THE OMAHA DAILY BEE: SUNDAY, AUGUST 26. 1883 -- TWELVE PAGES.

THE CONDITION OF TRADE. March 1 to date and latest mail dates at the

Money Continues In Fair Deman At Easy Rates.

THE NEBRASKA CROP OUTLOO

Indications That Farmers Will G Good Prices For Grain-Business on the Whole Quite

Good-Notes. -----

TRADE CONDITIONS.

Money continues easy, and the supply is equal to the demand, all wants being promptly met at the usual rates, 8@10 per cent. Country banks are beginning to call for currency, needed in moving the heavy crops now nearing maturity. The crop outlook continues very favorable and unless frost cuts in between now and September 15, the state will be in a very prosperous condition indeed at the close of the year. Prices for all products indigenous to Nebraska are high as compared with recent years, and advices in regard to crops in Europe are de-cidedly unfavorable, so that there seems to be no doubt but what the surplus of this state will be large, and in demand at very remunerative figures. General trade is very good for the season. Collections are not at all unsatisfactory, and

when harvest is made the financial aspect will doubtless improve and matters in that line shape themselves very comfortably. The produce markets have been well sup-

plied with fruits and vegetables from he markets and from California and the south and prices have been quite reasonable. Teas are selling somewhat low and there is no great disposition to buy. Cable advices are firmer in tone, however, and telegrams from Japan report the markets there stronger The cable advices indicate that the shrinkage in the crop will be greater than was at first

reported. Sugars are steady and in fair demand, and it is not thought that prices will go lower for the present.

is in fair general demand, and Java, which is in light supply, is selling more freely. Brazil coffee is unchanged. The following table shows the stocks of Brazil coffee in first hands at the seaboard and affoat for our

Afloat from Santos per steam and sail. 4,000	

sales are light. Boston advices state that the Novelly has brought in one fare worth the Navelly has brought in one fare worth about \$6,000, but these were consumed for market purposes, and the dealers in sait mackerel are almost bare of stock. Last year \$14,50 per bbl was paid for muckerel to go in pickle. This week \$24 was paid in Boston for no better fish. The catch of mackerel by the New England fleet thus for the present year is the smallest for a thus far the present year is the smallest for a like period in many years, being only 14,759 bbls., against 26,941 to a like date last year, 34,978 the corresponding period in 1886, and 186,872 in the same proportion of 1885.

Canned peaches are likely to go higher. The agents of leading canners in Baltimore and Canden, Del., have withdrawn all former price lists for extra peaches, owing to the scarcity and relatively high cost of choice fruit. All the indications are that the pack of extras is going to be decidedly short and prices high, which may or may not affect the values of the medium and low grade, of which the supply bids fair to be ample

Secretary Littler of the Chicago produce exchauge, reports as follows: "Fancy makes of butter are very firm and low grades are in excessive supply. Cheese is steady and a shade firmer. The egg market is very firm."

Live Stock Notes.

W. C. Riley of Cheyenne county, was a vistor at the yards. George Elwood, Washington, Kan., was here with two loads of cattie.

Gould & Baker, Fullerton, topped the mar-ket with a load of 335 lb. hogs.

W. J. Harbaugh of Agenda, Kan., came in

with a mixed load of cattle. Frank Hershey came in with thirteen doule deck loads of sheep from LaGrand, Ore F. M. Fischer, general traffic manager of he Street Stable Car line, was at the yards

to-day. Henry Hammer, Mincola; George Boetel, Miilard, and J. A. Garten, Dewitt, were in with hogs.

N. E. Plumer, representing Hammond & Co.'s interests at Minneapolis, was a visitor at the yards.

The Street Stable cars are to be taken off from the Union Pacific. Cars furnished to far western points will be under a special arrangement by which the stock will be un-loaded at Omaha. The Fremont, Elkhorn & Missouri Valley railroad has a contract with the Street Stable Car company and will continue to use the cars, but it is expected that an arrangement will be made to transfer all the stock at the Omaha yards.

An Immense Volume of Business in Wheat.

THE PIT NERVOUS AND EXCITED.

Corn Rules Weak-Oats Dull and Lower-Moderate Business in Provisions-Cattle Unchanged-Hogs in Fair Demand.

CHICAGO PRODUCE MARKET.

