CHICAGO PRODUCE MARKET. CHICAGO, Oct. 18 .- Special Telegram to THE BEE !- The wheat market was dull and sarrow to day. Prices fluctuated nervously within 11/60 2c range, December covering the most territory, and at the close speculative values were not materially different from yesterday. Up to noon December had sold off from \$1.12 at the opening to \$1.1134, back up to \$1.13%, and down again to \$1.12%, ral lying therefrom to \$1.13 $^{\circ}_{2}$. The close at 1.15 p. m. was \$1.11 $^{\circ}_{4}$. May ranged \$1.11 $^{\circ}_{4}$. (4.13 $^{\circ}_{8}$ up to mean and about that hour stood at \$1.12%, or fractionally above December. At this writing the bears feel that they have the best of the market argument and that they are warranted in making a standing by the broad assertion that prices are only kept on their present basis by artificial means and that they should seek and find a lower level They point to the fact that Chicago is out of line with everyother market except. Duluth and Minneapolis; that it is violently out of tune with the foreign markets; that this country is plugged full of flour, enough to last three or four months; that the demand for all grades of flour, and notoriously for the lower grades, has fallen off and that a considerable period must elapse before renewed inquiry on a large scale can be looked for to supply home consumptive needs. They refer to the daily reports from the seaboard to prove that our export trade has come to practically a dead stop, and to cables to substantiate the statement that the old world has too full a stomach and too much old wheat in reach to be alarmed about supplies for a long time ahead. The bears admit that crops are short at home and abroad, but they hold that the persistence in attempts to maintain values at this stage of the crop year so high that neither wheat nor its products can be exported can only resuit disastrously and in the accumulation of a big surplus at the "heel" of the year when the stock should be low. They admit that speculative capital can carry speculative grades of wheat until consumers again begin to take fancy flours at high prices, but they pertinently inquire, "Will not speculative capital get tired before the end of the journey and want to get out and take a rest!" Numerically the bears are largely in the majority in the grain trade at this juncture—not "bears on the crop" but bears for a healthy reaction, that American markets may recede to a point that will relieve the pressure and render a further advance later on easy and natural. "Are we independent altogether of Europe?" is a question the bears are going around asking each other in a whisper. The market clearly has two sides now. The bull party is on the defen-sive and the bears are once more assuming an aggressive attitude and fortifying their position with arguments that are more or less influential—more so certainly than when the bull fever was on and prices were 10c Fears of manipulation in December seem to be subsiding, though the existence of a large short interest in that month is still shown by the failure of December to assume its natural relation with May. To be sure the difference widened considerably to-day and December shorts are displaying less nervousness than they have done lately, but the trades are a long way from being evened up. The drift of the market the last hour was down and just before the close prices were at the inside range reached on the early break. December worked off to \$1.11½ and May \$1.12½. At one time during the session December was a quarter over May, but it was at a discount of 3,@34c most May, but it was at a discount of %@%c most of the time, and at last the difference was %c. The great bulk of trading was by scalpers, and their disposition was to sell the market off. They are still very "skittish," however, and run at the first sign of danger. On the

The closing range was nearly 1c lower than yesterday on near futures and very little changed from yesterday on May. The public is not taking a very large interest in wheat at this moment and is apparently waiting for the break which it has been led to believe is imminent. een led to believe is imminent.

There was a good demand for corn at the opening of the market, induced by receipts showing up less than yesterday's estimates, together with wet weather, which continues to threaten small receipts of No. 2. The to threaten small receipts of No. 2. The brokers of a prominent operator were both buying and selling and the action of the market, for the most part, was a re-flection of the efforts of local speculators to follow the rather obscure lead of the aforefollow the rather obscure lead of the afore-said party. The receipts for to-morrow being estimated as high as 730 cars caused a weaker feeling to prevail about noon and caused the market to sell off about 1c from its high point. The lower tendency of wheat also, in the latter half of the ses-sion, contributed to the decline and caused the latest prices to be around the lowest of the day. November, which led in activity, after its firm opening at 44% c closed at 43% c bid, a loss of ½c from the first price of to-day and of ¾c since yesterday's close. Later futures all closed at figures which prevailed

upturns the market travels about ten times as fast as on the downturns. This is largely due to the nervousness of the shorts, who recognize the ability of the leading longs to twist them whenever disposed.

at the close of the preceding day.

Oats were quiet and dull, though at the same time they were firm with trading consame time they were firm with trading confined almost entirely to May, which was in fair request around 29½c, selling ½c either way from that point. Near futures were nearly normal with light business in store oats, which were ½c higher at 24½c, with seller the month at about the same figure. Receipts were moderate, but there was an increase in the estimates for to morrow.

mates for to-morrow.

The provision trade was quite bullish in its tendency. Comparatively free buying of January pork by prominent speculators strengthened the market in a decided manner, and with exceptions of October pork and short ribs the entire line of deliveries traded in sold and closed at a substantial traded in sold and closed at a substantial advance over yesterday's final prices. The bull side for futures after this month was regarded with unexpected favor, and the January product particularly sold with more than usual freedom. The day's actual advance amounted to 30c on November, year and January pork, 7½c on November and May lard and January short ribs, 5c on year and January lard and 27½c on May pork. October pork was again held at \$15 and in October short ribs a decline of 27½c was suffered.

