All Wheat Futures Advance and "Old Hutch" Unloads Heavily.

FINE PROSPECTS WEAKEN CORN

Oats Fairly Active But Lower-Provisions liule Nervous, But Close Firm-Cattle Still Pouring in-Hogs Irregular.

CHICAGO PRODUCE MARKET.

Curcago, Sept. 2i.-[Special Telegram to THE BEE.]-An advance of 2@2%c in the whole list of futures was witnessed in the wheat market to-day. The full limit of improvement was not held, but the closing marks a gain of over 2c per bushel for leading futures. The market opened rather quietly at about Saturday's final range of prices. Almost immediately it became apparent that the demand was in excess of ofterings and prices started up. December advanced rapidly from 9314c to 93c, and May from 9636@9696e to 97c, At the improvement a large amount of wheat, estimated in some quarters as high as 2,000,-000 bushels, was sold for Hutchinson's account. Everybody knew of it and sesipers proceeded to tail on with their usual celerity. The market sold off 1/00%c. The offerings were absorbed hungrily by the commission merchants who had large buying orders for northwestern account. The market only paused a little while at the range touched on the reaction. Wary scalpers who had noticed the extent of the buying and its wholesale character changed front, and with the cessation of offerings the market turned and shot upward. From 93%c, December advacced to 95c, then to 95%c and after a little reaction to 95%c. It then worked back %c but afterward "streaked" for 16c. It did not stay there, however, but sold to 95%c, where it was resting firmly at 1:15 o'clock. The range for May, after an initial advance to 97c and a fractional reaction, was 96%(@98%)c. It touched 95%c two or three times. October ranged 18 @38c under December, and September went on an independent tack of its own, ranging from 94% cearly to 98c, with considerable trading around 96@97e on the back track. The last quotation was 99c. The market fairly bulged with lusty strength throughout the whole session on the second advance, as well as on the first. Hutchinson was a heavy seller. The extent of his realizing is, of course, an unknown quantity. Some of the traders guessed it as high as 3,000,000 or 4,000,000 bushels. Buying for northwestern account was the leading feature of the mar ket to-day. There was also tremendous pur-chasing for New York account. Wall street is firmly impressed with the truth of the short crop theory and is acting accordingly, both as regards Northwestern railroad securities and wheat market. Commission houses report an increasing general interest also, and there was a good local speculative investment inquiry. The lightening of Hutch-inson's holdings will be a welcome piece of news to the general trade, as it will be felt that the speculative situation will be stronger, with less of one man in it. The diffusion of his holdings, or a portion of them, among many, is what the bulls have been praying for. Now that they are in a fair way to have their prayer answered they will probably be satis-fled. There was good covering of short wheat by foreigners to-day at 95c and above. Cabies are generally of a better tone. There was tremendous excitement, on a small scale, in Duluth, and the wheat market advanced 4@5c a bushel. Frightened shorts and the actual scarcity did it. There is nothing especially new to note in the daily movement. It is large, but not what it should be, and the

Corn opened weak on large receipts inspected into store, and the continuance of fine maturing weather for the crop. Re-ceivers were free sellers early, but the pronounced strength in wheat produced a change nounced strength in wheat produced a change of sentiment which made the opening price the lowest for the day. The closing price of October was 40) a and firm. September closed even with October, November at 1c decline and May at 38\forall_{\text{c}}\text{c}, sellers.

Oats were fairly active with a further downward tendency, which was especially marked in cash and near futures. The visible supply showed an increase of three-quarters of a million bushels and receipts were large with 143 cars of contract grade posted.

quality averages low at spring and winter

large with 148 cars of contract grade posted. These facts, taken with liberal estimates for to-morrow, and no urgency to the demand, caused about a \(\frac{1}{2}\)c decline in cash and September. May was \(\frac{1}{2}\)c@\(\frac{1}{2}\)c lower, while the latter future was in fair request though easier within a narrow range. No. 2 in store or to go there sold at 233/c.

In provisions a rather nervous feeling held

control. Lard was well supported by En-glish houses, but in short ribs and pork there was a little disposition to bear the market. Still, after the early decline, trade in a great measure recovered its vigor, being strength-ened by the bull turn in wheat more than by any other apparent influence, and at ad-journment the product showed but little change from Saturday's closing. In October pork the day's last quotations were even at an advance of 21/4c, while October lard was unchanged, and October short ribs 71/4c lower. Later futures closed unchanged to November and year, pork 23/50 lower for No-vember lard, January lard and January short ribs, 214c higher for year lard, and 734c lower for January pork.

CHICAGO LIVE STOCK.

