

THE CITY.

Mr. E. M. McCrary had his horse and buggy stolen from a hitching post outside the Canfield house last night.

The Philadelphia chon house gives a Christmas dinner to the newboys, American District and Western Union messengers, and the bootblacks, between 2 and 3 o'clock.

Mrs. Pierson was yesterday appointed to assist County Agent Mahoney in looking after the city poor during the ensuing winter.

Every afternoon and evening—Madame Leloy, long haired lady; Eva Loveland, fat lady, and other attractions.

We rec'd Mr. Kerr's thread, Hayden Bros

Another Victim. J. D. Coon, of Plattsmouth, was brought to Omaha late Saturday night by the government authorities on a charge of selling liquor without a government license.

A Cold Wave. Yesterday at 10 o'clock the cold wave signal was hoisted under instructions from Washington, as a decrease of 34 degrees in the temperature was expected before 3 o'clock this evening.

It is Not Smallpox. The report of a case of smallpox at Eleventh and Vinton streets that was circulated in the city yesterday, proves to have been unfounded.

Use Kerr's thread always the best, sold and recommended by Hayden Bros.

Charitable Colored People. Rev. J. H. Welch, pastor of the Mt. Zion A. M. E. church, Jacksonville, Fla., writes as follows to THE BEE, acknowledging the receipt from colored people in this city, of contributions to the yellow fever fund of that stricken city.

The blood is the source of health. Keep it pure by taking Hood's Sarsaparilla, which is peculiar in its curative power.

Assessors and Supervisors. The following official bonds were approved Saturday by the county commissioners: A. F. Briggs, justice of the peace of the Eighth district; Samuel Hopper, road supervisor for the north district of Waterloo; Samuel S. Witt, road supervisor of the north district of Elkhorst precinct; Frank J. Bleick, assessor for McArdle precinct; George Merryweather, road supervisor for the east district of Valley; James P. Fry, constable for Chicago precinct; A. W. Roche, assessor for the Third ward; William H. Olmstead, road supervisor of Union precinct; David Reed, road supervisor of West Omaha; Henry W. Crossie, assessor of West Omaha; Hans Nelson, assessor of Jefferson precinct; Henry Holke, assessor of James Mitchell, justice of the peace for Valley.

Saturday Night's Wreck. Yesterday the Western Pacific had a large force of men clearing up the wreck on its track at the intersection of Sixteenth street. It was rumored that Switchman Howard had put in an appearance early yesterday morning at the scene of the wreck, but inquiry failed to substantiate the statement. Both engines are badly damaged and are "stalled" in the shops for some time. The accident is attributed to Howard's negligence in not seeing that the track was clear for the train before it put out the engine. The company entitled it to the track at that time. The engineer and fireman that were on the head engine, and the conductor, who were badly shaken up, are in no way dangerously injured. The track was cleared up about midday yesterday.

Sleepless nights made miserable by that terrible cough. Shiloh's Cure is the remedy for you. For sale by Goodman Drug Co.

A Misleading Statement. In commenting on the announcement of THE BEE to the effect that the management of the Kansas City, St. Joe & Council Bluffs, and that of the Union Pacific were engaged in arranging division rates, the railroad measure of a morning paper states that the St. Joe road "must be a new concern," and also that this is vested exclusively in the "Western Traffic association." The fact is that the railroad system in question has long been in existence, and for the purpose of traversing the country in a northerly and southerly direction, it has no direct connection with the Western Traffic association, and neither does it come under that association's classification. Vice President Holcomb, of the Union Pacific, is authority for the statement that new division schedules were being formulated.

One word: one step may make or mar one's whole life. Dr. Jones' Remedial Tonic is the proper move when you have dyspepsia, bad breath, pimples, ague, malaria, low spirits, headache or any stomach or liver troubles. 50 cents. Goodman Drug Co.

