

DEMOCRATS FOR FUN ONLY.

Fifty Young Ladies Organize a Frances Cleveland Club.

WILL CHEER FOR GROVER TO-DAY

Solving the Pure Water Problem—State Missionary Convention—Re-appraisal of School Lands—Lincoln News Notes.

LINCOLN BUREAU OF THE OMAHA BEE, 1029 P STREET, LINCOLN, AUGUST 30.

The democratic brethren are gathering. Chairman North and Secretary Montgomery shook their travel stained garments to-day on the streets of Lincoln and are quartered at the Windsor. This actor and Thomas Price tipped glasses with them soon after their arrival. The first scene of the play was to convince the world that they were not prohibitionists. They succeeded. For further proof of this it will only be necessary to read the resolutions that shall pass the convention. Preparations for the battle are active, and assurances are strong that an effort will be made to make the coming convention the most enthusiastic ever known to democracy in the state. Large delegations will attend from Omaha, Nebraska City, Beatrice, Plattsmouth, Hastings, Crete, Wahoo and Grand Island. Some of the lesser cities of the state will also be represented. The Frances Cleveland Club of St. Paul, composed of fifty young ladies, will be the great attraction of the convention. It is reported that there is a small war between the Fair Pacific and the Black Hills branch of the Burlington to see which road shall have the honor of transporting the band of beauty. The ladies who are to cheer for Grover and for the privilege of taking a hand in state and national elections will arrive on the 2:55 P. M. train to-morrow. But Chairman North says that no effort will be made to stam pede a woman's suffrage plank into the party platform. No danger of that," said he; "these ladies are democrats for fun only. The democratic state convention will be the largest ever held in the state. There is no doubt whatever of this. Some of the western delegations are already here and others are expected on the train to-night. Arrangements have been made for parades and bon fires, and no more is to be said. John A. McShane will probably be nominated for governor by acclamation. He is talked of as the only candidate in earnest at last.

An adjourned meeting of the city council was held in the council chambers at 1 o'clock to-day. The question of the new water for the coming state fair was the all important one. Contractor Burns was ordered to put down four wells in addition to the 150 already connected with the reservoir at the city station. These wells now ordered will be put down at the fair grounds that enough good water may be insured to make the thirst of the multitudes that will attend the fair. The judiciary committee heard the complaints against the rapid transit motor by citizens along the route who esteem it a dangerous nuisance, and will file recommendations in a day or two. The road as operated is generally condemned, and it is quite probable that the steam motors will be discontinued in the near future, if not at once. The city council also met as a board of equalization to assess the proportion of taxes that should be paid by property owners for the paving done in the first and second districts. This, however, only affects the property owners along the streets paved, and has no bearing upon resident citizens of the streets in question.

STATE MISSIONARY CONVENTION. The state missionary society of the Christian church met in annual session at the chapel at the corner of K and Tenth streets, last evening, Elder J. H. Hammond of South Bend, Ind., presiding in the opening sermon. The convention will continue in session until Friday evening. The morning session commenced at 9 o'clock with E. L. Briscoe in the chair. State Evangelist Barrow read a paper upon Our Field and its needs, and how to meet them. The morning session was held at the address, which was replete with matters of interest to the brotherhood. Different committees were appointed to carry forward the work of the convention. The evening session commenced at 8 o'clock with E. L. Briscoe in the chair. State Evangelist Barrow read a paper upon Our Field and its needs, and how to meet them. The morning session was held at the address, which was replete with matters of interest to the brotherhood. Different committees were appointed to carry forward the work of the convention.

JOHN CHINAMAN IN SUPREME COURT. The case of Lee Sue vs. The Union Pacific Railroad company, from Douglas county, was filed in the supreme court this morning, the defendant becoming the plaintiff in error. This is the first case in which a Chinaman ever figured in the highest court of the state. Lee Sue brought the case in the district court of Douglas county last spring for injuries he sustained at South Omaha on the 13th day of March, 1887, and recovered damages to the amount of \$1,700. He is a laundryman by profession, and went to the south side that day on the Union Pacific, and while there was knocked down by an engine, breaking and fracturing some of the bones of his left arm and leg. The injuries he has not yet recovered. The plaintiff in error states that the damages were excessive and were due to passion and prejudice, and asks to have the cause removed back on a number of alleged specifications of error.

REAPPRAISED SCHOOL LANDS. The reappraisal of the school lands in Nuckolls, Pawnee and Buffalo counties has just been received at the office of the commissioners of public lands and buildings. In Nuckolls county the first reappraisal was made in 1873 and ranged from \$1 to \$3.25 per acre. The present reappraisal shows an average increase of value of about \$2 per acre. In Pawnee county \$2 to \$3.50 per acre was the valuation of the first reappraisal and today the average is \$3. In Buffalo county the lands were reappraised in 1873 and ranged from \$1 to \$4 per acre, the present reappraisal just doubling the value of the first.

SHIPPING FACILITIES DEMAND. The village of Emerald, Lancaster county, has heretofore been left out in the cold by the Burlington railroad company, so far as facilities for the receipt and discharge of passengers and freight are concerned, and J. W. Casper, on the part of the village, so complains before the state board of transportation, and prays that the Burlington be compelled to provide the same facilities for depot and freight house, alleging that the yearly railway business transacted there under the unfavorable conditions will aggregate \$5,000. Notice of the complaint has been served upon the company.

