

THE CITY.

A notice of the play, "Among the Breakers," produced last night is withheld until Sunday. Chief of Police Sweeney has issued an order prohibiting messenger boys and all other minors from entering houses of prostitution. Dennis Quirk and E. O. Bates were arraigned on a charge of stealing diamonds, and the former pleading guilty was held to the district court in the sum of \$1,000, while the latter disclaimed participation will be given a further hearing. Personal Paragraphs. A. P. Hodger, of Lincoln, is at the Murray. E. M. Coffin, of Ord, is a guest at the Millard. S. H. Henderson, of Lincoln, is at the Paxton. J. S. Williams, of Kansas City, is at the Millard. Edmund M. Smith, of Denver, is registered at the Millard. F. C. Phillips, of Grand Island, registered at the Paxton last night. Thos. Jensen and J. O. Roberts, of David City, registered at the Millard. J. H. Mallahan and R. F. Gartner, of Lincoln, were in the city yesterday. V. C. Shickley and W. C. Massey, of Geneva, are stopping at the Paxton. T. M. Bullock and L. L. Otis, of Kansas City, are to be found at the Paxton. J. B. Rogers and M. T. Westlich, of Aurora, are among the guests at the Murray. Mrs. M. W. Bunting and daughter and Miss Agnes Doty and Miss Jones, of David City, are at the Murray. Warner to-morrow. Observer, of the signal service office, says that the weather to-day will be much warmer, as the barometer is gradually falling and every other indication is to the same effect. Gave a Mortgage. Thomas Hurrell gave a chattel mortgage for \$1,157.50 to James Donnelly, jr., of the Omaha National bank and W. S. Shoemaker yesterday, on his cigars and manufactured tobacco in his factory at 1,321 Douglas street. A Jobbing House. The wholesale paper firm of B. Wilson & Co., of Utica, N. Y., proposes to establish a jobbing house in this city. A representative of the paper company was at the board of trade yesterday morning for a determination. It is supposed that the firm will establish a house at once if suitable quarters can be secured. Sporting Notes. The proposed bicycle race between Knapp and Reading is off. The backers of the latter failed to make the necessary deposits of cash. Morgan and Ashinger will have a 20-mile whirl on their bicycles at the Coliseum Saturday for \$100. It will be a very interesting race in their latest contest Morgan lost the race by falling. Marriage Licenses. Following are the only marriage licenses issued yesterday in the county court by Judge Shields: Name and Residence. Ago. J. John Douglas, Omaha, 23. P. Parthenia P. Benton, Omaha, 23. J. John P. Peterson, Omaha, 23. J. Ida Anderson, Omaha, 22. Two Knights Fight Over a Pin. Michael Fitzgerald has brought suit in Justice Kroger's court against James Douglas to recover a valuable K. of L. pin. While Fitzgerald was engaged in a scuffle, recently in Douglas' saloon he says he handed the pin to the proprietor for safe keeping. Fitzgerald was arrested while engaged in the fight, and next day when released from jail he sent for the pin. Douglas refused to surrender it, claiming it was one he lost a year ago. Freightmen Guards Literary. The programme of the weekly meeting of the Freightmen Guards Literary society in their hall, Ware block, Friday night, is as follows: Instrumental solo, W. C. Harlan. Stump Speech, James Brennan. Fancy Drum Drill, W. H. Schiller. Instrumental solo, August Bergum. Recitation, W. H. Carey. W. G. Gregory. Paper—"The Influence of the Drama on Religion," J. W. Evans. Song, O. H. Gordon. Instrumental solo, Henry Burkley. Silent Drill, Sgt. Smith and Squad. Debate—Resolved, that the policy of the state department of the United States government in regard to the Samoan question has been cowardly and un-American. Affirmative, P. H. Carey. W. G. Gregory. Negative, C. J. Smyth, John J. Mahoney. Exercises will commence at 8 o'clock. Partners Fell Out. John R. Brown, late of the firm of Brown & Lamphire, harnessmakers, at 2923 Cumington street, has had his recent partner Reuben H. Lamphire, arrested on the charge of selling goods and tools fraudulently. It appears that Lamphire formerly owned the shop and sold a half interest to Brown. The new partner, however, never paid but \$25 on his share, and drew out \$75 of the receipts of the shop. After waiting several weeks in vain for Brown to pay the balance of the shop Lamphire ousted him. Since then Brown has been worrying him with law suits and threats of legal action. Lamphire, therefore, traded the stock off, and Brown had him arrested, as he claims half of it belongs to him. The hearing of the case was continued, and Lamphire placed under \$400 bonds. Rose's Story. Rose Anderson, Maurer's ex-servant continues to tell a number of different stories, and though cunning at invention, is not abroad enough to be consistent. The most she has ever claimed of the money borrowed is \$500. Mr. Maurer says he is willing to let her have any money that she can prove is her own. At the time the money was surrendered to him by her she said that all of it belonged to him except \$75 drawn in a letter. She told this to Mr. Maurer's attorney and Court reporter. The hearing of the case was continued, and Lamphire placed under \$400 bonds. The Girl he Left Behind Him. John Anderson, a big, dirty looking fellow, is held in custody at the city jail awaiting the arrival of officers from Denver. Anderson has lately been a resident of the Colorado metropolis, and, while there, kept company with a comely young woman named Emma Nelson. She is soon to become a mother, and she charges Anderson with being the cause of her condition. He fled the town and came to Omaha. A telegram was received Tuesday night from the chief of police of Denver, requesting Anderson's arrest, and in return he was given a receipt. Anderson was arrested and taken to the city jail. He admitted having been on terms of intimacy with the girl, but declares he will never marry her. Later, Johnson related and he now says he is willing to marry the girl, if she will only come to Omaha with the Denver officer. An Absolute Cure. The ORIGINAL ABETINE OINTMENT is only put up in large two ounce tin boxes, and is an absolute cure for old sores, burns, wounds, chapped hands, and all skin eruptions. Will positively cure all kinds of pimples, and is the ONLY OINTMENT that has been sold by Goodman Drug Co., at 25 cents per box—by mail 30 cents.

