## MINOR MENTION.

N. Y. Plumbing company. Coal and wood. E.E. Mayne, 619 B'way. To-night Harmony chapter No. 25, O. E. S., meet in regular monthly session.

The pupils of the institution for the deaf and dumb will participate in a masquerade party on the evening of Washington's birthday.

The young folks have prepared a novel George Washington entertain-ment to be given in the Presbyterian church Friday evening.

The Republican seems to have dropped its Council Bluff's department. Mr. Kapell resigned his position last Saturday, and so far no successor appears.

There were but few contributors to the police fund yesterday morning. H. G. Tipton was relieved of \$9.60 to offset a disturbance of the peace, and A. Petrie was fined \$7.60 for incbriation.

Ash barrels are still allowed to remain on the sidewalks, even of business streets, while the edicts are being filed at signs and displays of goods encroaching on the public right of way.

Pat Feely was arrested yesterday for stealing coal from a car in the vards. The case was continued until W. E. Pattison, esq., is lookto-day. ing after the company's interests in the matter.

Superintendent McNaughton states that as to-morrow is a public holiday, there will be no session of the public schools, and they will be dismissed tonight until Monday morning.

No new applicants for Postmaster Bowman's shoes have been announced for several days. It is believed by many that J. J. Steadman is a little nearer slipping his feet into them than any of the others, his journalistic position and political service being the two great levers which are being brought to bear.

The "Old Folks Concert," recently gived at Masonic temple, netted over \$140 for the musical fund of the Congregational church. It is the intention to repeat the concert in about a month, with a change of programme. Judging from the success of the first concert, it will be a tremendous success.

The damage case of Fair vs City of Council Bluffs was completed in the district court yesterday. The arguments were made, but the court withheld the instructions until this morning at 9 o'clock, when the charge will be given and the case submitted to the jury. Nothing else was done in court yesterday.

The last of the saloonkeepers paid his monthly fine of \$25 yesterday, and the mayor is greatly pleased over it. The fact that such a result was more than he anticipated after months of disappointment renders his joy all the greater. When the saloon men found that the mayor meant business they were not long in raising the cash.

The case of John Troutman, charged with running a saloon, has been dismissed by order of the mayor, but whether John has concluded to come to time and pay \$25 a month as required by the chief executive, or whether it has been demonstrated that he is not in the business, is something that has not yet been ascertained.

### Another Paved Drive.

The city council drove down over Eighth street Tuesday afternoon to the The Rock Island railroad company is city limits to look over the ground and about to make a change that will be see if there were any obstacles in the very greatly appreciated by the busiway of paving that street to the southness men of this city. For some time ern city limits the coming season, as the location of the Rock Island freight petitioned for by several of the propdepot has been a source of great annoyerty owners along the line and those ance to both wholesale and retail dealparties interested in Manawa and propers and shippers generally, on account erty south of the city. The mayor and of its great distance from the business several of the aldermen are in favor of portion of the city, and the fact that it granting the prayer of the petitioners, s away from the paved streets made it and it is quite generally expected that difficult of access in muddy weather. the paving will be done as soon as the The company has just had the ground season opens. No one denies that it will be a grand thing for both the city and the lake, as it will afford continuurveyed for relocating the building, and Monday next the work of moving the depot will be commenced. It will ous paved drives from the centers of this city and Omaha to Manawa.

The city engineer ran a survey

down that street a couple of weeks ago as far as the city limits, and it seems

that to raise the street to permanent

any such fill as that, as it is away from

the business portion of the city, and it

would spoil the looks of the street. It

would leave the lots on each side down in a hole, and would seriously affect the sale of property there. The grade could be lowered considerably without

impairing the sewerage in any way

and it would greatly improve the looks

of that part of the city. To fill the street to the present grade would cost

outrageously, as that part of the city especially the lower end of that street

s a long distance from the dirt banks.

