Antual Poison. The fearful increase in mortality, resulting from the bites of rabid animals is alarming, and the fact that there have been fatal results from the bites of animals which had exhibited no signs of rabies, adds to the alarm. The case in Walton county, Ga., is an instance. The poison was communicated by the bite of an ordinary house cat, which had never seemed to be mad. The renorder by the bite of an ordinary house cat, which had never seemed to be mad. The reporter heard yesterday of a remarkable case of a lady who was poisoned by fondling and kissing a poodle dog. The dog had distemper and died of it and the lady's blood was poisoned to a degree that her body was broken out in great ulcers and sores from head to foot. From a beautiful and healthy woman she soon wasted to a mere skeleton. woman she soon wasted to a mere skeleton suffering great agony. No treatment benefitted her until on the 28th of February she commenced to take Swift's Specific (S. S. S.) which at once begun to force out the poison, and she is now getting well rapidly.

An Officious Official.

Superintendent of Plumbing Duncan claims that while Inspector Redousky was engaged at his work seeing that the water trenches were being properly filled on Farnam street, officer No. 41 approached him and ordered him to leave. Redousky re plied that he was a city inspector for that special work, and was appointed by the "I don't give a -- for the mayor," replied

Palatial Coaches and a Party of Distinguished Railway Men. A gorgeous train composed of three coaches and a combination car arrived in

Omaha yesterday. It is the special train of the Wagner Palace Car company and had on board Dr. Sewall Webb, president of the Wagner Car company; J. B. and A. J. Webb, brothers of the president and heavy stockholders in the company; John A. Purdy and wife, and Dr. McLain, Webb's family physician, together with eighteen servants.
The coaches are the most costly
that have been turned out being valued at
\$50,000 each. Between Buffalo and Chicago
on the Michigan Central the party was wheeled along, making the trip in ten hours and thirty minutes, a distance of 536 miles, and at a rate of fifty-two miles per hour. At Chicago the party was taken in turn by the Chicago & Northwestern and brought to Council Bluffs, a distance of 518 miles, in Council Bluffs, a distance of 518 miles, in twelve hours. The boys on the Union Pacific had prepared to distance all this, but unfortunately the train was not routed that way. Upon arriving m Omaha the tourists were met at the depot by Bishop Worthington, and were given a drive about the city in carriages. Their cars in the meantime were transferred to the Missouri Pacific, and at 10 clock in the afterneon shot out at a sixty-mile gait for afternoon shot out at a sixty-mile gait for Kansas City. The party will go to the Pa-cific coast over the Southern Pacific and re-

turn over the Northern Pacific.
President Webb, who is a son-in-law of
the late William H. Vanderbilt, had nothing to say concerning the railroad situation. His trip on this occasion is merely one of pleasure, and about six weeks will be consumed in touring the continent.

Reducing the Rate.

The Union Pacific issued a circular taking effect to-day, reducing the rate of equipped berths in Pullman tourist sleeping cars between the Missouri river and Sar Francisco from \$4 to \$1.50 per berth. The circular states that this reduction is made to meet the competition of other lines, and also that the Union Pacific is required to make good to the Pullman company the loss be tween the present and new rate.

In Town and Hamlet

The seeds of intermittent and bilious remit tent fever germinate and bear svii fruit. No community has altogether escaped it. In populous wards of large cities bad sewage causes it, and in their suburbs stagmant pools in sunken lots breed it. There is at once a remedy and a means of prevention. Its name is Hostetter's Stomach Bitters, which is, with out peradventure, the most petent antidot in existence to the malarial virus. Fortifie with this incomparable, saving specific, mias matic influences may be encountered with absolute impunity. Disorders of the stomach liver and bowels, begotten by miasma-tainted water, or any other cause, succumb to the beneficent corrective named, and rheumatic, kidney and bladder troubles are surely re movable by its use when it is given a per-sistent trial.

Domestic Misery. Mrs. Morris Steirer called upon the county commissioners yesterday and asked to be al lowed transportation to Boston.