CITY NEWS AND NOTES. The police court was rather empty this morning. One plain drunk was assigned and fined and two men got \$3 and trimmings for fast driving on the streets. W. H. Rowan, second vice president, left for New York to-day, where he will join his wife, who is on a visit to childhood friends. After the transaction of business that called him hence Mr. and Mrs. Rowan will return home together.

The third annual celebration of the formation of the Knights of Pythias order in Ashland occurred to-day. Two divisions of the order, Apollo and A. D. Marshall, of the uniform rank, attended from this city. The compliment will be returned by the Ashland order during the state fair.

The annual meeting of the Y. M. C. A., of Lincoln, was held last night. The attendance was fair and resulted in the election of the following officers for the ensuing year: President, J. H. Mockett; first vice president, John R. Clark; second vice president, S. H. Burnham; third vice president, J. E. Doty; secretary, J. W. Winger; treasurer, M. L. Easterday; directors for three years, J. L. Briscoe, Charles West and A. H. Weir.

NOT IN POLITICS.

The Typographical Union Censures its Executive Committee.

At a regular meeting of the Omaha Typographical union, held August 26, a committee was appointed to draw up and make public the following: Whereas, At the late republican state convention held at Lincoln, a circular issued by the executive committee and signed by the president and secretary of Typographical union No. 100, was distributed among the delegates in connection assembled, and Whereas, Said circular was in the form of a protest against the nomination of Casper E. Kost for state treasurer of Nebraska, alleging as a reason for such protest, that Kost had always been an avowed enemy of organized labor, and of the Omaha Typographical union in particular; therefore, be it Resolved, That, in issuing said circular, the executive committee and officers of Omaha Typographical union have exceeded the authority and powers vested in them by this body, and are deserving of the censure of this organization, and be it further Resolved, That this union has no political preference, and that no officer, committee member or member of this union has any right or authority to use the name of this organization in connection with any candidate for office or any political organization, either local, state or national; and be it further Resolved, That it is the sense of this union that labor organizations should not meddle with political matters, as it believes such course to be detrimental to the best interests of the laboring classes, and be it further Resolved, That a copy of these resolutions be furnished to the press for publication.

Free to All. The beautiful picture, "Will They Consent?" is a large magnificent engraving, printed upon a sheet 19 inches wide by 24 inches long. It is an exact copy of an original painting by Kwall, which was sold for \$5,000. This elegant picture represents a young lady standing in a beautiful room, surrounded by art and luxuries, near a half-open door, while the young man, her lover, seen in an adjoining room asking the consent of her parents for their daughter in marriage. The father is despondent, and with the graceful position of the beautiful girl in keeping with the sentiment of the picture. It must be seen to be appreciated.

Unprecedented Attraction. This starch is something entirely new, and without a doubt the greatest starch invention of the nineteenth century. It is not only every body says so that have used it. It surpasses everything heretofore used or known to the laundress. It is made of pure white starch, and is coated with pure white wax and chemically prepared upon scientific principles by an expert in the laundry profession who has had years of practical experience in fancy laundrying. It is the first and only starch in the world that makes ironing easy and makes the clothes retain their natural whiteness, and imparts to them a beautiful and lasting finish.

Enveloped in Flames. Mrs. Walter Scott Burned Almost to a Crisp. Mrs. Minnie R. Scott, who lives at 314 N. North Eighteenth street, was the victim of a horrible and fatal accident about 6 o'clock yesterday morning.

She was sitting at breakfast at the table, and on lighting the burners in the gasoline stove she saw from the flickering flame that the reservoir was nearly empty. She proceeded to fill it, but neglected to first turn off the feeble blaze in the burners. In filling the reservoir, she accidentally spilled some of the gasoline on the lighted jets, and in a moment a violent explosion and reservoir exploded, enveloping her in a sheet of flame. The light wrapper she had on and all her underclothes were consumed, and she was entirely denuded and burning her horribly.

She shrieked in agony and her husband, who was in an adjoining room, rushed out and did all in his power to extinguish the flames. He himself got badly burned also. The piercing screams of the agonized woman brought in the neighbors, who were horrified at the sight of the screaming girl in agony. There was not a spot anywhere on her body but what was burned. Her face was disfigured beyond recognition, the skin being burnt entirely off, or hung here and there curled up in shreds. Her arms and breast, in fact her whole person, was almost burned to a crisp.

After the flames had been extinguished in the kitchen, that room being on fire, the attention of the neighbors was turned to the suffering woman. Her screams and cries were heart-rending, and nothing that was done seemed to allay her suffering. A physician was summoned, and at his direction the woman was taken to the City Hospital. She was first put under the influence of morphia, and her entire body enveloped in cotton soaked with carbon oil. The worst burned places were bandaged and everything else done for her that doctor or nurse could suggest. Their efforts, however, only served to alleviate her sufferings, and the unfortunate woman expired at about noon.

The victim was only twenty-one years old and her husband is in the mail service. She has been married about four years and had two children, one of whom is about a year old. An inquest was held last night and a verdict of accidental death rendered.

The Culvert Near Florence. Commissioner Anderson stated to a Bee reporter that it was not true as had been reported that the commissioners had ordered 50,000 brick with which to build a sewer in Florence. Their intent in buying that amount of brick was to build a brick culvert across the main road immediately north of the city. At that point they had ordered the destruction of an ancient and dangerous bridge, and this had to be replaced. The building of the culvert was the best means of making the improvement permanent, and the cost was ordered done with the certainty that in the end it would be much cheaper to the county.
