Appropriation Bills Again Taken Up and Discussed in the House-The Omaha Charter Bill Signed.

The Gambling Bill.

LINCOLN, Neb., March 16 .- | Special to THE BEE. |-The following is a copy of the bill which was passed by the house yesterday by a vote of 70 to 2, making an important change in the law relating to gambling. By comparing the bill with the statute it will be seen that the penalty of imprisonment in the penitentiary is stricken out and in the county jail made optional. There is no danger of the bill becoming a law. Should it pass the senate, the governor will certainly kill it with his veto: Section 1. That section 214 of chapter 21 of

the criminal code of the compiled statutes of Neoraska be amended to read as follows: Section 214. Every person who shall play at any game whatever for any sum of money or other property of value, or shall bet any money or property upon any gaming table, bank or device, prohibited by law, or at or upon any other gaming device, or who shall upon any other gaming device, or who shall bet upon any game played at or by means of any such gaming table, or gambling device, shall, upon conviction, be fined in any sum not less than \$50 and not to exceed \$500, and upon a second or any subsequent conviction shall be fined in any sum not less than \$100 nor more than \$500, and stand committed until the fine and costs are paid. Provided, that if any person or persons who shall lose any property or money in a gaming horse or other place, either at cards or by means of any other gambling device or game of hazard of any kind, such person, his wife, heirs, or legal representaves shall have the right to recover the money, or the amount thereof, or the property or the value thereof, in a civil action erty, or the value thereof, in a civil action and may sue each or all persons participating in the game, who shall be jointly and severally liable for all damages sustained by said loss of money or property or both, and in an action to recover the same no evidence shall be required as to the specific kind or de

nomination of money, but only as to the Section 2. That section 215 of capter 31 of the criminal code of the compiled statues Nebraska pe amended to read as follows: Section 215. Every person who shall set up or keep any gaming table, faro bank, keno or any kind of gambling table or gambling devise, or gaming machine of any descrip-

tion or kind, under any denomination or name whatever, adapted, devised and as-signed for the purpose of playing any game of chance for money or property, except billiard tables, or who shall keep any billiard table for the purpose of betting or gamoling, or shall allow the same to be used for such by fine of not less than one hundred dollars and not more than five hundred dollars Section 3. Sections 214 and 215 of chapter 21 of the criminal code of the compiled statutes of Nebraska are hereby repealed. Section 4. Whereas, and emergency exists, this act shall take effect and be in force from and after its passage.

The State Farm Investigation

LINCOLN, Neb., March 16 .- Special to THE BEE. 1-The investigation of the state farm agricultural experiment station promises to be a fizzle, just tike all other investigations undertaken by this legislature. The meeting of the committee called to agree on reports resulted in nothing but talk, and the matter is again deferred, this time until Monday arrives.

Representative Diller offered a resolution embodying the lines of a minority report, but he could not get a second. It stated that while there had been no results commensurate with the outlay of money there was no evidence of a misappropriation of funds that the committee had no right to take cog nizance of the doings of Billings, and further mere, that that gentleman was not amenable to the discipline of the legislature, or words to that effect. Representative Rayner is writing the majority report, already fore-shadowed in THE BEE, and Senator Conner

will prepare a minority report to be sub-mitted at Monday's meeting.

By a sharp fight in the house Mr. Rayner saved his bills from indefinite postponement but the proposition to separate the industrial college from the university is radical and the time short. It is not likely to succeed.

Congratulating Parnell. LINCOLN, Neb., March 16 .- | Special to THE BEE. |- Senator Conner this afternoon introduced the following, which will come up

for a vote on Monday. Resolved, That the legislatdre of Nebraska offer its congratulations to Charles Stuart Parnell and his colleagues on their signal triumph over the conspiracy based on forgery and perjury by which the enemies of Ireland and perjury by which the enemies of Ireland
had hoped to alienate from the Irish leaders
and their cause the rapidly growing friendship of the British people and the established
sympathy of the American press and people.
Resolved, That this legislature renew its
expression of sympathy with the brave and
patient efforts of the Irish people in the
greatest constitutional struggle of modern
times to secure their legislative independence, and sends to Charles Stuart Parnell ence, and sends to Charles Stuart Parnell and William E. Gladstone its message of en couragement with the hope that before man; months a settlement will have been arrived at between the Irish and British people, hon-

orable and satisfactory to both.

