A Brother of the Suicide. Francis Noland, a brother of the murderer, arrived in the city, yesterday morning, from St. Joe over the Kansas City road. He proceeded to the undertaking rooms of Field & Estep and identified the remains of the suicide as those of his brother John. He informed THE BEE that the deceased was in his 18th year, but had been at home but little for the past five years. None of the fam-lly kept any trace of him, as he never gave any account of himself. He generally came home about once a year and remained three or four days, after which he would start off again without giving any information regarding his occupation or whereabouts. He was there about a month ago and remained one night. Francis saw bim as he passed along the street, and the other waved his hand to him. That was all he had seen of him for over a year until he gazed on his dead form yesterday morning. John was the youngest of three brothers, and Henry, the second brother, was much like him in disposition. He was given to the same wan-dering life, and was home last a few days after John's last visit. Francis had not heard the report of Henry's death while

burglarizing a store in Minneapolis, but thought it might be true. He stated that Thomas George was his stepfather, and that since Mr. George lost an arm the family was in very straightened circumstances. He took all the money in the house to come here to identify the re-mains. His mother insisted on his coming to make sure that the dead man was really her son. He worked his passage here on a freight train in order to have money to return home. He stated that it would be im-possible to take the remains home with him, and that they would have to be burn d here at the expense of the county. The deceased was always pretty wild and drank a great
