Dullness in Flour Trade-Deliveries Light and Mills Shutting Down.

WHEAT TAKES A TUMBLE

CHICAGO PRODUCE MARKET.

CHICAGO, Nov. 12 .- | Special Telegram to THE BEE.]-The Chicago wheat market averaged dull and about 1021 c lower to-day. The visible supply, instead of showing a decrease, as indicated by weekly footings of "daily receipts and shipments" Saturday, recorded a sincrease of 646.0 0 bushels. This s explained on the theory that private elevators at Minneapolis are being pretty well filled up, and it was found necessary to unload more wheat into public warehouses than during the previous week. An additional explanation is advanced that interior mills have not drawn on supplies so much lately. Indeed, the mills are just now seemingly more interested in getting rid of flour already ground than in laying in fresh supplies

bess in the flour trade is for the ta strong bear card. A couple of Minneapolis were reported to have wn to-day, and a strong effort is mak-St. Louis to shut down the mills there. A position to that effect was put in circulation, and will be acted upon by the central association of millers to-morrow. Later news from that quarter was that some of the mills would not wait for such action. All points and items were not bearish, however. From the northwest advices are received that farmers' deliveries are much lighter than expected, and that the movement by rail from the back country is not coming up to anticipations. Along the Hast ings division of the Milwaukee road, where the movement heretofore has been free, ele vators are being closed up by reason of ex haustion of stocks in the tributary territory It is a)so noted that despite the fact that re ceipts at primary points this year are larger than last year, and export demand than last year, and export demand has averaged low, stocks are lighter than a year ago, and the significance of this condition of things is anxiously asked. The solution may be bullish, and then again if the surplus is represented in large supplies of flour pressing for sale everywhere, it may be a bearish point. The smallness of receipts at points most conspicuously out of line is cer tainly a bullish point and argues against the idea that these markets are held up alto gether by manipulation, as some claim. As to that flour worked for export at Minneap olis last week, a local miller learns that it goes abroad on consignment, although the sit untion bristles with news, statistical and oth erwise, upon which opinions may be formed At opening May wheat was sold at \$1.154

and December at \$1.13% or 3%@%c below Saturday's close. May sold off to \$1.14%, reacted to \$1.15%, fluctuated between \$1.15 and \$1.15½ a long time, then worked down to \$1.14½, recovered ½c, remained around \$1.14½(dl.14½, but broke again toward the to the lowest level of the session, and left off weak at practically the bottom. December ranged about ie under May and was very inactive. The volume of the trade was not heavy. In fact, the condition of the specula tive trade is not satisfactory to the commis sion merchant. "Respect for buzz restricts short selling, and the outlook does not invite investment at present." was the way a commission merchant put it During the day a good deal of long wheat dribbled out. Shorts were the principal buyers and they were not anxious. The market opened very weak and ruled lower than on Saturday. The opening price of seller the month was 1c below the figure it closed at on Saturday. December %c, January %c, and May &@4c under latest previous quotations. There were several causes assigned for weakness. The receipts about equalled the estimates, but the weather was clear and cool and government reports con-firmed previous predictions of the magnitude of this year's yield. There was temporary reaction when the visible supply was shown to have decreased 1.512,000 bushels during the week, but it was not sufficient to carry the price back to the opening figure. The movement out of store was heavy, there seemed to be no great short interest out and receipts expected from the new crop is the strongest influence at present affecting futures. Good demand for shipment main tained this month's delivery above the open ing figure of the day, after the first few min utes, and closed it at the top, 41c, but still 14c under the closing price of Saturday. The fluctuations in December were confined be-

tween 39½c and 40c, closing at 39½c@39½c, May being steady and selling from 39c to 39½ @30½c, closing at 39c bid, but showing a loss since Saturday of ½ @½c. In provisions there was no change from last week. Cash meats were in quite good de mand, and ffair sales were made of New York green shoulders at \$6.75, of 16-pound green hams at \$0.00, and of dry salted short ribs at \$7.50@7.02\(\frac{1}{2}\) -the outside for fully cured. Cash lard was quoted at \$8.25. Speculation was featureless and quiet. There was no movement to speak of by either bull or bear side. Fluctuations were limited and lead ing futures closed about the same as on Sat-urday. Where changes were shown they were confined to 2%c. January rested at unchanged prices.

