The United States Mercantile Protective association of New York has been in successful operation since 1882, havng members in every part of the United States and Canada. It is one of the strongest organizations in existence. They have had members in Omaha for the past two years and have given general satisfaction. They have all the large dealers in the state as members. The system is perfect and legal in all its workings. Each member handles all his own money, paying no commission, the entire cost being the small annual memberhip fee. No matter how much is collected, each member is furnished a list of all those that don't pay, thereby protecting them from future undeirable credits. Is being rapidly pushed to completion and we hope to open the same by the 15th inst. The changes and improvements which we are also making in the old store extend to every floor and department. We propose to have not only the largest, but also the best arranged and best lighted Clothing Establishment,

We have to apologize to our patrons for the present condition of our store, but it is unavoidable; we are not only crowded with goods but crowded with buyers at all times, and customers may find it a little inconvenient but they will find themselves amply repaid by the low prices we are making throughout our entire stock and the many bargains we are offering.

Our stock of Overcoats is enormous and the change in the weather has created quite a demand for them. We have everything imaginable, or at least desirable, and among our stock will be found many lots which are marked in price far below their intrinsic value.

The Mens' Suit stock is the heaviest ever shown and its variety warrants the assertion that whoever buys a Winter Suit without at least looking here, fails to consult his own interest. There is not an establishment in the west that offers the selection or names the prices we do.

Boys and Children are as amply provided for we still have some of the special bargain Knee Pant Suits at \$2.50 a suit, which would be cheap at \$5.00. We want every mother to look at this suit. In long Pant Suits and Boys' and hildren's Overcoats we offer great inducements.

Underwear you can buy of us at lower prices than the regular retailers pay for them.

Gloves, Hosiery, Neckwear and all other Mens' furnishings at lowest possible prices.

Hats are almost given away, at least you would think so if you look at the constant rush in our Hat Department. The quantities we handle of these goods, and the way we buy them puts all competition out of the question.

We have been occasioned much inconvenience ourselves by the indif-ference of the railroad officials, and some considerable expense, too. We have just got through with a case. Just now there is a big demand for store boards, and we have needed them badly. A car load arrived for us last Friday; we knew they arrived all right, for the train they were billed on came in all right. Yet we were unable to get at our goods, or even find them until late Tuesday afternoon, and then had to unload them at once or suffer the demurrage tax. #### Carcless Mail Delivery.

An honest man brings to THE BEE two scaled letters addressed plainly to 1801 South Fifth street, which he says were left in a hallway of Henningson's flat at 1112 South Sixth street. He further states that a few days since he found mail in the same place, addressed to Hickory street. The two let ters have been returned to the postoffice.

#### Married in Haste.

Frank L. Wine and Miss Ima Willard, of New Jefferson, Ia., arrived in the city yesterday early enough to breakfast at the Merchants' hotel. The young man inquired anxiously for Judge Shields, and could hardly wait for that gentleman's appearance. The couple were married as soon as court opened and take the next train back home.

## A Dilatory Sheriff.

It will be a week yet before Sheriff M. T. Shaw will arrive from Tucson, Arizona, with extradition papers for the arrest of Ed Harrison, the traveling man who is incarcerated in the county jail on the charge of forgery in the above named place. Harrison still pro-tests his innocence. He has been in confine-ment fourteen days.

## A Son of Mars Robbed.

A soldier named Abraham Toy fell into bad company Wednesday evening in the shape of a couple of affable young fellows. They took him down on the bottoms and made him gaze into the barrel of a revolver and ordered him to throw up his hands. He obeyed and one of the crooks went through his pockets and took \$40 in cash and a silver watch. A couple of suspects were arrested a few hours later, but upon Toy's declaring they were not the robbers, they were released again.

#### A. O. U. W. Pienic.

Over a thousand visiting members of the Ancient Order of United Workmen are expected in the city to participate in the basket pienic which takes place at Hanscom park to-day. Lodges at Lincoln, Fremont, Plattsmouth and other towns throughout the state have been heard from, and will be rep-resented. A grand street parade will, it is expected, be one of the features. Addresses will be delivered by Mayor Broatch, Grand Recorder Warring and Grand Commander

#### Slugged and Robbed.

On Thursday morning last he was returning from his work, and as he was about to ascend the steps of the house in which he rooms, 1821 Cass street, some person, following close at his heels, struck him a terrible blow on the back, felling him to the sidewalk. He lay unconscious from 2 until 4 o'clock. When

We've had them come in here and say they wanted two or three dollars for so and so, but they have never got it nor never will. We pay only legitimate bills, and pay them promptly too. It is the coal merchants that are chargeable with spoiling lows: a good many switchmen by sugaring them with free coal." Several contractors were also called upon

Several contractors were also called upon and they all declared that they are frequently and unnecessarily delayed, that carloads of stone, of brick, and building material are often kept standing in the hole for days when they are needed badly at the place where work is going on, and that there is neither excuse or cause for delay.

#### HEIMROD'S CHARGES

He is Getting Facts to Substantiate Them.

The charges recently made by Louis Heimrod, ex-member of the board of public works. regarding the evasion of contracts by firms

regarding the evasion of contracts by firms now doing work for the city, have impelled Mayor Broatch to address that gentleman the following letter: OMARA, Oct. 11, 1885.—Mr. Louis Heimrod, Dear Sir: I have been told that you are in the possession of information concerning the manner in which the contracts with the city have been executed, and which it would be to the interest of the administration and be to the interest of the administration and good government to know. If this is so, will you please give me the particulars over your signature. If there is anything wrong I de-sire to know it, that the interests of the taxpaying public may be protected. W. J. When completed, which I expect will be very soon, I will give the result, not only to you, but to the entire tax paying community of Omaha, and leave them to be the judges as to whether you or I were seeking to assist the administration of good government. ## THE UNION PACIFIC BRIDGE. The Terry People Claim it is a Viola-

of the Law. "As the matter is now in litigation, we

can't say anything on the subject more than this," said a Union Pacific official, referring to THE BEE's dispatch from Washington rel ative to the wreck of the steamer Terry. "The new bridge was really a rebuilding of the old one on the same plans, and it was built at right angles to the current and in every way according to law."

Inquiry elsewhere showed that the south-ern piers complained of had been removed, and that while there might be a cross cur-rent at the bridge it was by no means dan-gerous. The erratic action of the river was such as to render it impossible to control the currents that changed their course almost daily. The spans of the bridge were 250 feet from centre to centre of the piers, which would give an open channel of not less

than 238 feet. The question of the obstruction to naviga tion by the piers of the new bridge. Mayor Broatch says, came up before the Missouri river commission at its last meeting, but no action was taken upon it except to have it inquired into. Lieutenant Bingham, the engineer of the commission, appointed to that position by the war department, arrived here last night, and with Mr. Broatch will

make the expected professional inquiry. He has been in Plattsmouth for several days mak-ing plans and estimates as regards the im-provement of the Missouri river there, for thich \$50,000 was appropriated.

The appropriation for the same kind of work for Omaha amounts to \$150,000, and Lieutenant Bingham will make an inspection of the bank, and report as to how the amount should be expended.

#### The Latest Effect of the Mayor's Order.

At an early hour this morning pasteboard cards bearing the inscription "Gone but not forgotten" in black stencii letters, and secorated with a piece of crape, were found hanging from many door knobs in the "proscribed district." They were hung there by order of the refugees or some young fellows on a lark. On one knob hung the placard "I stand in with M. B.," presumably Last night Captain Green, with a squad of police, started on a tour of inspection to see what women have not complied with the order of the mayor. All are to be arrested