A well known paving contractor

stated that it would require about 33,000

yards of paving to do the job, as it was

proposed to have the street thirty-eight feet between curbs, and it would

cost about \$60,000, including intersec-

tions. He says that the work of paving

could be done in three weeks-after the

grading was done. The matter will be

liscussed at the next meeting of the

The Tricks of a Trade

Wyeth, charged with obtaining property under false pretences, was yesterday continued in the superior court at the request of the prosecution for one from Missouri. The defendants traded 400 acres of Missouri land for a residence and mill at Malvern, and the Malvern man, one Seegess, now states

that upon looking up the Missouri farm for which he traded, he finds it in possession of parties who have owned it for nearly forty years, and Price and Wyeth have no claim on it whatever. The defendants allege that they had a right to dispose of the property, and will hold on to the Malvern real estate. The introduction of Missouri evidence

will have a tendency to throw some light on the transaction.

He sent the culprit at the Globe office. failed to take effect. Several rows oc-curred, but there was little change in the outward appearance of affairs, until Sunday afternoon, when Conrad, or Kupser, as he is known here, went to South Omaha. The woman also went to South Omaha, and has seen fit to remain there. Kupser returned Monday evening, and stated that he was going to work in the Nebraska packing center, and after getting his pay went back to the other side of the Missouri. The woman has not returned to her home, and it is not expected that she will. The many difficulties that have arisen during the past two weeks between all three parties on account of her intimacy with Kupser gives rise to the belief that she and her paramour agreed upon a change of venue.

These meetings will be very interesting. and there is no doubt that they will be very largely attended.

There never were so many local entertainments as this season, and no sea-son has been marked by so many creditable ones. Those who do the work of preparation and presentation must feel weary. Those who are called upon al-most daily to buy tickets or otherwise patronize them are hardly less so. Still the crowds continue to go and the money thus spent is left right here at home instead of being carried away in the pockets of professional non-residents.

A new order went into effect in police circles last evening. Hereafter the night patrolmen will report at the central station at 9, 11 and 2 o'clock by telephone from their respective beats. If a man fails to report it is presumed that he is asleep, and an explanation will be in order. It may take some of the men several nights to get the hang of the new state of affairs. It will not bother them seriously, as 3 o'clock is the magic hour when they wrestle the hardest with the drowsy god, and are some-times knocked out by his royal highness.

### Personal Paragraphs.

Mr. Joseph McWilliams and family have moved from 911 First avenue to 421 South Eighth street.

The Growth of the School.

The policy of the school board is to have no more than forty-five scholars in one room, under one teacher, that being deemed as many as can well be cared for. In arranging to carry out this polfey no little difficulty is experienced, however, the accomodations are not always such as can allow of this arrangement. Then the supply of teachers is not adequate. There has been a good deal of changing about lately, and yet there are several rooms where there are from sixty to eighty pupils. It will be some time before the rear-

rangement can be satisfactorily adjusted. There will doubtless be more or less complaints from parents, who will claim that their children are inconvenienced.

It is no little task to properly assign over three thousand children, and pro-vide for their care and training. Sup-erintendent McNaughton and the board have this task well in hand, but there are many annoying details in its accom-plishment.

#### A Dog in Court.

A dog case went the rounds of the ustice courts yesterday, and is still unsettled. As near as can be learned from the contradictory statements of the interested parties, J. J. Johnson lost his dog, a fine water spaniel, valued at \$50. He found the animal at the house of Michael Gleason, in the western part of the city, but could not get it. He thereupon repaired to the office of Squire Schurz, and swore out a search warrant, which was placed in the hands of Constable Fox. Armed with this document the constable visited the Gleason household, and found the dog. The animal was confiscated, and then the legal trouble began. Gleason se-cured the services of attorneys, and the case was taken from Squire Schurz' court on a change of venue to Squire Barnett. Arriving there it was claimed that Squire Barnett was a material witness in the case, and another change

was taken to Squire Hendricks. By this time it was late, and the dog was chained to a table leg, and the case continued until to-day.

To any regular physician who desires to locate, I have to offer in a thriving city in Iowa of 8,000 population, the home and practice of the leading physician of the place. He has resided in said city for sixteen years last past, and his books will show an annual business of \$6,000 per year.

For reasons personal to himself he proposes to change his residence to another city, He will sell his home, which is a comfortable frame house of eight rooms, heated by furnace, and with all necessary outbuildings and conveniences, for \$3,500. He will turn over to the buyer his practice and good will, and will remain with his successor some months pending his settlements and collections.

Any reputable physician desiring to make a change will do well to correspond with the undersigned, who is prepared to verify the entire bona fides of the whole business. Address
