The Preliminary Examination.

NORFOLK, Neb., Feb. 12.—[Special Telegram to THE BEE.]—Several hundred people were ready to enter the city hall at the time of the preliminary examination of Michael Souther, ex-principal, and Albert Horn and George Oliver as accessories in the shooting of Dr. Kelly, Judge Allen, of Madison, will conduct the case for the defense. By agreement of the attorneys it is to be tried at Madison, and the prisoners were taken there this afternoon.

Much admiration is expressed for Mrs. Kelly, who in that terrible race for life took the reins from her disabled husband and kept her nerve until they reached the hospital. It was fortunate for them that the horse, marking every step with his blood, held out to the end.

There is still a good deal of excitement here, fanned by a newspaper talk, and doubtless the prisoners thought they would be sustained in their dastardly deed by the general sentiment of the community.

Dr. Kelly remained in the city all night. He was suffering considerable pain this morning, but it is at this time resting quietly. It is now found that five bullets took effect upon him, one only grazing his neck and another his side. The one which struck through his shoulder, shattering the bone, was a fatal wound. THE LONG LOST WILLIE.

Millionaire Snell's Murderer Believed to Be In Chicago.

CHICAGO, Feb. 12.—[Special Telegram to THE BEE.]—The interest in the alleged murder of A. J. Snell has been revived to an intense degree by a burglary which was committed at the house of J. W. McLean, 24 Helden avenue, and in which it is supposed that the burglar was none other than the long lost Willie. The house was entered about 2 o'clock in the morning. The burglar proceeded to the bedroom of Mr. McLean, and the latter woke up and saw up in bed and shrieked. The burglar covered her with a revolver, eyed her steadily and slowly retired from the room. Mr. McLean was awakened by his wife's shriek and started to follow the burglar, but his wife threw her arms around him and he broke loose from her the burglar had vanished.

Mrs. McLean describes him as young and well dressed, wearing a round stiff hat and frock coat. His eyes were large and brilliant. She says she would surely know the man if she saw him again. It is said by those who know that Mr. McLean's description tallies with Tascott, and that there is no doubt that the burglar was he.

Stonewall Jackson, chief of the affair this morning and asked what he thought about it, he replied: "I had not heard anything of the affair, and know nothing of the parties. It has always been my opinion, however, that when Tascott is caught it will be in that sort of way. I have been in that prison since I was a boy, because he is such an inveterate thief that he could not stop stealing if he tried."

What do you think of the alleged statement of some of the officers that they have information that he is in Chicago?

"I have been of the opinion for a long time that he is in Chicago. It has always been my opinion, however, that when Tascott is caught it will be in that sort of way. I have been in that prison since I was a boy, because he is such an inveterate thief that he could not stop stealing if he tried."

During the conversation the merchant, who has known Blaine for years, asked him if he was in favor of the annexation of Cuba. Milliken says Blaine replied that he was, but that he did not think it would be brought about by agitation. In the course of time he thought the Dominion would naturally gravitate into the American union.

If we were reaching after territory to increase our wealth and strength, he thought Cuba should be the place for us to secure first. "In its relation to health," said Mr. Blaine, "Cuba is the natural home of the people of the United States. It is a private business. During the conversation the merchant, who has known Blaine for years, asked him if he was in favor of the annexation of Cuba. The Mornings Knocked Out.

ODDS, Utah, Feb. 12.—[Special Telegram to THE BEE.]—The municipal election yesterday the liberals elected their full ticket by majorities averaging about four hundred and twenty-five. The mayor-elect is F. J. Kiesel, a wholesale grocer, who has been a citizen of Utah for twenty-five years. The defeated candidate, John A. Boyle, is also an old-time resident and a wealthy merchant. Odds is the first town in Utah to elect a gentleman mayor, and the event is looked upon as a great victory, not only for this city, but for the whole territory, as it encourages the liberals to move more speedily bringing about the end being sought, that of inducing immigration to Utah, heretofore the people of the east have looked upon this territory as a completely unpopulated region, and they have been slow to undertake investments or business here. The liberals, however, are particularly proud of their success, in that they feel that they are now in the lead, and that by diligent effort they can hold it.

The Graveyard Ghoul.

DES MOINES, Ia., Feb. 12.—[Special Telegram to THE BEE.]—No clue has yet been found to the robbery of the grave of Mrs. Groves. Suspicion still rests upon one of the medical colleges of the city. The friends of the woman requested Physician Dredmans to make an investigation of the bodies and to see if the stolen one could not be found. It was hoped that they could identify it by a broken collar bone and finger, but when the investigation began it was found that the existing bodies were all of the same build and badly mutilated, that identification was impossible. There has been some talk of compelling the college authorities to give up the bodies, but the friends of the woman are not sure whether the body of their relative is used for experimental purposes or for the dissection of the students. It is not, but some regard his denial as no more than the usual reply, and still suspect that the stolen body is there. The case has been laid before the county attorney, but he has given no advice regarding it yet.

THOMPSON'S CHANCES SLIM.

His South Carolina Record Is Against Him.

POINTS TO AN EXTRA SESSION.

The Almost Unanimous Opinion of Republicans in the House—Coleman Nominated For Secretary of Agriculture.

WASHINGTON HERALD THE OMAHA BEE, 313 FOURTEENTH STREET, WASHINGTON, D. C., Feb. 12.

The nominations of Thompson, of South Carolina, to be civil service commissioner, and of Barton, removed, and Stephens, of Illinois, to be justice of the supreme court of this district, will not be confirmed. Objection is made to Thompson on personal as well as general grounds. In the first place he is not considered a fit man for the position to which he has been nominated. He was elected governor of South Carolina at a time when the state was in the hands of colored and white republican voters, and high handed frauds at the ballot boxes. He is not regarded in any sense as a civil service reformer, and those who have studied his political career, as amended that the president, who pretends to be a civil service reformer, should appoint him to a position of this kind. South Carolina republicans have asked the senate to withhold action till they can be heard. They propose to discuss the part Thompson and his friends have taken in South Carolina politics, and the senate will not only wait to hear of the political charges which may be brought against Thompson, but they will also express their views on the nomination before they confirm any man to the position of civil service commissioner. Finally, the colored man from South Carolina, who is now pending in the house, will lay before the senate committee having Thompson's name on it, a long list of money bearing upon the part Thompson has taken in the elections in his state, which Smalls says will be highly interesting and an affront to decent politicians in all sections of the country to confirm the nomination of Thompson.

EXTRA SESSION TALK.

It is the almost unanimous belief of the republicans in the United States that Harrison will call an extra session of the Fifty-first congress for tariff legislation and the admission of new states. A majority believe that the extra session will convene in April. The others think it will come together about the first of November. The latter opinion is based upon the fact that Harrison probably one by Major McKinley, of Ohio, who appears to be in the lead for the speakership. Representative C. C. of Indiana, who has been named for his home to succeed Governor Hovey, and is supposed to know something of General Harrison's feelings on the subject, has been asked to let us know that there would be an extra session called. He is not the only one recently from Indiana, however, who is impressed with the idea that a called session is certain. The only argument that has been made against it is that to have congress in session in the month of November would be a source of annoyance to the new president on account of the office seekers. Yet it is conceded on every hand that it will be a source of annoyance to the office seekers. But it is understood that General Harrison himself is of the opinion that the necessity of some such organization for the house is pressing to be overbalanced by any consideration of mere inconvenience. He is said to believe that a called session would be a source of annoyance to the new president on account of the office seekers.
