TANNER HAS A TASK. A Complete Reorganization of the Pension Service. THE FAVORITES WILL FALL. Proficiency Will be Preferred to Democracy. GEN. BLACK TO BE SHOWN UP. Some Sensational Disclosures Expected. THE COMPTROLLERSHIP RACE. Edward S. Lacey, of Michigan, Being Strongly Urged By His Friends For That Position-Other Washington News.

WASHINGTON BUREAU. THE OMAHA BRE, ) 513 FOURTEENTS STREET, WASHINGTON, D. C., April 9.

Commissioner Tanner says he is determined to thoroughly overhaul the pension office, and with a view to doing this he has set at work some of his most experienced and reliable assistants for the purpose of ascertaining what is needed to make the office more efficient. A list is being prepared of the special examiners in the field and of the officers and clerks who were put into positions under General Black, through civil service examinations, who did not pass a fair examination. It is stated that more than half of the special examiners who were appointed through pretended civil service competition were in fact subjected to no competition at all. A re-examination of the papers shows that the percentage attained was far below that the percentage attained was far below that required by law in order to make them eligible for appointment. These men were in many instances practically selected before they presented themselves for civil service examination, and the latter was simply a matter of form. After this list has been made up and proof is collected of the fact that their civil service examination was a fraud the names of a lot of men will be pre-sented to the secretary of the interior for dismissal. It is probable that Secretary Noble had this in mind when he said to your corredismissal. It is probable that Secretary Noble had this in mind when he said to your corre-spondent yesterday that there would be a great many changes made in the forces of the pension office in a short time. It is un-necessary to say that all of these special ex-aminers, agents and clerks who were ap-pointed through fraudulent civil service ex-aminations are democrats and were put into the office for a political purpose. Enough has been found in this investigation to prove that the office during the last three years and especially the past summer and fall, was used in the most outrageous way as a poliused in the most outrageous way as a poli-tical machine, but not only was the office itself filled with employes in violation of the law, but pensions were allowed with a view to political effect. Under the circumstances it is probable that nearly every one of the men employed by General Black will be dis-missed within a very short time. The office is really in ten times worse condition than General Black ever charged his predecessor with having left it, and it will be remembered but the efforts of General Black to switch that the efforts of General Black to smirch the management of the office under Colonel Dudley, through congressional investiga burley, through a congressional investiga-tion, proved a dead failure. The expositres which Commissioner Tanner will undoubtedly make of the management of the pension office under Commissioner Black will prove a sensation. This is not a matter of politics, but one of justice to the pensioners and an plicants for pensions and the country at

tural results, however, were of a most en-couraging nature, showing that in that local-ity a crop of sorghum cane can be grown which, with proper treatment, may be ex-pected to yield eighty or ninety pounds of sugar from a ton of pure cane. Prof. Wiley devotes considerable space to a presentation of the points to be considered in building a factory. Southern and western Kansas possess the best soil and climate for sorghum raising so far as is now known. Indian Territory is destined to be the center of the industry. The expectation of estab-lishing a successful sorghum industry in the great maize fields of the country must now be definitely abandoned. In detail the bul-letin is very complete. It contains the re-ports of assistants in charge of experi-mental stations, with a daily record of the results in tabulated form, an analysis of sugar beets grown in Kansas from seed grown by Claus Spreckels, and the effect of the diffusion process upon the extraction of sugar from sugar cane. The latest report on this subject showed that an average of 194 pounds of sugar is made from a ton of cane.

# The Agricultural Stations.

WASHINGTON, April 9.-Secretary Rusk has issued a pamphlet giving the history of the agricultural experiment stations which have been established under a recent law of congress, and are now conducting scientific and practical experiments in regard tillage, manures, crops, stock feeding, dairy ing and horticulture in the various states. All the states and one territory (Dakota) now have agricultural experiment stations. The total number of stations now in opera nearly sixty. They employ more than three hundred and seventy scientists and agricul-turists, and will this year receive \$595,000 rom the national government, and about \$125,000 from the states and other sources The most cordial feeling is said to exist be tween the stations and department of agri-culture, which is charged by congress with the duty of supervising and aiding the work of the relieve of the stations.

The G. A. R. Encampment. BURLINGTON, Ia., April 9.- Special Telegram to THE BEE.]-The fiftcenth annual encampment of the department of Iowa, G.

