No Case Made.

J. L. Rice was before Judge Berka yesterday, charged with resisting an officer. It will be remembered that Constable Martin Eddy, accompanied by a man giving the name of Bailey, went to Rice's office to serve an attachment. The latter objected to such proceedings and pushed the constable away. policeman was called and everybody in the ffice was arrested. The case occupied the attention of the court the entire afternoon, and was finally dismissed.

Omaha Manufactures. The stock holders of the Paxton & Vierling Iron works at their annual meeting fourth year in succession, reelected the old directors. The report of the volume of business done during the year closed showed a gratif ying growth in every direction. About two hundred and fifty men have been employed continuously, and their salaries have nggregated, in 1888, nearly \$100,000. More business calls for more money. The stockholders met this by authorizing an increase of stock to \$200,000 during 1889, and directing an immediate increase from \$100,000 to \$125,000.

Police Regulations.

Mayor W. G. Sloan and Marshal James P. Maloney of South Omaha have adopted rules governing the police force. Officers not allowed, when duty, to visit drinking saloons, billiard tables, card rooms, or like idling places with their uniforms on, must study the inhabitants, suspicious characters, disreputable houses and questionable places, are forbid-den to interfere with the police judge, drink while on fluty any liquor, or enter a saloon, house of prostitution or other disreputable place, or take liquor in the station house. The violation of any of these rules adopted will be followed by summary suspension.

An Illegal Masquerade. A fine looking young lady was found Monbay night masquerading in men's clothes on Cuming street in company with her husband The police arrested them and at the police station they gave the assumed names of Abe Lincoln and Mrs. Lincoln. The couple reside at 613 North Seventeenth street and have a highly respectable appearance. They recently eloped appearance. They recently eloped from Minneapolis and were married here by the Rev. T. M. House. On arraignment the lady said she had dressed up at home in men's clothes merely for the fun of the thing and supposed it would be no harm for her to take a short walk after night in men's attire provided she was accompanied by her husband. The judge fined her \$10. A weapon had been found on her husband's person and he was fined \$5. The couple had spent the night in jail and felt terribly disgraced. A WATERWORKS COUNCIL.

What the City of Florence Has to Consider. There is a prospect for trouble between

the city of Fiorence and the Waterworks company. Mention of this was made several days ago, but the Waterworks company has been trying to keep the matter quiet, and it has been stated furthermore that it is making arrangements by which it expects to elect its own council in Florence at the ensuing election, so that the question now at issue may be settled to its own satisfaction. When the waterworks company located at Florence, it expressed a desire to have the streets and alleys which, if continued to the river, would run through its property closed. Florence was satisfied with the proposition, and consequently the council passed an ordinance closing up the streets and alleys in question. The ordinance, however, passed upon the condition that the water works company would grade Washington and Bridge streets, and it has been stated furthermore that it is would grade Washington and Bridge streets, which run to the river south of the property owned by the water works company. This work was to have been done last fall, but the water works company have made no effort toward living up to its agree-ment. As a consequence since that time the citizens of Florence have talked the matter over and some of the offitalked the matter over and some of the officials have seen the representatives of the waterworks company and asked what was proposed to be done in the premises. These representatives stated that the cost of grading would be in the vicitity of \$8,000 and that was more than the waterworks company intended to pay, and that it refused to pay that sum out. The citizens were taken somewhat aback by this failure on the part of the Water Works company and have canvassed the matter and David H. Walker has bought the stock and company and have canvassed the matter and have almost come to the conclusion that it will be necessary to rescind the ordinance closing the streets referred to. The water-works company, it is stated, has been dilly-dallying in the matter, and making promises, with the hope of postponing action upon the matter until spring, when a new council will be elected; and, it is claimed, with the hope, based upon the number of men they now have in their employ, of being able to select a council which will not only not rescind this ordinance, but reserve to the Weterworks company the rights which it now has in the premises with-out the condition which was originally im-

posed upon it.

William H. Hall, vice president of the waterworks company, stated to a Ber reporter last night that the council of Florence pretty badly before they were separated. Burnett was arcested and fined \$7.50. A warwould never rescind the ordinance giving the company authority to conduct its work in that little village. The streets that the company agreed to grade are Washington and Bridge, from Main street east to the river. Mr. Hall is also responsible for the statement that the company commenced the work of grading these two thoroughfaces, in comice with the ordinance and the contract two or three days ago.

> > THE LICENSE BOARD.

Mayor Broatch Appends His Signature to a Number of Documents. The license board met yesterday afternoon in the city hall building and granted three or four saloon licenses. The contested licenses of Foley & Darst on Farnam street, and of F. Sauther on Teath and Bancroft were held over until Saturday next. Mitton Rogers and S. P. Morse have been notified to appear before the board Saturday afternoon at 2:30 and show cause why Foley & Darst may not be granted a license. The opponents to the license of Frank Sauther have also been notified to appear at the same time. These are the only two saloon licenses that are contested, and when disposed of the board will

have completed its work.

