Cottrell's Death.

Sunday, Alfred T. Cottrell died some what suddenly from the effects of a cancer in the lower jaw. He had been ailing for some time, but continued at his work as draughtsman in the city engineer's office at South Omnha until 1 o'clock Saturday, when he returned to his boarding house, and was dead at 3 o'clock Sunday. An examination of his effects failed to reveal the address of any living friend, and, in fact, all his papers seemed to have been destroyed with the exception of one well-kept duary. In that was a list of sums remitted to a wife and children in England, and an account of the expendi-ture in a six-years' course of schooling for one child, but not the slightest clue as to where they resided. Only 15 cents were found in his pockets, and the funeral will be in charge of his South Omaha friends. He was apparently about forty-eight or fifty years of age, and will be buried from Drexel & Maul's at 10 o'clock to-day in Forest

\$3,500 Goes Up in Smoke in the Early Morning.

At 2:40 yesterday morning the policeman on duty at Sheelys sent in an alarm of fire to headquarters, and the brigade at once turned out and proceeded to the corner of Twenty-seventh and Walnut streets, where it was found that a number of frame buildings owned by Charles Riewe, of Omaha, were in flames. contents was totally destroyed, the latter
being insured in the Iowa and Nebraska,

ABOUT FITZGERALD.

What Local Democrats Think of His

Ahe Bee's regular lester from Lincoln as will be seen in another column, states that at the instance of the Douglas county democracy the Lancaster county delegation will present the name of Hon. John Fitzgerald at the democratic congressional convention to be held at Nebraska on the 27th inst., and he will be the unanimous that choice of the convention as Mr. Connell's opponent for congress. Brief interviews

opponent for congress. Brief interviews with some of the leading representative men of the party here develops the fact that this report is wholly unfounded.

Postmaster Gallagher said: "Mr. Fitzgerald would certainly receive the full support of the party if he was nominated, as would Poppleton, Brown, or J. W. Paddock. But there is no truth in the statement that he is the choice of the Douglas county democracy, or that the Douglas county democracy has induced Lancaster county to put him in nomination, or caster county to put him in nomination, or any one else. We would like to see Fitzgerald nominated well enough if he could accept it, but the last I heard in reference to his nomination was that he was asked if he

would accept it and he emphatically declined. However, it lies between him and Brown, Poppleton and Paddock."

A. J. Poppleton remarked that he had heard some talk about the nomination of Fitzgerald, but beyond that he knew noth ing. He felt certain that there was nothing in the alleged coalescence of Douglas and Lancaster counties in the interest of any one. "There is nothing in it," said James Creighton with no little feeling. "There are two good reasons why John Fitzgerald should not be nominated at the approaching con-yention. One is that there is a fight between vention. One is that there is a fight between Lincoln and Omaha, and as is well known Omaha is clanish, and the different influences that would be brought to bear would greatly split up the vote. Another is, that there are three Catholies on the ticket already, and we do not wish to see the ticket encumbered with Catholies; it will greatly injure our chances. Mind I don't say anything against the Catholies is the control of the control o Mind, I don't say anything against the Catholics, for I can support a fair share of them as warmly as I can any other denomination, but any more on the ticket will greatly injure it, and I wouldn't like to see Fitzgerald slaughtered by Douglas county men, which would be the case if he were nominated. Charlie Brown is the man for the democracy to unite upon. He would be a winner.

Its Head, Hugh Murphy, Arraigned All Around.

Mike Meaney wants a change in his work. He has been ispecting Hugh Murphy's sewer work in the southwest part of the city and claims that he can stand it no longer. Questioned as to the grounds of his complaint, he explained that the foreman in charge of the work persistently and continuously endeavored to evade the specifications and slight the work; that while inspecting the work at the bottom of the thirty-foot sewer the cement above would be improperly prepared to the detriment of the work but for the interest of the contractor's pecket; that poor joints were made in the pipes, and in a dozen different ways the work was slighted and poorly done. When he remon-strated, he says, he was loaded with abuse. Some time ago he applied for a second in-spector to work above while he was below,

but could not get one.
Concluding, he said: "I am not a Hugh
Murphy inspector, but a city inspector, and
I do not propose to undertake a job which, owing to the evident determination on the part of those doing the work to defraud the city at every possible turn, I am unable to look after."

