Wheat Showing Signs of Healthful Activity.

CORN CLOSES AT A DECLINE.

Oats Attract Fair Attention-Provisions Repulse the Pounders-Little or No Change in Cattle Values-Hogs.

CRICAGO PRODUCE MARKETS. CHICAGO, April 9 .- [Special Telegram to THE BEE. |-Freed from manipulation the wheat market is once more showing signs of healthful speculative activity. Commission merchants almost uniformly report improving business, and everything on the speculative list seems to be "limbering up." The market to-day has to some extent the "liquidating" features that have characterized it for several days past, but the weakness was followed by marked improvement. Timid and weak longs threw wheat early, and patient shorts did considerable covering on soft spots. The markets everywhere on this side of the Atlantic were weak and lower and cables presented a front of duliness and weakness, though there were intimations that the foreigners were pushing quiet inquiries for good wheat not only at the seaboard but in Chicago. The northwest was especially and noticeably weak. Minneapolis opened 3%c off. It recovered some, but was at no time strong. The western winter wheat markets were soft and spiritless on the fine weather and on the partial demoralization here. The local sentiment is tremendously bearish on everything in sight-wheat, corn and provisions. It is seemingly almost unanimous, and nothing is "any good," in the language of the street. When opinion is in that shape "bargain hunters" begin to come out of their retirement. The foreigners are about the best "bargain hunters" in the grain trade, and as the day advanced the impression became stronger among the conservatives that the foreigners were awake to their opportunities. The shipping houses did not appear anxious to advertise the fact, but they were, nevertheless, picking up choice wheat that was looking around for customers. On merit, that is to say, on its actual milling values, Chicago wheat is down about to a parity with the other markets. in that shape "bargain hunters" begin to come about to a parity with the other markets, and this fact is commonly recognized in the grain trade. The crowd got "onto" this shipping gossip towards the close of the ses-sion, and gave the market a firm closing at a substantial recovery from the inside prices. Previous to that, however, everything looked gloomy. July opened at 83½c, a loss of 3c over night. It sold off to 83c right away. At this price Cudahy and several local opens erators began to cover short sales, and an advance of ic was started. As the market kept going up a lot of little bulls caught on, but when the market started back from 84c, and again broke, after a smart bulge to 84kc, they tumbled their stuff over once more. The market broke to 84kc and was gracey between broke to 83%c, and was groggy between 83%@83%c for the better part of an hour. Around noon the late recovery above re-ferred to carried the price to 84c, and the last quotation was 83%c, the same as last inst quotation was \$3\frac{1}{2}\cdot, the same as last night. Bears who put out new lines on the second break did not fare well as a rule. Trade in May and June was light, but the fluctuations were sharp. As on yesterday, the two months kept close to day. May opened at \$6\cdot, sold off to \$4\frac{1}{2}\cdot, and with frequent and nervous jumps and breaks, climbed up to \$6\frac{1}{2}\cdot c. The close was at \$6\frac{1}{2}\cdot c for May and June, or \frac{1}{2}\cdot better than yesterday.

The corn market opened easier, which was

The corn market opened easier, which was generally ascribed to the influence of the lower prices ruling for wheat, but the favorable weather for farm operations was doubtless an additional feature of the weakness influencing speculators. The opening prices were around the figures prevailing at the close yesterday, but soon weakened under the liberal offerings induced by the aforementioned considerations. At 35%c for May, which was the price soon after the vented further decline at that time, and the market then became very dull. After a period of sluggrish inactivity another spell of heavy selling commenced, and it brought about a further decline of \(\frac{1}{2} \text{c} \) in May, the price for that future getting down to 35c, and July, which was also very freely offered, sold down to 85%c. At those prices there appeared heavy buying orders, and the market may be said to have stood its pounding remarkably well. The closing prices were near the bottom however, and show a loss since yesterday a the corresponding time of about %c on May

and July, and 4c on June and September. Oats attracted fair attention on the part of traders, though the volume of the specula tive business was much less than yesterday and the price changes were confined within a narrow channel, averaging nearly steady to firm. There were reports of a probable large early outward movement of cash oats as a result of the free sales of April, yester-day, and 25c was again bid for this month to-day, with light business in No. 2 to-day, with light business in No. 2 outs to go to store at 25%c. May was a favorite future, with fair trading early at a steady figure of 25%c, improving %c to 25%c and the latter ruling more quiet, with June and July at the common range of 25c to 25% (@25%c. Out inspection was more libers and statement of 25c to 25% (@25%c. tion was more liberal, aggregating 13,600 bushels, and a sale was recorded of 200 cars of No. 2 free on board at 2516c.

In provisions the feeling was quite strong after the morning hour or so of the session. At the opening pork was raided with con siderable vigor, but as it refused to break easily and was scarcely followed at all on the receding turn by short ribs and lard, the raiders soon became tired of their undertak-ing. The stubborness of the entire market discouraged the pounders, and on their with-drawal the decline forced was practically re-covered. During the greater portion of the charge trade acted as if the weak-kneed holders had pretty generally unloaded, and the condition of affairs had improved. In pork there was more or less doing through-out, but in the other lines the day's trading made a poor showing.

CHICAGO LIVE STOCK.

