THE SPECULATIVE MARKETS.

Wheat Opened Weak and Sick, and Closed Lower.

CORN A TRIFLE UNCERTAIN.

Provisions Are More Than Ordinarily Active-Hogs Five and Ten Cents Higher-The Cattle Market Glutted.

CHICAGO PRODUCE MARKET.

CHICAGO, Nov. 19 .- [Special Telegram to Tur Ber. |- Wheat opened weak and sick, about Ic lower than it closed Saturday, and sold off bec. The initial range was \$1.10 for December, \$1.08% for January, and \$1.12 for May. Inside quotations were \$1.09 for December, \$1.08% for January and \$1.11% for May. December was the weakest month on the list and the difference between that delivery and May widened to 3c. The weakest season the general market experienced was early in the day, though there were several very sick spots in the last half hour. The average price was 1/4/2 above the inside range. The premium of May over December narrowed considerably before the close. The first indication of strength was upon the receipt of intelligence that twenty-five boat loads of wheat had been received in New York for export to Lisbon. The skepties succeed about exporting wheat before breakfast, but the news was afterwards confirmed. Later the amount was raised to forty loads. With regard to the twenty-five loads, it was stated that fifteen were for shipment this month and ten next. The two firms that figured as leading sellers on Saturday were by all odds the largest buyers to-day. Between them they took probably 5,000,000 bushels. On the first advance May wheat went to \$1.1234. It sold off to \$1.1134, and then went to \$1.1234, and still later to \$1.19%, at which time December was quoted at \$1.10% and January at \$1.09. This proved to be the culmination of the advance. Beginning about 12.30, there occurred a sharp decline, on which all the ground previously recovered was again lost. In about fifteen minutes the market broke nearly lc. There was a subsequent partial recovery and still later a shrinkage. The course of the market

supported the theory that the advance was occasioned by the covering of large lines of short wheat and that when that support was withdrawn values declined of their own weight. The crowd is still very bearish in temperament and disposed to sell on bulges. not recklessly, but with moderation. The story that Fairbank is practically out of his wheat is generally accepted as true, but several parties who are close to that gentleman question the statement and insist that he is long more now than he has been at any time. This version does not find many believers, it must be confessed. About 1 o'clock the market advanced sharply ½c, and from that time forward it was very nervous. Taken as a whole, the market was in an exceedingly nervous state all day. The volume of trade was large and the public is beginning to take some interest. Commission merchants, who have been discouraging trade on the theory that prices are artificially high, are once more feeling for business by reminding cus tomers that wheat has had a 10c break and that on the decline foreigners are beginning to take our wheat. This is accepted as proof that prices are getting down to a legitimate basis at the scaboard. It was noticed to day that eastern markets were relatively firmer than western. The last piece of news re-ceived of importance was from Minneapolis. It was that the mills there had agreed to cut down their production one half up to January 1. This will allow time to work down the plethoric stocks which are oppressing trade. In the meantime the visible stocks of wheat in the northwest must show a material increase. The close was about

4c below Saturday. The opening, of course, was at somewhat lower prices than the close on Saturday, but the outward movement, as shown in the in-spection returns, was heavy, and demand for the day's receipts by shippers was fairly The weather, also, from clear and frosty, had turned to mild and damp. Busi ness was again local in character and small an dimensions. The market was steady the greater part of the session around 38½ c for December, and trading was confined principally to that month and May. The closing prices of nearest The closing prices of nearest and furthest futures are the same at the close to-day as on Saturday, November being 30% and May 38% bid, but all intermediate months are from 5.6% clower.

In provisions more than ordinary activity was the rule. Cash buyers continued thei free buying of the closing days of last week and in a speculative way trading, though mainly local, was more than enough to make trade interesting. In general the market opening was strong and at higher prices than Saturday's closing. The receipts of hogs scarcely reached expectations, and operators were more inclined to buy than sell property. Hutchinson, however, held a different opinion, and taking advantage of the bull sentiment prevailing unloaded freely of his long holdings. In the pit and at the morning call his sales for January and May delivery-mainly the former-were esti mated at 40,000 barrels of pork, 4,000 tierces of lard, and 5,000,000 pounds of short ribs His offerings were taken quite readily, ye they forced a depression. Pork declined 1336c and lard and short ribs 5c from inside figures. The market subsequently improved and lard not only recovered from the loss suf fered, but soid 2½¢ higher than the morning's highest price. The recovery in short ribs amounted to 2½¢ and in perk to 5c. Based on Saturday's last quotations, the closing showed an average decline of 2½¢0.5c on perk, and an advance of 10@12½¢ on lard. Short ribs closed unchanged. Short ribs closed unchanged.