Resolved, That official copies of these resolutions be forwarded to Charles Stuart Parnell and Hon. William E. Gladsone.

An Explosion in the Senate.

LINCOLN, Neb., March 16 .- [Special to Tur BEE.]-This senate has been remarkably free from personal bitterness, but there was an explosion in the consideration of the bill for removing county seats towards the cen ter of the county on a majority vote.

Senator Sutherland led the fight in opposition to the measure, and in giving its history and purpose asserted that it was in the interest of Senator Burton, of Harlan county, who owns a town (Orleans) a few rods

nearer the center of the county than the present capital (Alma). The gentleman from Burt went on to say that the gentleman from Harian had dodged voting an important measure, and had bartered and traded with nearly every other senator in order to get votes for his private scheme.

The attack was wholly unexpected, and coming from so quiet a member as Sutherland was doubly surprising. The bill passed the committee of the whole with the aid of several complimentary votes, On the adoption of the report Mr. Sutherland demanded an aye and nay vote. When it came to going or record the complimentary votes flopped. Platte Center of Platte county was also interested in the bill.

The Lobby.
Lincoln, Neb., March 16.—| Special to THE Ber. |-An effort was made again this afterternoon to again throw open the senate gate to the lobby, the first motion being to admit ex-members and their families. Senator Keckley made one of his shoulder hits with a protest, during which he made this state-

ment:
"If there is a man under God's heaven I "If there is a man under God's heaven I have a perfect contempt for it is the exmember who comes to the capitol to throw the weight of his influence for questionable measures. I understand there are several of them here in that business."

The sentiment was indorsed by Senator Norval with the remark that his observation was that ex-members of the legislature generally turn un as lobbyists. The assault

crally turn up as lobbyists. The assault upon the peace and purity of the senate was successfully resisted. The bar is still up, and the lobby is restricted to hanging over the fence and watching the performance go

A Slight Mistake.

LINCOLN, Neb., March 16 .- | Special to THE BEE.]-The claim has been put forward for Representative Yutzy that he was the first to suggest the plan of nominating Senator Manderson for re-election. The date of Mr. Yutzy's proposition is put about December 21 or 22. In the interest of history and fairness this mistaken assumption ought to be cor-rected. The honor of suggesting that novel nomination belongs to Senator Norval. A senatorial colleague informs THE BEE corre-spondent that he has seen a letter dated December 10 that proves that Mr. Norval's proposition was made previous to that date, and he has the testimony of Senator Mander-son himself that Mr. Norval was the first to advance the suggestion. This statement is made without the knowledge of the gentleman from Seward.

Keckley Carries His Point.

LINCOLN, Neb., March 16 .- | Special to Time Ber. ]-Senator Keckley's calling has not fitted him to make pyrotechnic displays in oratory, but he expresses himself clearly and forcibly and commands unqualified respect for his hard good sense and his integrity of purpose. He has several times objected to concurrence in house amendments by viva voce vote, or by a vote less than that prescribed by the constitution for the passage of the body of the bill. He has raised the point that such a record would not stand the test if questioned in the courts. Licutenant Gover-nor Meiklejohn has finally adopted Mr. Keckley's view, and announces that he will so rule in all future cases of that kind.

Baker's Registration Bill.

LINCOLN, Neb., March 16 .- (Special to THE Ben. |- Many inquiries are made and considerable anxiety manifested as to the fate of Baker's registration bill, for which all other similar measures were sidetracked. It is in the hands of the senate committee, who have not yet agreed on a report. The bill applies to all places of 1,000 population and upwards. Some members of the committee want to raise the limit, but others urge the danger of sending the measure back to the house with amendments. Between the two nothing has been done, but a conclusion may be reached Monday. Representative Baker is absent.

