one way. Correspondence from the country is to the effect that the prospects

The oat market was more active in a speculative way though at a lower range of prices, amounting to a decline of \(^1\_4\)(@1\_4\)(c). The down turn was most marked in seller the month, which opened steady at 3234c and later sold off to \(^24\)\(^2\_{20}\)c, closing easy. The weakness was partly in sympathy with corn, but chiefly on account of expected large receipts for to-morrow. The estimate was placed at 315 cars, and there was liberal selling on the part of re ceivers. More extended futures were in fair request, with May showing but slight changes from last week. The in-store market was exceedingly quiet, with new No. 2 quotable at 211/@241/c, and sold at the usual premium owing to a scarcity. Lots to go in store sold as follows: New No. 3 mixed at 23c for good, 25c for white; new No. 3, white

In the provision pit business was a little oniet. Pork and short ribs attracted speculatively fair attention at times, but the day's trading all told fell under an average volume. The feeling was also nervous, though, owing to the disappointment over receipts of hogs, which were smaller than expected, the openang was at better prices than Saturday's closing. First sales of pork were made at an advance of 10@12340, with initial transactions in lard at an improvement of 5@10e on short ribs. The best prices quoted during the change, however, were the opening figures. From the first quotations pork subsequently declined 22% @27%, lard 236 @5c and short ribs 12%. In short ribs only 21% of the break suffered was recovered. Lard closed at inside prices to 2%c better and pork 121/00/15: higher than the lowest figures made In pork the day's actual decline was 10c, while lard rested at Saturday's final prices to blee higher and short ribs unchanged.

### CHICAGO LIVE STOCK.

Chicago, August 13 .- | Special Telegram to THE BEE. |- CATTLE-The great bulk of arrivals to-day were Texans and range cattle, offerings of good corn-fed steers being light, so that sellers had a little the best of matters and obtained an advance of about 10c per 100 Ibs on the latter class of stock. The closing quotations of the present week show comparatively few and unimportant changes as compared with those of one week ago. Although the market was quiet and dull at times, there was only a slight decline and this has been fully recovered so far as good cattle are concerned. Buyers of all classes, ship pers, packers and canners have bought with considerable regularity, the only sur-plus seeming to be of com-mon stock, old bulls, etc. There was no change in the market to-day for Texans or range cattle or for other grades than good to choice, though the feeling was quite steady. The indications were favorable for closing out about all the offerings before the close of the day. The prices ranged as follows: Fancy steers of any breed, \$6.15.26.40; choice to fancy, \$5.756.6.00; good and useful, \$5.506.5.60; plain and common natives, \$4.00 (a4.20; native grassers, \$3.506.3.90; fancy na-(a4.20; native grassers, \$3.50@3.90; fancy native cows and heifers, \$3.00@3.50; fair to choice cows, \$2.75@3.00; inferior to medium cows, \$2.75@2.50; canning cows, \$1.25@1.75; Texas steers, \$2.30@3.75; Texas cows, \$1.50@3.25; bulls, \$1.75@3.25; stockers, \$1.50@3.50; feeders, \$3.50@3.80; veal caives, \$3.50@5.50, Hoss—On Monday and Tuesday of last week the market was firmer. It was advanced somewhat on the following day, and during the balance of the week prices

advanced somewhat on the following day, and during the balance of the week, prices were on the downward turn, the average decline being nearly 20c per 100 lbs. Buyers have been making little differences in values between heavy and light, the choicest grades of each selling at outside prices. To-day the market showed more strength, the downward tendency in values being checked and an advance of 5@10c established on better grades. The extreme range of values paid was \$5.80 for common mixed to \$6.56, the latter figures being realized for a \$6.55, the latter figures being realized for a carload of very choice, smooth, heavy hogs averaging 302 pounds. The bulk of the day's transactions were at \$6.0026.25 for common to fair, \$6.30@6.40 for good to choice hogs. The pens were well cleared of stock, and the prospects seem more favorable to sellers and buyers.

### FINANCIAL.

NEW YORK, August 13 .- [Special Telegram to TRE BEE. ]-STOCKS-The opinion of the majority is that while there may be tempor ary case in the market, with fractional de clines, stocks will go higher. To-day's business opened with a firmer feeling, some slight advances, and the commission houses not only buying strongly, but recommending that side of the market. London took trading quite freely and Chicago was credited with selling orders. An advance of 1/61/4 per cent in prices at the opening was more than lost before noon, and the market became dull and

featureless. The close was firm at about

Cattle.