SHRIVING THE SINNERS.

The Motley Crowd Arranged Daily in the Police Court. A Cartwright was arraigned for engaging in a fight on election day. He admitted his guilt, and was fined \$5 and costs. G. H. Shimerlock was found guilty of assaulting a Swedish woman living on the bottom, and fined \$20 and costs. Charles Haug, a horse-handled tiller of the soil, charged with drunkenness, replied that he had got tired of working hard and had come to the city for a little recreation. He convinced the court that he was a hard working man, and escaped a fine. John Edstrom appeared with a peeled nose and a number of bruises on his face. He was charged with striking Henry H. Holman, but if Edstrom's nose was any evidence, all of the blows he struck had rained on himself. He pleaded guilty and was assessed \$8.50. A full-blooded Indian, who gives his name as John Priest, imbibed too much brewer's Tuesday night. He had just risen from the Indian Territory. It is a grave mistake to let an Indian have whisky, and the judge endeavored to ascertain who gave him the liquor. He replied that another Indian had given it to him. He was released. John Hamilton was arraigned charged with vagrancy. He said that he had done no work since December 7 and could not find anything to do. He added that he had no money and no friends, and intimated that he was going to Denver and would not find anything to do. The judge thereupon sentenced him to twenty days. Henry Graycraft was arraigned on the charge of assault with intent to kill. Frank Robeck is the complaining witness. He asserts that on that night of February 4, Graycraft struck him over the head with a pocket. An Imperative Necessity. What springs from an unhealthy locality, what spring cleaning is to the fleet housekeeper, so is Hood's Sarsaparilla to everybody, at this season. The body needs to be thoroughly renovated, the blood purified and vitalized, the system of disease destroyed. Scurvy, salt rheum, and all other blood disorders are cured by Hood's Sarsaparilla, the most popular and successful spring medicine. A SILLY SENSATION. How Herman Kountze Will Not Move to New York. A sensational rumor was in circulation yesterday to the effect that Herman Kountze, president of the First National bank of this city, had resolved upon leaving Omaha and taking up his residence in New York, succeeding his brother Augustus, who is president of a bank in that place. Mr. Kountze is the owner of vast property here as well as at the head of an immense banking institution which has been built up by devoted energies in the past twenty-five years. The structure in which the bank has taken up its home has been recently erected, and it has been put up as a permanent home of the institution. These facts, together with others not necessary to mention, would make Mr. Kountze's retirement a most unusual and wonderful occurrence. This opinion is shared by all his business associates, who pronounce the rumor a silly sensational invention. Fred H. Davis, cashier of the bank, says that Mr. Kountze is now in Denver, and that so far as he knows, at least, there is nothing in Mr. Kountze's retirement. Notice to Master Plumbers. A state convention of the master plumbers of Nebraska will be held in this city on February 22 and 23, at the Murray hotel. All reputable master plumbers in the state are hereby invited to be present, whether they have received a special invitation or not. A banquet will be tendered by the Omaha Master Plumbers' association on the evening of the 22nd. By order N. B. Hussey, President. BAXTER RETIRED. Another Union Pacific Office Has Been Abolished. Assistant General Manager Cumming of the Union Pacific's cowboy territory, has notified Robert Baxter, assistant superintendent of the Wyoming division of that road, that on March 1 his office will be abolished, and that his services are no longer desired in Cumming's department. The announcement was made to the knowledge of assistant friends of Mr. Baxter, at headquarters in this city. It is thought that Baxter will be tendered a position on the Leavenworth & Southern, assisting W. H. Baldwin. No other assistant division superintendent has been rumored aside from Baxter by the men from Hartsville, but he is stated that it is next to an impossibility for one man to attend to the duties devolving upon the department of superintendent of the Wyoming division and his department. Baxter will be relieved as soon as the removal of Baxter blows over. A New Transfer Truck. The Union Pacific has commenced the construction of a transfer truck at Thirteenth and Nicholas streets in order to make connection with the Chicago, St. Paul, Minneapolis & Omaha at that point. Under the present arrangements, the transfer is made in the yards at the foot of Dodge street. As soon as the new connection is completed the officials of the former road state that it will require 75 per cent less time in transferring cars to the Omaha road. Conflicting Statements. General Freight Agent Miller of the Burlington, announces that his road has not, as yet, inaugurated the 22-cent rate from points south of the Platte to Duluth, but in such a movement is anticipated. However, the statement that traffic is being solicited by the Burlington at that rate at the present time is made by good authority, and Harry Miller, a well known grain dealer, says the rate was put into effect Tuesday. Nebraska Grain for Duluth. The traffic manipulators of the various roads state that a large volume of grain is being prepared for transportation to Duluth, and that, according to reports, Nebraska has a supply equal to any demand that may be made by the Duluth grain merchants. Grain merchants in Omaha are jubilant over the situation. An Excellent Appointment. Mr. P. E. Robinson, widely known in railroad circles, has been appointed contracting freight agent for the Blue Line fast freight company, with headquarters at Omaha. Mr. Robinson was at one time assistant general passenger agent of the E. & M. V. railroad and later held prominent positions with the Union Pacific. He has had years of training in the railway service, and his capabilities peculiarly fit him for the duties he has just assumed. Time by Electricity. Superintendent of Telegraph Kory, of the Union Pacific, has completed arrangements for a new system of "distributing time" to all points on the Union Pacific road. Formerly, the time was dispatched from the headquarters in Omaha. Under the new regulation, which takes effect March 1, the time will be signaled from the observatory of the Washington university at St. Louis. The standard for signals of regulation is 10 o'clock a. m., central time. The telegraph wires are connected with an automatic clock in the observatory, and the time is announced by vibrations of the pendulum which makes peculiar rattling sounds. The standard for signals of regulation is 10 o'clock a. m., central time. The telegraph wires are connected with an automatic clock in the observatory, and the time is announced by vibrations of the pendulum which makes peculiar rattling sounds. A Snow Blockade. The new rotary snow plow for the Union Pacific was brought in by the Rock Island yesterday and will immediately be forwarded to its field of usefulness on the Gunnison branch of the Union Pacific. The plow is of a narrow gauge design. Traffic on it has been suspended for about two months, and quite deaf for some time, has had catarrh, with its usual symptoms, such as stopping up of nose and accumulations of mucus in the throat; he complained of ringing and buzzing in his ears, which was a great annoyance to him. He reads the daily papers, and through them was induced to call on Dr. Jordan, in the large building, to see if his nose, throat and ears could be benefited. He was told they could be, and he commenced treatment. He commenced to improve in a short time, and after a course of about three months, was rewarded with a return of his hearing so much so that he can now hear the slightest whisper. He has no ringing in his ears, and his nose and throat has ceased to trouble him entirely. He says: "I can now appreciate what nature was a total blind, and I cannot speak too highly of the Doctor's abilities."

