Ran Away With Her Trunk. Some time ago Rosie Fisher, a domestic at the Ogden house, was one of the parties to a brief though exciting little episode that oc-

A few days since, she left the place where she had been work-ing. A short time afterward, John Ford vis-ited the house and presented an order for her trunk, which was given him. Rosie now appears in a frenzy and says that the order was a forgery, and that all of

her earthly possessions, amounting to some-thing over \$400, have gone with John and the trunk. The festive Johnnie started for Kansus City with his inanimate traveling com-panion. The Pleasure That May Be Obtained From the Weed That Soothes.

Tobacco is a nasty weed Which from the Devil doth proceed

New York Commercial Advertiser: do not known what is the proportion of nicotine in a whift of smoke. I do not know the statistics of deaths from tobacco poisoning nor how many slaves of tobacco have confessed and repented on their death-beds. I have read sundry harrowing tales of the fatal effects of smoking, to which kind and interested friends have called my attention; and who shall say, merely because he never felt, saw or heard the like, that they are not true? But 1 can not say that I ever smoked my pipe with any less comfort and satisfaction after the reading. Perhaps it is unjust, but I can never believe that these warnings were ever written by any one who had ever enjoyed the epicurean pleasure of a choice Havana or the succulent comfort of a well-seasoned pipe. The writer presents himself to my imagination a slim, bilious wight, minutely anxious as to the digestibility, of this dinner, fearful of a draft, a little asthmatic, so that a taste of smoke in the air sets him coughing, stiff and upright in his pos-tures, unconscious of the pleasures of a lounge. If he knows **hinyth**ing of the weed by experience, it is in a cigarette.

The eigarette smoker knows nothing of the pleasure of tobacco. Even if he is conceded the pure leaf in bis little toy, he has not the deep and growing pleas ure in his smoke that the user of the old form knows. Several amusing anecdotes were related apropos of this subject, and Moszkowski, in his inimitable manner, told the most laughable one of a planist who, being quite overcome with stage fright, and finding, as he seated himself to play, that he was too far from the key-board, instead of drawing his chair nearer, seized the piano with a frantic clutch and tried to pull it to him.

Speaking of Moszkowski, he is one of the most charming of men. He is singularly modest, and seems not to realize his great reputation, evidences of which always fill him with wonder. I recollect an episode which will illustrate his child-like nature.

I called to take my lesson one morning and found him in despair, because the housemaid, in sweeping and dusting his study had broken the leg off a tiny toy dog, worth abont two cents. He sat egarding the treasure with mournful yes-his eyes, by the way are beautiful. like forget-me-nots dipped in dew. The situation was pathetically absurd.