Monday, August 13, 1888, The week opened with heavy receipts, there being sixty-three fresh loads on sale. The bulk of the cattle were range steers and they were some of the best received thusfar this season. One choice bunch sold as high as \$4.25. The greater proportion of the rangers, however, was only common to fair. There was also quite a sprinkling of butchers' stock, cows, etc., but no good corn-fed cattle. The market in desirable kinds of cattle was about steady, but the feeling was easier on common kinds. Quite a good many cattle changed hands before the close.

There was not enough doing in the hog al-leys to-day to call it a market. Only seven-teen fresh loads, of not very good quality, were on sale. There were not enough to go around and the buyers were very indifferent. However, they took the hogs, paying prices that were 5@10c higher, on mixed loads, than

There were five fonds in the yards when the market opened, and a heavy train arrived late in the afternoon.

Prevailing Prices. The following is a table of prices paid in this market for the grades of stock mea-tioned. Prime steers, 1800 to 1500 lbs.. \$5.20 Prime steers, 1100 to 1300 lbs. 4.50 (65.30 Fat little steers, 900 to 1050 lbs. 4.00 (64.25 Range steers, fair to choice... 3.00 @4.25

Common to good cows ...... 1.75 @2,00

Live Stock Notes. Blue Monday.

Not enough hogs to make a market. Quite a good many range cattle sold. G. F. Heine, Hooper, Neb., came in with six loads of feeders and cows. W. B. Vansant, of Council Bluffs, was here looking over the yards.

Geo. Towle, Wabash, came in with a load f hogs which sold on the market. J. E. ("Dick") Buyers is here from Omaha for a few days.—Drovers' Journal. Nate Dalby, hog salesman for Parkhurst.

Hopper & Parker, is out after a week's ill J. L. Buckingham, Hermosa, Dak., here with three loads of cattle which sold on

the market. T. B. Hord, of the Lance Creek Cattle Co. Central City, marketed a load of hogs at the top price, \$6.10.

H. H. Robinson, superintendent of the Bay State Live Stock Co., was among the visitors at the yards. Thomas Swan, of the Swan & Cheshire Land and Cattle Co., Lusk, Wyo., was in and sold six loads of western cattle.

Henry Ervin, Central City, was here and marketed seven loads of cattle of his own feeding. They were also raised by him on J. B. Insley, Dixon, Wyo., and M. H. Ins-

ley, Leavenworth, Kan., were here with six-teen loads of steers and five loads of cows which brought the top price for range cattle. It was the best bunch of range cattle seen here this season.

Trade Conditions.

Money is steady at the ruling rates, 7@8 per ent; exchange \$1.00 per thousand. Trade opened very good this week and lib eral orders by mail from salesman and direct from dealers, were received. Stocks in the country are not large and good sized orders

Collections are good, and if the crops m ture as well as they promise just now the fall trade will be very large and satisfactory. The produce markets are well supplied shipments of fruits with from California and the south, and of

regetables from home gardens. Peaches, pears and meions are very plen-tiful and in fine condition.

In groceries there are no special changes

to note. Sugar and coffee are firm at pre-vious quotations. Canned goods are steady, the pack large and prices will rule about the same as last year.

The coal-carrying railroad companies, in session at New York on the 10th inst., de-

cided to advance rates on anthracite coal 25c per ton September 1. An advance in Omaha will probably be noted about the same date. The ultimate result of the operations of the French syndicate that is now running the French syndicate that is now running the copper industry of the world is thus fore-shadowed by Messrs. James Lewis & Son, of Liverpool; If there is no restriction in production, the output of the mines next year will amount to about 300,000 tons. On the 1st of January, 1889, the unsold surplus of copper will probably aggregate 200,000 tons, and at the end of the three years for which the syndicate contracts are made the which the syndicate contracts are made the surplus will amount to 275,000 tons, which is about 50,000 tons more than one year's con-

Will Want More Later On Passenger (in crowded car)-Aren' you a Chicago drummer, sir?

Drummer-Yes. Passenger-Your first trip, isn't it? Drummer-Yes, it's a new business to me; but I'm selling more goods in my ine than any two men on the road. Why do you think it's my first trip? Passenger-Because you only occupy wo seats.

The grand flourish of trumpets ofter heralds the advent of an article which fails, when tried, to justify the noise made in its behalf. The unassuming merits of Van Duzer's Flavoring Ex-tracts, derived from choice fruits, of standard purity, and elected over quarter of a century ago to the chief place among flavors, are too well known to need more than a general reminder. Cheap competition of valueless articles heighten the popularity of these. Al grocers.