Rates to be Advanced. That upon the reorganization of the Colorado and Utah pool, western rates would be advanced as foreshadowed in THE BEE, is generally conceded in railway circles. For nearly two weeks the traffic managers of the roads centering in Omaha sat in conference in Chicago, and the result is that the Utah pool has been reorganized, and in the near future it will be in operation. When asked about the reasons for the reorganization, General Manager Holdrege of the Burlington said: "The western rates, and particularly the rates in Colorado, have for a long time been in bad condition. To handle freight at certain periods under the rates in effect at that point, meant a loss to the railroads. Now the traffic managers have agreed to the restoration of the former schedules, which will advance rates in Colorado and may lead to an advance from points eastward from the Missouri river." The statement that the new pool formation would do away with classification rates to the Missouri river points, as sent out in press dispatches from Chicago, is pronounced erroneous. Omaha and points similarly situated, will enjoy a division classification, and the only traffic that will come under the service will be that which is consigned to through points.

Personal Complexion Powder produces a soft and beautiful skin; it combines every element of beauty and purity.

MONUMENTAL INSTITUTION.

The Subject Discussed by Rev. J. B. Johnson Yesterday Morning. The text of the sermon in Walnut Hill Christian church was, "This do in remembrance of Me," Luke 22:19. The speaker said: A monument was erected on the field of Thermopylae in honor of the immortal 300 who gave their lives for their country. On the monument was the inscription: "Go! stranger! and tell at Sparta that we died in obedience to her laws." On Bunker Hill and at Gettysburg we may see day after day monuments to remind us of the heroic deeds of patriotic defenders of our country. The pyramids of Egypt have stood for ages as monuments of tyranny, although having been intended to immortalize the names of the builders.

Rites and ceremonies are often observed as memory tokens in honor of mighty deeds or of characters that men delight to honor. The Greeks observed the Isthmian games in honor of the destruction of Circeia and the Romans the games of Apollo in memory of the overthrow of Syracuse. We celebrate the Fourth of July in memory of the heroic faith and action of the brave men who pledged their lives, their fortune and their sacred honor to the maintenance of the immortal declaration. We observe December Day in honor of the gallant men who laid down their lives to preserve the integrity of the union. The religion of Jesus is not without its object lessons and helps to the memory. Sunday has been observed as a day of rest and worship for nearly two centuries as a memorial of the resurrection of our risen Lord, who, on this day, arose from the grave and brought life and immortality to light. Baptism, also, is a memorial institution. In it we see pictured forth the burial and the resurrection of the Redeemer. The Lord's supper, of which we speak particularly today, is a memorial rite. The ancient Romans celebrated the death day of the loved one who had gone to "the undiscovered country." At the annual recurrence of the death day a feast was made and there was a vacant place at the table for the absent one whose guests they supposed themselves to be. And I know that day of our birth, but he himself instituted the supper which we observe in grateful memory of his sufferings and death. It was on an April Thursday, A. D. 33, with thirteen persons present in an upper room, that he said of the loaf: "This is my body, broken for you," and of the cup, "This is the blood of the new testament which is shed for many for the remission of sins."

The man who denies that the declaration of independence was ever signed and that the war for the maintenance of the union was ever fought, is bound to account in some way for the origin of the observance of the Fourth of July and Decoration day. They are living monuments testifying to the events they commemorate. And the man who denies that Jesus died for men, was buried and arose again, is bound to account for the origin of baptism, Sunday observance and the Lord's supper. A nation lives largely in memories. Memories of Marathon and Thermopylae to-day fire the Grecian heart. Let America forget the 4th of July, Bunker Hill and Valley Forge, and she would forget Gethsemane and Pilate's hall, Mount Calvary and Joseph's sepulcher, and the Christian religion will perish. The fires of devotion are kindled in the Christian heart by hallowed memories of what Christ has endured for us—memories of his lacerated body, of falling tears and streaming blood.

It is a sad thing for a ship to go down in mid ocean and leave no sign that it ever existed, as did the Central American. It is sad for a human soul to go down in the great ocean of life and leave no trace. It is sad to think our graves will soon be overgrown and we will be forgotten. It is sad for husband or wife to think of being forgotten by the other. In common with humanity Jesus desired to be remembered, especially for our own sakes. To forget Jesus is to become infidel or pagan—to yield to despair or return to the long forsaken altars of Jupiter and Juno. To forget Jesus is to forget the mercy and the love of God. To forget Jesus is to forget the physician and the balm of life. To forget Jesus is to forget the home and the crown of immortality. To forget Jesus is to forget the home of the soul, the many mansions, the city of God, the walls of jasper and sapphire, its streets of gold and its river of the water of life.

