### COUNCIL BLUFFS.

Delivered by carrier in any part of the city at twenty cents per week. MANAGER.  
 TELEPHONE: 112.  
 NIGHT EDITOR, No. 25.

#### MINOR MENTION.

N. Y. Plumbing company.  
 Elegant overcoats at A. Reiter's, merchant tailor, 312 Broadway.

Louie Lord is billed for Dohany's tomorrow and Saturday evenings.  
 Best hard and soft coal and Missouri wood. E. E. Mayne, 619 Broadway.

The council held a brief meeting last evening to consider sanitary matters.  
 William Jardine, freight inspector at the transfer, is rejoicing over the arrival at his home of a bouncing baby boy.

The public are invited to the preaching service at the Berean Baptist house of worship to-night. Dr. Phelps is the preacher.  
 A building permit for an \$800 cottage was issued to Mrs. R. D. Amy yesterday morning. The new residence will be erected in Cochrane's addition.

The funeral of the infant daughter of Mr. and Mrs. O. F. Parker occurred at 2 o'clock yesterday afternoon from the family residence, 216 Fourth street.

Harmony chapter, No. 25, O. F. S., will hold their regular meeting to-night. Chairmen of committees are specially requested to be present, as there is business of importance.

The German ladies of the city are making arrangements for a grand quadrille party at Masonic Temple hall on Thanksgiving eve. The indications are that the affair will be a grand success.

The Harmony mission ladies will entertain a time social Friday evening at the residence of Mrs. J. Herald, 221 Harmony street. Refreshments served about 9:30 o'clock. Every one invited to attend. Strangers always welcome.

The paving on Sixth street is delayed by the non-arrival of blocks. They will be here to-day and work will be resumed to-morrow. The foundation gang was also stopped, as the contractors feared that the sun might warp the planks if too great a load was obtained.

The city engineer began work yesterday on a new sewer on Franklin avenue, connecting with Broadway. The sewer is twelve inches in diameter at its junction with the Broadway main, and extends up the street four blocks. The work will be completed in about ten days.

Unity Guild will hold its next local Friday evening, November 16, at the residence of G. H. Jackson, 517 First street. A cordial invitation extended to all. The regular business meeting of the Guild will also be held at the same place on Saturday afternoon at 3 o'clock.

It is expected that on Monday next the electric motor cars will begin running regular trips, and that there will be no occasion for further interruption. Everything connected with the line is now being put in first-class shape, and all work will be completed before attempting to start up.

But little business of importance was transacted at the district court yesterday. The jury will not report until this morning at 10 o'clock, when the first case will be called. Yesterday Horace Everett placed \$2,400 worth of city warrants in judgment. The day was mostly consumed in hearing arguments on one or two law cases.

The attention of the board of county supervisors was taken up yesterday with road matters. In the afternoon a representative of the Oskaloosa Bridge company was present for the purpose of effecting a settlement for the Indian creek bridge over Broadway. The session will continue the remainder of the week, and the board will probably adjourn Saturday until the December meeting.

Three drunks were taxed \$7.50 each in police court yesterday morning. John Maher pleaded guilty to disturbing the peace, and was fined \$5.00. The case of Frank Peterson for disturbing the peace was also called, and several witnesses examined. The court decided that the other party was also to blame, and continued the case until he could be found and brought into court.

Messrs. Mynder, Lindt & Seabrook are about to serve papers on the mayor and members of the city council to restrain the city from issuing any more warrants or bonds. The law firm refuses to divulge the names of their clients in this matter, but promise some interesting revelations. It is understood that the action of the council in letting contracts to its members is at the bottom of the trouble.

Deputy United States Marshal Wyland of Harlan came in last evening in charge of one Peppers, of Astor, charged with violating the revenue law. He was indicted at the last term of the federal court and was arrested on a bench warrant. Unless he can furnish bonds, he will languish in the county cylinder until next March. Marshal Wyland says that the county is full of "bootleggers," and he is kept on the move. The budge dispensers had better "look a leetle out."

A report was circulated on the street yesterday to the effect that E. A. Wickham, the well known paving and sewer contractor, had been killed by the caving of a sewer in the eastern part of the city. The report was quickly contradicted by the appearance of that gentleman, who announced that he was altogether too lively to submit to internment, although an undertaker visited his home as soon as the report was started. Mr. Wickham feels very sore over the defeat of Cleveland, still he has no desire to quit this earth on that account. The report was entirely without foundation, as no accident of any kind occurred that could give rise to any such statement.

**Happily Mated.**  
 A quiet wedding took place at 7 o'clock last evening at the residence of Mr. W. L. Bedison, corner of Benton and Harmony streets.

The contracting parties were Mr. Frank C. Hendricks and Miss Salome Bedison, both well known young social people of this city. The ceremony was performed by Rev. G. W. Crofts, pastor of the Congregational church, and was witnessed by a large number of invited guests. The presents were numerous and costly, and were the gifts of a host of admiring friends. Mr. Hendricks is bookkeeper for the Council Bluffs Insurance company, and the newly wedded ones will continue to make this city their home.

**A New Move Against Saloons.**  
 Constable H. B. Crofts, of Oakland, arrived in the city yesterday morning and arrested Ed Sherlock, William Probst and Charles Carroll for the alleged illegal sale of intoxicating liquor in this city.

The information was furnished by Captain A. Overton, of this city, before Justice Walker, of Oakland, who issued warrants for their arrest. The arrested parties were taken before Squire Barnett, who fixed their bonds at \$300 each, which amounts were furnished, and the prisoners were released. The cases will come up for trial before Justice Walker on the 27th inst. at 1 o'clock. This latest departure on the part of the prohibitionists is an altogether new one, and one which they expect to prove entirely successful.

