The bank clearances for yesterday were \$620,107.99.

The Seventh ward democratic club will meet at Sheely this evening.

The articles of incorporation of the Nebraska Feed-Water Heater and Purifier company were filed with the county cierk vesterday. An information has been filed in the

district court by County Attorney Sim-eral against James Bond for assaulting and robbing Sanford O. Wood last Thursday. Charles and Lyda Banks have sold

lot 5, block 72, which is the northeast corner of Capitol avenue and Twelfth street, to Peter Goos for \$45,505. The property includes a two-story brick. When the name of Thomas Nolan was

called in police court to answer the charge of wife-beating that individual failed to appear and the judge declared his \$200 bond forfeited. Mrs. Nolan claims that her husband is carrying a revolver to kill her. G. P. Patterson's accusers failed to

appear against him in court and he was discharged from custody. William Snowden, of Sioux City, who held the mortgage on the horses in Patterson's possession, forcelosed it and took the steeds away from the alleged fugitive. Superintendent James says that it is possible that the A class of the sixth

grade can be accommodated at the High school, and an effort will be made to make room for pupils of that grade in that building. The B class will still be divided among the other schools as be-

A Probable Chancetter. It has been reported that Mr. Hein, who was formerly connected with the high school

of this city, has returned to Omnha from Connectical with a view to being elected chancellor of the state university. The Oil Inspector. John McDonald, oil inspector, leaves on

Monday next on a tour of ten days through

the northern part of the state to instruct re tail dealers in oil as to the requirements of the state law with regard to the sale of that Posting Delinquents. Thecity and county treasurers have begun

making up their delinquent tax lists which

are to be published the first week in October.

It will include all property on which there is any state, county, city or special taxes un-paid. The delinquent sale takes place the first week in November.

Died from the Injury. Thomas Lynch, who was gored by a sayage steer last Tuesday at South Omaha, died Sunday from the effects os the injuries, and was buried yesterday. The funeral oc-curred at his late residence on the corner of Nineteenth and Vision Nineteenth and Vinton streets, and the re-mains were interred in St. Mary's cemetery.

Don't Want to Be Flooded.

The St. Paul & Omaha and Missouri Pa cific have petitioned the city council to provide an outlet for the surface water that pours east on Grace street from Sherman avenue over their tracks whenever there is a heavy rain storm. The railways claim that the city ought not to flood their tracks and endanger their trains by water which it is not their duty to take care of.

Sale of City Bonds. City Treasurer Rush closed the sale of \$28,500 worth of curbing and gutter bonds yesterday. The bidders were: Albert Netter & Co., of Cincinnati and New York, \$1.0275 and accrued interest; Blake Bros. & Co., Boston, \$1.025; Brewster, Cobb & Ester-brook, \$1.0276 and accrued interest; John M. Dale, Omaha, \$1,0206 and accrued interest

Richard Brown, foreman of the Union Pacific tin shops, is again troubled over the disappearance of his wife, who has been absent for three weeks under a spell of dementia. Some months ago she wandered away also, and was found decorating her mother's grave in Prospect Hill. She is a large and heavy woman, and Mr. Brown hopes that whoever may be caring for her will notify him of her whereabouts, so that he may bring her home.

Will Marry Julia.

Deputy Sheriff Stryker returned yesterday from Columbus, O., having in custody Otto Waack, who was wanted in Justice Wade's court on the charge of sedunction under promise of marriage. The complaint was flied by a young girl by the name of Julia Daemon. Young Waack stated that he had no intention of running away, and would have returned to Omaha in a few days. He also says he will marry the circle if days. He also says he will marry the girl if she will have him.

The Op n Door.

Mrs. G. W. Clark is very indignant over on item which appeared in THE BREON Saturday, suggesting the removal of "The Open Door." She says the house is no more objectionable than any in the row, that none of the inmates are ever seen; that the union did the best they could with the means at their command and that an outery for a "high brick wall" around some of the three-story "palaces of shame" would be a little more seemly and pertinent.

The fourteenth annual convention of the state Woman's Christian Temperance Union is to be held at Hastings, September 21 to 25, nclusive. Two daily sessions are to be held for the transaction of routine business, the hearing of reports, etc. On Saturday even-ing an address is to be delivered by Mrs. Clara Hoffman, of Kansas City, and on Monday evening a grand concert will be given Delegates will be given certificates by the agents selling them their tickets, entitling them to return fare at reduced rates.

Change of Time.

The Callboy Death Summons John

Booth Away. Sunday afternoon John Booth, the stage carpenter at Boyd's theatre, was in his apparent good health. In the evening he was suddenly attacked with dropsy, and yesterday morning at 9:30 died. His prostration was almost unknown to his friends, and was only made known to two of them, Joseph Rowles and W. O. Sanders who

drove hurriedly to his residence on Chicago

FIXING THE POLICE. How a Lawyer Failed to do it for Mollie Wright.