The State Printing Bill.

LINCOLN, Neb., March 16. - | Special to THE BEE. |-- The bill for a state printer is in a bad way. The house bill is on general file, but up to date has not been reached. The senate committee has decided not to report their measure, unless the house gets to its own bil in committee of the whole, on the theory that it is useless for the senate to waste its time This bill at this stage does not stand one chance in tifty of running the gauntlet.

"PEAR SIR IN LOVE."

A New York Suit of a Decidedly Pickwickian Order.

The suit of Mrs. Mary A. Griffith against Dr. Joseph B. Bennett for \$10,000 damages for breach of promise was called for trial in the circuit court, Boooklyn, this afternoon, says a New York dispatch to the Chicago Times. The plaintiff is a widow and is 60 years old and the defendant is a widower, 66 years old. His wife died in February a year ago. In her complaint the plaintiff says she has been acquainted with defendant many years, that since the death of his wife he has paid her marked attention, visiting her at her residence in this city and elsewhere and in conversations and letters has asked and urged her to marry him. In May last at his solicitation sine prom ised to marry him, and it was agreed that they should be married as soon as she could arrange her affairs and secure a suitable wedding outfit. The outfit was duly obtained, according to the complaint, but the defendant failed to fulfill his promise. Although the fact does not appear in the complaint the doctor has married again. widow is represented by Lawyer Howe. Dr. Bennett in his answer avers that the plaintiff and ne entered into an agreement that they should marry in such manner as to avoid strife anger and dispute between them. They could, however, not so agree, and strife anger and dispute took place between them during their courtship. In consequence thereof the agreement became null and void. The strife and anger and dispute were caused by the plaintiff, and he urges it as a defense He also declares that the plaintiff agreed with him to cancel their engagement and that each should discharge the other from all obligations under the agreement to marry. On these grounds

he asks to be dismissed. There are a number of letters in the ase which will be produced and which indicate a warmth of affection on the part of the elderly lover not altogether consistent with the idea of quarreling and disagreements. Some are written on prescription blanks with lead pencil and some on note paper. The plaintiff

is addressed as "Dear Sir in Love In the letter he entreats that she will be frank with him. He said: "Please write me your thoughts. Let it come freely and willingly. I know it will be pure. Let your mind have its course

Honeymoon-Tragic Passion of a 'Prentice-She Broke the Matrimonial Record.

Little Romances.

Last Wednesday evening a young gentleman and lady drove into Scotia, says the Herald of that city, in great haste. The horse was put up at a livery stable, the couple took supper at a hotel, and then sallied forth, with I-must-and-will-get-married looks on their young faces, in search of a parson. They were directed to Rev. Campbell. and when they found him the swain drew a marriage license on the preacher issued by Judge Laverty of Valley county. Mr. Campbell had his doubts as to whether he could legally tie the knot on the papers, and to make assurance doubly sure, it was finally resolved to go over the border and do the job in Valley. Rigs were obtained, and the candidates for matrimony, the revwere driven to a point in our sister county about three miles from Scotia. The night was as dark as ten thousand black cats, and the party carried no lantern. There, on the open prairie, in the darkness, with no other light than the bright and expectant eyes of the bride, Rev. Campbell said the words in tones that spoke to heaven through somber sky that made Ward Vanwie Timmerman one until death do them part. The darkest hour is that which ushers in the dawn, beautifully says the poet, and we hope that the say ing will prove true in this case.

Dr. G. Danford Thomas, the coroner for Central Middlesex, held an inquest at the Marylebone coroner's court yesterday, says the London Globe, concerning the death of William James Pratt, aged eighteen, lately living at 105 Tachbrook street, Pimlico, who committed suicide by hanging himself at 16 Mortimer street, Oxford street The evidence showed that the deceased was pianoforte-maker's apprentice. Of late he had been in a depressed condition. On Wednesday night he did not return home, and the following morning, on a workman named Cole going into the packing-room, he found the deceased hanging up by a rope to a beam The police being called in, he was cut down, but on being examined by Dr. Wood life was found to be extinct. the deceased was found a letter, it which he wrote as follows of a young woman with whom he had been keeping company: "Dear --: I love you so much that I could not bear to live with out you. No one knows how I love that What could I have not done for my darling?" He finished up the letter thus: "The sleep of death is sweet to those whose life is weary.'

