Sworn Statement of Circulation. State of Nebraska, County of Douglas, J. S. A.

Sworn to before me and subscribed in my presence this 10th day of November, 1893.

There is already a ducking of heads as to who will be our next postmaster.

If reports be true, the average Omaha hackman is little short of a highwayman. He should be looked after.

The feeling is general that reform is absolutely necessary for Omaha in the present unsatisfactory system of justices of the peace.

It is now officially denied that Mrs. Cleveland was snubbed by the British minister's daughter, and the country breathes easier.

It is sweet music for the people of the northwest part of the city to hear the sound of the shovel grating in the cable trenches.

The hoodlum councilmen of New York city at Sing Sing will have to try another tack to get out of the penitentiary since the supreme court has decided that ex-Alderman Jaehne should stay there.

The next thing in order in Omaha is an ordinance to compel the construction of subways for electric light and telegraph lines in the business portion of the city.

GOVERNOR CHURCH, of Dakota, is too good a democrat, it seems, to hold office a single moment under a republican administration.

JUDGE TERRY, of California, who has spent his time in jail ever since the disgraceful Terry-Hill case in court, has been denied a writ of habeas corpus.

PERU undoubtedly gives the state department the most trouble. The recent insult to the American consul at Ilo-Ilo is only one of a series of indignities.

THE convention of the Knights of Labor now in session at Indianapolis promises to be one of unusual interest.

MATTHEWS, the republican candidate for delegate to congress from the territory of Dakota, has been elected.

OUR enterprising local contemporaries have doubled and tripled their circulation within the past four months.

COLORADO bids fair to vie with Wyoming for the distinction of becoming a great oil state.

BENEFIT TO THE WEST AND NORTH-WEST.

Not the least of the advantages to be expected from the election of a republican president and congress will accrue to the west and northwest in the extension of statehood to existing territories.

THE government sustained. For the first time, we believe, in a long course of litigation, the Bell Telephone company has encountered an adverse decision.

THE patents in question were issued in March, 1876, and in January, 1877, the first covering the invention of the telephone.

THE people of the west, especially of Nebraska and Colorado, will follow closely the great suit instituted by the Central Trust Company, of New York.

IN the investigation of alleged paying frauds there should be no partiality shown. A thorough inspection of all the paving done during the present year is demanded.

There will be no change in the religion of the white house. A Presbyterian will go out and a Presbyterian will go in.

The silk hat and the rusty derby appear in about equal numbers on the street.

Nobody will care a copper for the electoral vote of New York in 1892.

What's the matter with David B. Hill? He's all right! And 1892 is not very far off.

The democrats proposed "a campaign of education," and there is not the least doubt that the people have been educated to a notable extent.

The most mortifying aspect of the campaign has been the republican effort to carry the election by arousing ill-feeling toward England.

It is humiliating that Americans should attempt to place the country in an attitude of such abject subservience to the opinion of another country.

It would be interesting to see those who have been loudly denouncing the Sackville letter as a row of outrages.

THE board of trade has endorsed the report of its committee in favor of a liberal appropriation for a deep-water harbor in Texas.

THE members of the board who voted to endorse their report are laboring under the delusion that Omaha and Nebraska are to be materially benefited by this project.

We trust that these figures, which have been obtained from the most authentic sources, will not be a bone of contention between us and any of our esteemed contemporaries.

THE promise that the deep-water harbor would establish a great city in Texas that will be able to cope with New York and Boston is fallacious.

lobby among the English is one of mingled satisfaction that Cleveland has been elected, owing to his dismissal of Lord Sackville, and of amazement that the result should have been brought about.