After the board adjourned, the mayor signed the liquor licenses already granted, to-gether with 340 express licenses. The Grand opera house license and the Eden Musee license were also signed. The mayor stated his willingness to sign the license of the People's theater, but said it was not filled up by the clerk, which would account for its ab-sence from among the batch of special

licenses. In speaking of the Higgins license, the mayor thought the question would not comup again, at least, this year. He had no thought that Higgins would ever be granted

a license. A Modest, Sensitive Woman often shrinks from consulting a physician about functional derangement, and prefers to suffer in silence. This may be a mistaken feeling, but it is one which is lergely prevalent. To all such women we would say that one of the most skillful physicians of the day, who has had a vast experience in curing diseases peculiar to women, has prepared a remedy which is of inestimable aid to them. We refer to Dr. Pierce's Favorite Prescription. This is the only remedy for woman's peculiar weak-nesses and ailments, sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case or money refunded.

Jefferson Square Boomers. There is considerable activity among the Jefferson square boomers, but one would not be likely to discover the fact if he did not understand that they have resolved to say as little about the matter as they possibly can. They have rented two rooms 23 and 24 in the Ware block. One of these is rudely furnished like an emergency campaign headquarters. The most noticeable feature in one of the rooms is a dis mattled beer keg, on the top of which some-body has plastered a huge pin cushion. This is supposed by some to be a relie of a former occupant of the room, though others claim it is the metaphorical bar'l which is to be utilized in the campaign. In the other rooms there is a patent office desk, some yellow chairs, a pile of photo graphs of an imaginary city hall in a imaginary posey garden, drawn by some architect whose modesty prevented him from attaching his name to the work. Every pediment spire, and plunacle is dotted by a god or goddess, who is chiefly remarkable for the amount of clothes he or she is capable of getting along without. This room is in charge of F. J. McArdle, and while The Bee man was present was visited by Jim McSinane, Jim Creighton, Tom Fitzmorris and Chairman Balcombe of the board of public works. Each of these gentlemen was as innocent as a babe, knew nothing of the state of the second of the state of the second of the of the city hall site question and quietly withdrew to discuss the subject, leaving the reporter alone,

PROVED A FAILURE. The Northern Pacific will Inaugurate

the Old System. As a medium of simplifying the operation of a railway system the Northern Pacific some time ago abolished the office and department of general superintendent, and the duties involving upon this department reverted to that of the general manager. In consequence a coterie of assistant general managers was appointed. After giving the matter a thorough trial, during which time, it is stated, the affairs of the company became badly complicated, the Northern Pacific has concluded to reinstate the old sys tem of operating. It is said that the officials of that road have arrived at the inevitable conclusion since the new form was inaugurated, and that is that it takes one class of men to obtain the patronage and another to handle it so us to be satisfactory to all con-cerned. It is said that while the department of general supermendent is closely allied to that of general manager, as regards the re-sult of the system on which each is operated, that there is an ocean between them, and that there is an ocean between them, and that experience has demonstrated that both are indispensible in the successful operation of a large railway system. It is also said that in railway centers the Northern Pacific is considered the most poorly managed line in the west, resulting, it is said, from the attempted combination of the departments of general manager and general superintendent. Private information received in this city yesterday is to the effect that S. R. Ainsle, who terday is to the effect that S. R. Ainshe, who has had charge of the eastern division of the Northern Pacific, will in the near future be appointed general superintendent, with head-quarters at St. Paul, and that N. D. Root, now assistant general manager, will be made assistant general superintendent, with head-quarters at Helena. As this matter has re-sulted from a thorough test, and as it was the foundation upon which Vice President Holcombe was basing a similar movement in connection with the Union Pacific, it is thought that he will benefit by the result and abandon the project.

A Silly Rumor.

It was rumored Monday night on the streets that the Chicago, Rock Island & Pacific road had decided to abandon South Omaha and leave the business of the yards to other lines. S. S. Stevens, general agent of the company, stated yesterday that the rumor was too silly for notice. Business was comparatively dull, he said, in the cattle line, and the Rock Island company had drawn out a number of cars and sent them up north to be used in the ice trade. Ice is pienty up-there and in demand further cast, and the cars have been called into use as men

An argument was made yesterday in the ease of H. H. Cook against the Fremont, Elk horn & Missouri Valley road. The case came up in Justice Wade's court. The defense was that the plaintiff had no right to permit his horse to run at large within the corporate limits of the city. No decision was reached.

A well dressed stranger standing near asked him if he was willing to let him have the \$20 bill for a number of smaller bills. Harper acquiesced, and the stranger counted out a number of bills, which the granger in turn counted, and then turned over the \$20 bill to the stranger, who gave the name of Thompson. 20 to 60 DAYS. This is a disease which has heretofore Baffled all Medical Science.

We have a Remedy, unknown to anyone in the World outside of our Company, and one that has NEVER FAILED to cure the most obstinate cases. Ten days in recent cases does the work. It is the old chronic deep scated cases that we solicit. We have cured hundreds who have been abandoned by Physicians, and pronounced meurable, and we challenge the world to bring us a case that we will not cure in less than sixty days.

Since the history of medicine a true specific for Syphiis has been sought for but never found until our

MAGIC RESEDY

was discovered, and we are justified in saying it is the only Remedy in the World that will positively cure, because the latest Medical Works, published by the best known authorities, say there was never a true specific before. Our remedy will cure when everything else has failed. Why waste your time and money with patent medicines that needs had virtue or doctor with physicians that cannot cure you, you that have tried everything else should come to us now and get permanent relief, you never can get it elsewhere. Mark what we say, in the end you must take our remedy or NEVER recover and you that have been afflicted but a short time should by all means come to us now not one in ten of new cases ever get permanently cured. Many get help and think they are free from the disease, but in one, two or three years after it appears again in a more horrible form.