CHICAGO LIVE STOCK

CHICAGO, Nov. 19 .- | Special Telegram to THE BEE. |- CATTLE-It is almost uscless to undertake to give anything like a satisfactory report of the condition of the market. All forenoon cattle came rushing in from al directions, taxing the energy and activity of receivers to take care of the same and the Stock Yards company to find room to yard or feed them; so that it was late in the day before there was any business of note. No such run of cattie was ever counted into the yards before, and no such number of poor and common stock was ever seen in these yards. Old and thin native cows everywhere; poor and common Texas cows in every direction. It was estimated that there were 8,000 rangers and Texans on sale a large per cent of which were cows and common steers. Buyers that had orders for common steers. Buyers that had orders for prime native steers declared they could not find ten loads among the vast numbers on sale, and the display of good and useful na-tives was limited to a few lots. Scarcely half the number can be sold to-day. Prices, it is plain to be seen, ruled lower than on Friday or Saturday last, but how much lower it is next to impossible to say, as values were decidedly uneven and there was really no chance to make comparisons. Medium natives, it was generally admitted, sold 15@25c lower; common natives, 256,30c lower; native cows, 30 @35c lower; Texans, 156,20c lower, and rangers reported 10c/15c lower. It was also generally reported that anything really good in the native range or Texas line sold nearly as the native range or Texas line sold nearly as high as on Friday last. There was nothing going on in the stocker and feeder line. Veal calves are scarce and wanted. The receipts included 8,000 western and Texas cattle. Choice beeves, \$5.00@5,35, medium to good steers, 1350 to 1500 lbs, \$4.00@4.90; 1200 to 1350 lbs, \$3.50@3,90; 300 to 1200 lbs, \$3.00@3 3.75. Stockers and feeders, \$1.90@3.30; cows. bulls and mixed, \$1.40@3.00; bulk, \$2.15@ 2.40; Texas cattle, 12 cars extra, 1100 to 1400 lbs, \$4.00@4.25; steers, 850 to 1050 lbs, \$2.50@ 1.00; cows, \$1.90(22.35; western rangers,

ther. The bulk of mixed sold around out \$5.45 and the best heavy at \$5.50005.55 Ordinary run of light mixed averaging 180 to 290 lbs, sold at \$5.40, and light sorts, aver-aging 120 to 130 lbs, \$5.60.

FINANCIAL.

New York, Nov. 19 .- [Special Telegram to Tun Ban. |- Stocks-The stock market opened quiet and weak, the declines, as com-

pared with Saturday, extending 34 point, There was a good deal of selling of St. Paul on a story that President Miller had come to Europe to raise money, and prices dropped off somewhat under considerable animation The market was hammered by Cammack and others on the railroad situation, and values receded moderately in pretty much all lists in which there was any trading of consequence. Toward noon the volume of business becreased, and at 12 o'clock the market was dull at about the lowest prices of the morning. St. Paul eventually sold down to 63% losing at 63%, or 1% points below the opening. New England declined 1 point, and Louisville & Nashville 1% points, the remainder of the list showing smaller losses. Pullman was marked up 114 points on light

Pears' soap secures a beautiful com

Don't Pay. The enormous apartment houses which are the architectural marvels of the Central park region of New York have proved unprofitable. The great Navarro flats have just been sold under orcelosure for but \$200,000 more than the mortgages upon them, and there are a dozen buildings of this description which do not pay 2 per cent on the investment. The rents are high, and people able to pay them prefers the exclusion of private residence rather than community of life and conveniences in these big ten and twelve story build-

Sure Cures! ESTABLISHED 1851 | 186 So. Chicago, Ills. | Clark St. The Regular Cld-Established PHYSICIAN AND SURGEON
Is still Treating with the Greatest SKILL and SUCCESS

Chronic, Nervous and Private Diseases As NERVOUS DEBILITY, Lost Manhood, Failing Memory, Exhausting Drains, Terrible Dreams, Head and Back Ache and all the effects leading to early decay and perhaps Consumption or Insanity, treated scientifically by new methods with never-failing supersy.

Co SYPHILIS and all bad Blood and Skin Dis-**Ep** SYPHILIS and all bad Blood and Skin Diseases permanently cured.
