Ten Years of Wedlock.

Last evening was the tenth anniversary of the married life of Mr. and Mrs. J. G. Tipton. Many friends remembered the fact and at an early hour the home, No. 1027 Fifth avenue, was t'ironged by a merry party. And it was a merry one indeed. Gifts appropriate to the occasion were numerous. Various games, music and dancing whiled away the

A choice programme is prepared for the concert at the Congregational church this evening. Mrs. Wadsworth, one of the finest sopranos in the west, and Mrs. Skelton, who as Nellie Bangs won such a reputation as a planist, will both take part. No music lover should miss the treat.

Judge Loofbourow was on the bench in district court yesterday morning. There was but little business to be transacted, and the session was short. A motion for a new trial in the damage case of Vernon vs City of Council Bluffs was argued and submitted, as was also a similar motion in the damage case of Hough & Markeson vs Danforth & Hoover.

It has at last been determined what designation applies to the man who pulls the levers on the electric cars and manages the mighty current. The new badges just received by the motor company are of two classes and bear the words "conductor" and "motor man." The motor man is on a par with the engineer, driver, gripman, etc., of other lines.

Yesterday Fred J. Breeze received from S. A. Hoagland and William Preston, of Omaha, heads of a monster elk and a black-tailed deer, recently shot in Montana. They are magnificent specimens of their kind. Breeze has also a gray owl which measures five feet from tip to tip. This was shot at Big lake by Uncle Dan Furguson.

The sight singing class will meet this evening at the residence of Mrs. D. W. Bushnell, 202 Fourth street. The members are requested to be in their places promptly at half-past 7 on account of the concert in the Congregational church, in which Mr. Bactens, the teacher, takes part near the end of the programme. It is hoped that after the lesson many as possibly can will attend the con-

Many of the Knights Templar and aides who took part in the parade had not been on a horse before for several years, and many of the horses had not been under a man be fore for about the same length of time. Th animals stood the ordeal very well, and re-covered quickly, but the riders did not appear to have entirely forgotten it when they appeared yesterday morning, and their move-ments were anything but graceful.

H. E. Grimm, the local representative of the Omaha World, filed an information at the office of the county cleric charging "Doc" White, an eccentric oddity of the city, with insanity. The journalist alleged that the man of wonderful cures annoyed him. The board of insane commissioners failed to de tect any serious symptoms in the case of the unfortunate victim, and he was allowed to go on his way rejoicing.

The motor cars made numerous trips yes terday afternoon, and were very liberally patronized, as everybody was carried free of charge. The current was turned on both wires, and the south track was used by east-bound cars and the north by westbound, as will be the case in the future. The motors worked nicely, and gave evidence of being all that could be desired when the line is finally in active operation.

Before the grand demonstration of Tuesday there were countless croakers in this day there were countless croakers in this city who could find nothing to say in favor of Council Bluffs, and nothing against Omaha. It was quite a surprise to old acquaintances to hear them talk yesterday. The splendid trades display rotten up by the energetic merchants of the Bluffs had changed their minds, and they are now willing to back our lively heautiful and measurements of the aciust lively, beautiful and prosperous city against the world. The change is an enjoyable one, and it will lead to grand results.
