Mr. Leeder said he heard two men saying that they had each gotten a handful of ballots just before the row at the election in the First district of the second ward. Golden was with Leeder and corroborated the statement. The examination of Roatch consisted mainly in comparing the number of votes at the election in question with previous elections.

### Ex-Student's Banquet.

The ex-students of Wyman's Commercial college held their third annual banquet Monday evening at the Barker hotel. About fifty persons were in attendance and a royal good time was enjoyed. The early part of the evening was spent in the parlors, where the guests were entertained with music, declamations and speeches. At 9:30 they sat down to an elegant supper comprising the choicest dainties in the resources of Manager Balch, topped off with good old port. The address of welcome was delivered by Mr. E. E. Zimmerman, and short speeches were made by many of the guests.

### Rip-Rap at the Waterworks.

Mr. Underwood, manager of the waterworks, has returned from an extended trip east. His company have decided to rip-rap the river bank to protect their new works at Florence. With this object they have entered into a contract with the Omaha Stone & Sand company to supply them with sufficient stone to make an embankment along the river front near Forence. It will require several hundred carloads, and as work will begin next Monday and continue through the winter it will afford employment for several men both at Florence and at the quarry at Louisville.

### Fairbank's Refinery Moves.

The announcement has been made that the Fairbanks lard refinery of this city is about to remove to Hutchins, and the proprietor has offered his plant and building for sale. It is said that the inducement has been a bonus of $10,000, which will supply a new plant and otherwise defray the cost of removal. Hutchins is a town of 1,500 inhabitants in the southwest part of Kansas, and is situated on the Topeka & Santa Fe, Missouri Pacific and another road. The object in leaving has been to get nearer the south, where they get cotton seed oil, which is used largely in the business and and where better railroad rates can be had. The refinery has been located here about five years, Fairbanks having bought the refinery formerly run by J. E. Boyd. It paid $60,000 a year in wages. The removal will not take place until spring, though arrangements are now being made for it.

### Sidewalks.

The board of public works have made another computation of sidewalks in the permanent district, with the following results, the amounts being all in square feet: Stone, natural and artificial, voluntarily laid this and other years, 307,700; stone, natural and artificial, laid in 1888, being condemned under ordinance, 272,560; brick walks, 21,668; asphalt, 18,580; wooden walks, 281,180. Of the brick, asphalt, and wooden walks to be replaced with stone in the early spring (now under contract), 42,020.

Of the 314,580 square feet condemned this year 272,560 square feet have been laid by the property owners in compliance with the sidewalk inspector's orders, leaving only the small amount of 42,020 square feet, which is now under contract. There remains to be condemned 281,180 square feet of board walks, which will be ordered removed next season. If the work is all completed next year, all the 961,680 square feet of sidewalks in the permanent sidewalk district will be of stone by next winter.

### Superintendent James' Discipline.

In conversation yesterday Superintendent James said that the discipline of the schools of Omaha has improved during the years of his administration very remarkably. Not only is it true that the rod or ferrule has ceased to be a factor in the government of the schools, but suspensions are much more rare than formerly and the minor methods of punishment, such as standing on the floor, etc., are practiced less frequently. Mr. James believes that in no schools in the country is the discipline more efficient. Parents' complaints to him of the kind or frequency of discipline are almost unheard of, and the teachers in the schools invariably refer to the character of the discipline both in respect to mildness and effectiveness as their most excellent feature. Mr. James says that in his visits to the schools, in which his whole time is occupied, he scarcely ever sees anything in this direction deserving criticism. He does not believe there is any occasion for the recent strictures concerning the standing of children upon the floor for an unreasonable length of time.

## A BROKEN CONTRACT.

### What an Act of Congress Did For The Union Pacific Road.

The Hon. John M. Thurston was seen at his residence Monday night, in reference to the petition filed by the Western Union Telegraph company against the Union Pacific railroad, restraining it from seizing the lines of the former company.