Many persons contract severe cold during the early winter months and permit them to hang on persistently all winter, weakening the lungs and laying the way for catarrh, chronic bronchitis or consumption. No one can afford to neglect a cold. A single bottle of Chamberlain's Cough Remedy will cure the most severe cold, and cost but 50 cts. For sale by druggists.

Pre-entertainment at the Staats. Last night at Goss' Staats theater Professor Theodore Bruder, assisted by Miss Charlotte La Motte, entertained an audience with a series of sleight of hand tricks, card-tossing and mind-reading in a highly successful manner. The entertainment was well received, but easily found favor with them because of the excellence of all their acts. The remarkable features were the clairvoyant act of Miss La Motte and the performance of the professor. The performance lasted three hours and was frequently applauded.

Advice to Mothers. Mrs. Winslow's Soothing Syrup should always be used for children teething, it soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. 25c a bottle.

A Mangled Laborer. The remains of Frank Hand, an account of whose violent death appears in the Council Bluffs department of this paper, were yesterday brought to Council Bluffs headquarters, where an inquest will be held upon them to-day at 10 o'clock.

The Empire Question. The Western association should lose no time, but at once stir around and secure their corps of umpires for the coming season. There is no question but that new faces will be seen in this circuit in 1889, as it is a pretty well accepted fact that crookedness marked the work of one or two of the staff of last season. There can be nothing gained by mentioning names, as the association officers are thoroughly in the confidence of the umpires, and they will govern themselves accordingly. It is not known whether Frank Hand would like a position on the staff next year or not, but if he should manifest such desires, there is not much doubt but that he could get the appointment. Anyway, the committee who has this matter in hand, have no time to lose, if they would secure first class men.

Miscellaneous Sporting News. Captain O'Malley and a party of gunners bagged eight fine geese at Calhoun Thursday.

The alleged Jack Dempsey, so thoroughly punished by Jimmy Lunnie a couple of weeks since, has "dropped" away from this neck of woods.

Billy G. Ingram has been offered \$100 and sent to the penitentiary for the purpose of handling the birds of the Utah Sporting club in a big man they have on with San Francisco parties.

A novel Christmas present was sent to Poughkeepsie, N. Y., this morning, by Al Rothery and Mike Kieckitts. They sent four ball pups, out of the famous bitch "Nellie," for the purpose of the reorganization of the General Manager Holdrege of the Burlington said: "The western rates, and particularly the rates in Colorado, have for a long time been in bad condition. To handle freight at certain periods under the rates in effect at that point, meant a loss to the railroads. Now the traffic managers have agreed to the restoration of the former schedules, which will advance rates in Colorado and may lead to an advance from points eastward from the Missouri river." The statement that the new pool formation would do away with classification rates to the Missouri river points, as sent out in press dispatches from Chicago, is pronounced erroneous. Omaha and points similarly situated, will enjoy a division classification, and the only traffic that will come under the service will be that which is consigned to through points.

Flashes from the Diamond. Jim McLaughlin is wintering in this city. Sam Morton is in Chicago hustling for the Minneapolis team and himself. Harry Stanley has signed with the Pittsburgs for the coming season at \$2,500. It remains to be seen whether four balls and three strikes will increase the batting next season. It is the writer's humble opinion that it will not.

There will be some additional improvements made at the ball park in early spring. The St. Joe base ball directors have elected the following officers: A. H. Truckenmiller, president; John S. Patton, treasurer; and Charlie M. Lord, manager. Lord was once manager of the old Union Pacific.

Joe Quest, a Western association umpire last season, is under engagement to captain and manage a team in Sacramento next season. Joe will have an easy time of it, as the team plays only two games a week—Saturday and Sunday.

Under the rules for next year, should but one run be required to win the game, and there be three men on the bases in the last inning, if the batsman makes a home run the hit will so count, and all the runs will figure in the score.

"Squid" Farris is authority for the statement that the city league will be reorganized next season on a much stronger and more business-like basis than the past, and that he will be in the field with a team that will make the rest of the managers turn green with envy.

Alford, Des Moines' big, good-natured third baseman, wants his release. He thinks he's good enough for the League or American association, and says that if Des Moines doesn't let him out, that he will remain in California, where he is now playing with the Knickerbockers.

