#### MINOR MENTION.

N. Y. Plumbing company. There was no ball game at Manawa yesterday, as the minstrel nine was un-able to play, having to attend a rehersal

at the opera house. Samuel T. Axtell and Bertha A. Rohrer, both of this city, were united in the holy bonds of matrimony Sunday evening by Squire Biggs.

The Acme club entertains a social at the Royal Arcanum parlors this even-ing. Good music will be in attendance and a general good time is predicted.

Chief Lucas was called upon yesterday afternoon to adjust a misunder-standing between a lad and another person who were concerned in a shoe

Marriage licenses were issued yesterday to George T. Davis and Lizzie M. Davis, of this county; Vincent L. Watson and Josephine Knox, of this county, and John Nelson and Anna C. Bergquist, of Om ha.

Frank White, alias George Graybill, was bound over to the grand jury yes-terday afternoon by Squire Biggs for attempting to sell one of Dohany's livery teams. He was not able to furnish the necessary \$1,000, and was locked up.

The funeral of the infant son of Mr. and Mrs. E. B. Lamar took place at 4 o'clock yesterday afternoon from the residence, 214 Stutsman street. The fellow clerks of Mr. Lamar, at Eiseman's store, testified their sympathy by sending a very elaborate floral piece, "The Gates Ajar."

J. R. Sovereign, union labor candidate for the Ninth congressional district, will address laborers and citizens at the electric light tower at the intersection of Fourth street and Broadway, at 8 o'clock this evening, in the interest of the masses as against the classes.

The paving of Harrison street has progressed to the intersection with Washington avenue. Because the castings for the storm sewers were not completed the whole paving force were taken off last evening and put to work on Glen avenue. But a few hours are needed to complete the above intersection when the iron work is done.

Ira Hilbert, a teamster employed on the Eighth street grading, swore out a warrent yesterday for the arrest of John Doe, the foreman of the work, for assault and battery. It seems that Hil-bert was drunk, and the boss ordered him to put up his team, emphasizing the command with a blow in the face. Hilbert objected to the treatment, and invoked the aid of the law. The man was found, and a time for hearing of the case set for this morning.

The residence of Dr. Cady, in Streetsville, was burglarized Saturday evening. Entrance was effected through a rear window. The doctor's pants, containing about \$15, were taken out into the yard and the pockets emptied. The burglar contented himself with that, as nothing else was missed. This is the first burglary in the city for some time, but it preves that the race of nocurnal prowlers is not yet extinct. There is no clue to the thief.

The funeral of Mary Hall took place yesterday afternoon at the institution for the deaf and dumb. The deceased was employed as a domestic at the institution during the summer vacation. She was troubled with heart disease, and died at the Cottage hospital, where she was being treated. Her parents refied of her death. She was twenty-three years of age, and was formerly a pupil at the institution.

Charley Heinsler has moved his barber shop up stairs, and will start a lunch room and chop house in his former loca-tion. The gambling room that occu-pied the second floor has been moved to the back room, down stairs. The gambling fraternity is taking advantage of the mayor's indifference in the matter, and is pushing forward its interests, ress of public opinion. The statements made by the saloon organs to the effect that the gamblers would rather be located on the second floor to escape the surveillance of the police, seems altogether unwarranted, in view

of existing facts. The public schools of the city will open for the fall term next Monday morning. The first and second grade pupils of the Mill sub-district will attend at the Lindsey building on North Main street, and the third and fourth grades at the Hill school, until the new building is completed. There will be no examination until Monday and Tuesday of next week. There will be a teachers' meeting at 9 o'clock sharp Saturday morning at the Bloomer school, when the superintendent will assign teachers to their respective

There was a narrow escape from a serious collision on the motor line, Sunday evening, owing to the incompetence of a new engineer. The new man did not stop at the Twenty-second street siding to allow the other train to pass, but kept on to Ray's landing, where a collision was barely averted, by the presence of mind and quick actions of the engineer on the north bound motor. Manager Reed is in duty bound to provide careful and competent men to run his cars, and to protect the lives and limbs of his patrons. Protection Demanded. Lake Manawa is rapidly gaining for tself an unenviable reputation, one which, unless something is done immediately, will place such a taboo upon it that few people will come to visit it. The citizens view this condition of things with genuine concern, for it has been a cherished hope that this would be the place to which they could go with perfect safety for a day or evening of pleasure. This is not the condition of things to-day. The people have, by direct appropriation and private gift, put their money into this place, and the road leading to it and it is no more than justice to them that they should not only be allowed to enjoy it but that all objectionable things should be kept away from there. Unless a check is put upon the toughs and chippies they will very soon run the place. Is it wise, in view of the possibilities of the place, to allow this to be?

