# THE AMERICAN TAILORS' FALL OPENING!

AT 1411 FARNAM STREET, PAXTON HOTEL BUILDING.

## A GRAND DISPLAY OF FALL STYLES!

We take great pleasure in announcing to our friends, patrons and general public that our Fall Styles are now ready, and our display embraces some of the finest Imported and Domestic Woolens, among which are the

### LATEST NOVELTIES FOR EARLY AND LATE FALL WEAR.

Owing to our immense success of last season and the very promising outlook for this fall, we have filled our store with the largest stock of woolens ever carried by one firm. We have placed a platform in the rear of our store which is occupied by our force of cutters, thus giving us the entire lower floor for the display of our goods. Special attention is called to the fact that our prices continue the lowest while the workmanship cannot be excelled.

Our patrons will please bear in mind that we have adopted a new method to keep all clothes made by us in good repair free of charge.

A Somewhat Easier Feeling in the Wheat Pit.

CORN RULES DECIDEDLY WEAK

In Spite of Reports About Frost-Oats Also Dull-Provisions in Good Demand-Cattle Active -Rogs Slow.

CHICAGO PRODUCE MARKET. CHICAGO, Sept. 1 .- | Special Telegram to THE BEE. |-There was a shifting in the relative position of September and December wheat to-day, September going from about le premium to le discount. Deliveries of cash wheat this morning amounted to probably 1,500,000 bushels, nearly all of which landed with Hutchinson. Eggleston delivered out more than any one man, but the property came in little jags from all quarters. The trading session began at 10:30 and ended at 10'clock. Part of that time business was underwent little or no change. Common dull although it livened up considerably the mixed sold at \$5,90@3.10 and the best \$6.20@ last hour. September premium got thinner from the start, but it was not until Dunn tried to sell a good sized lot for September that the discovery was made that Hutchinson had withdrawn his support from the near by end of the market. Septembor broke off %c quickly, and later on in the session it declined another 34c. At the same time Cudahy and a small army of local operators who have been trying for several days to break the market, concluded to abandon further efforts, but when they undertock to buy in their December they found very little for sale. The reports that came in from the northwest are more alarming than they have been anytime yet and many of the operators who have been "playing for a re action" deemed it imprudent to pursue their bear tactics further. From being bearish the sentiment of the crowd changed to bullish and while September was declining December advanced about 1c. Closing quota tions show a shrinkage as compared with yesterday, and December a gain. Trading in the first named month was light, and in December was very heavy. The strong feature of the market was calamitous news from the spring wheat sections. New York

pulled back, and not much encouragement was derived from cables, Con-tinental and English market reports are not in accord, one being firm and the other weak. The receipts at primary markets keep up to about the recent average and scaboard clearances are only New York wired numerously and with varying degrees of emphasis that exporters were selling out their wheat. In any event exporters do not seem to be increasing their lines of wheat here. Toward the last a rather easier feeling prevailed in this market and prices worked back fractionally. There was good general buying, however, to the end. The corn market was quiet to-day and nar-

row, the whole fluctuation of the session being only about %c, and was in the main weak. ing only about 3c, and was in the main weak, closing with September about 1c lower than it closed last night, selling October about 1c lower and May 3c lower. The market was without any especial feature and the trading without significance, being largely of a scalping character. The weather did not seem to cut much of a figure and a report that the thermometer in certain localities was hovering about the frest line had little or no effect on the market. The weather in was hovering about the frest line has little or no effect on the market. The weather in the corn belt was said to be all that could be desired, and long futures showed more weakness than the near-by deliveries. October ranged at 44½c to 44½@45c, split, closing at about 44½c. May soid from 46½c early to 39½c, closing at about 89%c.

