The Bohemian Turner society has organized for the summer's entertainments. The society has ninety mem-bers, including twenty young ladies. The first regular entertainment will be given one week from Sunday night.

The libel suit brought by County Janor Joe Miller against the World was to have commenced in the district court yesterday, but by mutual- consent of the attorneys it was postponed until next Tuesday.

Major Paddock and Major Brown have gone to Cincinnati to attend the congress of the military order of the Loyal Legion. With N. S. Harwood, of Lincoln, they represent the state of Ne-braska in the gathering which takes place to-day.

The increase of the pupils in different schools has caused the opening of new rooms at the Hartman, Lake and Central buildings. This week new rooms are to be opened in the Pacific, Hickory and Center schools and probably at the Bancroft.

On 4th of July last Dick Creele slashed E. D. Bridges in the neck with a knife, narrowly missing the jugular vein. Fearing that he would be arrested and punished for assault with intent to kill, Creole fled from the city. Tuesday he returned and was arrested yesterday.

suspicious characters, have been charged with the larceny of a suit of clothes from Henry Holman.

### Alleged Extortion.

The case of George H. Drew against Fremont U. Jaynes, in which the plaintiff sues for \$199 due on a house built for the defendant, consumed the entire day in Justice Kroeger's court yesterday. Mr. Jaynes showed receipts for over \$800 paid to Drew for his services, and claims that the last claim is an attempted extortion. The case continued the greater part of to-day.

A Safe Blown

The safe in Thompson, Belden & Co.'s store, 1319 Farnam street, was blown open last nigh and rifled of its contents. The thieves effected an entrance by prying off the iron grating before the window in the rear of the store, and then breaking a large glass. They next broke the door at the head of the stairway leading into the store. Their next work was to drill three holes just forward of the combination and then pry back the bolt. They left behind a black-smith's sledge and two horseshoe punches. The money stolen was that taken in at the store after 3 o'clock—banking hours—and it is thought to amount to about \$100. is thought to amount to about \$100.

Tardy Statistics.

County Superintendent of Public Instruction Bruner notified the school officers April 3 by circular that it was essential that the school census should be in by yesterday, in order that he might furnish the state superintendent with the number of children at-tending schools in this county. Only about half of the districts have reported thus far. The county superintendent states that if the census is not in so that he can furnish the state superintendent with the full report by May 1, such districts will lose their appor-tionment of school moneys.

Suburban Train Service.

The residents of Miller, Druid Hill, Walnut Hill, and other suburbs complain that the Missouri Pacific's suburban train service does not meet their wants. The morning service is all right, but the lack of a late evening train prevents the suburban residents from visiting the city at all in the evening, as the last train leaves the city at 6:30 o'clock in the evening. This prevents the patrons of the service from attending entertainments in the city, as they have no way to get home the same night. A train leaving the city at 11 p. m., or a little later, would be a great accommodation. The Sunday service, too, is complained of since the afternoon train each way has been taken off.

The connecting link between Nebraska and Kansas has just been placed in service by the Union Pacific railway. Phis train leaves Council Bluffs daily at 4:45 a. m.; leaves Omaha at 5:05 a. m. and runs through without change to Manhattan, Kan., making direct con-nections there with the Kansas division of the Union Pacific railway for all points in Kansas and Colorado westbound, and for Topeka, Lawrence, Kaneas City and points east and south via Kansas City and points east and south via Kansas City. Returning, train leaves Manhattan at 2:25 p. m.; arriving at Beatrice at 6:25 p. m., Lincoln at 7:50 p. m., and Omaha at 11:20 p. m., Council Bluffs 11:40 p. m., making direct connection with Kansas division trains from Kansas City Lawrence Touche from Kansas City, Lawrence, Topeka and the cast, and from Denver, Salina, Abeline and all points west, enabling passengers to visit the principal points in Kansas and Nebraska in the shortest possible time. These trains have firstclass equipment, consisting of smoking cars and first-class day coaches of the latest pattern. The new train will fill a long felt want, and is bound to be

A CLOSE GAME.