Warren B. Westcott and Miss Jane F Truman were married recently at Saratoga. Forty years ago they were lovers and engaged, but Mr. Westcott jilted Miss Trueman and married a wealthy widow. To vindicate herself Miss Trueman successfully prosecute breach of promise suit against Mr Westcott, but refused to accept the damages which were awarded her. About three years ago Mr. Westcott became a widower. The old love revived in the hearts of both and they decided to wed, he at the age of seventy and she nearly sixty.

A license has been issued out of the Orphan's court in Philadelehia, allowing Wasyl Grynezak to marry Anne Pecanowska, who both lately arrived in this country from Austria. It was said that the groom and bride are members of wealthy families in the old country and that they came to this country be cause their aristocratic parents rigidly objected to their union. Each of the couple was said to have a situation in Philadelphia, and to be working hard for a living.

This couple have an interesting story. Emmerich and his wife were children together in Hungary. Eight years ago John came to America and found work in Cleveland as a tinsmith. The two lovers kept up a correspondence, and four years ago the girl also came to America, working as a domestic uptown until a month ago, when John came to New York for her. > The cheerful intelligence is sent out by wire from Toledo, says the New York World, that Mrs. Losewa Seitz, aged fifty-four, has for the third time made Mr. Samuel Seitz happy by becoming his wife. Mrs. Seitz's matrimonial experience has been peculiar

and exciting. While a maiden named Gaines she was wooed and won by Mr. William C. Queen. William jolted her young affections too severely on the corduroy road of life, and she secured a divorce and promptly married Mr. Samuel Seitz. This alliance not prov-ing satisfactory she as promptly secured another divorce and married Mr. Jacob Meeker. Mr. Meeker became tiresome, and besides it was developed that his first wife died under circumstances which would seem to indicate that her tea had been surreptitiously sweetened for her with a confection originally in-tended for rats. So Mrs. Meeker sought relief and divorce and again

married Mr. Seitz. Content did not long brood like a snowy dove upon her soul. Within a fleeting month Seitz vs Seitz again decorated the court calendar, and Mrs. Seitz, on obtaining her freedom, for-gave Meeker both his fatiguing manners and the rat-bane suspicion, and married him for the second time. Alas for that evanescence known as human bliss, and for constancy which needs no other bane than experience and time! Jacob wearied her again, and again sought the blessings of single life through divorce, only to give herself for the third if not last time to the eager and expectant Seitz, to whom her loval affections were transferred at the The divorce business in Toledo is looking up and Mrs. Seitz, it may be said, has broken the matrimonial record

The trouble between the master plumbers and top journeymen is now at an end, and things are running on as smoothly as before the difficulty. One thing has been settled, and that is that the Plumbers' union would. if need be, stand by all other labor organiza-tions. An attempt was made to have it sign a contract for a year with the proviso that while its members should receive the wages asked for they should stand entirely aloof from the other organizations in case of a strike. The proposition was not pushed, and at present everything bids fair for a

To-morrow the Western Horseman office will be opened for business, as a union office. This afternoon a meeting of those favora-ble to the Brotherhood of United Labor will be held in the Sheely block for the purpose

of organizing a branch. The strike of the tailors is apparently no nearer an end than at the beginning of the trouble. The difficulty is that the while the master tailors are willing to pay the scale of prices required, they wish to run their own prices required, they wish to run their own business, and run "scab" or any other kind of labor they wish. To this the strikers ob-ject, and in another column will be found a letter from their secretary giving the reasons therefor. Although both sides have taken a fresh hold, there is no doubt that in a few days matters will be amicably settled