A. R., opened here this morning under exceedingly depressing circumstances. A slow drizzle had taken the starch out of the decorations, and the enthusiasm out of the campers during all of Monday night, and the muddy streets and leaden skies gave no promise of better times ahead, especially in the face of the mist that still fell. The delegations began coming in on the first trains,

however, and they kept coming in all day long, and, as the crowd swelled, things began to look better. A gleam of sunshine pierced the clouds in the afternoon

sunshine pierced the clouds in the afternoon and brightened up the veterans exceedingly. They are resting on their arms and hoping for better weather. Good delegations are al-ready here from Council Bluffs, Dubuque, Oskaloosa, Ottumwa, Cedar Rapids, Mt. Pleasant, Des Moines and other places, and large post delegations will come in to-mor-row from many other points. The day has been spent in fraternal re-unions. The survivors of the Vicksburg campaign, the battle of Shiloh, of Gettys-burg, and of Pleasant Hill, La., the members of the Third, Flitcenth, Twenty-flith and Forty-flith infantry, the lowa Association of Union ex-Prisoners, the Wisconsin and Iowa Soldiers' association, and other bodies held reunions at the various halls and churches reunions at the various halls and churches

Soldiers' association, and other bodies held reunions at the various halls and churches about the city. This evening the military order of the Loyal Legion of the United States attended a grand banquet at the Hotel Duncan. Gen-eral W. W. Belknap was present, and deliv-ered a stirring address upon Iowa in war times. The old war-horse was surrounded by friends and admirers, and held a veritable levee all day long. During this evening, also, several camp fires were held, which were at-tended by hundreds of veterans and throngs of citizens. Addresses were made by Colonel J. J. Steadman, of Council Bluffs; Hon. At the conclusion of General Swayne's ad-dress there were calls for General Sherman, who rose to respond. General Curtis intro-duced him with the remark, "The greatest living general of the world stands before you." General Sherman spoke feelingly of his associations with General Sheridan, say-ing that only a few of his comrades were left to mourn him. He then referred to his early acquaintance with Grant and Sheridan, and of the cause for which all Sheridan, and of the cause for which all three fought. He declared that no stronger or better American ever fived than Sheridan and said that his name would always be coupled with those of Washington and Grant. General Alger also made a few graceful remarks.

It Passes the Bill Relating to the Prosecution of Boulanger.

PARIS, April 9.-The chamber of deputies to-day discussed the bill prescribing the mode of procedure to be followed by the senate when sitting in court for the trial of General Boulanger. De La Fosse denounced the measure as a mockery of justice and an insult to the public conscience. He declared that the senate, being a political body, could not act impartially in the case. This assertion caused a great uproar. Members exchanged abusive epithets, and the scene was one of wild disorder. When Dc La Fasse was again allowed to continue, he said that law and decency required that Bousaid that law and decency required that Bou-langer be tried at the assizes; otherwise, the trial would be an outrage on justice and a disgrace to the senate. These remarks caused a renewal of the uproar. The mem-bers of the left made no attempt to reply, but immediately moved to apply the cloture rule. The motion carried by a vote of 353 to 242. A motion was then made to begin dis-cussion of the bill by clauses. This was also carried by a vote of 321 to 322. The chamber rejected all amendments sug-gested by the members of the right. A pro-posal by Ribot, that a majority of seven-twelfths of the senate be necessary to make valid any sentence pronounced upon General

At 6:30 o'clock, yesterday morning, a dozer women had taken possession of the county building steps and were determined to be first inside the court room. Janitor Lahey could not tell whether they had been camped there all night, but one of the women said to him: "We got badly disappointed, yesterday, by coming too late, and we're determined to be early enough this time." It was not necessary to lose sleep, however, nor manifest so much impatience. While the crowd in attendance filled nearly every inch of space both inside and outside the bar, if was by no means so large as was that of yes-

terday. The doors were thrown open at a quarter past 7 o'clock to prevent the usual scenes of squeezing, scrambling and pushing in the corridors and on the stairways.

Several of the older lawyers, commenting upon General Cowin's speech, were heard to say that it was the best speech he ever made. His argument on the point of self-defense was brought out very strong, and he was not so rambling in his effort as on former important occasions.

Miss Biechler had a wierd, wild look in her eyes yesterday. She was paler than usual, but she had a pleasing smile for her attorneys and shook hands with them heartily.