"Both the Union Pacific and Western Union companies," he said, "have been operating the telegraphic service west of Omaha, under a joint contract entered into in 1881. The practical result of that contract is, that up to date, and as nearly as can be estimated, each company owns about one-half of the wires, poles, and equipment of the present Union Pacific system. The contract contemplated that each company should make an inventory of their property at the time it was entered into, and presumably that each should keep a correct account of the income and expenditure for each year thereafter, until the expiration of that contract twenty-five years later. No doubt that the books of each year will show that this has been done.

"The bill of particulars filed by the company claims that the Western Union was practically in possession of the territory before the Union Pacific was in existence."

"No sir, he has not. He was asked by the mayor on the subject, and he said he thought it would be best to leave the pole-raising for a little time until he should be able to examine into the matter."

"How many poles had you erected?"

"Forty."

"Where are they?"

"Oh, they are all around. We put them where we thought we might be able to use them. There are three of them on Douglas street between Eleventh and Twelfth streets. Then they run south on Twelfth to Harney and thence to Fourteenth back to Douglas.

These poles were erected without attracting much attention and it will therefore be a surprise to many to learn that nearly all the poles in the motor loop have been placed. They are painted a dark red color.

In this connection it may be stated that the various companies using poles in this city distinguished their property by different colors, under the recent ordinance passed by the council. Those of the Western Union are painted white and black; Western Union Telegraph white and red; Fire department red, white and blue; Thompson & Houston red and black; Northwestern Electric Light lead color and black; District Telegraph company green and yellow; Pacific Telegraph no color as yet.

### Changing the Compact.

Yesterday morning there was a largely attended meeting of special agents of insurance companies in the Millard hotel. J. M. Richards of this city, was elected chairman, and Frank Dana secretary. There were representatives of some of the companies in all the leading agencies in the city. The object is to make a change in the compact which has heretofore existed between the various companies doing business in this city, these changes having been suggested by the recent change in the condition; commercial and otherwise of Omaha in the past few years. At the head of this compact is Mr. A. M. Weir. What changes have been made will appear later.

### Pueblo.

The city of Pueblo, Colo., has five of the gaetest smelting plants in the country. The sixth, now building, is the largest in the world. It is the only city in the west than can supply steam coal at $1 per ton, and has an inexhaustible water supply. In addition to this it is a down-hill pull from every mining camp in the state. These manufactories pay out $125,000 per day for ores and $250,000 per month wages to employes. This immense sum into a city of only 20,000 people. The first of a series of excursions will leave Omaha December 19, a. m., over the Union Pacific, running through to Pueblo without change. The parties on this excursion will be in my charge, and in addition will have a porter to care for passengers. On arrival of party there they will be taken in charge by citizens, shown through the great Bessemer steel rail mills, the copper and lead pipe mills, and the great smelters. The fare on this occasion will be only $25 round trip, good for 60 days and five days lay over at any point desired. For space on this occasion write or call on F. M. Fish, room No. 8, Arcade hotel, Omaha. Representing Pueblo board of trade.

### Way's Murderer.

William S. Mayall is wanted at Exira, Ia., for the attempted murder of John Way, a citizen of that place. A large reward is offered for his arrest. It is thought that the fugitive is in Omaha. He is described as a "peg-legged" man, six feet high, of slender build, smooth face and light complexion. He was poorly dressed in dark clothes at the time he committed the deed.

### Booty of His Shoes.

Burglars broke into Johnson's store at Twenty-fourth and Pierce streets Sunday night and helped themselves to $300 worth of boots and shoes.

## THOSE MOTOR POLES.

### Dr. Mercer Says That They Will Be Erected.

Dr. Mercer, of the Motor line, was seen yesterday and stated that the courts would refuse permission to his company to put up poles in the streets, when they held that the franchise was granted to his company by the vote of the people was null and void.

"Has not the city attorney held that you have no right to erect poles in the streets?"