In onts the month opened duil and quiet with slight interest displayed or little position to trade. On an improvement in the inspection and anticipated liberal arrivals next Monday, the near rutures were weak, ruling %@%c lower. A fair inquiry existed for May around 2814@28%c, with soller the year dull. A number of car lots sold in store at 246241se for No 2, or le below the inside figure of yesterday, with cash trading chiefly

The deliveries of provisions this morning on September contracts were moderately fair. Of pork they amounted to 1,500 barrels, of lard to 6,500 tierces, and of short ribs to some 5,000,000 pounds. Lard passed rather but pork and short ribs found prompt lodgment. Armour, it was said, took the pork, and Norton & Worthington the major portion of short ribs. In the market deliveries weakened prices early a little, but the underlying feeling was strong and the the underlying feeling was strong and the ground lost was more than recovered subsequently. The bull side had evidently the largest number of friends, and from the opening the demand for all descriptions of property was quite active. The January future almost divided with October 1988 of the property was pulicated by the property of tober the attention of speculative trade. Lard was relatively the strongest article on the list, though as a rule closings showed an ndvance on yesterday's final prices. Pork at the adjournment was unchanged for Sep tember and 7½c higher for October and January. The day's improvement in September, October and November Lard was 15@17%c. and in September and October short rib Short ribs and lard for January

#### closed 5c higher.

CHICAGO LIVE STOCK. CHICAGO, Sept. 1 .- | Special Telegram to THE BEE. |-- CATTLE-Business was active to the extent of the number at the market. An explanation is needed to show when there were such large numbers among the arrivals and why this large number did not have a depressing effect on the market. In the first place fully one-half the see ber on sale were Texans, all sweed by Swift, Morris sec Armour, said firms beying a lot in Kansas City and off the ranges from syndicates that had to sell out. This would leave only about 2,500 for all other buyers -a number not at all too large. Then out of this 2,500 there were scarcely 1,000 natives that were good and not 100 that were prime, the remainder being made up of rough and common natives, cows buils and

THE SPECULATIVE MARKETS. calves, all of which sold out rather readily at equally as good paces as any day last week, and the general market closes steady as compared with a week ago. On Menday and Tuesday there was an advance of 15@20c, but later on that advance was lost, yet at no time was business dull under the remarkable run of nearly 55,000 for the week, one-half of which were Texans and rangers, the same selling where quality warranted, for the highest prices of the season. The market for all classes, even the season. The market for all classes, even old canners and common bulls, was active, such selling for all they were worth to anybody. The stocker and feeder trade remains quet. There was no demand for New York state stock. Calves at the prices asked are worth more in Virginia and Pennsylvania than in Illinois or Iowa. The recipts were 3,000 Texas and western cattle; steers, \$4.25@4.75; 1200 to 1350 lbs., \$3.77@4.50; 950 to 1300 lbs., \$3.10@4.00; stockers and feeders, \$2.00@3.15; cows, bulls and mixed, \$1.60@3.00; bulk, \$2.10@2.60. Texas cattle weaker; steers, \$50 to 1050 lbs., \$3.15@3.90; 750 to 900 lbs., \$2.80@3.40; 600 to 700 lbs., \$2.50@3.00; cows, \$1.80@2.50; natives 83.15(2.3.0); 750 to 900 108., \$2.50(2.3.0); 500 to 700 108., \$2.50 (2.3.0); cows, \$1.80(2.3.0); natives and half-breeds, \$4.40; cows, \$3.00(2.3.875).

Hoss—Business was slow or account of a tight run, there being scarcely a sufficient number on sale to bring out the buying side of the market. Common and mixed packing sorts were 5@10c lower and were neglected at that, while best assorted heavy or light, 6 35; best assorted heavy made \$6.50@6.65 and best assorted light \$6.40@6.50.

#### FINANCIAL.

New York, Sept. 1 .- Special Telegram to THE BEE. ]- STOCKS-In view of the fact that this was a day of short trading hours and that there will be no session of the stock exchange on Monday next, the market was quite a satisfactory one to the buils. Trading was light, the total sales being but 65,157 shares, and business was generally quiet, Values began to improve soon after the opening, which was generally a little higher, and appreciated to the close, which was at or near top prices, the gains being from 16 to 1 point as a rule. Northern Pacific and Oregon Transcontinental were conspicuous and were aided by the successful ending of negotiations with the Manitoba government, the latter advancing I point and Northern Pacific preferred 1/2 point. Grangers were slightly d Lackawanna sold 1 point high er, though it eased off a little at the close The bank statement showed a large loss in the reserve, but this was without effect on the market.

