A centrally located, finely furnished room to rent to one or two gentlemen. Must furnish references. Address T. 10, BEE office.

All voters should bear in mind that the registration books will be opened to-morrow and remain open until Saturday night.

The ladies of the W. C. A. will give a dinner and supper at the Pacific house on the 25th inst., the day of the great republican rally, the proceeds to be for the benefit of the hospital.

M. M. Francis, the bald-headed singer with light-fingered propensities, is languishing in the county cylinder in default of \$500 bonds to appear before the grand jury.

Two lone drunks was the sum total of business in police court yesterday morning. They could not pay their fines, and were locked up again, more inescapably than before.

Mr. P. J. Emig has in his possession a large piece of lava just sent him by his friend, Prof. Hall, who is sojourning in Italy. The specimen was picked up at the foot of Mount Vesuvius.

It was found necessary to raise the electric motor wires over the North-western crossings, as they were of the exact height to catch the brakemen under the chin. There is now no danger of accidents from this source.

By Rev. D. H. Cooley, October 22, at the residence of the groom, 812 Avenue C. George W. Cooper and Mrs. Ellen A. Hughes. The party assembled celebrated both Mr. Cooper's fiftieth birthday as well as his wedding.

Mr. J. W. Rick has disposed of his interest in the St. Joe house to Mr. A. Baldwin, a gentleman who came here about two years ago from the eastern part of the state, where he had resided for twenty-five years. He is a pleasant gentleman, and will make a popular landlord.

The Royal Arcanum gives a sociable to its own members this evening. A series of six parties will be given during the season. These will be select affairs and only those holding tickets will be admitted. They have proved very enjoyable occasions in the past and are looked forward to with much anticipation.

The new power house of the electric motor line is completed and the machinery is nearly all in position. The mechanic in charge says he can get up steam Sunday morning, if necessary. The switches at the corner of First street and Broadway will be completed to-day, and the track work will then be finished.

The old Rescue fire engine is being "shined up" to take part in the parade on the 30th. When the boys want to make a show they fix up the Rescue, but when it comes to cleaning out ponds and throwing dead dogs, stone walls and old tin cans they pull out the old Bluff City, the machine with the angle of the cylinder and the digestion of the Atlantic ocean.

Yesterday Henry Eiseeman & Co. placed in their windows two elegant silver water pitchers, which will be given on the 25th inst. to the best gentleman and lady delegation attending the republican celebration. The pitchers are beautifully chased, gold lined and will undoubtedly excite some rivalry for their possession.

The fire laddies at No. 4 hose house are preparing a miniature hook and ladder truck for the grand parade on the 30th. A large Newfoundland dog belonging to Ed. Brooks will furnish the motive power, and the little son of Assistant Chief Nicholson will act as driver. The whole turnout will be well gotten up, and will doubtless attract a great deal of attention.

The project for having an up-town union depot has not been discussed much lately. Some moves are afoot, however, which will have a tendency to hasten the enterprise to a speedy start. Council Bluffs needs to have its scattered and shabby local depots supplanted by a conveniently located, well equipped union depot. With such a depot and a new, grand hotel two of the greatest needs of the city will be met.

The approach of election day brings many applicants for naturalization papers to the office of the city clerk. An average of ten or twelve a day are issued. Politicians exhibit a remarkable degree of interest in the matter, and are more active than the average bunko steerer in getting in their fine work. The democrats are especially active, and are evidently in considerable doubt as to where they are going to get their great majority in this county, of which they talk so glibly.

Judge Carson is presiding over the district court in the absence of Judge Looftbourou, who will return about the latter end of the term and give decisions in several cases now pending before him. Several matters of importance are to be decided by him before the expiration of his term of office, which occurs at the end of the present year. At present the court is merely being kept open from day to day to give parties who are ready a chance to have their cases heard.

The committee having charge of the matter of selecting prizes to be given to the finest appearing clubs taking part in the republican parade to-morrow evening have decided to expend the money appropriated for the purpose in two handsome water sets, costing \$75. One will be given to the best ladies' club and the other to the best gentlemen's club. The committee at first tried to get banners, but owing to the great rush of orders found it impossible to get what was wanted. The water sets are of practical use, and can be disposed of after the campaign, if it is so desired. There will be much competition to win them.

CORRUPTING THE YOUTHFUL.

Boys in Their Teens Loitering About Houses of Prostitution.

WHY HE WANTS TO BE FREED.

Agitating for an Ice Carnival—St. Andrew's Brotherhood Recognized—The Board of Trade—Personal.

Better Watch Your Boys.

A great deal of complaint is made regarding the action of many of the denizens of "The Row" in employing boys of the age of twelve to fourteen years to act as errand boys. Many of the pupils of the public schools are daily employed in this way, and although the teachers are cognizant of the fact, they are powerless to prevent it. It is a sad state of affairs, yet, nevertheless, a true one in this city at the present time.

Some of these boys spend all their spare time hanging around the houses of prostitution. Some of them are sons of the first families in the city, and their parents have not the slightest idea that their sons were ever in such a place in their lives. It is but a few days since two of the teachers of the public schools were standing talking at the corner of Pierce street and saw two boys well known to them emerge from one of these houses and sneak out of sight, unconscious of the fact that they were watched, but evidently ashamed of being seen. The attention of the police is called to the matter, but this will not suffice without decisive action on the part of the parents. Something is wrong somewhere when boys just entering on their teens are found hanging about houses of prostitution whenever they can get away from home, and doing odd errands for the unfortunate creatures who make their homes there. Immediate action is demanded.

To Peculiar a Husband.

In the district court yesterday the divorce case of Addie White vs. W. I. White was heard by Judge Carson, who will probably grant the desired decree. The chief charge made by her is that he failed to support her. It is said that their wedded life was not longer than twenty-four hours. White is a character, whose eccentricities border beyond crankiness even to insanity. He pretends to have a miraculous gift of healing, and hence has gained the title of "Doc" White, though not to be confounded with the reputable physician of similar name. White claims to have prophetic visions. Some of them are prophetic, and are narrated with much gusto by him, after the events have taken place. His latest vision is that Cleveland will be president for eight years, but he leaves it very hazy as to whether it is to be four more years in the future, or whether Cleveland's present term will suffice. When Cleveland visited this city White presented a card to him and claimed that when the president was suffering from rheumatism some months before, he cured him by some magical use of saliva. A guiding star and an abundance of saliva seems to be the basis of his curative powers. It seems no wonder that a woman could not expect to have one of the greatest things ever witnessed in the west.

The summer season is to be well provided for by the Chautauqua, but this cannot be utilized in the winter. With some cold weather attraction of similar magnitude, the year around would be provided for. The Chautauqua promises to be the greatest attraction which could be devised for the two cities. Not only will the grounds be used for strictly Chautauqua purposes, but it will speedily become a national park for the commendation of all sorts of great gatherings of societies and associations.

Chamberlain, grading, \$1,100. The finance committee was instructed to properly furnish the private office of the city auditor, recently fitted

up in the rooms formerly occupied by the city engineer. The session was of short duration, and the council adjourned until after election.

Work will then be commenced on Bluff and Pierce streets, the last of these covered by the contract with this firm. Personal Paragraphs.

A. Wheeler returned yesterday from New York, having been absent some months. He did not know of the wreck of the Herald until he saw it in THE BEE while on his way here. As he was a stockholder in the concern, his surprise was great.

J. M. Anderson, captain of the Merchants' police, returned yesterday from a week's hunting trip on the Sioux river. There were seven in the party—Henry Metcalf, Richard Green, Will Keelene, George Green, S. Farnsworth, Doug Harlan and John Anderson. They had splendid success, the party killing over three hundred ducks during the week. Notwithstanding the heavy bags, the boys did not have half enough to go around. They did not know that they had so many friends until they returned to the city laden down with fine, plump mallards.

St. Bernard Place.

This is an additional property platted by our enterprising townsmen, Conrad Gleason, and placed on the market with J. G. Tipton, the real estate broker, as sole agent. It is one of the very handsomest locations for fine residences in the whole city. The lots are 50x250 feet, dotted over with beautiful natural forest trees, and with one of the most commanding views to be found. For particulars regarding prices and terms, call on Mr. J. G. Tipton, at 527 Broadway, where you will always find a conveyancer to show the property.

The Board of Trade Meets.

There was an unusual turn out at the board of trade meeting last evening. President Wells presided. The matter of locating a broom factory came up for discussion on the report of the manufacturers' committee. It was referred back to the same committee and H. L. Shepherd was added thereto to act in this effort.

The same committee reported on the proposition of an overall company, that their requirements for a building 40x160, as a bonus, is too extravagant, but that they be invited to come here, look the ground over and if possible get them to modify their requirements. The report was received and adopted.

Mr. J. H. Lewis, of the Cherrier Directory company, has been made a formal proposition to the board to get up a directory of the city. Mr. Cotter,

of Omaha, appeared by proxy in the same matter. The proposition of Mr. Lewis was accepted, the directory to be completed and delivered within four months. The following gentlemen were appointed as a committee to close up the matter with the company: Messrs. Weiss, Day and McConnell.

Mr. Day moved that the city council request the Chicago & Northwestern railroad company to arrange for a change in the method of doing its switching so as to leave Broadway unobstructed by the cars. Carried.

Mr. Wies moved that the special committee, having in hand the matter of freight rates on coal, be authorized to employ competent counsel to present the case to the state railway commissioners on the occasion of their contemplated visit here. Carried.

Mr. Day moved that hereafter the board meet regularly on the first and second Tuesdays of each month. Carried.

Prof. Gentry's Canine Paradox exhibited at Dolans yesterday afternoon and evening. The feats of the sagacious animals were truly marvelous, and won loud applause from the audiences, which were smaller than the merits of the entertainment deserved. The wonderful jumping of Prince, the "king of the dog," the lightning feats of Prince the clown, and the wonderful performances of Nankapoo, who circled the stage on his forelegs, were but a few of the many marvelous tricks.

The Catholic fair at the Masonic temple will continue during the balance of this week. Baby show and trip-lets exhibited Friday and Saturday afternoon. Admission 10 cents.

The attention of those taking part in the trades display has been called to the fact that the electric motor wires are eighteen feet from the ground. Nothing has been said of the Broadway incident, in which a child was killed, who is much lower. The matter is worthy immediate consideration.
