#### THE CITY.

The Aurora society of the South Tenth street M. E. church will give an oyster supper at the residence of A. J. Har-mon, 814 Pierce street, Thursday evening, December 18. Everyone invited.

#### Personal Paragraphs.

Mr. Chris Durr and daughter left. Sunday evening te spend the winter with his sister-in-law, Mrs. W. P. Hennessy, San Jose, Cal. Burt G. Wheeler has resigned his position as stenographer for Blake, Bruce & Co., of this city, and accepted a like position with nour-Cudahy Packing company, of

#### Big Turkey Shoot.

There will be another big turkey shoot at the Omaha Gun club grounds this after-noon. There will be twenty-five bids in hand, and the provisions of the shoot are 500

#### One Hundred and Seventy-five. At noon yesterday 175 saloonkeepers had

paid their license money of \$1,000, which gives them the privilege of trading during the en-suing year. There are about ninety saloonists yet to be heard from.

#### A Horse in a Pit.

Sunday evening a horse fell into the partfally filled excavation made by the Water Works company near the corner of Sixteenth and Webster streets, and was badiy burt. The vehicle also was somewhat damaged. It took a gang of men nearly an hour to elevate the steed from the pitfall. The failure to put up red lights was the cause of the accident.

#### Bridge Traffic.

The bridge motors commence to run this morning at 6:10 and 7:10 on Sundays, and run till midnight on week days and 1 a. m-Sundays. There are six trains, and they run every twelve minutes. The average number of passengers is between seventy-five and eighty, though one conductor has carried as many as 156 people. Foot passengers have decreased over the bridge since the opening of the electric line

#### Fought for a Girl.

While William Piper was returning from a dance Sunday evening with a young lady, one George Jewett assaulted and beat him shamefully, claiming that Fanny was "his girl," and Piper had no right with her. The girl refused, however, to go with Jewett, and a fight ensued. Piper, however, still kept the young lady. Both fellows were arrested. On arraignment Jewett was fined \$17.50, and Piper \$5 and costs.

#### A Sad Fate.

A singular instance of the fickleness of fortune has been discovered in the death and burial of a Mrs. Abrahams, of 2707 Half Howard street. She was buried by the Hebrew Benevolent association, leaving, however, clothing of almost royal richness. Her bridal dress especially was particularly beautiful. Only ten months ago she was a bride in one of the richest circles in Russia. One of her bridal gifts was a check for 1,800 rubles. Saturday she was buried by the charity of her people.

#### The Dangerous Electric Wire.

A heavy electric wire on Saturday night dropped upon the telephone and district telegraph wires burning out seven telephones and more or less affecting five of the circuits of the latter company. In the district office a relay was destroyed and one of the switch-boards was more or less injured. Had it not been for the immediate cutting off connection damage would have been severe. Manager Rheem in making the disconnection received a shock which he still feels.

#### Coming Attractions.

Yesterday Manager Boyd booked Booth and Barrett for the latter part of April next, and Mary Anderson for the early part of May. For the season coming September next, Mr. Boyd has already booked the New York Lyceum Theater company, the Haverly Cleveland minstrels, Nellie McHenry, Rose Coghlan, Robert Mantell, Thoman W. Keene, "Natural Gas," William H. Crane Keene, "Natural Gas," William H. Crane, Emma Abbott opera company, Modjeska, Frank Daniels' "Little Puck," Patti Rosa, Rosina Vokes, "Little Lord Fontleroy," Staart Robson. Duff opera company, Killer, Maggie Mitchell, Carleton opera company, Nat C. Goodwin, "A Parlor Match," "A Hole in the Ground," "A Brass Monkey," Annie Pixley, "Fascination" and a number of other first-class attractions.

Burglarious Recruits. Last Saturday night the house of Sergeant Rivers, at Fort Omaha, was entered by some men, who made off with a few of his effects. Sunday night a few minutes after 12, while effecting an entrance to the house of Corporal Fox, Mrs. Fox was awakened and the thieves were disappointed. Shortly after 1 o'clock they entered the quarters of ex-Sergeant Bauers, who is now employed as market man for the post. In the same quarters is the mail man, Lazarus. Both men daily are entrusted with sums of money by the officers for paying bills in town and for other purposes. Bauer was awakened just as the thief was making for the door with his arms full of pants and coats. He rushed outside, but was met by two men, whom he recognized as soldiers, and who ordered him to re-turn to the house or they would shoot. Bauer entered the house and searched for a revolver, which was also gone. Lazarus discovered that all his clothing had been carried off, and throwing on a buffalo coat gave chase. He captured one man hiding near the creek back of the stables, and murched him to the guard house. The names of the perpetrators are Burke and Murphy. The lat-ter deserted yesterday morning, thus adding the crime of desertion to that of an attempted burglary. All the valuables were regained. Both men are recruits.