As per resolution recently introduced by

Councilman Atexander, the houses of pros titution were ordered closed upon the Third ward school house block. The fact is, there was only one such place situated upon this block. This one was kept by Mollie Wright. She is the owner of the house, which is upon leased ground. She has been in Omaha a good many years and has always kept an orderly place. No complaints have ever been male against her or her inmates, so the police say. Now, in pursuance of this resolution, she proceeded to close her house, but was approached, it is alleged, by one Alex D. Green, a lawyer and a brother

house, but was approached, it is alleged, by one Alex D. Green, a lawyer, and a brother of Duff Green, one of the police captains, who informed her that by payment of \$100, \$50 down and \$50 in the future, he could fix things so she could continue unmolested. Thinking that he had truthfully represented the facts to her, she gave him \$50, and upon his advice opened her house Friday evening. That night she was arrested by Captain Duff Green. He said he knew nothing of any such agreement as his brother had intimated, and that she would have to go to jail; or deposit a sum of money for her appearance, which she did.

Attorney Green was seen in regard to the matter and he says the amount charged was merely his fee. He had assured the woman

merely his fee. He had assured the woman that she could run her house because he saw no legal reason why she should not. no legal reason why she should not. There was no ordinance suppressing such houses and the resolution passed by the council, he claimed, carried no weight. The only way to have such a house suppressed was to circulate a petition among the immediate neighbors and get a majority of them to sign it.

Winston the Schemer Forgets His

Buggy Game. Mr. Angene, of the Columbus Buggy com pany, returned from Cheyenne yesterday with Winston, the man who represented himself to the firm last Tuesday as Mr. Bishop, manager of the Consolidated Tank Line com manager of the Consolidated Tana Line com-pany at this place, and on that representa-tion purchased a buggy from Angene and sold it to Homan and left for the west on the money he received for the vehicle.

The confidence man is now in jail. He is bright and talkative and seems to know but little of what has happened for some time. In conversation with a Ber reporter he said: "My name is T. N. Shepherd and not Winston. I never gave any such name as I have been arrested under that I know of. I don't know anything about ever having pur-

chased any buggy or having been in Omaha. I know I was in East St. Louis a few days ago and I know I was in Cheyenne when I was arrested, but I don't remember ever having been in Omaha within the last year." On being asked about his past life he said that he graduated in Allegheny coilege in Meadville, Pa., in 1883. He also gave the names of men who were in that college during those years, which would show very con-clusively that he had been there. He stated that he had been in the employ

of the Consolidated Tank line since that time, and the last work he did was for that company. He reterred to Mr. Bishop as knowing all about him and his business rec-

The Edwards Oil Burner.

A few minutes spent in the test room at 117 N. 15th st. will convince the most skeptical that the wonderful gas generator is an unqualified success. It is clean, effective and more than is claimed for it. The amount of heat is entirely at the will of the operator. The generator is safe as a coal fire. This grand invention is a great gift to the west, for it solves the fuel question. There are more units of heat in a gallon of oil than in a bushel of coal. The bushel of coa will cost you 40c, while the oil will only cost you Sc. This is not buncomb; it is a fact. The company intend placing an agent in every large town in the state, who will furnish oil at not to exceed 10c per gallon. In Omaha they hope to furrish it at Se, owing to advantages in freight. It is safe to say that the peo-ple of the west have never had the opportunity of securing so meritorious an article as the Edwards oil burner. It is safe, clean, efficient and, above all, economical. You should see it before you lay in your winter's fuel.

Hon. John A. McShane reached home yesterday, and from an early hour until high noon his Thirteenth street office was besieged by both men and women. Of course, the colitician was there in exceeding plenteousless, as well as the business man, the lobyist and the old acquaintance.

THE HEE man found it about as difficult to get his car as it would be to get an ordinary ndividual's pocketbook. So much for being a congressman.

Mr. McShane looks hearty, rosy and robust. and in reply to a query as to the condition of his health he said: "My health is very much mproved, and, home again, I confidently exect still greater improvement."

A MILLION OF MILES.

What a Little Engine on the Union Pacific Has Traveled.

Frequenters of the union depot who daily watch the sturdy old engine 310, running back and forth across the bridge in the transfer service, little think that it was one of the ploneers that opened up this country twenly-five years ago. Then it came bright and new from the Roger Locamotive works, and was run on the Kansas City branch. If it could speak it could tell many a story of the early days, but, as it can't, the reporter figared up the amount of work it has done. Sometimes making runs of 150 to 160 miles per day, and sometimes from 100 to 125, he fixed the average at 125, and on that basis it has traveled 45,625 miles per year, or 1,140,-625 miles since it was built. That means 47½ times around the world, and yet the original machinery is still in its place, and apparently as good as ever. It has never been in any serious accident, but has met with several minor mishaps, such as all engines are liable to and is now enjoying the rest that all age. to, and is now enjoying the rest that old age brings to both locomotives and men in mak-ing ten or twelve daily trips across the river. It is in charge of Joe Haves, who, like itself s an old-timer in the service, and for

last twenty years has been employed by the tion Pacific. "No, I never was bothered with Indians," Mr. Hayes said, "but buffalo were pretty thick between Grand Island and the North Platte, and some times delayed the trains in those days. The Indians did ditch one train in my time and killed and scalped all the in my time and since and scaped at the crew except the conductor. He was stuaned by the fall and was scalped while he was lying under the bridge, as the Indians thought he was dead. When I've time, I'll tell you more about it, but time's up now," and he mounted the cab as old 310 started on her back trip across the bridge.