GOVERNMENTS-Government bonds were dull but stendy. -

The closing quotations of the stocks were

#### OMAHA LIVE STOCK. Cattle.

Saturday, Sept. 1, 1888. There was not much change in the market for desirable beef cattle, although an easier feeling prevailed. The supply was made up entirely of westerns, and one bunch of 150 sold at \$4.15; \$3.75@4.00 was paid for fair range beeves, averaging between 1,200 and 1,300 lbs. The supply of feeders was not large, there being, perhaps, six loads of natives in addition to the westerns. The market was about steady and sales small. Prices range mostly from \$2.75@3.40, although as high as \$3.55 was paid this week. Butchers stock was slow and dull, only a few head changing

The market to-day was in all respects the counterpart of yesterday's market. It opened weak and lost in strength as the morning progressed. Taking it as a whole it might be quoted a shade to 5c lower. One extra good load of 276-lb. hogs sold at \$6.25, but the bulk sold at \$6.05666.10. Th were all sold before the close and the pens

The were no fresh receipts, but one stale load of stock sheep changed hands. Receipts. Cattle..... 1,460

#### HARRIET BEECHER STOWE. She Believes "Uncle Tom's Cabin'

Was Inspired by God. NEW YORK, Sept. 1. - [Special Tele gram to THE BEE.]-Harriet Beecher Stowe has been removed from her long-time residence in Hartford to a farmhouse near Sag Harbor, Long Island. Her health has be-come alarmingly had, and this decline is accompanied by mental eccentricity. Always original and characteristic, she has now be come so peculiar that her relatives deem it best to keep her in retirement for awhile, That she will recover from her physical illness is not deemed likely, but an immediate demise is not looked for. The decrepitude of old age has come upon her. She is stopping at the residence of Captain Lewis Corwin, an acquaintance of half a lifetime and a brother of the late Henry Ward Beecher's stalwart parishoner. She is almost seventy-six years old. Until a few years ago she retained her mental power urprising degree, but latterly it has de clined and now she is little like herself. overestimate of her famous book, "Uncle Tom's Cabin," has grown upon her until she is undeniably possessed by delusions. Her principal hallucination is 'hat "Uncle Tom's Cabin" was as divinely inspired a work as the hible; that she was merely a medium through which God expressed his condemna tion of human slavery.

#### WEEKLY BUSINESS REVIEW.

The Demand For Money Shows a Decided Increase.

EXCHANGE IN FAIR REQUEST.

Stocks Exhibit Considerable Activity, Lackawanna Leading-Very Active Speculation in Wheat-Provisions Unsettled.

The Money Market.

CHICAGO, Sept. 1 .- [Special Telegram to THE BEE. |-The money has met an enlarged demand from merchants who are paying for heavy purchase bills of fall goods for the purpose of securing the liberal discounts allowed by manufacturers to cash buyers. Manufacturers are also in want of funds with which to pay for raw material which can always be bought to better advantage with ready money. There is also an increased call for funds from leading winter wheat points where the crop is arriving freely. Increased calls from such sources coupled with applications from operators on change with which to pay for property bought for September delivery, has materially enlarged results for discounts at banks. But the supply of funds is ample for requirements, and bending rates are without quotable alteration from the close of last week. Gilt edged names and convertible collaterals command accommodations at 5@5% per cent and other classes of paper 6@8 per cent.

The supply of New York exchange offerings from interior cities that always look to Chicago for a market when they have an excess of bills beyond home necessities, have been such as to keep bankers bills at 60@S0c discount per \$1,000, and Chicago bankers have ordered liberal amounts of money from the east by express. Foreign exchange has ruled steady at \$4.82%@4.83% for shippers sixty days documentary bills on London.

The jobbing trade in dry goods and other leading lines of merchandise has shown en larged activity, and in the first mentioned branch jobbers have been compelled to work late at night to meet the demands of custom ers. Prices for all leading lines are steady and some descriptions firm, collections have improved and merchants are well satisfied. The New York stock market has been more animated and better business has trans pired at a higher range of prices. The feeling in the east is decidedly in favor of higher prices. The same feeling also exists in Lon don, where there is an abundance of idle money that is seeking investment in American securities, as there is more chance to