Democratic Delegates.

The democratic county convention was called to order at 10:30 o'clock yesterday morning by Ghorge A. Holmes, chairman of the county central committee. D. A. Farrell was made temporary chairman and J. R. Dietrich temporary secretary. A committee on credentials, consisting of Messrs. Underwood, Sweeney, Diederich, Loeffel and Leonard, was then appointed. A committee on permanent organization, consisting of Messrs. Ira F. Hendricks of Council Bluffs, Lars Jenson of Boomer, J. B. Johnson of Macedonia, Dr. Harvey of Neola and W. H. It was 2 o'clock when the convention reassembled. The committee on permanent organization reported in favor of the temporary one being made permanent. The report was

The committee on resolutions, through its chairman, R. N. Whittlesey, then reported several resolutions, endorsing the Cleveland administration and message, and recommending its connuance: sympathizing with the work ingmen and condemning the Pinkerton

hirelings; arraigning the republican

party of Iowa for the enactment of the prohibitory law; and winding up in a eneral mutual admiration splurge. The resolutions were adopted.

On motion the following committees were appointed to select delegates: To the state convention—G. Diederich, P. Lacy, S. H. Johnson, I. Duncan and Wm. Groneweg; congressional convention—S. G. Underwood, S. N. Harvey, J. N. Cassady, — Hardin and D. W. Boruff; to the judicial—W. H. Ware, J.

P. Organ, G. A. Holmes, W. P. Welsh

The committee on delegates to the state convention reported the following names for the delegation and the report was adopted: D. Hunt, Dr. Ganon, Wm. Groneweg, A. W. Wyman, J. N. The Mosquito's Mud in Manawa. What's the matter with the Manawa improvement committee? Several weeks ago a number of gentlemen, financially interested in the success of the lake, were appointed to solicit funds for improving the same and to make provisions for maintaining the water at a suitable depth. There was a little flourish and hustle for a few days, about \$400 was raised and then a "benefit day" scheme was pushed through to a disastreus termination. Since that time nothing has been heard or done

matter. Other interested parties are constantly demanding what is to be the result, but can get no satisfactory answer. Nearly \$600 has been subscribed to improve the lake and then the whole mat-

about fixing up the lake. The commit-

tee has evidently gone to sleep over the

prove the lake and then the whole mat-ter has been allowed to drop.

A short time ago Mr. S. P. McCon-nell, chairman of the committee, left for Arkansas, and the other members then said, "We can't do anything until he gets back." After his return there was nothing done, and Mr. McConnell

now says that he has resigned and has nothing to do with the matter. The others are ready and willing to go ahead "as soon as the rest of the fellows come to time," but each one says he does not propose to do the work alone and at his own expense. In this manner the proposed improvement scheme is dragging along, and it is not at all strange that people are getting dis-gusted. There is no doubt that the work will be done, as there is too much capital interested in the lake to allow the lake to dry up, and it is strange that the interested parties do not get to work at once and complete it, so as to get some returns from it. The Manawa motor line, hotel, steamers, bath houses, restaurants. Athletic park, etc., representing an outlay of nearly \$100,000, are all directly dependent on the lake for patronage, and would be practically val-uelss if that little body of water was al-lowed to escape. These enterprises alone can afford to expend the required amount-in fact, they cannot afford to let the opportunity pass without improv-ing the lake. If the work is not done this fall the lake will not amount to much next year, and if it is not done next year it will not be done at all, as

ground will be in good condition to The dam would have ample time to settle before freezing weather, and the high water of next spring would not affeet it. If properly fixed up and controlled, Manawa would be a grand good thing for this city, and to interested private parties as well. In its present condition it is very unsatisfactory to all parties concerned, and is paying but small, if any, returns to parties trying to do business there. It may as well be understood that the "dear people" do not intend to improve this lake for the benefit of private individuals.

Popular Science Monthly: It goes without saying that every one will prob-

apperceptive processes, especially any one engaged in mental labor. If he is

a "visionaire" he will have noted how

much better he remembers what he

hundred ways. The "auditaire" will note that a lecture impresses him more

deeply than a review article; that he
