To-Day's Wheat Trade Disappointing to the Bulls.

CORN INCLINED TO WEAKNESS.

Oats Quiet and Substantially Unchanged—Provisions Show Considerable Strength—Cattle Steady—Hogs Brisk.

CHICAGO PRODUCE MARKET.

CHICAGO, Feb. 23.—[Special Telegram to THE BEE.]—Wheat was rushed up "on the curb" yesterday to $1.10¾ for May, on the "cold wave." It opened there this morning, and advanced to $1.10¾, working down, however, to $1.09¼, and getting heavy and very dull as the day advanced. It was confidently expected that the "general public" would rush in greedily this morning with buying orders, and the tip went out that the bull leaders were going to take advantage of this popular furore to boost prices and then get rid of some wheat. The grist of the orders was smaller than expected, however, and the selling of wheat commenced right from the opening, so that the big boom failed to materialize, to use a baldheaded, but expressive phrase. The market was in that respect a disappointment to the bulls. The bull leaders were apparently able to part with some of their wheat, and there were well authenticated reports of sales for their account early in the day, amounting in all to several hundred thousand bushels. It was also stated on the authority of more than one receiving house that considerable quantities of good wheat are pointed this way from all parts of the country, a good many lots coming from Michigan and Indiana, and a few from Ohio. Chicago is unquestionably the best market for good wheat within reach, though good wheat sells readily anywhere. Baker got word to-day that 8,000 bushels of ordinary Chicago No. 2 spring wheat out of a lot shipped last summer, had just been sold in New York at a premium of 2½c over May in that market. That fairly illustrates the esteem with which the Chicago contract grade is held. Aside from a little quiet selling by the leaders of the stories of the probable increase in the receipts, the news was generally bullish. The foreign markets were quoted higher, and private advices represent the French as having been steady buyers of California wheat, off the coast, for the past ten days, at steadily appreciating values. The English markets are unquestionably hardening of late. The New York advices of clearings of 600,000 bushels in the visible supply went around. Chicago also contributed a good sized bull item. It was to the effect that vessel room had been engaged for 258,000 bushels of Pacific elevator wheat sold last week, and that the grain was being loaded already. The rate at which room was chartered was 3½c to Buffalo. This news was supplemented by the authorative statement that Manager Harper was shipping out 100,000 bushels by rail, in lots of 10,000 bushels every other day, 20,000 bushels to go Monday. An intensely cold wave seems to have settled down upon the whole western country. This has a tendency to harden the new crop values. A little flurry carried the market up ½c or such a matter shortly before 1 o'clock, but the recovery was not held, and the last phase of the market was that of weakness. May ranged at $1.10¾@1.09¼ and closed at $1.09¾. July opened at 1.06⅞@1.06⅝c, ranged down to 95½c, and closed at 95½@95⅝c.

The corn market was inclined to weakness to-day on a very small amount of business. The opening was at about the previous ruling prices, but some lots purchased last week at a lower price than is now current were pressed for sale and were one element of the weaker feeling. The receipts were not heavy, but were again in excess of the previous estimates. The export purchases in New York to-day consisted of eleven boat loads, and the clearances from Atlantic ports yesterday were below the recent average. The demand for shipment from here to eastern points was good, as it has been recently. One vessel was chartered to-day for a Georgian Bay port at 3½c, including freight and storage. The trading for the day was small in amount and fruitless in character. The fluctuations were confined to a narrow range, with the closing prices about 1-16c to ⅛c under Wednesday, on deferred, and about ⅛c to ¼c higher on near futures. The amount of business done was much under the recent average. There was no enthusiasm among the operators outside of the usual demonstration during the first five minutes. Charters were made today to take out 238,000 bushels of the recent purchase on Buffalo account. The rate was 3¼c, including storage, until the opening of navigation. In addition to this, 10,000 bushels are being shipped by rail each alternate day; 30,000 having already gone forward.

Oats were quiet and substantially unchanged within a narrow range. There was an absence of the recent interest in May, which was slow at 27⅝@27¼c, while the nearer futures were inactive. June touched 27c and was later offered at that, and July was salable at ⅛c discount. The receipts were fair, with inconsiderable withdrawals from store. No. 2 to go to store sold at 25¾c, or about ⅛c improvement.

