Superintendent Rothert, of the institution for the deaf and dumb, has returned from Chicago, where he has been for a week securing some machinery for the industrial schools, and selecting Christmas presents for the pupils. Arrangements are being made for a Christmas tree at the institute, and a merry-making on Christmas eve.

The firemen's association held a meeting at the city building last evening. The committee on transportation had nothing tangible to offer, but are still working to secure a rate of one cent a mile, with good prospects of success. A committee was appointed to solicit funds, also one to arrange for prizes to be offered in the various competing classes. No delegates were appointed to the state convention in Des Moines next month. Last Day of School. The city schools closed yesterday afternoon for 1888, and the pupils and teachers will enjoy a well earned vacation of two weeks during the holidays, the schools reopening January 7.

Special exercises were held in many of the rooms of the various academies and themselves very creditably. At the high school the exercises were of a particularly interesting nature. It was in reality the "last day" of the school in the Bloomer building. Hereafter the high school will be located in the new Athens building, where it will occupy the entire third floor.

Arrested as Highwaymen. A constable from Carson arrived in the city yesterday morning in charge of Thomas Windom and James Betts, and turned them over to Sheriff O'Neill. Windom and Betts are the parties implicated in the robbery of a German named Deal, near Avoca. Betts went to that place in search of a farm hand, whom he wanted to raise corn, representing himself to be a farmer having a few miles from there. The German agreed to his terms, and the pair started for Betts' farm. After going a few miles from the city, they were waylaid and "held up" by Windom, who took all Deal had and allowed him to depart. It is alleged that Betts was acting as an accomplice.

The crime of which the man charged is a most serious one, as Windom was armed, and drew his pistol. The penalty in such cases is a term in the penitentiary, not less than ten years or more than twenty. They were arrested last Monday, and at their preliminary examination were bound over to the grand jury in the sum of \$50 each. The authorities claim to have a clear case against them, and the indications are that both will go across the state for a lengthy term. The prisoners refuse to talk either about themselves or the affair which has led to their arrest.

The Work of the Fire Lads. About 1 o'clock yesterday morning the department was called out by an alarm from Middle Broadway, where flames were discovered issuing from No. 533, occupied as a grocery store by Durin Bros. The blaze was quickly extinguished, but its origin is a mystery. The fire originated in the second story, and burned through the wall, also through the floor, before discovered. It is supposed that a combination of mice and matches was at the bottom of the difficulty, as a quantity of the latter was found near the place where the fire broke out. The greatest damage was done by water, but it will not exceed 100.

A few hours earlier the department was called to the boot and shoe store of Sauer & Evans, where a winter scene composed of cotton, that was on exhibition in the window, took fire from a gas jet. The flames were quickly gotten under control, and only \$200 worth of stock was badly damaged. This makes four fires in about twenty-four hours.

The fire department did excellent work, and especially at Durin Bros' store. Not only did the boys respond very promptly, but they handled the fire very judiciously, quenching the flames with very little damage and without flooding anything.

Mr. Baker, a New York capitalist, stopped in the city yesterday on his way east. He was the guest of his old friend, Harry Birkinbine, of the waterworks company.
