CHICAGO PRODUCE MARKET.

CHICAGO, Nov. 30 .- | Special Telegram to THE BEE |- Wheat was jerky and erratic today, with the average of prices lower than on Wednesday, but the recovery from the pottom was so good as to leave the bulls with the impression that they had won a victory, though closings show some decline as compared with Wednesday, December suffering most. The opening range was \$1.11 \s for May, with the first quotations on December and January \$1.04% @1.04% and \$1.06, respectively. There were a few sales of May as high as \$1.114, but the decline carried the market down a full cent during the next bulf hour. The market reacted to \$1.11, and then sold off to \$1.05%, recovering, however, and ranging around or above \$1.10 most of the time thereafter, getting decidedly strong toward the last and closing at nearly out side prices. December ranged from \$1.04% down to \$1.03 and up to \$1.04%, closing there. January ranged from \$1.06 down to \$1.04%, and closed at \$1.05%. The early news was bearish. New York wired that the buy ing of Tuesday and Wednesday, so widely advertised as being for foreign account, was in reality covering for foreign account of wheat previously sold, and that foreigners were developing a disposition to a short market again. On the bulge the selling in this market was liberal on these advices. Hutch inson was the lender in selling, as indeed he has been for several days, and he may be mentioned as the principal and most aggressive seller throughout the whole session. He denies that he is short on wheat, but tells everybody he knows that he is selling out "long wheat," whereat listeners drop their eyelids and smile. The floor estimate is that he went home Wednesday short 4,000,000 or 5,000,000 bushels. The floor estimate may be wrong, but it seems to be generally accepted as approximately correct. To add to the early bearish feeling Minneapolis reported the receipt of about 800 cars of wheat (two days' arrivals) and for "good weight" and added that the mills were all shutting down there. This gave the local raiders renewed courage, and they hammered the market industriously. The steady and large buying by Milmine, Bodman & Co. attracted attention, and the market began to harden. A few minutes later a quiet flurry occurred on the recent of advices from San Francisco that inquiry was being made at that point to ship to Australia on account of the almost total failure of the crop in the southern part of that wast insular continent. Several weeks ago the com papers mentioned the re Australian crop damage, the reports this was the first intimation that the dam rge was serious. The local market advanced rapidly when this bit of news circulated, May going to \$1.10 4 and refusing to react more than 14(@) is under heavy pressure in the Hutchinson interest. The market got the Hutchinson interest. The market got its second wind the last half hour, and the price walked up to \$1.11%, closing strong at a fractional reaction from the bull improve-ment, the last quotation being \$1.10%c. Later advices from the northwest were of of a bullish tenor. The movement from the back country is most certainly letting up, and the diminishing demand at division headquarters for 'empties' to move grain is a feature of railroad reports. It is true that most of the Minneapolis mills are shutting down, but ice is one cause for that.

Probably not the main cause, however, for if there was urgent demand for flour, steam engines would be set to work. The shut down will be only temporary: though, that much seems to be assured. In the wheat pit to-day, a lively battle was being fought most of the time between Hutchinson and the crowd. He pounded prices down repeatedly, and did not

Receipts of 651 cars to day and the weak-ness in the pork market held out no en-couragement to bulls in corn, and in conse-quence there was again considerable unloading of stuff previously bought on the strength of possible small receipts of No. 2 corn in December tempting some one to squeeze short sellers during that month. This theory, or hope, is being mondoned now, and where holders are not selling out entirely, they are changingg over to May, a good dea in that way being done to-day. Exports were light, being only 34,000 bushels from the three principal Atlantic ports, although New Orleans contributed 30,000 bushels in addition. To morrow's receipts being esti-mated at 960 cars, was another depressing feature. The recovery of wheat toward the close made an improvement in the tone of the corn market about the same time, which was aided by the brisk demand which ex-isted all day for spot corn by shippers. The changing of December into May also helped the latter and gave it a higher closing to-day than it had on Wednesday. The amount of trading was only moderate, and the result of the day's doings is a decline in cash of 4c, excepting No. 3, which closed a little better in price than on Wennesday, while in futures near deliveries closed fractionally lower, and those more remote a triffe higher. The closing prices were: November and December 55 & against 36 & on Wednesday, and May 38 & split, compared with 38c. In provisions the movement was strongly bearish. Notwitastanding that the number of hogs marketed at the leading packing

seem very much pleased at the elasticity the

These two factors are urged as the all-suf

points was somewhat disappointing am prices for the same showed a substantial im provement, the late depression in the product was continued. Under the lead of Armour who was the largest individual seller of fu ture pork, the free selling was the rule throughout. Hutchinson, Baldwin and for-tunate short sellers were liberal buyers, yet offerings were excessive, and closings wer at bottom figures for lard, and only a little better than the same for pork and short ribs The bear side had pract saily complete control, and as compared with Wednesday's last quotations, a decline amounting to 2214(025 was suffered in pork, 5@12%c in lard und 10