CHICAGO LIVE STOCK

CHICAGO, Nov. 12 - | Special Telegram to THE BEE. |-CATTLE-"On the face of returns," as the saying is, that is, on account of light rain, it was an impossibility that anything at all good in the native line ought to sell better, but there was little or no change in values, and trade was by no means brisk. Some salesmen reckoned an advance on fair to good natives as compared with last week at from 15c to 25c. Then again there were others equally as careful observers who quoted only a shade stronger. Good butchers' stock, meaning prime fat cows and heifers, are fully 15@25c higher than last week; old and thin cows, canning stock and rough stuff generally, did not share in the general upturn to any great extent. Texans were quoted 15c higher. There was only one train of rangers among the arrivals. An unusually light run of Texans and rangers was the prime cause for an advance in course and common grades of natives. There was literally nothing doing in stockers and feed-ers up to a late hour, and the chances were that but few transactions would be complete: to-day. The receipts include 2,500 Texas and western cattle. Choice beeves, \$5.15@5.75; medium to good steers, 1,350 to 1,500 ibs., \$4.50@5.10; 1,200 to 1,350 ibs., \$4.00.65.10; 1,200 to 1,350 ibs., \$4.00.65.10; 1,200 to 1,350 ibs., \$4.00.65.10; 1,200 ibs., \$3.25. Stockers and feeders, \$2.00@3.40; cows, bulls and mixed, \$1.50@3.00 buik, \$2.15\(\alpha 2.40\); Texas cattle, steers, \$2.50\(\alpha 3.00\); cows, \$1.90\(\alpha 2.35\); western rangers,

Hoss-Market active with early sales about a nickel higher, but later on there was another sharp upture, with general market closing a good 10c higher than on Saturday. Bulk of best mixed sold at \$5.50@\$5.55, with some common going as low as \$5.35@\$5.45. Fancy heavy made \$5.60@\$5.65, but Under-wood & Co. bought three loads of extra at wood & Co. bought three loads of extra at the close, inte arrival at \$5.70. Demand for light sorts was slow. There were no ship-ping orders worth noting, and the Lipton and Fowler people were the only buyers among the packers. Closely assorted averages of 160 to 180, including single sort, sold at \$5.55 @\$5.60, and light at \$5.25@\$5.50.

Cattle.

Monday, Nov. 12, 1888. The receipts were heavy and the maket fairly active at steady to strong prices. The bulk of the cattle were Texas steers but there were some pretty fair beeves among them and the packers bought freely. Aside from one bunch of five steers there was not much desirable butchers' stock on sale, but there was no end to the canners. There were a few western feeders but no natives

Hogs. There were hardly enough on sale to make a market. The buyers took everything at steady prices.

There were heavy receipts of sheep and quite a good many sold. Receipts.

SHE CAPTURED THE MEDICS. Toronto Students Draw Rose Coghlan's Carriage to Her Hotel.

TORONTO, Nov. 12 .- Rose Coghlan has

made a great impression among the students of Trinity medical college, and the Grand opera house where she is playing "Jocelyn' was the center of attraction for them during her engagement. Their enthusiasm found vent one evening in an extraordinary demonstration. When the curtain went down or the third act the studious gods cheered vocif erously. In answer to their repeated calls Miss Coghian appeared. She was led to the center of the stage, when from the wings two students appeared, one carrying a parch-ment, while the other staggered under a large floral design. The parchment bearer rend his document and then presented it to Miss Coghian, while his companion tendered her the flowers. Rose made as neat a little speech as the occasion permitted, and then the play was allowed to proceed. After the play the students hurried to the stage door, in front of which stood a closed carriage without horses. As soon as Miss Coghlan appeared, bearing the floral tribute in her arms, she was escorted to the carriage by Augustus Piltyn, her manager, a double rope was attached to the carriage, a couple of hundred students manned it and the lady was drawn to the Rossin house.

He Thawed Out Dynamite. PITTSBURG, Nov. 12.-A Bradford, Pa., special says: Charles Benson, a Swede, who had charge of the dynamite used in blasting rocks on the new lumber road near Kettner Pa., was thawing out the stuff at a fire today when it exploded and his head was blown off. Two Italians were badly injured. Both men were found several hundred feet away.