#### To Prevent Croup.

True croup never comes without a warning; a day or two before the attack the child becomes hoarse, and that symptom is soon followed by a peculiar, rough cough. If Chamberlain's Cough Remedy is given as soon as this hoarseness or cough appears, all danger and anxiety may be avoided; it has never failed, even in the most severe cases. There is no danger in giving the Remedy for it contains no injurious substance. Sold by all druggists.

#### The Legislative Contest.

The lawyers engaged in taking testimony in the legislative election contests, assembled again yesterday morning at the city hall, but after a brief discussion of the status of the case, ajourned until this morning. They have a large number of witnesses yet to examine. The republican contestants seemed elated with what has thus far been unearthed, and assert that sufficient fraud has been developed in two precincts, to justify the votes being thrown out, which action would give the contestants their seats. The democratic contestees claim that no fraud, but a good deal of irregularity has been dug up, but not of such a character as to hazard their chances of occupying the seats to which they were elected. "It would be an interesting thing," observed a gentleman who is taking a deep interest in the contest "to the honest citizens of Omaha who believe in an honest election and fair count, to know just what the democratic definition of irregularwhat the democratic definition of irregularity is. If non-compliance with every provision of the law governing elections, if knoosing a judge down and scattering the ballots
about the room, and the promiscuous voting
of residents of other wards, is but a venial
offense, to be classed under the general
head of irregularities, it is high time the
legislature enlightened us upon the meaning
of the words fraud and crime. Yes sir, "he
concluded with emphasis," there has been

enough rascality developed already to enti-tic every republican contestant to the seat he has been defrauded out of."

#### The Grand Jury's Investigation

The United States grand jury convened at 10 o'clock yesterday morning and resumed their search for election frauds. A query was put to Assistant United States Attorney Patrick as to when he thought a culmination of the jury's labors would be reached, and he replied that that was one of the things that no fellow could find out. There are now subpoenas out for forty additional witnesses, and many more than those are apt to be called unless something material is unexpectedly developed, which is very likely to occur at any moment. That the examinations are growing more and more interesting is very evident, as the jurors, when they occasionally step forth into the corridor for a moment's exer cise, look very wise and knowing, and it is given out that several true bills will be re-turned. County Clerk Roche was subjected to a long and critical examination yesterday morning, but just the nature of the inquiries applied to him could not be ascertained. It has been ascertained that the action of Superintendent Mahoney, of the poor farm, in voting some twenty-five or thirty inmates of that institution at the presidential election, is being most searchingly and rig-idly inquired into. Authorities assert that these votes were clearly fliegal, and their assertions are made good by the fact that all of these thirty paupers who got in their votes for Cleveland at the Seventh ward polls were repeated at the late city election. The judges and clerks of election at the Seventh ward, together with a large number of interested citizens, are yet to appear before the

#### Eastern Contracting Parties Annoying Western Traffic Managers.

The general freight agents and the gen eral western freight agents of the various railway systems reaching this city are laboring under a difficulty in connection with the standard in freight rates. Yesterday the eastbound rates between Chicago and the seaboard went into effect. This means an advance in rates on all lines in the eastern pools. The rates on grain have been advanced to 25 cents per 100 between Chicago and New York. Previous to this agreement being reached the grain rates between Mississippi river points and New York was only 23 cents. The rate between the latter points, and which went into effect this morning, is 29 cents, showing a direct increase of 6 cents. But aside from this there is an uneasiness among the traffic managers here, and also among thee trains managers here, and also among those of eastern roads, arising out of the probability of the agreement not being lived up to by all the roads. Should such a movement be made in the latter instance by any of the

roads, the traffic managers here state that the rates would again become feverish, and that only contract rates could be relied upon by the shipper. "In this instance," said a well-known freight agent, "the buyer and shipper are placed in a peculiar predicament, for the reason that the buyer may figure on existing rates, and also the shipper figure the same way; the rates are not under classifica-tion, and may be advanced or decreased at any period, even within au hour's time. is also stated that the western roads have been conveying a vast amount of products, such as grain, that have been consigned to

the seaboard on the east during the period that the low rates have been in existence, and that the advance now made will have a tendency to lessen the western traffic for the Yesterday a circular reached this present. city from Charles L. Shaw, 'chairman of the Central Traffic association, instructing the shipments made under the old rates that terminated this morning to be branded: "In transit prior to December 17." The rates from Omaha to the seaboard in the east and from that point to Omaha have been generally advanced on the common products 6 cents per hundred pounds in con-sequence of this transaction.