She asserts that Morris Steirer, who runs grocery store at the corner of Twentyseventh and Burdette streets, was once her lawful husband, but that he deserted her four years ago in Boston, leaving her three small children to support. She never learned of his whereabouts until seven weeks ago, when she heard that he was aving in Omaha. She came after him but found him married to another. She had him arrested and taken before a South Omaha potter on the charge of bigamy, but lic judge on the charge of bigamy, but Steirer produced a decree of divorce granted him by a court at Louisville, Ky. His former wife heard of the divorce then for the first time. Steirer laughed at her, but offered to receive and care for two of the children spurned his offer and says that she shall keep them herself.

The children are now in New York and she is endeavoring to get back to them.

She Wasn't Robbed.

A lady passenger yesterday at the Burlington depot accidentally dropped her purse containing \$185 out of her satchel, and failed to notice the loss. Another lady observing it, picked up the purse and handed it to the owner. Officer Kirk, who was also a witness to the affair, stated that, had not the woman been fortunate in having the purse restored, she would have undoubtedly claimed that she was robbed,

CONTRACTORS' CHECKS.

Chairman Balcombe Explains Why They Were Withdrawn. reference to the charge that contractors who had been the lowest bidders or paving had been allowed to withdraw their \$1,000 checks from the board of public works, Chairman Balcombe yesterday said:

"I am attending to this business strictly according to the provisions of an ordinance passed by the city council, and there is no way left open for contractors to impose upon the city by enabling higher bidders to do the work.

"For instance the contracts of James Fox & Co., William Forrestal, J. R. Riley & Co., and the Nebraska Paving company, whoever and whatever it is, for I haven't met anybody who knows, were accompanied by the necessary \$1,000 certified checks. These, however, as the ordinance provides, were re turned to them on their filing the necessary bond of \$2,000, which provides for their filing an additional bond that they will properly

execute all the paving contracts awarded to them during the year.

"This latter bond has been furnished by each, as follows: James Fox & Co., \$10,000; sureties Andrew Murphy and A. H. Cooley. Cooley is a contractor, and under the new rule this bond will be referred back by the

"These bonds will all be sent back under

the new rule passed Saturday night, and which provides that bondsmen must swear that they are not contractors for city work, and that they are worth the amount specified in the bond, over and above their indebted ness, and not exempt from execution.

"We will have them make out new and satis factory bonds. This is in accord with the ordinance passed by the city council. The \$1,000 checks are always covered by the \$2,000 bond, which if filed within thirty days, saves the check from forfeiture. This is

McHugh; James Fox & Co. with Andrew Murphy and A. H. Cooley."

Mr. Balcombe disclaimed all responsibility for the variety of specifications under which paving may be done this year. He says that the latter had no alternative under the ordinance, a section of which was incorporated nance, a section of which was incorporated in the advertisement of the board calling for paving bids. This section authorized the board to receive bids on paving according to the specifications of this and last year as also according to specifications which con-tractors might themselves suggest. As a consequence it was not surprising that there were thirty-six kinds of specifications for street pavings while there are also six for al-leys. The wonder is that there are not

We went into the shoe business, not only for the money there is in it but because the suc cess which attended the opening of this department has again demonstrated what con fidence the people have in us. Many of the customers told us that they waited for our opening though they needed shoes badly. They knew they could save money and they were not dissapointed. Never was there a nicer nor a cleaner stock of Men's Shoes placed upon the market, and never were such honest and trusty shoes offered at such figures. And the way we warrant our better grades of shoes has somewhat startled the shoe dealers That is a guarantee which means something and which protects the customer.

Our stock comprises all grades. We have good strong shoes, made of good leather, at \$1.25, up to the very finest grade of French calf, genuine hand-sewed. The later we offer at \$5.50. Many shoes are called "hand-sewed" now-a days, but our \$5.50 shoe is really sewed and stitched by hand and is as good a shoe as any for which fine shoe stores ask