REWARD.

Charles Rose, residing at No. 1312 Jones St. an engineer by trade, but lately working as a general laborer, has lived here about two years, and has been deaf for some time, has had catarrh, with its usual symptoms, such as stopping up of nose and accumulations of mucus in the throat; he complained of ringing and buzzing in his ears, which was a great annoyance to him. He reads the daily papers, and through them was induced to call on Dr. Jordan, in the large building, to see if his nose, throat and ears could be benefited. He was told they could be, and he commenced treatment. COMING.

We are done with the past season. We have nearly sold out our winter goods, and have not enough left to make any noise about, and the incoming spring goods require all our attention. During the past few weeks we have been renovating our store, and made several changes by which we gain more room for departments that have heretofore been badly crowded. The first which needed more room was the Hat Department. Our hat business has grown to such proportions that its quarters were entirely too small. Having now enlarged it considerably and arranged it in better shape, we are pleased to announce to our patrons, that it is filled with an entire new stock.

OUR NEW HATS ARE IN!

And we open the season with one of the largest and most complete assortments of stiff and soft Hats, comprising the makes of the best manufacturers in the country. It is needless to say much about the prices. Everybody knows that we are selling hats at about one half what other dealers charge. But aside from this we want to emphasize the fact and wish it understood that we are handling only good honest hats, such as are guaranteed to us from reliable makers, and such as we can warrant to our customers. Every hat in our establishment—no matter how cheap—is sold with this understanding, that if any imperfect on or damage is found even after the hat is worn—we take it back if returned within a reasonable time, and give either a new hat or return the money—What other establishment will make such an offer? To inaugurate the season we place on sale to-day 75 dozen elegant Cassimere Hats, new shapes, at 95c. These hats are of a quality which are usually sold by other dealers for \$2.50. Our Spring Overcoats are now coming in. We shall have this season the handsomest line we have ever shown, and our prices will be as low as usual.

PLAIN FIGURES AND ONE PRICE ONLY.