Cutcago, August 25.-|Special Telegram

to THE BEE. |-Wheat opened about 2c off. First official quotations were 895gc for Sepember and 92c for December. There was very little trading in December around the opening above 91% 091%c, which was really the market. The excitement right at the opening was very great-almost as much so as yesterday. For the first time in a week cables came in rather tame, though, and there was an indication of a serious set back. Then crop reports are somewhat better than the radicals have been trying to make themselves believe was the case. Wheat in the northwest has not been entirely destroyed, as some of the people on 'change have been led to imagine by their speculative advisers.

On the whole the bull spirit was cooled down to some extent. Outside buying is more general now than it has been at any time. It was the support from that quarter that made Cudahy and some other local operators of importance and weight think they had run against a stone wall when they undertook to hammer the market to pieces this morning. There was a surprising small amount of wheat for sale consideringly the severity and abruptness of the break. After some little hesitation the market advanced May and seemed firm at the recovery. The principal pressure was on December, for which delivery Hutchinson was a free seller, as he has been at intervals for a week. He was a big buyer for Septem ber, however, and his operations served to still further narrow the difference between September and December from 2c at the open ing to 11de. Chicago No. 2 spring is clearly in high favor with men who are not afraid to come into contact with actual grain. Nearly

1,000,000 bushels have been shipped out this week, the clearances for yesterday alone footing up 381,000 bushels. At sundown the stock of No. 2 spring in the regular ware houses here was not much, if any, above 3.000.000 hushels. This will show a reduction in total stocks of about 750,000 bushels since last Saturday. The strength of the cash market and near-by options has revived the gossip on the subject of a deal, though there is nothing in the situation to justify such apprehension beyond the fact that Hutchinson is a large owner of cash wheat and holds contracts for many millions more for September delivery, against which he is supposed to have sold extensively for December. This might mean a good deal with anybody else. It may mean something with Hutchinson, and that operator is giving out mysterious tips about the immense value that yet may attach to September wheat, all of which is va-

riously construed. The local market ranged s9%@)le for September or 914@92%e for December. Fuctuations of Mallac were frequent, and the explanation offered for these violent churnings were not satisfactory or conclusive. The market was in a state of high nervous excitement and subject to un reasonable and unreasoning fluctuations most of the session. It was alternately very strong and uncertainly weak, but on every bulge, from 10 o'clock on, it was noticed that there was plenty of scattering wheat for sale. The underlying impression seemed to be that, however much higher prices might ultimately go, a good, healthy reaction was now in order. New York and most of the larger markets were clearly of the same and for the first time in four days the bears ventured to present some-thing like an organized front. They seemed to feel that they more more had a fighting show. The closing range was not many re-moves from the opening and the inside. The rolume of business in the pit was immense The corn market was weak to lower with only fair business and mostly on the part of room traders. Fine weather, cheerful crop prospects, continued big receipts and sympathy with the sharp break in wheat were the weakening influences. September sold from 45% to 44%e, improved a triffe, closing with September about 1%c lower to May about %c lower. New crop futures were less

This company

New York and Foreign Exchange Rule Weaker-A Dull Week in Stocks -Increased Trading in the Produce Market.

The Money Market.

At Current Rates.

this company put for 60 days, souvenirs CHICAGO, August 25.- Special Telegram to THE BEE. - The chief changes in the moneir every can of tea and coffee sold such as solid gold, silver and nickel watches, tary situation during the week have been the also genuine diamonds, in solid gold increased demand by parties who are prepar setting; also money, and many other articles of less value. Every can coning for enlarged fall business and require tains a souvenir. The coffee, can and contents weigh about three pounds; the funds with which to carry their plans into execution, and an enlarged use for money tea, can and contents about one and a with which to handle winter wheat that is half pounds. This expensive and novel now arriving freely at points to which Chiway of advertising will be discontinued cago furnishes liberal advances when wheat after 60 days, and these really choice goods will be sold strictly on their merbegins to accumulate in their elevators. But as yet calls for the purposes named have not ts but without the souvenir. Of course seriously reduced the loanable balances of every purchaser must not expect to get banks, and while there is possibly a firmer a diamond or watch. This company claim that they have just as good of feeling as regards rates, no changes can be recorded in the figures paid for accommoda right to give away watches, diamonds or other jewelry and money as their comtions. Choice names and collaterals readily petitors have to give away glassware, chromos, etc. Get up a club. Those who get up a club order most always get obtain money at 5.25% per cent, where large amounts are wanted, and prime to just fair paper passes at 6028 per cent, a handsome present. Orders by mai 63607 per cent being the customary figures promptly forwarded to all parts of the for good business signatures. There seems United States on receipt of cash or postto be an opinion that an unusually large office order. Terms: Single can \$1; six amount of money will soon be required in the for \$5; thirteen for \$10, and twenty-sevinterior to assist the movement of crops en for \$20. Address Overland Tea Co., Such conclusions are not justified by actual Omaha, Nebraska. conditions, i. e., the wheat crop, which Mr. C. R. Robbins, Columbus, Neb., mail order, silver cup; Mrs. E. O. Brunswick, S. 30th st., silver butter dish; Dr. R. Trobridge, 16th st., dia-mond ring in can tea; Miss Birdie Welusually absorbs the largest percentage of