"No sir, he has not. He was asked by the mayor on the subject, and he said he thought it would be best to leave the pole-raising for a little time until he should be able to examine into the matter."

"How many poles had you erected?"

### A Complaint.

Lew Hibben, proprietor of the New Casino, Eleventh and Douglas, complains that the police and newspapers, between them, are giving him the "worst of it." He says: "Some time ago two of my people were arrested for robbing a man named Kidd of $300. At the trial Kidd emphatically denied that they had robbed him of anything, and it was also shown that Kidd did not have over $100 any way, and that he spent. Now comes an article saying that I refuse to admit policemen, and that a man named Finlay was robbed of $150 by a prostitute yesterday afternoon in a wine room at my place. Now, I have no wine rooms and yesterday afternoon there was not a woman in my place. As to the policeman, I gave my doorkeeper orders to admit no one without a ticket, and he refused admission to an officer and there was a fuss. The police force know, however, that I never have and never will refuse to admit an officer in the discharge of his duty."

FOR THE BLOOD

PEPP'S MILL, TEXAS, June 20, 1888.—The Swift Specific Company, Atlanta, Ga.—Gentlemen: One of my children was troubled with rheumatism and boils for about two years. We gave her various kinds of medicine, but without profit, and began to despair of curing her at all. I was persuaded to try your Swift's Specific. After she had used several bottles the diseases all disappeared, and she is now a hale, hearty and healthy girl twelve years old. Another child has just become afflicted in the same way, and I am using the S. S. S. and anticipate a prompt and permanent cure. N. G. WAGGONER.

RICH HILL, Mo., July 7, 1888.—The Swift Specific Co., Atlanta, Ga.—Gentlemen: Our little girl when but three weeks old broke out with eczema. We tried the prescriptions from several good doctors, but without any special benefit. We tried S. S. S., and by the time one bottle was gone her head began to heal, and by the time she had taken six bottles she was completely cured. Now she has a full and heavy head of hair—a robust, hearty child. I feel it but my duty to make this statement. Respectfully, H. T. SIGGS.

CHATTANOOGA, TENN., June 17, 1888.—The Swift Specific Co., Atlanta, Ga.—Gentlemen: In 1886 I contracted blood poison, and at once sought S. S. S., which I used and treated me for several months. By his advice I went to Crab Orchard Springs, Ky., where his course of treatment was continued and observed. I recovered, as I thought, but the next spring pimples began to appear on my face and body. These gradually increased to sores and running ulcers. I was advised to try S. S. S., and immediately after taking it I commenced to improve, slowly at first, but more rapidly afterwards, and finally got entirely rewatered to tell of my trouble. My blood is now thoroughly cleansed, and my system free from taint, and I owe my present condition—a perfect cure—to your medicine. I cheerfully give this statement that others who have suffered as I have may reap the same benefit. HARRY M. BURT, 24 West Ninth St.

HOMER, LA., May 25, 1888.—The Swift Specific Co., Atlanta, GA.—Gentlemen: About two years ago my general health gave way entirely. I was so debilitated that I almost despaired of ever feeling well again. All that the physicians done for me brought no permanent relief. Friends insisted that I should give S. S. S. a fair trial, although I thought it would be throwing away money. After taking a thorough course, my health and strength returned. I must say that S. S. S. alone cured me, as I discarded all others while using it. As a tonic I can most heartily recommend it; for general debility, it certainly is a specific. F. BOLLMAN, J. P.

HOMER, LA.—I know Mr. W. F. Bridges, and will say that his statement is correct. JOSEPH SHELTON, Druggist.

Charges reasonable especially to the poor.

MIDDLE-AGED MEN

There are many troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and weakening of the system in a manner the patient cannot account for. On examining the urine a sediment or ropy substance will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark or turbid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of nominal weakness. The doctor will guarantee a perfect cure in all such cases and a speedy restoration of the genito-urinary organs. Consultation free. Send for "Young Man's Friend, or Guide to Wedlock," free to all.