The provision market showed considerable strength. An advance in hogs since Thursday, of about 10c, made the operators regard the situation with more confidence. The packers and the old bear element were more conservative than usual in offering future products, and as the bullish feeling prevailing forced the covering off short contracts by parties unwilling to let these lines stand over Sunday, better prices were established. As compared with Thursday's closing, the day's final quotations showed an average advance of 12½c on pork, 5c on lard and 10c on short ribs.

CHICAGO LIVE STOCK

CHICAGO, Feb. 23.—[Special Telegram to THE BEE.]—CATTLE—To-day there being only 1,000 on sale there was scarcely sufficient business to make a market, although all were sold, and the general market closed steady at the following range: Choice 1600 to 1700 lb steers, $4.40@4.60; good 1500 to 1600 lb, $4.10@4.25; good 1400 to 1500 lb, $3.75@4.00; good 1300 to 1400 lb, $3.50@3.75; good 1200 to 1300 lb, $3.25@3.40; fair 1100 to 1600 lb, $3.25@3.75; good little butchers' steers, $3.00@3.15; good cows and heifers, heavy weights, $3.00@3.25; fair do, $2.50@2.75; common to fair, 850 to 1100 lb cows, $2.00@2.50; scalawags, $1.90@1.75; feeders, $2.50@4.25; stockers, $2.00@2.50. Bulls range from $1.75@2.25. No Texans arriving, neither grass nor corn-fed, would quote them from $3.00@3.25 for corn-fed steers; $2.25@2.75 for grass-fed steers; cows, $1.75@2.50 for grass and corn-fed; bulls, $1.50@2.25.

HOGS—There was a brisk demand, and the 18,000 to 14,000 fresh arrivals were about sold out at Friday's closing prices, or within the following range: Heavy packers and shippers, $4.50@4.60; mixed, $4.50@4.55; an occasional load with largest per cent light, $4.60; assorted light, 150 to 170 lbs average, $4.60@4.70; assorted light-light, 100 to 120 lbs, averaged $4.85@5.10; skips and scalawags, $3.50@4.25.

FINANCIAL.

NEW YORK, Feb. 23.—[Special Telegram to THE BEE.]—STOCKS—London prices have considerable improvement this morning and cables brought moderate buying orders. This had a stimulating effect here, and the market opened at advances extending to ⅝ per cent. Atchison was quite strong at an advance of ¾ per cent. Union Pacific and Northern Pacific were the next in feature, and large purchases were made by the foreign houses. The long talked of contract between these two companies has finally been consumated, and this insures perpetual peace in their territory, and much higher prices for the stocks are confidently looked for. The weak feature of the market, however, was St Paul common and preferred. The yearly statement of that company, published this morning, showing a net loss of $3,000,000 in revenue, caused renewed liquidation. The statement shows barely enough to pay a 1 per cent dividend on the preferred stock after the payment of all fixed charges. Cotton Seed Oil was weak and heavy during the entire session, and large sales were made by the insiders. There is renewed talk of a large pool being formed in Erie, based on the improved financial condition of the company. The commission houses were doing very little, and they were rather reluctant in advising their customers to buy on the decline. The bears talk very confident, and predict a sharp decline for next week. The close was irregular, but in the main firm. The net decline showing St. Paul, common, ⅝; preferred, ⅜; Cotton Seed Oil, 1⅝; New England and Atchison, each ¼ per cent. Others close about at the opening prices, except Missouri Pacific, which shows a net gain of ⅞; Erie, ⅜, and Chicago, Burlington & Quincy, ¼. The total sales for the day aggregated 101,000 shares, including St. Paul, common, 12,000; preferred, 4,500; Oregon Transcontinental, 5,000; Missouri Pacific, 7,000; Erie, 6,500; Western Union, 4,000; Chicago, Burlington & Quincy, 6,000; Union Pacific, 7,000; Northern Pacific preferred, 3,000, and Northwestern, 3,500.

OMAHA LIVE STOCK.

Cattle.

Saturday, Feb. 23, 1889.

The few cattle here sold stronger, and in most cases 10c higher, but the advance was due almost entirely to the very light receipts. The buyers took all the offerings and cleared the yards early in the day.