money employed in the interior during the closing weeks of the summer and autumn months, is apparently much below an average, hence less funds will be required for that purpose than usual. The corn crop will, not under any condition, move with any de gree of freedom during the next three months. Nor is there anything in the busi ness outlook to justify the conclusion that the absorption of money in other business channels will be about the customary autumn average.

Hannah, N. 18th st., silver pickle stand; Miss Julia A. Morris, Davenport st., silver butter dish; Mrs. M. C. Johnson, With these facts in sight there seems to h no reason for supposing that money will not be easily obtained at reasonable rates by 17th st., silver sugar bowl; John S. those who have good paper collaterals to offer for it. The increasing movement of Howard, S. 23d st., gent's hunting case gold watch; Miss Ida Robbins, N. 40th wheat has compelled bankers in the west st., silver pickle stand; Mrs. O. A. Berdan, Dos Moines, Ia., mail order, 27 cans of tea for \$20.00, \$50.00 in southwest and southeast to draw down their eastern balances for the purpose of using their money at home, hence the supply of exchange on New York offered from such gold coin in can of tea; Mr. Wm. B. Cook, Capitol avenue, silver pickle stand; Christine Nelson, S. 29th s reet, sellers has been sufficiently large to reduce the discount to 80 cents per \$1,000 betwee banks. These figures render it as advantage ous to pring funds from the east by express Valley Junction, diamond ring and silver 5-bottle castor in tea; M. F. Dennis, as to sell bills, and liberal amounts of money as to sell bills, and therat amounts of money have been brought here from New York the current week. Foreign exchange was weaker during the greater part of the week, owing to large Parke street, silver pickle stand; Miss Sadie Gasline, N. 20th street, silver sugar bowl; Mr. Walker A. Ierby, Council Bluffs, In., silver 5-bottle casofferings of bills, induced by free purchase of railroad stocks and land by foreigners purchase tor in tea; John Kealing, Miller street, Rates on documentary bills were \$4.82(d