Kansas City Wins in the Final Con-

test With Omaha. The Kansas Citys and the Omahas played their last game of the series at Association park yesterday afternoon, the visitors winning by a score of 3 to 1. It was a close and exciting struggle throughout, abounding in brilliant plays, and was anybody's game until the last man was out. Willis pitched an admirable game, allowing the Cowboys but five hits, one of which, however, was a home run, and striking out five. He is also a superb fielder in the box, and the most dar-ing of the Missouri sprinters were kept hugging first until allowed to leave on a hit or on error. But two bases were stolen by these vaunted race horses, the same number being purloined by the Omanas, Cooney cetting both. Every one of the local men played in great form, and fully demonstrated the fact that the nine is capable of putting up as good, if not better ball than was ever seen here before.

The score.

A One-Hundred-Mile Race.

To-day the great 100-mile race between W. F. Knapp and Reading, the soldier, comes off at the Coliseum, and promises to be a very interesting event. The race is for \$100 a side and 65 and 35 per cent of the gate receipts. A special prize has been offered if the record is broken, and both men declare they are going for it. The record is six hours and one minute, and as Knapp has ridden the distance in five hours and lifty-five minutes, he is confident of getting there. Read-ing is in good form and will give him a warm

Several years ago I was called to see a col-ored woman who had a malignant form of cancer on her foot. The cancer grew worse under the prescribed treatment, and the toes and one side of the foot were at length eaten and one side of the foot were at length eaten entirely away. The patient could not have survived much longer, but I commenced the use of Swift's Specific, and it cured her sound and well. That was three years ago, and there has been no return of the disease. I have also used S. S. S. in many other cases with the best results, and have cured a great many cases of rheumatism with it which had resisted all other treatment. I regard Swift's resisted all other treatment. I regard Swift's Specific a most excellent medicine for blood diseases, as its tendency is to drive out the poison. WM. E. STAGO, M. D. Matherville, Miss., March 6, 1889.

A Prospective Union. Of the sixty curpenters who have signed an agreement to form a new Carpenter's union, less than a dozen were present at the meeting called at Goodrich's hall on Saunders street at 8 o'clock last night. Those present had an informal talk on the reforms to be advocated by the proposed union and adjourned until Monday night, when the organization will be perfected. This step toward the formation of a new carpenters' union is the result of a dissatisfaction that has for some time prevailed in the ranks of the Carpenters and Joners Union No. 58, which has been in existence in Omaha for five years. The dissenters claim that there are too many 'woodbutchers' in the old union. They say they want a union to which none but canable and experienced workmen will be admitted. They hope to get the best workmen of the city, and thus be enabled to better their condition from a wage earning standpoint. The Omaha carpenters are working nine hours a day for \$2.70. They hope to get the same wages for eight hours. adjourned until Monday night, when the or-

To increase the solubility of the powdered cocoa, various expe-

Kehoe, of Platte Center, Vice Presidents James Danley, of Ashland, and David Anderson, of South Omaha, and Secretary John Wiggins, of Columbus, were present at the regular quarterly meeting of the Nebraska Live Stock Shippers' association yesterday afternoon, at the Exchange. Messrs. R. A. Heaton, of Weston, George Thrush, of Rogers, and J. N. Mills, of Neligh, were admitted to membership. The habits of commission men in sending out buyers were severely censured by different nembers and the sentiment was decidedly opposed to it. A case was cited where a representative of one of the South Omaha commission firms had gone to a farmer and purchased a lot of cattle after the same cattie had been contracted to a regular shipper. and only got the lot by paying a fancy price. A committee of three was appointed to investigate the cause of these complaints. Adjourned to meet Wednesday, July 10, at the Capital hotel, Lincoln.