Hogs.

The prices paid were on an average about steady with yesterday. Two loads brought $4.40, and a few trades were made at $4.37½, but the bulk of the hogs, both light and heavy sold at $4.35. The demand was good and the yards were cleared early in the day.

Sheep.

There were no sheep here to make a market.

C. V. GALLAGHER, P. M.

How's Your Liver?

The old lady who replied, when asked how her liver was, "God bless me, I never heard that there was such a thing in the house," was noted for her amiability. Prometheus, when chained to a rock, might as well have pretended to be happy as the man who is chained to a diseased liver. For poor Prometheus there was no escape, but by the use of Dr. Pierce's Pleasant Purgative Pellets the disagreeable feelings, irritable temper, constipation, indigestion, dizziness and sick headache, which are caused by a diseased liver, promptly disappear.

Had Twenty-Three Children.

The family of Mr. and Mrs. Charles H. Holm is quite remarkable, says the Boston Globe. For forty-six years the estimable lady and gentleman have resided together, most of the time in Charleston. Mr. Holm was born in Copenhagen. Mrs. Holm was born in East Cambridge. During their wedded life there have been born to them twenty-three children. Of this number eleven are alive. The oldest child is forty-four years and the youngest fourteen years. Mr. Holm is hale and harty. She is usually at the store kept by her husband in the Waverley house every week day. Mr. Holm is an active business man. He is well known as a musician.

The surprise of Rip Van Winkle when awaking from his long slumber could not have been greater than the consumptive's upon finding himself entirely relieved by Dr. Bull's Cough Syrup. 25 cts.

A pretty picture—A sunny-haired child curing the Newfoundland's cut foot with Salvation Oil.

The Stock Journal says: Wyoming has three or four fast horses which are bound to create a stir the coming season. Among them may be mentioned Mr. Beckwith's Wanita and Ollie, and G. B. Goodell's Spartan and Bifty. A. Martin's Ned Biddle will jog along pretty fast, his recent shoulder sprain appearing to have mended completely.

All lovers of the delicacies of the table use Angostura Bitters to secure a good digestion, but the genuine only, manufactured by Dr. Siegert & Sons, at all druggists.

SUBURBAN NEWS.

Millard.

The sensation about the lawlessness of Justice Kelsey, Constable Smith, Town Trustee Toppenhager, William Foppenhagen and Christ. Koch, which was the topic of the Omaha daily papers a few days ago, terminated in a dismissal of their cases by a justice of Omaha on Wednesday, the 20th inst.

It is rumored than Christian Kaelber will inaugurate a building boom this coming spring in Millard. He owns 300 feet fronting towards the depot buildings. To be sure there are room enough for improvements.

Hans Schmidt has returned from his visit to the fatherland in good health. His plans for the future are not fully developed, but he will likely go into the agricultural implement business.

August Faust will return to his farm. He has rented his present residence to Mr. Ebsen.

Harve Hollenbeck intends to go back to his farm. There seems to be no house vacant for him in Millard. As he expects to be postmaster at this place, it is supposed the building boom will include a new postoffice building.

There has been quite a change in politics since the election of President Harrison. There were about twelve republican votes cast by citizens of Millard, and the postoffice was the headquarters of electioneering for Cleveland. Now, it is said, there is a republican breeze waving through the whole building. Whether it will purify the incumbents of office of all democratic flavor, the decision of the postmaster general—that is the one who is in advent—must decide.

Dodge.

D. C. Westfall, an old resinent of this township, is removing to Fremont with his family. Mr. Westfall was township supervisor and has had considerable practice in these parts as a lawyer and auctioneer, and he leaves his many friends with regret accompanied with the best wishes of all for his future well being.

C. G. Bowles was in town last Thursday looking after the interests of a new banking business to be matured in Dodge in the near future. It is to be called the "Farmers' State Bank," and was organized on Wednesday last with a paid up capital of $40,000. The officers elected were as follows: President, Ernest Shurman; cashier, Herman Holstein; directors, C. G. Bowles, H. Holstein, E. Shurman, Charles, Stormer, Anton Bartosch, Charles Woodruff and Joseph Brodhun.