CHICAGO, Sept. 24 .- [Special Telegram to THE BEE. !- CATTLE-As yet there is no let up in the big run, and the week opens with more cattle in sight than at the same time last week, with the chances that a larger number will come to market this week than last. Fifteen thousand cattle on a Monday on top of 71,000 for the previous week any one can see is more than this or any other market can stand, and a serious break must follow. To say trade was duli would but faintly convey to distant readers the actual condition of trade. Up to 10 o'clock and after, buyers for beef packers had barely bought 500 head. Most of the buyers were sitting on fences amusing themselves in that peculiarly American pastime of swapping Buyers for shippers were also slow to get around and hard to please, each one delivering some bearish proverb that was enough to take "the tuck" out of any salesman. Shippers looked the stock over carefully and took the best of the natives and the best rangers and best Texans, paying about last week's prices, but anything below what could be classed as good sold lower than last week—how much lower it was impossible to get at. Taking a drove of good rangers as a comparison, that averaged about 1,400, and made \$4.75, values are fully 40,650c lower than ten or fifteen days are. made \$4.75, values are fully 40,650c lower than ten or fifteen days ago. The lot mentioned were Dilworth cattle from Montana, showing a good deal of Short Horn and Hereford blood. Taking the number—sixteen cars—they were as prime a lot of rangers as has been on the market this season. They were bought for Eastman for export trade. Cow stock, low grade natives and low grade and common Texans may be quoted as at the lowest prices for the year, and about as low as at any time last year. Common stocks cannot be bought low enough in the country to make any money here at present. The stocker and feeder trade opens rather slow for the week, with prices rather on the downturn than otherprices rather on the downturn than other-wise. Veal calves are in heavy supply with prices down to the low water mark. The recelpts include 9,000 Texas and western cattle steers, 1350 to 1500 lbs, \$4.85@5.50; 1200 tc 1350 lbs, \$4.00@5.25; 950 to 1200 lbs, \$3.30@ 4.00: stockers and feeders, \$2.00@3.15; cows bulls and mixed, \$1.25@2.75; bulk, \$2.00@ 2.25. Texas cattle steady; steers, 950 to 1050 lbs, \$2.60@3.10; 750 to 900 lbs, \$2.50@2.75; 400 to 700 lbs, \$2.35@2.60; cows, \$1.60@2.20; natives and halfbreeds, \$3.50@4.75; wintered Texans, \$2.75@3.80. Hoos—Trade opened active with prices

rather irregular. That is, in one division values were about as strong as on Saturday and in others 5@10c lower. Shippers and speculators kept the boom alive while they were in the market, but toward the close,

when they had what they wanted, values went down with a rush, the general market closing 100015c lower than at the opening, with common packing sorts and undesirable lots almost unsaleable. At the close good mixed would not bring over \$0.15@6.25 and common \$5.00@6.19, with light at \$6.00@6.25. A few assorted heavy sold late at \$6.40@

FINANCIAL

NEW YORK, Sept. 24.—[Special Telegram to THE BEE.]—STOCKS—The stock market was only fairly active at the opening, first prices as a rule being not far from Saturday's close, though Northern Pacific started out at a decline of % points. There was a moderate bullish feeling early and prices advanced in a small way, St. Paul and New England being once more the leaders both in activity and strength, the former recording a gain of 1 point. At the culmination of the advance the market became dull, and this was followed by a decline which extended throughout most of the list, values generally going a little below the opening figures. At noon the market was quiet at about the lowest prices of the morning. The day, as a whole, was uninteresting and without important features. Hocking Vailey sold down 114 points and Northern Pacific preferred closed 1% lower. There was some pressure on St. Paul, which went to 64 late in the day, subsequently improving in a small way and closing only a little lower than it opened. The remainder of the list closed generally a little under the first figure of the day.

The following are the closing quotations. The following are the closing quotations.

OMAHA LIVE STOCK.

Cattle. Monday, Sept. 24, 1888. The demoralization in the market shows no signs of abating, as the cattle continue to pour in. The market was lower a day and was very slow, although good many cattle changed hands. A The market was lower again towhen the market is breaking away every day, and when a bunch of cattle looks cheap one day and very dear the next, the buyers are slow to take hold of anything. Range cattle sold to-day at \$2.00@3.35 and feeders at \$2.60@3.20. Butchers' stock is abundant and is a good deal lower. It takes right good cows to bring \$2.00.

Hogs. The supply was light and the market slow at Saturday's closing prices. Seven loads were left over unsold. It is the season of the year when hogs usually go lower and that, taken with the yellow fever scare in the south, might cause a big break in the market any day. There is only one thing that will tend to hold prices up and that is the scarcity of hogs in the country.

Sheep. The receipts were heavy but the bulk was shipped east. A few good westerns were

sold at \$3.50. Receipts. Cattle..... 3,200 Prevailing Prices. Thefollowing is a table of prices paid in this market for the grades of stock mentioned. Prime steers, 1300 to 1500 lbs...\$4.50 @5.00
