WE CAN console ourselves for the disappointment in not getting the million dollar hotel. Omaha has reached second place in the Western league.

AN OMAHA bond is considered as good as a government bond. There are few cities in the country whose paper brings \$1.03 in the money centers of the east.

MR. PARNELL, who sues the London Times for libel, has filed his complaint in a Scotch court. As a majority of the jury in a Scotch court determine the verdict, Mr. Parnell does not want to lose his case by the disagreement of the jury.

THE summary way in which the republicans of Loup county sat down upon Traitor Crane ought to serve as a warning lesson to every upstart and ingrate in Nebraska. It is said that Crane acknowledges he is politically dead.

THE republicans of Connecticut nominated their state ticket yesterday, and it is strong one from top to bottom. The convention was harmonious and uncommonly enthusiastic, the mention of the national candidates being received with manifestations which left no doubt of the complete satisfaction of the republicans of the nutmeg state.

IT SEEMS that the Standard Oil company and the leading beef shippers who use their own cars have an advantage over their smaller competitors. They are able to evade the provisions of the interstate law and obtain great concessions from railroads.

THE first day's proceedings of the convention of the so-called American party did not develop much of general interest. It was shown that more than half the delegates are from New York, and that they were disposed to run things pretty much their own way.

THE petroleum which was pumped through the pipe line from the oil wells of Lima, O., three weeks ago has just reached Chicago. One hundred manufacturing firms of that city, besides the various steel and rolling mills, will use the new fuel, and on the success of the experiment depends the revolution of the heating problem for Chicago and other cities.

Getting In Their Work. That the railroads in Nebraska are up to their ears in politics is a fact which it is presumed everybody understands.

Loose Methods of the School Board. The efforts of THE BEE to give the public trustworthy information regarding certain business methods of the school board have already disclosed some interesting facts which should receive the careful attention of every taxpayer.

A Voice From Hillsdale, Miss. Joseph W. Treen, of Hillsdale, Miss., asks THE BEE to say that he is not the author of recent letters printed in this paper.

How It Looks. Just now it looks as if this country was under obligations, not alone to produce enough cereals to supply home consumption, but also to feed the hungry population of Europe.

A Historical Curiosity. It is currently understood that the Chicago Historical society is trying to negotiate for the one valuable curiosity now possessed by the state of Alabama.

Parcels by Post. Farmers and all persons living in the country have long been demanding cheap postage on seeds, cuttings and such articles of merchandise as they cannot readily obtain at home.

Democracy Encouraging Foolishness. For a number of years the democrats in congress have pursued a policy admirably calculated to encourage moonshining in the south.

THE attention which Omaha paid to the visitors from Atlanta, Ga., some time ago has induced the people of Alabama to send their commissioner of agriculture and other prominent citizens to the state on a tour through the west.

Nebraska Jottings. Crawford will have a large and complete force of men and machinery ready to commence operations this fall.

trustees or writers, must be held personally responsible for corporate assets and profits which get into their possession. It is a good sign that the courts have finally awakened to the danger of protecting these corporate wreckers by legal fictions.

THE recent cold wave which swept over the west from Montana to the Missouri river southwards down the backs of the farmers. There was altogether too much coquetting of the thermometer with Jack Frost to quiet their slumbers during the chilly nights.

Another Rat Hole Which the School Board is Flooding. "I'll tell you something about the extravagance of the school board in the matter of compensating their architects," said the knowing taxpayer.

THROWING MONEY TO THE WINDS. Another Rat Hole Which the School Board is Flooding. "I'll tell you something about the extravagance of the school board in the matter of compensating their architects," said the knowing taxpayer.

Not Draped. The white house was not draped in mourning for the death of General Sheridan. Mr. Cleveland was probably too busy writing pension vetoes to think of ordering such a mark of respect to the memory of the highest officer of the army.

Fort Dodge colored people have bought \$200 for the purpose of being arrested for drunkenness in Des Moines. The Iowa grand lodge of the Knights of Pythias will convene in Dubuque, October 1. All indications point to an unusually large attendance.

Several singing societies of Davenport have organized a union for the purpose of giving a concert every summer and winter. The societies will not do away with the individuality of each singing society.

THE Clear Lake base ball club recently went to Fort Dodge to play a game for a purse of \$50. As near as the Clear Lake Mirror can find out the management of the Fort Dodge team is composed of a set of hoodlums. The Clear Lake team went home without the \$50.

THE Davenport Telegraph says this story comes from Totes des Morts, and that you may believe it if you like. Last Tuesday, while lighting a cigar to warm in a field and struck a young man named Mundress, burned two holes in his scalp, passed down his side, melting his watch, tore his shoe and burnt his feet. He was apparently lifeless at first, paralyzed for three days, and still complains of feeling sore all over his body.

Congress and the Campaign. Cleveland Wants to Keep the Members Busy Until November. WASHINGTON, August 15.—(Special to THE BEE.)—An impression among the leading republicans of the senate that the administration is working to keep congress in session during the entire campaign, and that it is likely to be successful. The fact that the tariff bill is not to come up for debate until about the 1st of September, and that it will probably not reach the house until October, and that it may hold up for some days in the committee on ways and means, would indicate that the administration is doing all in its power to keep the session going until within two or three weeks of election.

THE B. & M. Band Should Not Have Recognized the B. & M. OMAHA, August 14.—To the Editor of THE BEE: The Union Pacific band deserves to be censured for the insult they gave to their fellow-workmen. True it is that some of the members are loyal to the cause of labor, but they were kept in ignorance of the intention of the management of the band. The committee can offer no excuse. They announced the excursion to Lincoln and return over the Union Pacific railroad, and then entered into an agreement to have it returned over the B. & M. or "scab" road, thereby endangering the lives of their fellow-workmen and their families. The B. & M. is as intense as ever, and the greater part of those who purchased tickets, would never have consented to travel over a "scab" road. Now, fellow-workmen, the political pot has commenced to boil and hands will be demanded. Let us and all other loyal citizens, including the "scab" band or take part in any demonstration wherein the said band takes part. Let those who are loyal cut themselves loose from the "scabs" and organize a band of their own workingmen can feel proud of. There is plenty of material in Omaha to pick from. J. P. S.

Let us and all other loyal citizens, including the "scab" band or take part in any demonstration wherein the said band takes part. Let those who are loyal cut themselves loose from the "scabs" and organize a band of their own workingmen can feel proud of. There is plenty of material in Omaha to pick from. J. P. S.

THE B. & M. Band Should Not Have Recognized the B. & M. OMAHA, August 14.—To the Editor of THE BEE: The Union Pacific band deserves to be censured for the insult they gave to their fellow-workmen. True it is that some of the members are loyal to the cause of labor, but they were kept in ignorance of the intention of the management of the band. The committee can offer no excuse. They announced the excursion to Lincoln and return over the Union Pacific railroad, and then entered into an agreement to have it returned over the B. & M. or "scab" road, thereby endangering the lives of their fellow-workmen and their families. The B. & M. is as intense as ever, and the greater part of those who purchased tickets, would never have consented to travel over a "scab" road. Now, fellow-workmen, the political pot has commenced to boil and hands will be demanded. Let us and all other loyal citizens, including the "scab" band or take part in any demonstration wherein the said band takes part. Let those who are loyal cut themselves loose from the "scabs" and organize a band of their own workingmen can feel proud of. There is plenty of material in Omaha to pick from. J. P. S.
