A PAIN FACT.

For Overcoats the season will soon be over. We have had an enormous trade in them and we are happy to say—what few clothiers are able to say—that we have not many left, we only regret that we have to disappoint many customers, as we can not fit all.

Of the children's fine Overcoats which we advertised last week are only a few left; there never were such elegant garments offered at the prices we marked these.

In men's and boy's Suits we have a good stock yet. Our low prices throughout the season do not leave much of a margin for "mark down" and "sweeping reduction" figures, but we will take inventory next week and as we are determined to have as few goods as possible to take up, we will make some heavy sacrifices and offer this week extraordinary inducements in several lots of men's and boy's Suits, they are mostly of the finer grades and we have marked them as low as other houses would ask for medium and much poorer qualities.

A Sure Cure. NO PAY. 20 TO 60 DAYS. This is a disease which has heretofore baffled all Medical Science. We have a Remedy, unknown to anyone in the World outside of our Company, and one that has NEVER FAILED to cure the most obstinate cases. Ten days in recent cases has worked. It is the only Remedy in the World that will cure every case of this disease before. Our Remedy will cure when everything else has failed. We have never known a case to relapse, and we challenge the World to bring us a case that we will not cure in less than six days. Since the history of medicine a true specific for Syphilis has been sought for, but never found until now.