diamond ring in tea; C. W. Wright, 16th street and Harney, silver butter dish; Mr. Jos. E. Thompson, S. The New York stock market has been de void of sensational features the past week, and taking it as a whole, was narrower, but trading was on a somewhat increased scale. 32d street, silver pickle stand; Miss Lillie Wachter, Saunders st., ele-The public, which is always so essential to a gant gold ring, diamond ruby, sapphire skely market, do not take hold with the setting, in tea; Mr. D. E. Kelly, S. 14th freedom that commission men would like to st., silver sugar bowl; Mrs. A. L. Kinsee but, nevertheless, there is a fair number of outsiders in the market considering the ney, N. 15th st., silver cake stand; Mrs. E. B. Winn, S. 13th st., diamond ring unsettled conditions that are at present goy erning it. The future course of present gov-erning it. The future course of prices depends upon crops. If they are good the roads will have plenty of business. Should they turn out more disappointing than at present there will be upany dissutistical speculators, as they in tea; Mrs. Joe Craig, S. 21st st., silver butter dish; Mrs. Julia Wykoff, 30th st., can money in tea; Mr. C. H. Atwell, N. 42d st., silver pickle stand; Mrs. D. W. Noftzger, Dodge st., silver butter dish; will be many dissatistied speculators, as they have placed their hopes of higher prices in good crops. London operated on a liberal scale on both sides of the market, and one D. W. Lenry, Pierce st., diamond ring in can of tea; Mrs. M. McIntyre, fair grounds, silver butter dish; Miss Lulu house, having extensive foreign connections called in 10,000 shares of St. Paul from the street to ship to London. Professional spec-Bell, S. 19th st., diamond ring in car of tea; Mr. Al Barber, 18th st., gents ulators, who have run the market for solutaire diamond stud in can tea: Miss time past, were more inclined to go slow and let the market take its own course. Granger especially St. Paul, attracted considerable attention. A large "short" interest existed in the latter, at one time it being estimated at 75,000 shares, and the price was bid up to force them to cover, and a good many were driven in. Gould stocks. Northern Pacific, the Oregons and the Coalers came in for a good degree of attention and prices were marked up. The earnings of the principal roads for the second week in August that have thus far been reported make a fair showing, but the gains for the most part were small. The aggregate sales on the New York Stock exchange for the Speculative trading during the past week was of larger volume, particularly in wheat which advanced sharply, attracted the most attention and drew trading from other articles, and although at times there appeared to be little animation, there was sufficient at others to more than offset the quiet period. The outside public have more confidence in wheat than in any other cereal and are more disposed to buy it conservatively. ers, also, have traded more freely in this market than for some time past. But they have learned to make quick turns, profits. The receipts at all the leading points are increasing slightly, but the quality shows but little improvement. Export orders were more numerous and the outward movement shows an increase. Crop advices are rather conflicting, but from the numerous reports from the northwest, telling about the seven lamage being done, there is undoubted, some truth in the statement reported, and the Indications are that the quality has deter-iorated considerably. Reports from abroad are rather worse and the outlook is more favorable for higher prices for wheat than a week or so ago. The quality of new oats coming in remains unsatisfactory, the per centage of contract grades being very A more confident feeling was noted in pro visions and prices ranged higher. The ar-rivals of hogs continue small, and best grades readily commanded higher prices. The news from the south regarding yellow fever was not at all alarming and the "shorts" became nervous and covered quite freely, Outside orders were also more liberal, and better speculative business transpired. Shippers ook hold of meats and lard with increiberality and the outward movement shows a good increase over the preceding week and the stock of all the principal cuts of meats were reduced. A heavy reduction was also

An Increased Demand For Money Watches and Diamonds Found in Tea and Coffee --- A Novel Way of In-PREPARING FOR FALL BUSINESS. troducing Coods. The names of all persons finding diamonds, watches, etc., are added to this list daily. The Overland Tea company of San Francisco, have refitted the store,

st, only three fresh loads being receive There were a few feeders and a few odds and ends of butchers' stock in the yards which had been held over from yesterday There were no beef cattle here suitable for the dressed meat trade.

Hogs.

The week closed with a fair run and a stronger market. The advance was fully 5c on all grades, with the demand good and the trade active. The hogs were all sold early and the pens cleared.

Sheep.

The supply was large, thirteen double decks of good Oregon sheep being received.

 Split Oak

NEW YORK, August 25.- [Special Telegram to The BEE.]-At a meeting of agents and representatives of all the big coal companies and mines in the east yesterday, it was agreed that the price of coal for western markets should be advanced from 25 to 50 cents a ton wholesale. The rise was made to cover the increased transportation tolls on the railroads to far western points, owing to the effect of the inter-state commerce law. The effect will be heaviest on consumers west of Chicago, on account of the great distance from the mines. It is now feared that the railroad companies will again ad-

active and casy. Oats, lad by the other cercals, ruled dull and lower, with only fair trading all along the line at a decline of 14@35c in most fu-

In provisions the day's trading was only oderate. On the call and again during the closing fifteen minutes of the regular session there was considerable life, but in the intervening period business dragged more or less. In the general market a strong feeling was exhibited. Lard suffered a limited reaction from yesterday's sudden advance, but for pork closings showed an appreciation of 1.99 12 ge, and for short ribs of 12 gents. The decline in lard was only 5.. The best prices obtained for short ribs and pork prevailed just previous to the adjournment, and for lard around the opening.

CHICAGO LIVE STOCK.