#### A Big Scheme. For nearly one week the heads of depart-

ments of the roads centering in Omaha have been in Chicago in attendance at a meeting called for the purpose of reorganizing the Colorado and Utah general traffic association. Should this be brought about it will take in the territory between Utah and the Mississippi river, and in which a standard classification of rates on the passenger and freight traffic will prevail upon all railroads traversing this territory. An organization of this kind formerly existed, but was broken by the Burlington cutting rates westward. Thus far but little has been accomplished at the Chibut little has been accomplished at the Chi-cago meeting. Assistant General Manager Mellen, of the Union Pacific, who returned yesterday, and who has represented his road at the meeting, stated that thus far but little had been accomplished, and that the meeting had adjourned to re-assemble Wed-nesday next. When asked concerning the trouble between the contracting parties he intimated that in order to bring about an intimated that in order to bring about an agreement fron clad rules must prevail. It is generally conceded that the combination is being formed to thwart the inter-state commerce law, and that as soon as an agree-ment is reached western freight and passenger rates will be materially advanced.

MR. A. L. JOHNSON, A UNION PACIFIC ENGINEER, GIVES THE FOLLOWING HISTORY.

"I have been on the road as an engineer since 1874, and now have engine No. 825. An engineer's lot is not always a happy one, as he is exposed to all kinds of weather, and often losing sleep for two or three days at a time. The exposure incident to my business caused me to take cold very easy, and as long ago as twelve or fifteen years I had trouble with my nose and throat. These symptoms became more aggravated until I could stand it no longer. My nose would stop up, my ears would ring, my throat felt as if it was full of phiegm and with every change of weather I would have an increase of the trouble. I read Dr. Jordan's cases from time to time as everyone doess, and decided that was the place to go for rellef. I did so and was not disappointed. Now I breathe freely through my nose under all circumstances, my throat feels natural, the ringing in my ears has ceased, and although in fair flesh before, I have gained in the neighborhood of sixteen pounds in weight. Dr. Jordan's treatment is mild and effective, and the rellef and well feeling after each treatment more than balances, the incouvenience and expense attending it."

# FOR THE HOLIDAYS.

We are offering special inducements to parents who are desirous of securing practi cal and appropriate holiday gifts for their boys; what better or more sensible present can you give them than a nice Suit or Overcoat? We are showing handsome styles for big and small boys, and our qualities and prices can not be matched.

 \$2.50 buys a very nice all wool Suit or a good Overcoat with cape for small boys. \$3.50 buys an excellent Suit or Overcoat for small boys.

\$5.50 buys a very good all wool Suit or splendid Chinchilla Overcoat for large boys up to 18 years old.

We call special attention to a few small lots of very choice styles of Overcoats for little boys from 4 to 10, which we offer at a marvelous low price. We are anxious to close them out; they are extremely fine goods and the brief season left for the disposal of such qualities induced us to make a big cut on them; they are made of very fine Kerseys, Chinchilla and Cheviots-this seasons novelties, of elegant designs and richly trimmed, some with fur, some with plush—in short they are such garments as can only be found in first-class houses. We have marked them \$6.00, \$7.25, \$7.90 and \$8.50, and we guarantee that these prices are not one half of what such goods usually bring. This is an extraordinary opportunity to procure a fine garment at such a figure and every boy will appreciate such a gift.

In our Hat Department can be found an immense line of Boy's Hats and Caps in Plush, Felt and Cloth. We positively sell these goods at just one-half what regular Hat dealers ask for them, and you would be surprised to see our prices. Good little Turbans of Plush, Chinchilla and Astrachan at 25c; splendid Knit and Jersey Caps at 30c, and very fine Cloth and Jersey Caps at 40c, 50c and 75c.

In our Glove Department we have a large assortment of Boy's Gloves and Mittens, suitable for presents. As a Christmas offering we will present this week each boy with every purchase-no matter how small, a nice paint box. We have opened an elegant line of Mufflers, Silk Handkerchiefs and Scarfs, especially for holiday trade and offer them at prices lower than asked in any other house for like qualities. Good Cashmere Mufflers at 15c, 35c and 50c; elegant Silk Mufflers of beautiful designs and elegantly embroidered at 75c, \$1.00 and \$1.50.

Next Thursday we shall begin to distribute our elegant holiday souvenirs and we will also forward one with all out of town orders.

We have cared hundreds who have been shandoned by Physicians, and pronounced incur able, and we challenge the World touring is a case that we will not care in less than slatv days.

Since the history of medicine a true specific for Syphilis has been sought for be inever found until our

was discovered, and we are justified in saying it is the only Remedy in the World that will positively cure, because the latest Medical Works, published by the best known authorities, say there was never a true specific before. Our remedy will cure when everything else has falled. Why waste your time and money with patent medicines that never had virtue or doctor with physicians that cannot cure you, you that have tried everything else should come to us now and get permanent relief, you never can gue it elsewhere. Mark what we say, in the end you must take our remedy or NEVER recover and you that have been afflicted but a chert time should by all means come to as now not one in ten of new cases ever get becmanents cured. Many get help and think they are five from the disease, but in one, two or three years after it appears again in a more horrible form.
