

EIGHTEENTH YEAR.

ON THE ALTAR OF HIS DUTY.

John McShane Expresses a Willingness to Be Sacrificed.

FANNING THE EMBERS OF HOPE.

He Thinks There is Some Chance for the Democrats in Nebraska—Passage of the Military Detail Bill.

Intends to Accept.

WASHINGTON BUREAU THE OMAHA REGISTER.

Representative McShane returned to the city from Maine this morning and was in his seat in the house this afternoon.

"Will you accept?" was asked.

"Yes," he replied, "that is the only course left."

"When will you issue your letter of acceptance?"

"I cannot say. I intend going to Omaha next week, and then I shall take formal action. Really, I have thought very little of politics in Nebraska or anywhere else during the past six weeks."

"I did not anticipate the nomination and did not know it was tendered to me till the day following the adjournment of the convention."

"I do not know the situation at home, I've not been in the state since the 1st of May and till I get there, the only thing I know is that I will accept the nomination and make the best race I can for the governorship."

"I am not one who has no hope for democratic success in Nebraska this fall."

"Will the issues in Nebraska be mostly state or national?"

"Largely state issues."

"Mr. McShane is looking better than he has for several months. He intends to remain in the state but a few days, in all probability, when he goes home next week, although he will make the rounds of the state before the election in November."

FINAL ADJOURNMENT OF THE ARMY AND NAVY DEPARTMENT.

The house this afternoon took up and passed, under a suspension of the rules and over the opposition of Mr. Blount of Georgia, the amendment to the bill to increase the duties on articles and manufactures from military colleges and universities for instruction in military tactics.

The bill is the one which has resulted from agitation of the subject started first by the governor of Minnesota and the parents of the state university in their efforts to secure a military instructor detached from the army to remain constantly at the state university, alternating every four years with the university of Nebraska.

The provisions of the bill have been already reported in this paper. It increases the detail of army officers from a maximum of forty to sixty and provides that the officers may be detached from the navy as well as from the army.

The bill also provides that the officers may be detached from the navy as well as from the army.

THE SHARON DIVORCE SUIT.

It Culminates in a Sensational Scene in Court.

MRS. TERRY LOSES HER TEMPER.

She Charges Justice Field With Having Been Bribed, and Her Husband Assaults a United States Marshal.

A California Sensation.

SAN FRANCISCO, Sept. 3.—The celebrated Sharon divorce suit, which has been very prolific in the matter of sensations, culminated to-day in a scene which will cost Sarah Althea Sharon, now Mrs. David S. Terry, thirty days in jail, and her husband, Judge Terry, a six months' sentence. Cohen, executor of the late Senator Sharon's estate, recently applied to the circuit court for a bill of revivor. Mrs. Terry thereupon demurred, which the court overruled. The decision, which was very lengthy, was read by Associate Justice Field of the United States supreme court, and was concurred in by Judge Sawyer of the circuit court and Judge Sablin of the district court. A large crowd of spectators gathered in the court room, and the proceedings were of a sensational character.

LABOR DAY.

Monster Celebrations in Several of the Principal Cities.

CLEVELAND, O., Sept. 3.—An immense blood-red flag was carried through the leading streets of Cleveland to-day, and behind it marched a score of anarchists. To-night the flag was bedragged and five of the men who followed it were arrested. The parade, Monday, and 1,300 men formed in line and with music and waving emblems paraded the downtown thoroughfares and then withdrew to a garden in the suburbs. Anarchists were in the procession, and declaring themselves to be carpenters, they were permitted to remain the place they had quietly slipped into. At the garden they unfurled their flag and refused to acknowledge the stars and stripes of the United States. They then turned them finally to their flag away. When the committee turned their backs, however, the anarchists seized their emblem of blood and waved it aloft triumphantly. Immediately they were attacked by hundreds of honest working men whose indignation was beyond control. The flag was trampled under foot, and the anarchists were driven away to the ground in the fight that continued for at least ten minutes. All the anarchists but five escaped from the three days' riot. The five who were not released were being held in jail, and will go away being bleeding and lame, and will hardly appear in public for some time to come. Ben Hill, carpenter, Emil Schilling, machinist and Godfrey Ostermyer, Charles Lubelin, and Gustav Bestner, carpenters. They were locked up and charged with riot.

Condition of Growing Grain in the Red River Valley. CHICAGO, Sept. 3.—The following will appear in the Farmers' Review September 5: Reports relative to the condition of the wheat crop in the Red River valley have been so conflicting that in order to arrive at some definite conclusion, the following special inquiries from reliable persons have been made: Our advice enables us to state that Polk county, Minn., will have a better grade of wheat and more of it than Marshall county. The crop may yield fourteen bushels per acre. Frost has done more damage in Marshall county and the grade of wheat there will be poor, generally speaking. There are some exceptions, for frost seems to have touched in places that while there are fields that have filled tolerably well, there are others not far distant where the heads are not half so well filled, and will yield a shrunken sample of grain. It seems probable that an average of ten bushels per acre will be about all that Marshall county will yield. We have it on reliable authority that Kitson county is worse hurt than Marshall county.