CHICAGO LIVE STOCK

CHICAGO, Nov. 30,-|Special Telegram to native steers, thin in flesh and undesirable in appearance, are from 25 to 30c lower than last Tuesday, such as are selling around about \$4.00, or thereabouts. Good cows and heifers are also lower than last Tuesday, and so far as poor cows and canning stock is concerned, one would suppose that such were down as low as it is possible to go. There was a fair per cent of Texans and rangers among the arrivals, perhaps 2,000 in among which were large numbers of cows and rough steers, yet buy-ers preferred that class to com-mon native cow stock, and in some cases paid more money for the same. This partially accounts for the low prices and depressed condition of native cow stock The prime cause, however, is the unprece dented number coming into the market. Receipts include 2,500 Texas and western cattle. Choice to extra beeves, \$5.25@ 6.124; medium to good steers, 1,350 to 1,500 lbs, \$4.40@4,90; 1,200 to 1,350 lbs, \$3.75 @4.40; 950 to 1,200 lbs, 3.00@3.70; stockers and feeders, \$1.90@3.30; cows, bulls and mixed, \$1.30@3.10; bulk, \$2.15@2.50; Texas steers, \$2.40@3.40; cows, \$1.75@2.30; western rangers, \$3.00@4.25.

Hogs—In the Rock Island division the market opened with an upturn of b@10c; one of the bold speculators, or as he speaks of himself, "piungers," opened the game by paying as high as \$5.52½ for a load that afterward, and especially toward the close, dented number coming into the market. Re-

sold as low as \$5.45; and the best heavy would not sell for \$5.4005.45 at the close. would not seil for \$5.4000.45 at the close, Lots held over that would have sold for \$5.45 went at \$1.40 this morning. The bulk of the packing sorts soid at \$5.3005.374, closing around about \$5.3005.35. Light sorts scarce, sold largely at \$5.40 for the ordinary run of 180 to 190 th averages, but at the close would not bring over \$5.55. Jones and Stiles were the principal bulgers of light paying \$1.40 for 140 lb. over \$3.33. Jones and Stiles were the prin-cipal buyers of light, paying \$3.20 for 140 ib averages. Moran & Healy and the Morris outlit were not buying up to a late hour. The latter firm paid \$5.55 for light-light yesterday, and if wanted to-day would cost about that price. Singeing pigs are scarce. The Lipton company were on the market, but could not find the style and quality

NEW YORK, Nov. 30 .- (Special Telegram to The Beel-Stocks-The stock market pened strong this morning and fractionally higher. Rock Island was again active. It started higher, but broke as on Wednesday carrying the general market with it in a degree. There was said to be considerable manipulation in this stock. Traders were disposed to await the action of the Central Traffic association meeting, which was held in Chicago to-day, and the volume of business during the morning hours was light.

After the early weakness there was a reac tion, and by noon the market, was dull and steady to firm, generally at but slight changes from opening figures. The market

Cattle.

Friday, Nov. 30, 1888.
The general market was about steady to-day, although choice beef cattle might be called strong. There were plenty of cattle here, but good were rather scarce. Canters were likely and the cattle here. ners were in large supply and the market weak on that class of stock. The number of cattle sold was small in proportion to the re-

Hogs.

The receipts of hogs were moderate and the early arrivals sold 5c higher than yesterday. When the later reports were received from the east indicating a heavy break in prices, the market here flattened out and closed with sixteen loads unsold.

There were a few here, but they were light and not choice. Receipts.

SOUTH OMAHA NEWS.

Fell Over a Bank and Injured.

was so dark that Mr. Walker could not see and stepped over the dangerous bank

One Need at the Stockyards. A stockman said yesterday: "A bulleting board should be put up in the stockyards, so that every incoming train, with the number of cars, kind of stock, and names of the consignees, could be posted. This would be a great help to the yard employes, a benefit to buyers, shippers and commission men, and a public convenience generally. It would not be a burden to any one, nor an expense to shippers or transportation companies, as the railroad companies have their telegraphic communication, and could furnish this bit of needed information as readily as not. I hope that the stockyards officials will make a re-quest on the representatives of the several railroads to have telegraphic advices of in-

P. M. Campbell, who resigned his position as Union stockyards car accountant to ac-cept the position of chief clerk to Superintendent Ressiquie, has resigned and returned to the stockyards again.

South Omaha is the best hay market in the United States. Wednesday last the South Omaha prices were 12½ cents higher than Kansas City, 5 cents higher than Sioux City, the same price as at St. Louis, and only 10 cents lower than at Chicago, although there is a difference of nearly 50 cents in freight between the Magic City and Chicago. More than this, President Underwood of the Omaha Packing company states that the hog receipts at South Omaha are better than either Chicago, Kansas City or St, Louis. John Kilker having refused to give a lease for the ground for the Third ward jail, the building will be erected on the ground gen-erously offered by Councilman B. Jetter. William M. Enright of the Union Pacific freight department, has returned from Chi