CHICAGO LIVE STOCK.

CHICAGO, Oct. 18 .- [Special Telegram to THE BRE.]-CATTLE. -Business was slow from the opening to the close. In the first place receipts were greater than was anticipated, and secondly the day was wet and stormy, the rain falling almost all the forenoon. Natives of all classes, steers, cows and buils sold a shade lower than Saturday. There were scarcely a half dozen loads of prime na tive steers on sale and the very best equal to any here this week only sold to \$5.90. Medium natives were again neglected. Buyers that wanted that quality of stock preferred prime rangers, of which there was a liberal supply. Range stock sold fully as high as yesterday and Texans sold about the same as yesterday. Cow stock, bulls and scrub na-tives, in fact anything that had to compete with Texans, sold a shade lower. There was with Texans, sold a shade lower. There was a steady demand for stockers and feeders with little or no change in prices as compared with the past week or so. The receipts include 7,000 western and Texas cattle; choice to extra beeves, \$5.80\(\pi_6\).59; medium to good steers, 1350 to 1500 lbs, \$4.20\(\pi_5\).25; 1200 to 1350 lbs, \$8.50\(\pi_6\).30; 950 to 1200 lbs, \$3.00\(\pi_6\).35; stockers and feeders, \$2.00\(\pi_6\).30; cows, bulls and mixed, \$1.90\(\pi_6\).50; bulk, \$2.10\(\pi_6\).245; Texas, \$2.00\(\pi_5\).50; fair to good, \$4.40 (\pi_5\).00; bulk, \$2.10\(\pi_6\).25; stockers and feeders, \$2.00\(\pi_6\).35; stockers and feeders, \$2.00\(\pi_6\).35; fair to good, \$4.40 (\pi_5\).00; butchers' steers, medium to choice, \$3.55\(\pi_6\).40; stockers and feeders, fair to

2.30; western rangers, \$3.25@4.70; cows, \$2.40s@3.00; wintered Texans, \$2.40s@3.50. 10.08—To-day witnessed another sharp down turn of 10.013c, and in some cases 20c. The run was not heavy, but packers hammered the market all day long, and speculators who usually expect packers to follow their lead, saw the handwriting on the wall. and hurried off, hence the rapid down turn, so that at the close good mixed were selling at \$5.600.5 70, and best heavy at \$5.750.5 80 a few fancy heavy and Philadelphias sold early at \$5.856(5.96), but at the close such were not worth over \$5.80; asserted light of 170@150 lbs. averages sold round about \$5.05eg 5.70, and light-light at \$5.50@5.55.

FINANCIAL.

New York, Oct. 28. - [Special Telegram to THE BEE !- STOCKS-There was a light spasm of weakness early in the day, but the recovery was prompt and the tone became more firm. Prices during the forencon showed but little variation. London was a moderate buyer, but the transactions were not productive of anything interesting. At noon the market was very dull and steady, cenerally at about the opening figures. Union Pacific was the strongest feature, and this helped the remainder of the list. The favorable showing of Oregon Short Line for August was an important factor in this strength manifested. The buying was by Work, Strong & Co. and Boston houses, and stock advanced to 65%, closing at 65, a gain of nearly two points. Missouri Pacific was weak, with a number of bear points on it. Mr. Goald was credited with a large share n the depression. The close showed several stocks \ (a) point higher and many not materially changed.

The following were the closing quotations The following were the closing quotations:

OMAHA LIVE STOCK

Cattle.

Thursday, Oct. 18, 1889. Reports from eastern markets were not encouraging, indicating a decline of 10c, and the market here was dull and lower. The reccipts were not heavy and the cattle nearly all westerns. The dressed boef operators bought quite freely, maying \$3,10 for thirty-one loads. Butchers' stock was easier and sold mostly at a range of \$1.5002/45. The trade in feeders was very slow. The supply of feeders was light, there being very few fresh natives and not many westers that were at all desirable.

Hogs. A few sales of the best heavy hogs were made early at about steady prices, but uside from that the market opened lower. As the later trains continued to roll up the receipts market grew weaker and closed a strong lower. Although the market here has been going lower every day since Monday, the decline has been no more than at Chi-cago. Hogs sold on this market within 20e of the extreme top in Chicago.

Sneep. The receipts were heavy, but the market

Live Stock Notes

Cattle easier. Hogs still lower.

It takes good hogs to bring \$5.50. C. L. Eaton, Bostwick, came in with cattle William Fox, Brainard, came in with cattle. Average weight of hogs last week was 2:3

E. P. Hanson, Pender, came in with a load New York shippers paid \$5.40 for assorted light hogs. John Jack, Dorchester, was in looking over the market.

R. K. Stowe, Red Cloud, was in with two cars of cattle. John Dern, Hooper, sold a load of hogs at

\$5.70, the top of the market.
Rollins Sherman, Tobias, Colo., came in with eight loads of western sheep. Ed. Davis, Red Oak, Ia., came in with three loads of hogs which sold on the market. It took the buyers a long while to break the hog market, but now that it is fairly started on the down grade there is no telling where it will stop.
