THE OMAHA DAILY BEE: FRIDAY, OCTOBER 26, 1888.

LINCOLN NEWS AND GOSSIP.

The City Enjoined From the Collection of Special Sewer Taxes.

A NEW NEBRASKA ENTERPRISE.

Interesting Coremonies at the Dedication of the New Wesleyan University-Matters in the Supreme Court.

LINCOLN BURBAU OF THE OMAHA BRE, 1029 P. STREET, LINCOLN, Oct. 25.

Suit was brought by J. D. McFarland in the district court to-day against the city and City Treasurer Jones to restrain the collection of the special sewer tax in the so-called sewer district No. 1.

The petition recites the voting of bonds to the extent of \$100,000, for the construction of sewers in 1856, and that about eighteen miles of sewers were constructed with the proceeds of the bonds voted. That the ordinance defining sewer district No. 1, as published, does not define any district whatever. That a inatority of the resident property owners in the pretended district did not, nor did any of them, petition the council to make the improvement, and the same was not ordered as assented to by a vote of three-fourths of the members of the city council. That without authority of law the board of public works entered into a contract with one Miller for the construction of sewers, and after he had constructed them the same council pretended to sit as a board of equalization for two days for the purpose of equalizing the assessments. That at the time of this sitting the as-Bessment had been made as required by sec-tion 68 of the charter, and that the assess-ment as procided by that section has never been made. That the city council pretended to hold a session of two days as a board of equalization, commencing on the 20th of August last. That on the 27th, or the first day, there was nothing before the board upon day, there was nothing before the board upon which to act, and nothing to apprise the owners of property subject to tax of the amount assessed against their property. That on the second day the city engineer made a report fixing the assessments, which was at once adopted by the board of equal-ization, and the board adjourned. It is further alleged that the assessments is made by the cover and a arbit.

it is further alleged that the assessments as made by the engineer were made arbi-trarily and without regard to the benefits derived. That the property of the plaintiff is not benefitted by the sewers, and it is also alleged that a member of the council has a direct pecuniary interest in the contract. The plaintiff, therefore, prays that the treasurer be enjoined from collecting or attempting to collect the tax and from - paying any money on a warrant for about the sum of \$30,000, issued to the contractor in payment for the construction of sewers.

Construction of sewers. Judge Field granted the injunction this morning, and thus commences one of the most deeply interesting cases ever taken to the courts against the city. For some time past there has been rumbling and grumbling, but this brings the matter to a focus. The rebels in sewer district No. 2 have a keen eye upon the outcome. It will furnish the food for their cry if the injunction is sus-tained, and in that event the council may find a millstone around its neck. CHANCELLOIG'S DAY.

CHANCELLOR'S DAY. The Wesleyan university was formally ded-The Westeyan university was formally ded-icated yesterday afternoon. It was a notable occasion. The exercises took place at the new university, just completed, three and a half miles east and a little north of the heart of the city. The elegant and spacious chapel was filed to its utmost capacity, and the ex-ercises commenced promptly at 3 o'clock. Presiding Elder Leighton, of Chilicothe, Mo., read the opening hymn, and Rev. T. B. Lemon, the father of Methodism in Ne-braska, pronounced the invocation. It was a humble, fervent offering of thanks to the ruler of heaven and earth. Rev. W. G. Miller presented the address on the part of the trustees, and he feelingly remarked as be handed the key to Chancellor Creighton: "The opening of the university is looked "The opening of the university is looked upon as the culmination of two years of prayerful and earnest work to unify the edu-

MANUAL FOR NOTABLES PUBLIC, S VO., price \$2, by Florien Gianque, of the Ciminnati bar; published by Robert Clark & Co., Cincinnati.

This is a well arranged work, in which the author discusses in a practical way, and tells how to execute deeds, mortgages, leases and similar instruments. acknowledgments, affilavits, depositions, oaths, proofs of accounts, etc. protests of notes, bills of exchange, and other mercantile paper in and for every state in the union. The opinion of a literary critic upon a work of this character would be superfluous. As far as a mere layman can understand these things the ground is covered, and the work is done with excellent method and precision. Its usefulness is clear.

Proprietors:

ial sysu The wisdom of having the higher and more expensive work done in the central univer-sity is therefore apparent. May God guide in the direction of the affairs and great work of the institution."

Bishop Newman's talk was cheerful and thoughtful. He said that the christian homes of the state were looking to the chancellor for the protection of their sons and daughters, and that the church would look to him to proclaim the beautiful harmony that etween nature and christianity. In closing he invoked upon his head length of days, vig-orous health, unimpaired intellect, unflagging real and indomitable perseverence.

The inaugural address by the chancellor followed. It was an effort rarely if ever surassed in the church or educational circles of incoln. Nothing but the text in full can do it justice. Governor Thayer followed with an appropriate address. In the evening at St. Paul's the university address was pronounced by Bishop Newman. The church was crowded. The address was replete with beautiful illustrations and figures, and not without touches of brilliant humor, and the sterest of the audience was held to the close. It is now a day given to history, and it will go down to the future generations as such. THE MIDWAY LAND COMPANY.

Another company of great importance to Kearney and western Nebraska filed articles of incorporation with the secretary of state to-day. The Midway Land company is orga-nized with a subscribed capital stock of \$300,-000. Its organization is after the plan of the Frank Investment company, minutely de-scribed by Tur BER a short time since. The company will buy and sell lands, plot town sites, negotiate loans, establish manufac-tories, and transact all business appertaining ercto. The articles show that there may be perpetual succession, and that the busi-ness of the company will be conducted upon very strict business principles. E. M. Tabor, A. Baker, L. M. Baldwin, Freeman Fields, Aaron Hull and other prominent business men evidence the solvency and reliability of the corporation. It will certainly be one of instruments in any boom Kearney may have in the future.