Smith's gang of cedar block pavers began Smith's gang of cedar block pavers began work on Seventeenth street north yesterdax and are proceeding very rapidly. This force last week completed the paving of Twenty-fourth street from Dodge to Farnam in tweive hours. They are delayed by lack of curbing, and are very emphatic in their opinion that the contractors for paving should also have the curbing. As it is now, they say, the curbing is done by a rival—Hugh Murphy—who makes it an object to retard the work instead of helping it along, and as a consequence they are kept dodring about as a consequence they are kept dodging about from one part of the city to another, losing time and losing money. It is stated by some men who worked with Hugh Murphy on lower Leavenworth street

that in some places the grade was not more than nine inches in depth, instead of twelve. The difference of two inches reported in Saturday's Bee represents a gain for the centractor, if the material be sand of between \$3 and \$4 per linear yard, which in a big job amounts to considerable

Sebastopol Will Remain With Us Until Spring.

A force of workmen is engaged taking down the scenery of Schastopol. The work will be finished in a couple of days, and then the material will be stored in this city until next spring, when it will be taken to San Francisco. It will require six cars to transport it. If it had to be carried as ordinary theatrical scenery is carried, it would require forty cars. The difference between it and the latter material is that it can be folded into small pieces, thus saving a great deal of costly space.

The senson of the spectacle comprised eighteen performances for which the proprietors were guaranteed \$25,000. The reprietors were guaranteed \$25,000. The re-ceipts have been about \$23,000. There is, therefore, a deficit of about \$2,000 in connec-tion with the cost of erecting the amphi-theatre, which with other expenditures will amount to about \$17,000. There is a feeling on the part of many of the gentlemen who gave the guarantee to have the amphitheatre remain, until next year, use the lake during the winter for skating purposes and the en-closure during the early spring for another the winter for skating purposes and the en-closure during the early spring for another entertainment with the prospect, later, of se-curing another one of Pain's great attrac-tions, the "Fall of Pompeli," possibly for a dozen nights in summer. THE SMELLING COMMITTEE.

What it Will Do and the Mayor's Sug-

President Bechel and Councilmen Lee, Lowry, Snyder and Alexander, left Sunday night for Des Momes and Minneapolis to examine a system of crematories for garbage. They will extend their trip to Chicago. The committee goes at the city's expense, and the mayor hopes that the result of their trip may be salutary to the city. He says that on the 9th of last May he suggested the appointment of a similar committee, but the

pointment of a similar committee, but the council failed to take action on the matter. It treated it just as it has treated other suggestions of his, yet when the subject is brought up by some members of the council, it goes through all right.

The mayor is incensed because of Hascall's delay of several ordinances which ought to have been passed long since, and which are delayed to the injury of the city. One of the principal of those ordinances is that outlining the duty of the police force, which was compiled with great care and which was compiled with great care and which was ready for passage some months since. As a consequence of this delay, the mayor claims that the police court is being run in the dark and that expedients must be resorted to in certain emergencies when there ought to be

OUR STOCK OF SUITS

For Fall and Winter was never more extensive and varied than now. Mens and young mens Suits have always been the most important part of our business. On the quality of our Suits and the prices we sold them at, we have built up our reputation. This Fall we have made special exertions to eclipse in this line all our previous efforts and we can safely assert, that no choicer exhibition of Suits was ever made. Our stock comprises all the leading styles and grades of goods. No description of qualities or naming of prices in this advertisement can do it justice; we simply aim that Every Suit we sell shall be a walking advertisement for us.

One feature about our suit stock is, we keep only reliable goods; we handle no shoddy or satinett suits. The cheapest suit we sell will be found to be made of strong and durable goods. The material is not as fine as in the better grades, but it can be relied upon to wear well, and the mechanic and laboring man who buys a low and medium priced suit of us will get as much satisfaction and be as well pleased with his bargain as those who buy the finer grade goods.

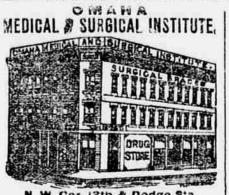

Another feature we want to mention is, that we can fit men of every build, from the variety of shapes we carry. We keep "short and fat," "long and slim" sizes especially for customers who have always found it hard to get fitted, and the prices are the same as for ordinary regular sizes.

Have you seen our 95c. Cassimere Hat? It will do you good to look at it. You will find some displayed in our corner window. We have them in several of the latest shapes. No hat store sells such a hat for less than \$2 or \$2.50. Don't think ours is worth less because we sell it at 95c. We "guarantee" every one of them, and our guarantee means just this much: If after wearing it you find you have not the satisfaction out of it as you expect to get out of a \$2 hat, or if you can show us any damage or defect, we will give you another hat, or refund the money. Is that fair?