THE REGARS' WORK.

What Has Been and What Remains to be Done. At the last meeting of the board of public

works, a resolution, instructing the secretary to give the Regan Brothers & Fox five days' notice that the board would take measures to insure the immediate completion of the paving covered by their contracts, was laid on the table. It will doubtless be acted on at the next meeting. The board is evidently of the opinion that the firm has undertaken more than it can accomplish, owing either to bad management or a very continuous series of misfortunes. They neglected their con-tracts for material till after the season opened and since that time, their crusher has been broken, or they have been out of sand or concrete or blocks or something else, and work has progressed very slowly. On August 21, a number of their streets were given to J. B. Smith. These have been finished and Regan & Fox are still doing next to nothing. Up to date they have finished

Twenty-eighth street from Farnam to Leavenworth; Nineteenth from St. Mary's avenue to Leavenworth; Twenty-nirth avenue to Leavenworth; nue from Leavenworth to Hickory and Leavenworth from Fourteenth to Twenty-fifth avenue, and are now working on Grace. Seventeenth and Eighteenth from Farnam to Harney. The streets contracted for and not yet touched are Capitol avenue, from Sixteenth to Twentieth; Jackson, Thir-teenth to St. Mary's avenue; Cuming, Thirteenth to St. Mary's avenue: Cuming, Thirty-sixth to Lowe avenue; Chicago, Eleventh to Sixteenth; Twelfth, Chicago to Davenport; Fourteenth, Howard to Leavenworth; Seventeeth, Leavenworth to the Union Pacific tracks, and Poppleton avenue, from Twenty-inth avenue to Thirty-second.

Twenty-ninth avenue to Thirty-second.

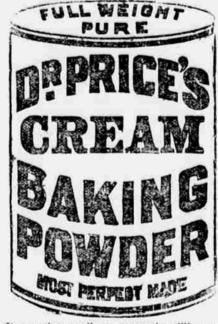

This, in the opinion of the board and complaining property-holders, is more than the firm can complete in the season, and the probabilities are that many of the streets will be advertised and relet to contractors

who can do the work.

Another consideration which influences the property-holders is the uncertainty of intersection bonds being voted next year. In this case, if, as seems very probable, Smith and others who are working very rapidly should absorb the \$100,000 of intersection bonds of the last issue, the unfinished streets in Regan Bros', contract would be left in the

About two months ago a young man named Linton lost a leg while in the employ of the Burlington, and some of his fellow-workmen decided upon purchasing him a suit of clothes as soon as he was able to move around. IF YOU COULD

The line of Fall Overcoats we are displaying this season, if you were positive how well they are trimmed and made, and if you knew how cheap a really first class garment is being offered, it would be no trouble to sell you one. No such exhibition of stylish and elegant overcoats was ever made in Omaha, and the prices are irresistible. The season for these garments being very short, we have decided to sell them quick and marked them so that they shall go quick.

We will show you an elegant light-weight Overcoat for \$6.00, made of fine all Worsred Goods, lined and trimmed in first-class manner. Coats for which other houses are asking \$10 and \$12, are no better

Another Overcoat at \$7.00 is made of a splendid all Wool Cassimere of a fine grey color with best serge trimming.

At \$9.75 we can sell you the most stylish looking Overcoat you have ever seen. This is made of the new wide Wale Overcoatings-a splendid material for wear and looks. The Coat is silk faced with satin sleeve lining and regular tailor made. We have them in several of the latest shades; it is one of the richest looking garments ever shown, and any other house would charge about \$15.00 for it.

Many other of the choicest and finest grades, we have not room to describe all. Come and look at them; we know we can please your taste and save you money.

We have not yet mentioned anything about our Hats this season, but the fact is, our Hat trade opened up with such a boom that several lots to which we intended to draw attention, were broken up in sizes before we had a chance to advertise them. We are now getting in duplicates already and will try to keep our assortment full during the season. Is it any wonder we are doing the Hat business of the town; when we are selling them at about one-half the prices, other houses do. The average Hat dealer can not compete with us. He buys a dozen hats of a kind from a jobber, where we buy them in large case lots direct from the manufacturer. We rather sell hundred hats with 25c profit on each than sell twenty-five hats and make 50c profit. THIS IS THE POINT.

Epps's Cocoa BREAKFAST. erties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored leverage which may saive us many heavy doctors bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle manadles are fleating around us ready to attack wherever there is a weak point. We may escape many a fatal start by keeping ourselves well fortified with pure blood and a properly nour-ished frame.—Civil Service Gazette.

Made simply with boiling water or mitk. Sold only in haif pound time by Grocers, labeled thus:
