ADDITIONAL COUNCIL BLUFFS The Dirty Row Must Go. Said a prominent citizen yesterday: 'It is but a question of time when 'The Row' will have to go, and a very short time at that. It is located for a pleasant drive, and as soon as the proposed paying is completed it will be used exten-sively for this purpose. Our citizens will not tolerate any such orgies as have disgraced this locality in the past, and the denizens of the houses will have to move to other quarters. As long as the street was knee-deep in mud, no ohe cared to travel on it; but now that it is to be made a beautiful pleasure drive, it can not be allowed to remain in the same dismantled condition that it has for years. Pressure will be brought to ear on the city council, and inside of a year 'The Row' will be converted into a respectable residence portion of the city. All that is needed is to drive out the present class of tenants, and the delapdated shells of dwellings would be torn down to make room for handsome resig dences. It is too bad to allow such val-uable lots to be covered with such old rattletraps right in the heart of the city and only a block from Broadway. They are bound to go, and it is time that something is done about it. The council has but to say so and the 'chromos' will have to move. An attempt to drive them out of the city seems useless, but they can certainly be confined in quarters more remote from the center of the city, and where they

will not be continually before the eyes of respectable citizens." It's as plain as a pike staff that any article of pastry or food flavored with adulterated flavoring cannot possess the wholesomeness or agreeable flavor of one in which a strictly pure fruit extract like one of Van Duzer's has been used. The flavoring extracts prepared by Van Duzer & Co. are from sound fruit, highly concentrated, contain more than usual quantity and are therefore than usual quantity and are therefore doubly economic. Their flavor is sup-

erb. Grocers everywhere sell them.

An endless railway train, consisting

An endless railway train, consisting of 400 platform cars, is to be one of the attractions of the Paris exposition. The rails will be sunk so that the platforms will be on a level with the surface, and the train will run slowly enough to permit most people to step on and off while it is in motion, but, for the accommodation of elderly people, a stop of afteen seconds every minute will be made. The motive power will be electricity.