get quicker returns on investments than in anything they are able to discover at present. Reading, St. Paul, Lake Shore, Louisville & Nashville and Union Pacific are the favorites with foreign investors, and they confine the bulk of their purchases to them. The coal stocks, under the leader-ship of Lackawana, have lead the list in point of activity and strength, and the larges gains were in those properties. "Grangers" came in for liberal attention, and recorde fair gains, but nothing like that witnessed in Lackawana, which at times gave tone to the rest of the market. Commission orders have improved slightly, but the market is still a professional one and not liable to change very readily unless something startling de velops. Earnings are increasing slightly and are likely to continue so, as the best bus iness of the year is now starting in. The ag gregate sales on the New York stock ex

change for the week were 1,123,000 shares week just closed, and an immense volume of business was transacted at materially higher prices. The shorts were driven to cover with great rapidity. Buying orders came in since the present crop began to move, and although there was a decided disposition on the part of the "longs" to realize profits and enormous lines were thrown on the market, prices reached a higher point many of the most sanguine bul expected to see this month. The excitement in wheat detracted from other speculative articles, but a fair business was transacted and the feeling generally was better.

An unsettled feeling prevailed in provisions, and prices were advanced sharply on all speculative articles, but with the excep-tion of lard a fair reaction followed. The outward movement of hog products to con suming points was large, and as the arrivals of hogs were light a reduction in the stock o

#### cured products was witnessed. TRADE CONDITIONS.

There has been no material change in the financial aspect. Money continues easy with a fair demand from both city and country customers at ruling rates, 8@10 per cent; exchange steady at \$1 per thousand. General trade continues very good. Collections are seasonable and jobbers are satisfied that the year's business will be exceptionally good. NOTES. The freight rate war on eastern railroads

on cattle continues. The rates, says the Drovers' Journal, were raised 214c per cwt. last Saturday, and now stands 10c to New York, 716c to Buffalo, and 15c to Boston. It takes ten days' notice to raise, and there i no telling when things will be settled. Since the new season commenced over 2,-100,000 bushels of wheat have been shipped from San Francisco direct to Havre. This is much the largest quantity ever shipped to that port in the same length of time. More than \$40,000,000 worth of American

refined lard is exported every year. Lard ranks sixth in value out of \$800,000,000 of American exports. It is exceeded only by cotton, breadstuffs, petroleum, tobacco and From January 1 to August 28 the domestic produce exported from New York was valued at \$181,481,098, against \$208,606,420 for the same time in 1887, and \$10,283,938 in 1884

Prime, the crop expert, is credited with the statement that he considers the 'pros-pect for corn maturing before frost very uc-During the year 1887 the mineral value of the United States exceeded the total ever reached by Lay other country, the aggregate

Sugar is sold to some extent at concessions

from the published quotations, but the trust is not letting go its hold and it is reported that some of the large New York refiners are curtailing the production of soft white sugars. Present stocks of raw sugar are ample and the supply in the four leading British ports amounts to 253,000 tons, against only 201,636 tons a year ago. The Louisiana cane has been growing finely up to last Saturday, but since then one of the severest storms on record has visited the sugar par-ishes, blowing down much of the cane and destroying several sugar-houses. Some of the largest planters estimate the loss at 10 to 40 per cent, but this is doubtless an exagger-

Coffee is fairly active, but prices are weak, with cables of a weaker Rio market. It is rumored that a prominent Rio Janeiro house, generally considered authoritative, has i? creased its estimate of Rio crop to 5,000,000 bags. A Rio cable reports clearances of 11,-000 bags for the United States and 10,000 bags for Europe, the stock at Rio being 216,-000 bags. At New York the cargo of mild coffee just received on the Baxter is offered at 20c for Padang and 24c for Mandahling, but these are higher figures than buyers will

ply will be about 1,500,000 packages less this season than last on account of the shipments to the straits settlements.

Mackerel are scarce and high, with limited sales. The landing of mackerel by the New England fleet at all the ports last week foot up 2.615 barrels, against 2.395 barrels the previous week and 4,118 barrels the corresponding week last year. The total catch to date is 17,374 barrels, against 31,059 barrels in the same time in 1887, 37,127 barrels in 1886, and 208,230 barrels in the same period

Produce, Fruits, Etc.

BUTTER—Fancy, solid-packed creamery, 18 @21c: choice country, 16@17c; common grades, 10m lBc. Eggs—Strictly fresh, 16@18e candled. Oranges—Messmas, \$5.00@6.00 per box; Rodi, \$6.00@6.25 per box.