CHICAGO, August 25 .- | Special Telegram to THE BRE. |-CATTLE-Business was about the same as on any other Saturday. Dressed heef dealers were about the only buyers on the market. Shippers were not buying, and there were scarcely half a dozen loads of natives on sale good enough either for the shipment or dressed beef trade. Swift and Ar mour owned hearly half the Texans on the market, the same coming direct from Kansas City. This left only fifty or sixty cars for Morris, Armour and other buyers, all of which were taken by the above named buyers. There was little or no change on any thing as compared with yesterday. All the fluctuations for the week were not over 10@15c, the market closing steady at a 100015c decline on natives and about the same on Texans and rangers. Native butchers' stock followed the ups and downs of Texans and closed absut 10@20c lower than a week The stocker and feeder trade remains ago. The stocker and feeder trade dull with a low range of valuations. Quota tions were as follows: Choice to extra beeves \$5,75@6.25; medium to good steers, 1350 to 1500 lbs, \$5.40@6.00; 1200 to 1350 lbs, \$4.80@5.50; 950 to 1200 lbs, \$3.70@4.50. Stockers and feeders, \$1.80@2.90; cows, bulls and mixed, \$1.50@2.85, bulk \$2.00@ 2.35. Texas cattle; steers, 950 to 1050 lbs, \$3.00@3.30; 750 to 900 lbs, \$3.50@3.10; 600 to 700 los, \$2.40@2.85; cows, \$1.80@2.30; we ern rangers, natives and half-breeds, \$4.40. Hogs-There was a fair demand for bes

assorted butcher weights and light assorted lots, with prices ruling about the same as yesterday, but the ordinary run of mixed or such as packers usually buy were not wanted unless such could be bought a strong 10 ower than yesterday. In the first place Ar mour was about the only buyer and in some of the divisions his agents were bidding only \$5.90(@6.00 for packing sorts at the close but \$6,10066.15 would buy the best heavy packing anywhere in the yards. Light sorts sold at \$6,40(000.50.

FINANCIAL.

NEW YORK, August 25 .- [Special Telegram to THE BEE. -STOCKS-The stock market to-day opened at nearly the same figures as yesterday and the session was short and dull Fluctuations were insignificant as a rule. There were a number of buying orders from London at the start which caused a slight improvement early but the day throughout was a fitting termination to a dull week. Coaters continued to make a good showing, Delaware & Hudson gaining 1 point while Lackawanna likewise gained a little. Rock Island was higher through there was not much of the stock changed hands, and St. Paul sold a little better at the close. Canada Southern

Provisions-Steady; pork, cash, \$13.821 Minucapolis, August 25.-Wheat-The local receipts were 61 cars; shipments, 44 cars; closing: No. 1 hard, cash, 91%; September, 91%c; October, 91c; No. 1 north-ern, cash, 80%c; September, 91%c; October, 8%c; No. 2 northern, cash, 85%c; Septem-ber, 85%c; October, 85c

She Had a Reserve Fund.

Albany Argus: One of the numerous lady visitors to the capitol lost her pocketbook the other day in one of the corridors. It was picked up by an honest New York man, and he opened it, before witnesses, to find, if possible an address or some sort of identification to the owner. There were five com-partments to the book, and in one compartment he found a fifty-cent piece, in another a quarter, in another a nightkey, in another a sample of a dress pattern, and in the fifth a one-dollar bill. There was no evidence as to who it belonged to, but about five minutes later a lady rushed down the corridor in such mad haste that passers by thought a hydrophbic canine was after

"Have you seen a pocketbook lying around here?" she exclaimed, with deep anguish, as if she had lost a band and a million dollars besides. The gentleman who had picked it up handed it to her. Then she opened it carefully, keeping a sharp eye on the gentleman lest he might escape before she had ex-Thus, in the natural condition of the amined the book to see if the contents were all there. Satisfied that everything was all right, she said: "Thanks, but sir," she added, "that is not all the money I have got," as she tapped the upper part of her person significantly. the period of intervening drouths.

Rivers and Valleys.

made in lard.

Scribner's Magazine: The valleys of most rivers are forest-clad. While these orests have the gigantic growth charactoristic of fertile districts in the tropics and the temperate zones, or take the shape of stunted woods, such as extend far toward the poles, they in all cases form beneath their branches, and and above the soil, a thick, spongy ecoating, which forms a natural reservoir for the rain waters. In most regions, this forest sponge has a depth of more than a foot; it not infrequently attains a thickness of two feet or more. It can commonly take into its interstices a rainfall of three or four inches in depth, or from one-sixth to one-tenth the ordinary annual supply. This water is slowly yielded the brooks; it often requires weeks for a single torrential rain entirely to escape into the open channels which it to the sea. Moreover, the fallen trunks and branches of the trees clog the forest shaded rivulets, making little pools, which serve still further to restrain the outgoing of the waters. Our beavers, at one time the most widely distributed of our large animals, at first making avail of the natural ponds formed by fallen timber, learned in time to construct more artificial dams so as to retain extensive basins of water.
