CHICAGO, Nov. 1 .- |Special Telegram to THE BEE.]-CATTLE-With a decrease in receipts salesmen started out to secure an advance Choice cattle were very scarce and they sold at strong figures, but the great bulk of the supply consisted of poor to fair cattle and the general market was therefore unsatisfactory. The receipts included 6.000 Texas and western cattle; choice beeves, \$5.20@5.75; medium to good steers, 1850 to 1500 lbs, \$4.00@5.00; 1200 to 1350 lbs, \$3.50@ 4.25; 950 to 1200 lbs, \$3.00@3.75; stockers and feeders, \$1.70@3.30; cows, bulls and mixed, \$1.25@2.75; bulk, \$2.00@2.25; indians, 9.00@65; 0.000 stockers, \$0.000 stockers, \$2.000 stockers, \$1.25@2.75; bulk, \$2.00@2.25; indians, 3.00:#3.65; Texas steers, \$2.25@3.00; c 1.25@2.15; western rangers, \$2.90@4.05. cows

not without significance in the character given by the mouth. When the upper gums show above the teeth directly the lips are opened, it is the sign of a cold and phlematic nature. Short. small teeth are held by the phsiognomist to denote weakness and short life, while rather long teeth, if evenly set in the head, denote long life. The more the teeth, in point, size, shape and arrangement, approach to those of carnivorous animals, the more violent are the animal instincts in the person, while the more human teeth in shape and position approach to those of the graminiverous animals, the more placid is the character. White, medium-sized and evenly-set teeth, which are seen as soon as the mouth is open, but which are entirely exposed----that is, which do not at any time show the gums --- are a sign of good and honest natures. Projecting teeth show rapacity, small, retreating teeth, which are rarely seen unless in laughter, show weakness and want of physical and moral courage. The lower teeth pro-jecting and closing over the upper range are indicative of a harsh nature."