County Attorney Mahony did not arrive until after the court had opened. General Cowin resumed his argument by referring to the fact that, one week ago to-day the case commenced, and he hoped it would end before night. All he wanted from the jury was a verdict based solely on the evidence. He had no desire, and hoped that the jury would not be reached by

The appointment to-day of James Mc-Dowell, of Dakots, to be register of the United States land office at Huron, is a recognition of United States Senator Moody, of Deadwood, as the appointment was made at his request. Senator Moody has a strong pull with the administration and stands very high in the estimation of republicans in congress.

### EXTENDING THE TIME

President Harrison will probably extend the time within which ex-union soldiers who were dismissed from the federal service ander the recent administration may be rein stated without having to pass a civil service examination. Under the law the limit of time an officer may be out of the service without passing the civil service examination in order to be reinstated, is twelve months. Congressman Houck, of Tennessee, who was a distinguished soldier, called on the presi-dent to-day and urged that the time be extended so that veterans who were turned out by President Cleveland may be put back into the service without having to pass a civil service examination, and he says it is his impression that the time will be extended to fore years. to four years.

Coon, formerly an assistant secretary of the treasury, has practically withdrawn from the race for this position, and the selection now lies between ex-Congressman Richard Parsons, of Ohio, and ex Congressman Lacey, of Michigan.

the Interest of Statchood

TO DIVIDE THE TERRITORY.

CHICAGO, April 9.-Intelligence of a new movement in New Mexico in the interest of statehood is brought by H. M. Glasgow, editor of the Sierra County Advocate, who is in the city. He says that New Mexico would have been made a state last win ter were it not for the influence of the Mexicans. The old Don element of the Mexican race is as active in its supremacy in New Mexico as it ever was in old Mexico. No legislation is effected in the territory that is not agreeable to high class Mexicans. They, dominate the country like feudal lords.

feudal lords. "Recognizing this, and the fact that it can never be otherwise," says Glasgow, "we want to separate ourselves from them." Asked how this could be accomplished, he suid: "The Mexican and

Indian population are found almost alto-gether in the northern and castern portion gether in the northern and eastern portion of the territory. The white English-speakof the territory. The white English-speak-ing people all live in the southwest pertion. Two weeks ago representatives from five counties, most largely American, met at Las Cruces and appointed a committee to can-vass the district and influence the peo-ple in favor of a division. To these counties they propose to add Graham and Cochise counties of castern Arizona. The seven counties to castern Arizona. The seven counties together have a popula tion of 95,000, almost exclusively what ma be denominated American. The committee, may said Glasgow, " has reported that the people are unanimously in favor of division. By this means the Americans leave the other elements a fair-sized territory, that they can make a state of when ready for it."

"But will Arizona consent to losing a part of her territory !' was asked. "The people in the two counties named are

quite willing, and the western portion of the territory will be left to add to lower Califor-nia when it shall become desirable to make a state of that country. We feel reasonably confident of success if we can ever get the question before congress in the right shape.'

of experience with expert testimony. I have never had a case in this or any other court in which, if expert testimony were brought on one point, the same kind of testimony could not be procured to the contrary. One says this and another says that according to the this and another says that according to the side on which he is called and the courts of this land have very near discountenanced the use of such testimony. In cases of in-sanity, the supreme court of lows and of the United States have discarded such opinions, and let the jury pass upon the facts as they have them and the impressions of the persons who saw the act on the question of insanity. What we have here as far as the testimon

what we have here as far as the testimony is concerned. For what purpose would we put on testimony if at all? Why we would introduce testimony tending to show that Libbie King was not responsible for her act when the shot was fired. Now, the very witness called by the state and whose words were relied upon for conviction, testifies that the defendant was

If the state had sought to overcome the testimony of this witness, I would have had testimony to offer you; but as that witness remains uncontradicted, I had nothing to ac-complish. Gentlemen, you must remember that testimony is not necessarily for convic-tion because it is offered by the state nor for acquittal because it is offered by the defense. In this case, I say, there is no escape from it, the only testimony in regard to the sanity or insanity of the defendant is that she was insane. There is not a particle of contradic-

at the time of the firing of the shot. There is positive testimony here that she was out of her mind at the time the shot was fired, and there is not one word going to dis-prove her insanity. Hence, the question is not. Are you satisfied that she was sanef but, Are you satisfied, beyond a reasonable doubt that she was insane at the time of the

The state would have ex-perienced no difficulty in securing the test-mony of the conductor, porter or passengers of the Pullman car that bore Libbie King to this city; of the chief of police and persons around the hotel at the time of the tragedy;