Heretofore the cases have been taken before Justice Barnett, and the defendants have taken a change of venue to the court of Squire Schurz, who has invariably discharged them. It is stated that this obstacle will now be overcome, and the cases will be taken before county justices, and there will be no possibility of the defendants getting their case before any democratic justice in this city, as only one change is permissible and that to the next nearest justice. In this way the prohibitionists hope to be able to secure the enforcement of the law and close up the saloons in this city. The law and order league admit that it is impossible to do anything with the saloonkeepers with the officers now in the city, and this move is taken up as a last resort. The leaders have the greatest faith in its effect, and indulge in the most sanguine hopes for the future.

It is also stated that the prohibitionists have been "spotting" those who frequent saloons and will have them subpoenaed as witnesses. It will not be very enjoyable for those who take an occasional glass to be called out in the country as witnesses. Business men will be very shy about slaking their thirst if there is a liability to be called away from home and into court to testify.

### New Drives For the Park.

Yesterday afternoon the park commissioners, with the mayor and Alderman Lacy, representing the city council, visited Fairmount park to devise certain improvements in that beautiful resort. Arrangements were made to cut Graham avenue at the point opposite the park entrance, to the depth of ten or twelve feet, and widen the street about twenty feet. This will give an easy grade for the motor line which will be laid between this date and October 1, 1889. The entrance to the park will also be cut down considerably, and instead of being a steeply ascending grade, the road will ascend in nearly a straight line and an easy ascent to a point near the southern terminus of the park. From here a road will be cut out inside the hills, which will, by a tortuous but delightful descent, reach the lower level inside the hills. The two drives thus planned are not exceeded in picturesqueness and beauty anywhere in the country.

Another grand improvement devised is the cutting of a tunnel through the hills directly from Graham avenue to the road inside the hills. This will be dug at a point nearly opposite the residence of Mr. Lamb. It will give direct access to the park to those who desire to reach it quickly, and at the same time be a delightful addition to natural beauties of the park.

Another artificial spring will be constructed inside the hills, near the exit of the tunnel, which will be supplied with water in the same manner as the one already built. Work upon the streets will be commenced immediately and will be prosecuted as rapidly as possible to completion.

**Adams Express.**  
 Last evening the Adams Express company announced the United States Express company on the lines of the Chicago, Milwaukee & St. Paul railway company. All express matter arriving on the evening trains was turned over

to the Adams company, at its new office, 317 Broadway. The outgoing evening train carried Adams Express messengers, and hereafter this company will have exclusive control of express on this line. There will be no cutting of rates, as the company will carry to common points at the same rates as the other companies. It is stated that there is a probability that the running time between this city and Chicago will be considerably reduced, as the Adams company has reduced the time on its line between New York and Chicago to twenty-five hours, and is preparing to shorten the time between Chicago and St. Paul to eight hours.

**Uneasy Blue Coats.**  
 It is rumored that there is a little trouble in the police department, and that some changes will be made before long. It seems that there are "offensive partisans" in all branches of the city service. The powers that be deny that there is any disaffection in the ranks, but nevertheless there is certainly a little friction at some point. As nearly as can be learned the jealousy is the cause of the difficulty. If the members of the force worked together as a body, and not as individuals, it is possible that their labors would result more satisfactorily, both to themselves and to the public.

See Forrest Smith's special column.

### A Famous Election Bet.

Syracuse Journal: Probably the most noted election bet ever made was that of Rud. Gridley, of Austin, Neb., in 1862. He bet that he would beat his opponent. The terms of the wager demanded that the loser should carry a sack of flour from lower to upper Austin. Gridley lost, and the bet was not made again. The terms of the bet were that the loser should carry a sack of flour from lower to upper Austin. Gridley lost, and the bet was not made again. and future of her race. She firmly believes that there is no salvation for the red man except in education, and her present trip to New York is with the hope, by raising sufficient money, to found a university in Washington, where, as she says, "my people can be surrounded by the best of influences."

To accomplish her purpose the Princess estimates that \$3,000,000 will be needed. One-third of that amount has already been promised her by a Col. Jacques. The chairs of the embryo university are to be held by Indian Professors.

Virgona, or the "Flower of the Mohawks," traces her descent through several centuries and has devoted her life and fortune to the education of her people. Of the six great tribes there now remains but some 3,400 members, who are confined to the Grand River Reservation in Canada. The Princess has a brother, Oronhyatekha, or "Burning Sky," who was educated in England under the supervision of the Prince of Wales.

The Princess is quite confident of success in the attainment of her object, and is going to lecture on the subject in various parts of the country.

**Punishing a Trust.**  
 Chicago Tribune: "Little as you are, boy and girl," feelingly exclaimed the good brother who was addressing the children at Sunday school, "you can do much in your own way to check the power of the iniquitous combinations that afflict the land. Are you willing to join me in an effort to punish with a righteous punishment one of the worst trusts in the country—the sugar trust?"

"We are!" shouted the children. "All who want to punish that trust, that interferes so much with your innocence, rise up."

All rose up. "Now repeat after me this pledge: 'For three months—'" they all responded.

"I promise—"

"Not to eat any candy of any sort."

And in the midst of a profound silence they all sat down.

They were tender-hearted children, and the punishment seemed to them too severe.

"Nothing but an election bet, auntie," replied Amanda, with a look of heroic martyr-like resignation on her lovely face; "I lost. Go on, Mr. McPellican. How many was that?"