CRICAGO, April 9 .- [Special Telegram to THE BEE.]-CATTLE-The run was somewhat greater than expected, and, notwithstanding that the receipts so far show an increase of 5,000, the demand was fair, and about all were sold, with little or no change in prices as compared with yesterday or the close of last week. Such steer stock as suited the regular trade, exporters, shippers and dressed beef operators, sold well up to the best prices so far. Some prime corn-fed Texans made \$3.80 and a similar lot made \$3.70 yesterday. No grass Texans were in sight this yesterday. As grass Texans were in sight this morning. Cow stock, and in fact all descriptions of butchers' stock, are fully as high as last week. Choice to extra beeves, \$4.40@4.60; medium to good steers, 1350 to 1500 lbs, \$3.90@4.40; 1200 to 1350 lbs, \$3.65@4.00; 950 to 1200 lbs, \$3.35@3.70; stockers and feeders, \$2.85@3.55; cows, bulls and mixed, \$1.60@8.40; bulk, \$2.25@3.00; Texas steers, \$3.40@3.90.

Hous—Prices again ruled a nickel lower, the bulk of the mixed going at about \$4.85, and a few prime heavy at \$4.90, with rough packers at \$4.70@4.75. Light sorts sold largely at \$4.85@4.90.

FINANCIAL.

NEW YORK, April 9 .-- [Special Telegram to THE BEE. |-STOCKS-The stock market early to-day had the same peculiarities as yesterday. There was a disposition to watch a few securities and neglect the greater part of the list. Atchison was the leading stock, and scored a further decline of 2 points the first hour. At the opening there was a steady feeling, first prices being but a fraction either way from the close last night. From the first there was a slight decline throughout the list, in which Burlington lost 1/4. Lackawanna 14, New England 14, Rock Island 14 and Union Pacific 14. The early weakness was followed by a better feeling, and at 11 a. m. the list regained the first figures. Aside from Atchison the best activity was shown by Burlington, New England, Missouri Pacific & St. Paul. After 11 o'clock Atchison alone relieved the duliness, and the changes in prices were insignificant. The closing

hours to-day brought a very fair return of strength to the entire list. The declines of the morning were regained, and of the stocks showing any activity Atchison alone showed a loss of nearly a point for the day. The net gains at the close were 1 per cent in Union Pacific and Chicago Gas, 1/4@% per cent in Lake Shore, Missouri Pacific and Rock Island, % in Cotton Oil and St. Paul, with but a slight fraction for the rest of the list. The total sales were 209,841 shares, including Northwestern 7,900; Union Pacific, 8,400;

OMAHA LIVE STOCK.

Cattle.

The run, as will be seen, was the largest since Tuesday of last week, and among the arrivals were a good many very desirable beeves. The trade was stronger all along the line and active at the prices. Both packers and dressed beef operators were liberal buyers, and before midday there were liberal buyers, and before midday there were very few cattle remaining in first hands. The market upon the whole was back about where it was last Saturday. One bunch of good heavy steers sold at \$4.17%, the highest price paid yet, but the bulk of the dreased beef and shipping steers went at \$3.55@4 00. The supply of butchers' stock was a little more liberal than it has been for some days, and it, toe, sold strong. Some good cows and heifers sold at \$3.25, and a good many cows went at \$2.60@3.00. A few yearling stockers changed hands at \$3.00, but the trade in that kind of cattle was very light, owing to their scarcity. Upon the whole the market was in a very satisfactory condition, and it certainly augurs well for the trade when the market is able not only to hold its own in the face of heavy receipts, but even advance. heavy receipts, but even advance.

Hogs. The hog market was as bad as the cattle

market was good. A few loads sold early at \$4.55@4.57%, but the heaviest packers wanted to buy the best at \$4.50, and although salesmen held on in many cases until afternoon, they succeeded in the end in gaining their point. The market closed 10c lower, and very dull and slow. The market was far from being satisfactory for any one.

Sheep. There were a few sheep on sale, and some fair Nebraska sheep and lambs brought \$4.35. The market is very firm and considerably higher than a week ago.

Receipts.

Prevailing Prices. The following is a table of prices paid in this market for the grades of stock men-Prime steers, 1300 to 1500 lbs. \$3.60 @4.25 Prime steers, 1300 to 1300 lbs. \$3.00 (24.25)

A LIVE BOARD OF TRADE.

Brokers at Detroit Indulge in Knock-

Down Arguments.

DETROIT, Mich., April 9,-|Special Tele-

gram to THE BEE. |-Maxwell M. Fisher recently secured a divorce, was sued for \$100,-600 for breach of promise, himself sued a newspaper for \$15,000 libel, and married a woman half his age all within one day. He is a millionaire and owns the board of trade building. He visited the board yesterday and found the members angry on account of the dust being raised by the tearing down of a wall of the building. Broker Donovan asked him to stop tearing down one wall until the building of another would keep the dust out of the board room. Fisher then picked up half a brick and threw it at Donovan. The latter slugged Fisher so vicorously that he seized a carpenter's broad axe and made a vicious run at Donovan. Somebod grabbed Fisher and took away the axe. Ther he called Donovan several hard names and

Donovan promptly knocked him down again

Fisher got un and appealed to Broker Ander son. Receiving no sympathy he called An

Carnegie as an Anti-Monop. HARRISBURG, Pa., April 9.- | Special Telegram to THE BEE. |-Andrew Carnegie, the millionaire iron manufacturer, deliuered an address in the house of representatives last evening, in which he made some startling statements. He said the Pennsylvania railroad company discriminated against the industries of Pennsylvania in freight charges, and was rapidly driving them out of the state. On account of these extortionate charges he said the value of farm labor was depreciated. He had given that corporation land in western Pennsylvania through which to lay their tracks, but he was determined now to prevent them from using it. He said the people had as much right to take up arms against the Pennsylvania companyls redieve against the Pennsylvania company's policy as they had to defend the nation.

He Wants to Resign. LONDON, April 9.-The St. James Gazette states that the marquis of Londonderry has intimated his desire to resign the viceroyship of Ireland because of a pressure of private business and the ill health of his wife. OMAHAJOBBERS'DIRECTORY