W. T. Plummer, who is officiating as head waiter at the Millard, would like to play ball professionally next season, and he would be a good man for some of the minor league clubs. He is a first baseman, and plays the position finely, being a sure catch and great ground ball hitter.

W. C. Bryan, the ex-manager who started the Des Moines club and has figured prominently in ball circles, has fled to Canada to avoid the consequences of an indictment hanging over him in the district court. The girl whom he betrayed is still in Des Moines. Bryan is now married to a wealthy lady. His business prospects are bright, and he has an offer to go to Washington to be informed that a man cannot be extradited for the crime charged.

Grateful. From the Council Bluffs Daily Globe, January 20, 1883: "Mr. A. M. Patton, of the Cambria (Ebensburg, Pa.) Freeman, has been the personal friend of the editor of the Globe for more than twenty years, and is known, wherever he is known, as one of the best men living. He is also an intimate friend of Mr. Clark of the Nooparsell. He has been unfortunate in the fact that his family was ravaged with diphtheria, and greatly distressed. Mr. Clark, having heard of this calamity, sent him some of Dr. Jeffrey's Diphtheria Cure. It was used at once, and the lives of the rest of his children saved. Letters from Mr. Patton are unbounded in their expressions of a grateful heart for finding such means of averting the loss of his whole group of little and tender ones. Five of Mr. Patton's children out of eight died from diphtheria before he had the opportunity of using Dr. Jeffrey's remedy. Price of remedy \$3. Address Dr. Thos. Jeffrey, box 657, Omaha, Neb.

An Absent-Minded Broker. Baltimore American: E. R. Williams, a well known Wall street broker, certainly has a claim to the palm for the most forgetful man in the world. What do you think of a married man so absent-minded as to lose his wife's corsets on the street, and then advertise for them in the papers? That is what Mr. Williams has done. He started out to have his wife's corsets, which were unusually valuable, repaired, but being wrapped up in stocks his mind soon wandered from his wife, and he left the article of dress in the car. Now he offers a reward for their return, and his wife declares that Mr. Williams' memory isn't as long as your finger.

Dissolution of Harrison's Law Firm. Philadelphia Press: The dissolution of the law firm of Harrison, Millott & Elam is announced. Since his nomination General Harrison has given very little attention to the business. It is stated that the firm was really dissolved on the day of the election. It is now to be known as Miller & Elam, although "B. Harrison" still appears at the head of the little tin sign that serves as a guide to people who need the office.

Not Reduced to Want. Chicago Tribune: I desire to insert this advertisement in your paper tomorrow morning," she said. "This," said the advertising clerk, looking it over, "will go among the wants."

"Have you no 'wish' column?" "No, mum."

"Then, sir," said the young lady from Boston, haughtily, "you need not insert it. I simply wish a situation as governess. That is all. It is an open question of want. Is there any newspaper printed in English in this place?"

THE OMAHA DAILY BEE; MONDAY, DECEMBER 24, 1888.

Next season. It is the writer's humble opinion that it will not. There will be some additional improvements made at the ball park in early spring. The St. Joe base ball directors have elected the following officers: A. H. Truckenmiller, president; John S. Patton, treasurer; and Charlie M. Lord, manager. Lord was once manager of the old Union Pacific.

Dr. Spinnery & Co. OMAHA DISPENSARY. NERVOUS, CHRONIC and PRIVATE DISEASES of MEN and WOMEN Specially treated. YOUNG MEN. Suffering from the effects of youthful follies or in dissipation, or any venereal disease, Nervous Debility, Loss of Memory, Headache, Backache, Kidney Trouble, or any disease of the genital organs, will find relief in our Dispensary. Cures effected especially in the poor. MIDDLE-AGED MEN. There are many troubled with too frequent evacuations of the bladder, often accompanied by a smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. In examining the urinary deposits a very sediment will be found, and sometimes small particles of albumen will appear, or the color will be of a dull yellow. There are many men who die of this kind of disease, which is the result of the long-continued use of stimulants, such as alcohol, and the consequent exhaustion of the constitutional system. Consultation free.

THE COOK REMEDY CO. Room 10 and 11, U. S. National Bank building, Omaha, Neb.
