their second party, to be given at their armory Tuesday evening, January S. The first one was a highly enjoyable affair, and those to follow will equal if not surpass it in this respect,

There was a sudden falling off in police business, and yesterday morning found but three victims in police court. They were all vars, and were sent on their way rejoicing with a sharp reprimand from the court for their utter worthlessness.

The millinery stock and fixtures of Mrs. Flora A. Stewart were yesterday sold at sheriff's sale. The purchaser was Mr. Nichols, who held a chattel mortgage on the property. The price paid was \$5.0 and the amount of the mortgage was \$1,105.

The Big Muddy is now bridged its full width with ice, but can not yet be crossed. It usually freezes across in October, but the weather has been so unusually mild that it is fully two months later this year. There are several open places in the river between this city and Omaha, which is very uncommon at this time of the year.

The concert given at Dohany's last even-ing by Madame Camilia Urso, the great vio-linist, assisted Miss Phila May soprano, Mr. Louis Miller tenor, Mr. Frank A. Fuller baritone, and Signor Sigmund Martinez planist, was well attended and highly appre-ciated. The maying of Mathematical Sciences ciated. The playing of Madame Urso was the prime attraction, and the great artist made many new admirers here. They go from here to Omaha, where a concert will be given this evening.

The Old and the New.

The present indications are that the year of 1889 will be the most prosperous that the city of Council Bluffs has ever known. The reports from all branches of business are encouraging. The real estate men are in clover. The deals in dirt are more numerous and extensive than they have ever known, with the exception of during the boom Prices have a steady upward tendency, but there is nothing spasmodic in their nature to indicate an unhealthy condition. Many of the lots that are sold are purchased by citizens of Omaha, who say that they will build upon them in the spring and remove to this side of the river.

The architects report their business as very good, and are at work on the plans for several fine buildings that are to be erected early next season. Mr. Fitch has disposed of his five new cottages on First avenue near the car house of the Electric Motor com-pany, and it is reported that he will build several more. He realized the neat sum of \$1,800 for each of them, netting a good re-turn upon his investment. The work of the year just closing far ex-

ceeds that of any previous year in the his-tory of the city, as shown by the report of the secretary of the board of trade, printed copies of which will be ready for distribution n a few days.

The trustees of the Chautauqua assembly The jobbing trade for the year refehes the have accepted the plans drawn by Bell & enormous figures of nearly \$17,000,000, an in-prease of about \$3,000,000 over the previous Berlinghof, for the grand amphitheater. A large drawing of the building is on exhibiar. The value of the manufactured pro-icts for the year amounts to rearly ion in one of the show windows of Hark-\$2,000,000, as compared with less than \$1,500,000 for 1887. It is an imposing looking f which was \$2,168,000. In the matter of public improvements, the

city has made the most rapid strides and can point with pride to the work of the past year. In that time fine cedar block paving has been laid over six and four-fifths miles of streets, making most beautiful drives. The grading done covered more ground, amounting to seven and one-fourth miles. During the same time three and three fourth miles of sewer was constructed, and fifteen miles of

curbing. The total amount of these im-provements amounts to the astonishing sum of \$341,600 for one year. The increase in the business at the post-office will amount to fully \$10,000, the busiplaintiff. The motions were taken under ad-visement. Among the features will be a Christmas tree miles of double track between the centers of Council Bluffs and Omaha. The Lake Manladen with presents for the children of the awa steam motor line was also equipped and put in running order early in the season. A beautiful new structure has just been completed under the direction of the board of education at a cost of \$40,000, and the At-kins school building is entitled to a promi-per place emerge the additions and improve members; also the raffling of the lot in Burn's addition for the benefit of William Hensel. Curious Swindling Cases.

A curious swindling case has just come before the correctional police. says a Paris dispatch to the London Telegraph. A young woman named Marie Bigot, who appeared in court wearing a velvet mantle richly trimmed with fur, was charged with obtaining 13,000 francs, besides board and lodging, from a Paris hotel keeper by false pretenses. About a year ago Marie Bigot went to the hotel and engaged rooms for herself and her most intimate friend, whom she said was M. Bozerian, sena-tor of Nice. The hotel being situated in a part of Paris not much frequented by persons of distinction, the proprietor was delighted at the prospect of having a senator to stop with him. Marie Bigot was supplied with the best of everything. She is said to have been "made as happy as a rat in a Dutch cheese." The hotel keeper was one of the most credulous of men; he advanced Marie money whenever she asked for it, always believing that the senator would make the account right when he came. But months went by and still M. Bozerian did not appear. The hotel keeper had, however, the satisfaction of believing that he was in regular correspondence with him. The letters being always given to Marie to post she read them and wrote replies craftily worded so as to buoy up her dupe's hopes and allay any suspicion he might have. Although these letters were posted in Paris the absence of the
