FACTORIES FOR OMAHA.

Fred Gray's Big Mill and the Loyal Chemical Works. One of the most promising factories recently added to the industrial world of Omaha is a large planing mill and carpenter shop which Fred Gray, the lumberman, has now almost completed on the river front at the foot of Harney street. It will be ready for work about the 1st of January and in it employment will be found for 100 men. Salaries will be paid yearly amounting to between \$40,000 and \$50,000. The works will comprise three buildings, the machine department, the engine room of brick front will be fire-proof and the carpenter shop, in all of these skilled labor will be employed. Lumber will be brought here from the east and north, sawed and turned into doors, sashes, stairs, and all kinds of in-door finishing and office furniture. The works will be complete, and the largest of their kind in the United States. This will be an Omaha enterprise, and is undertaken because it is known that a great deal of the lumber which is now shipped into this city, has been brought here from abroad. It is estimated that in this way not less than 1,000,000 worth of Nebraska money was last year spent in the east.

In this connection, it may be stated with pleasure, that the Loyal Chemical company, process soon to be started in a factory in this city for the manufacturing of baking powder, bluing and extracts.

Worse Than a Fire Alarm. One of the most dreadful alarms that can be sounded in a mother's ears is produced by croup; dreadful because it is dangerous; the more dreadful because the child who is laid in its grasp by Chamberlain's Cough Remedy is a dangerless safeguard against this dangerous disease. Its reputation as a preventive and cure of croup is fully and firmly established. In fact, it is the only remedy which can always be relied upon. Sold by all druggists.

PENNSYLVANIANS IN OMAHA. They Meet for the Purpose of Forming a Society. Old residents of Pennsylvania, seventy-five in number, met in a chamber last night to form themselves into a social, benevolent and philanthropic society. These gentlemen are anxious that the Pennsylvania should, when in the Gate City, meet each other and by social intercourse become acquainted and form a permanent association. D. H. Hoek was chosen temporary chairman, and W. E. Muselman, secretary. The chairman explained the object of the gathering. He said that as Pennsylvania is a free and should be bound together by more than simple social ties. It behooved everyone there to further the association and to establish a society that could be alike both benevolent and sociable. Many persons would in due course of time arrive here from Pennsylvania, and it would be the duty of members of this association to befriend them, no matter whether they be rich or poor.

The committee of organization, consisting of R. C. Patterson, J. Redman and W. N. Nason, was appointed. The following five members were next appointed to prepare a constitution and by-laws: W. E. Muselman, W. F. Griffiths, J. W. Beaver, C. M. Jackson and J. K. Coiler. Forty-five gentlemen named as members of the association, and a meeting adjourned until Thursday evening next.

These suits are made in our very best manner, trimmed and finished as well as any suit in our stock and are usually sold for \$22. We mean to close them out this week at \$15 each. We have no samples of the cloth to send, but will send a sample suit to any address, and if it is not found to be as represented, may be returned at our expense. Send for self-measurement blanks.

LOT NO. 2—We have manufactured another lot of 100 Sack Suits of the well known Mechanicsville goods and will offer them all through this month at the popular price of \$12 per suit. During the past two months we have sent hundreds of these suits to all parts of the west and we believe that the universal verdict has been that these suits are all that we claim them to be, a regular \$15 suit at retail. Our facilities for manufacturing enable us to sell them at the astonishingly low price of \$12.
