The Cruiser Charleston.
San Francisco, March 30.—The finishing touches are rapidly being put on the cruiser Charleston. Owing to the difficulty of set ting the electric appliances, lights, signals, etc., its stated wist trip has been postponed for a fortnight, and can not take place April 1, as previously announced. The main en-gines have not yet been tested, but probably will be to-merrow. The hoisting machinery was tested yesterday and found satisfactory.

An Irish Land Purchase Scheme.
London, March 30.—The cabinet has decided to propose at the next session of parliament a land, purchase scheme for Ireland similar to that proposed by Chamberlain. The ministry has also resolved to introduce in 1891 an Irish local government bill. The measure provides for extensive changes in the management of internal affairs in Ireland.

THE CONDITION OF TRADE.

Money Continues Abundant, With a More Active Demand.

GENERAL BUSINESS IS GOOD. Trade Shows An Increase Over 1888 Real Estate Values Maintained at An Advance-Prices

> Are Steady. The Local Outlook.

The financial situation is virtually un changed and money continues easy, with indications, however, of a more active demand in the immediate future. The rates at Chicago for prime mercantile paper are 6(2)7 per cent and at Omaha 8@10 per cent. Colleccont and at Omans continued the country is doing very the fairly in this respect. In fact there is but fairly in this respect. In fact there is but the country is doing very fairly in this respect. In fact there is but the country in the fairly in this reference to money matter that the country is the country in the cou been very good during this mouth. January showed about 10 per cent gain, February 70. showed a small loss, and March shows about 25 per cent increase in the volume of sales as compared with the same months in 1888, and level-headed, conservative people are very well content with this, in view of the fact that there has been a general depression in business throughout the union. Except in business throughout the union. Except in sugars, prices are unchanged. The trust has put granulated to 8½, and none but those within the ring can say whether that staple will recede or advance in quotable value during the next thirty days. The produce market is quiet. Eggs and butter are lower than a week since, with a tendency to a firmer market. The outlook upon the whole grant for a satisfactory season's husiness. is good for a satisfactory season's business at fair profits, with assurances that this city is increasing its trade as rapidly as the growth of the country tributary warrants. Real estate values within the city proper are fully maintained, and recent sales of usiness property have been made at a material increase over the prices obtainable

year ago.
A gang of counterfeiters manufacturing spurious silver dollars was recently capture at Washington. The dollars were nearly identically the same as the genuine coin, both in weight and appearance, and are among the finest imitations that the secret service people have yet found. Hundreds of them had been

put in circulation during the past month.

The Manufacturers' Record of Baltimore is authority for the statement that 1,259 new industrial enterprises have been organized in the south since January 1. The capital and capital stock represented by these new en-terprises and the enlargement of old plants during the last three months is said to amount to \$58,227,000 as compared with \$38,668,000 in

the same time in 1888. Sugar is booming on the short crop scare. The latest mail from Cuba confirms previous reports of quite general suspension of sugar grinding upon the islaud on account of bad weather. Among other losses it is said that the decaease of the production at Sugur will certainly exceed 50 per cent, as several es-tates which made last year from 1,800 to 2,000 hogsheads have terminated this year with only 700 to 800. On the other hand, accord-ing to dispatches received from San Franing to dispatches received from San Fran-cisco, Claus Spreckles is authority for the statement that the crop of sugar of the Sandwich islands will be about 125,000 tons, claim ing it to be the largest ever produced. The New York Commercial Bulletin says: "The expected fleet has not come in, leaving scarcely any stock in first hancs and only 6,700 tons in refiners' hands, and the spot market is practically where sellers choose to put it if necessity for buying arises."

Teas are unchanged. Some hints regard Tens are unchanged. Some hints regarding the China tea crop of 1889-90 are said to be coming to hand more or less ambiguous in character and probably not altogether reliable as yet, though they generally indicate a larger yield, and in some cases have suggested as much as 25 to 30 per cent over the present season.
There has been a decrease of 2,328 bbls in

the petroleum supply since January I, but the stock above ground amounts to 16,200,000 bbls and the production averages 50,000 bbls per day. Prices for carbon oil are unchanged.

Peanuts are firmer. Farmers in Virginia
are said to be rapidly disposing of their supolies, and cleaned stock at primary points becoming very scarce. Coffee is firm owing to the expected short

crop. The Rio News says: "The outlook so far is very unsatisfactory for the coming crop, and the opinion is, we think, gaining ground that even 2,500,000 bags is an excessive estimate for the 1889-90 crop in the Rio district. There is generally supposed to be a special providence watching over Brazilian interests, however, and a little hesitation in accepting very much reduced crop estimates may prove judicious." Regarding the Santos crop it says: "In spite of the fluctuations in consuming markets confidence in the future is unabated. Stock is miserably assorted, being chiefly low coffe and holders have consistently refused to make concession on any but the most undesirable grades. The 1839-90 crop is now generally estimated at

OMAHA LIVE STOCK

Saturday, March 30, 1889.
With over 1,600 cattle in the yards the market opened active at an advance of 5@10c and before midday there were very few desirable cattle unsold. The demand was

sirable cattle unsold. The demand was good for all kinds and both packers and shippers were free buyers. The dressed beef and shipping steers sold at \$3.15@4.00, with the bulk at \$3.30@3.70. Cows sold from \$2.25 to 3.00, the latter price being paid for a very choice bunch of thoroughbreds. Taking the cattle market as a whole, it was very satisfactory to shippers. satisfactory to shippers. Hogs. The hog market was stronger than yesterday, and was active at the prices. The bulk of the hogs sold at \$4.57\\display(04.60). The pens were cleared by the middle of the forenoon.

