We went into the shoe business, not only for the money there is in it but because the suc cess which attended the opening of this department has again demonstrated what con fidence the people have in us. Many of the customers told us that they waited for our opening though they needed shoes badly. They knew they could save money and they were not dissapointed. Never was there a nicer nor a cleaner stock of Men's Shoes placed upon the market, and never were such honest and trusty shoes offered at such figures, And the way we warrant our better grades of shoes has somewhat startled the shoe dealers That is a guarantee which means something and which protects the customer.

Our stock comprises all grades. We have good strong shoes, made of good leather, at \$1.25, up to the very finest grade of French calf, genuine hand-sewed. The later we offer at \$5.50. Many shoes are called "hand-sewed" now-a days, but our \$5.50 shoe is really sewed and stitched by hand and is as good a shoe as any for which fine shoe stores ask
