FROM OCCIDENT TO ORIENT.

The First of "Garp's" Series of Asiatic Letters.

LIFE ON A PACIFIC STEAMER.

Fifteen Days With the Chinese—How They Eat, Drink, Sleep, Smoke and Gamble—Necessity of Good Clothes.

Land of the Mikado.

TOKYO, Japan, September 23.—[Special Correspondence of THE BEE.]—With this letter I begin the description of a tour which I am taking in the interest of the readers of THE BEE in the out-of-the-way districts of the eastern world.

It will be interesting to know something about the preparations one makes for a trip around the world. The journey to Asia has more requirements than that to Europe and few of the travelers who understand where they are going confine themselves to a valise.

THE NECESSITIES FOR A TRIP TO ASIA. In the first place you want a good sized letter of credit which you can get in New York and which will authorize you to draw from banks all over the world to the amount specified upon it.

identification. It is on such credentials that all traveling is done and millions of dollars are paid out in this way at foreign banks every month.

A PASSPORT, and this is especially necessary in Asia. You can get this by applying at the state department at Washington, and it costs you \$1 instead of \$5 as formerly.

Age thirty-three years; stature five feet eight inches; forehead high; eyes grey; nose prominent; mouth medium; complexion fair; face oval; chin short; hair Auburn; (it is red).

I carry three trunks, and two valises and it is as necessary for a traveler here to have his evening suit and swallow tail coat as it is at Washington.

In addition to clothes one should take a supply of simple medicines with him and if he is fastidious in the use of soaps and perfumery he had better bring in a good stock of articles of the toilet.

THE PACIFIC OCEAN is virtually different from the Atlantic, and Pacific ocean travel offers almost as many new things as one of the continents of Europe.

CHINESE SAILORS wear a dress which is a cross between that of the American Chinese washerwoman and the pure celestial.

made the fastest time on record, which is fifteen days and twenty-two hours. As to accommodations, our steamer was fully as good as any steamer of the Atlantic and the cooking of the Chinamen was fully up to that of a French chef.