There were six loads of lambs in the yards but they would hardly be said to have been offered on the market. Good sheep would doubtless bring about steady prices.

THE BER. |-The wheat market was weak all

day, except at the opening, and dull most of the time, though a great lot of business was done the first half hour and the last half hour. On the curb yesterday afternoon May wheat was taken up to \$1.08, but at the opening this morning Jackson, McDonald, Logan and Swartz had plenty to sell at \$1.05 and all the way down to \$1.03. The decline to \$1.03. did not occupy any great length of time. Therefore up to 13 o'clock and after the price fluctuated between \$1.021/@1.03, touching both extremes a dozen times, with very little business passing. During the test hour the offerings of May seemed to increase, and the price slid off to \$1.01%, and later to \$1.01%. Possibly 12,000,000 bushels of long wheat for May was sold during the session. The crowd was at a loss who to attribute the selling to, but finally settled on Bloom, as he was observed to be "testaring on his toes and heels," a give away trick of his when his brokers are doing anything of consequence in the pit. The clique brokers, so far as could be seen, were doing nothing in May either to sustain or depress prices. The "crowd" absorbed the May wheat as it came on the market. July wheat wheat opened at 383%c and worked down to 88%@88%c several times during the first couple of hours. It then crawled back 88% and remained quiet and firm for a good while around 88%@88%c. Hutchinson was a steady buyer through one or two of his best known brokers. The smart fellows of . the pit, by a process of reasoning peculiar to themselves jumped to the conclusion that the wiley old gentleman was selling through the wiley old gentleman was selling through another set of brokers, and they pounded Ju.y industriously every time it showed the faintest sign of weariness. Sohwarz was the most persistent seller in the pit. By and by the market was broken below 88½c to stay, and it was subsequently run down to 8½c, the transactions being on a very large scale on the down grade. There was heavy general buying and a strong clique support. The temper of the local trading crowd was, however, ungovernably bearish, and this disposition was communicated to the great army of spectators in other cities. the great army of spectators in other cities. It was a weak, soft spot in grain. The weather had everything to do with this. The reports from the south are incouraging, and the sentiment of the correspondents as a rule is that the country can get along without rain for quite a while longer and sustain no especial damage. Cables were safe as a general thing, and the scaboard markets are spiritless. The closings were \$1.01% for May, 95% for June and 87% @87% for July. As compared with yesterday this is a loss of \$100 may and \$60 in July.

There was a better feeling in corn and more doing in a speculative way. The receipts were a few cars more than estimated yesterday, but the foreign markets were firmer in the face of the large quantities daily going forward from this country. The demand here for the lower grades for more did to the large quantities are supported to the lower grades for the lower grades for more did to the lower grades for the lower grades immediate shipment was again good and prices firm. The active features show about a %c improvement over vesterday's closing In oats the duliness of the previous day

was continued, with prices slightly improved. Nothing of consequence was done on outside account and few sellers appeared, with a % @14c advance noted as the result of the moderate buying. The market was narrow, however, with large lines of May obtainable at 2014c, or a fraction above the general trading price. June was in slightly better request than recently at figures about 1/2c below May, while July was dull, but firm. No. 2 in store sold sparingly at 251/2c, or about a 1/3c advance.

In provisions the feeling was nervous. General trade seemed to possess a strong un-dercurrent, yet the bears were bolder and more aggressive than of late, and prices more aggressive than of late, and prices were somewhat subject to their influence. In pork the fluctuations covered a range of 30c, in lard of 5c, and in short ribs of 5@7!4c. The highest prices touched prevailed early, though pork sold at its lowest figures before the highest were quoted. The closings all around were under yesterday's last prices. The day's actual decline was 7½@10c in pork, 5c in lard and 5@7½c in short ribs. The light arrivals were easily disposed of, and about every thing was sold, the market closing substantially stronger than yesterday.

FINANCIAL,

NEW YORK, March 30.—[Special Telegram to THE BEE.]—STOCKS—There was a slight upward turn in stocks to-day, but it wasn't of such character as to give the bulls much hope. Indeed the drive which was made at the weak ones of yesterday shortly after the opening led many to believe that still lower prices would be touched to-day. At first prices were 1/4 to 1/4 per cent over the close on Friday, while Atchison was 1 per cent higher. This state of things was followed by pressure on the active list, which sent Atchison off 1%, to 40%; Lackawanus 1%, to 35%, and New England off 1%, to 41% Following these were Rock Island, Burlington, Missouri Pacifib, Union Pacific and Jersey Central, each forced off % to % per cenfrom the opening figures. When the selling pressure was removed there was a period of duliness from which there was a gradual reduliness from which there was a gradual reaction, which carried most of the atocks almost to the early prices. Before II o'clock the upward tendency became quite strong and prices went even higher than at the opening. The buying by London put Louisville & Nashville at an advance of 1 per cent. The active stocks were those of Friday, Atchison, Union Pacific, Lackawanna, and a few others to a less degree. With the forenoon there was another slight reaction, but toward the close there was a strong and but toward the close there was a strong and fairly active market. The following advances were scored for the day: Chicago Gas, %: Missouri Pacific, %: New England, %: Atchison, Northwestern, Reading and Union Pacific, %: to % each, with Burlington, Lackawanna and St. Paul about steady.

The following were the closing quatations:

STERLING EXCHANGE—Dull but firm; sixty-day bills, \$4.85; demand, \$4.88%.
