Wheat Weak and Prices at a Decline.

CORN RECEIPTS GRADE BETTER.

Dats Active With Price Changes Narrow-Another Slump Suffered In Provisions-Cattle Values Take a Down-Turn.

CHICAGO PRODUCE MARKETS. CHICAGO, April 11 .- [Special Telegram to THE BEE. |- The wheat market was weak and lower to-day. The opening prices were Ke off, and the first figures were the best of the day. The government report did not lisappoint expectations. It gave the average condition on the 1st of April at 94, the same as in 1886, and only about a point and nalf below 1884, when the crop of 512,000,000 bushels was raised. This could only carry one construction, and that is bearish. Another factor of the depression was the weather report. Rains were reported all through Iowa, and from points in Nebraska and Dakota. The indications point to copous rains throughout the northern winter wheat area in the near future. This tends to produce uneasiness among the bulls and confidence among the bears. On the break that resulted from the two leading causes mentioned and the attitude of several promiment operators, there was free covering of short wheat, which caused a reaction from the extreme low prices, but the feeling was not that of solid strength, and on the hard spots the big bears kept the market plugged full. The advices from the northwest, aside from reports of occasional showers in the southern districts, were bullish, and there was some excellent buying for northwestern account. The elevator people wired that whatever the future might have in store for the spring wheat country, in rain, none had fallen yet to do any good. The millers in Minneapous advised their correspondents here that there was money in flour at present wheat prices, and that they were taking off their hedges and preparing to take care of their eash wheat without further protection in the line of insurance by sales elsewhere. For some time past it has been felt in certain quarters here that one of the principal menaces to the market was in the heavy lines of wheat held for northwestern account. Holders evidently still feel strong up there. Seaboard advices were not, as a rule, favorable, though some exnot, as a rule, favorable, though some export business was reported, and moderate clearances are the rule. An important failure in the grain trade in Berlin imparted a weak feeling to the New York market about the middle of the day, but a better tone prevailed later, and to that fact was due the stendy closing here. July opened at 83½c, moved up ½c, and then sold down to 81½c. Good buying by the shorts carried the prices up to 82½c, but the market settled back to 82½c, rallying however to 82½c and closing there, ½c lower than yesterday. May opened 824c, ranging nowever to \$24c and closing there, \$4c lower than yesterday. May opened at \$64c, ranged at \$5@864c, and closed at \$65c. There was only a light trade done in those months (May and June) and very little was done at the inside. The volume of the latter was done at the inside. operations in the late futures was fairly

visions and wheat had a depressing influence on corn, which opened fairly active but weak at yesterday's closing prices. The receipts were fourteen cars in excess of yesterday's estimates, and the proportion of them inspecting No. 2 is on the increase. Liverpool quotations came about 1/4c per cental lower, but the dispatch reported fair demand at the but the dispatch reported fair demand at the declire. Exports have been under the recent average. for a day or two, but there is no lack of export orders at the scaboard. There is expectation of heavier receipts soon, but these expectations may or may not be realized. There were increased offerings from the country sellers, and the feeling among the local speculators was one of weakness. From hours quite active early in among the local speculators was one of weakness. From being quite active early in the day the market became dull towards noon, and prices hardened fractionally on the near deliveries, May closing at 34%@ the near deliveries, May closing at 34%@ Eggs—In moderate demand; western, 10@ the near deriveries, May closing at 34% (a) 44% (c). There was quite an active demand for May when it touched 31% c, and although it reached that figure more than once, it was difficult to execute buying orders at that limit.

The fine weather and the weakness in pro-

Oats were active, though the price changes were narrow and the market was barely steady, with increased trading in the long future at slightly lower prices. A prominent short purchased a fair quantity of May at 25%(25%c, while June and July were \(\frac{1}{2} \) (a) (b) (c) lower. April and cash were quiet around 25%c, with sales largely by sample. Under the increased offerings May as more active later, selling down to 25% of In provisions another slump was suffered Untavorable advices from the stock yards where hogs were quoted weak and 5@10c lower, encouraged the bears te open the market with a raid. The first sales of future pork were made at 15c, of lard at 2½c, and of short ribs at 5c under yesterday's ctosings. Subsequently pork sold off under bearish influences a further 10c, and short ribs 2½c. Lard hung around the opening prices without life or feature. On the depression witnessed the raiders forced the unloading of a large amount of stop orders in pork and short ribs, and during the first Untavorable advices from the stock yards pork and short ribs, and during the first hour of 'change the weak feeling held full sway. Later, however, the market recovered a little in tone, and better prices became the ruld. Still the upper turn was limited, and the closings all around were lower than yesterday's final quotations. In pork the day's actual decline was 15@17%c, and in short ribs and lard 23/c.

CHICAGO, April 11 .- [Special Telegram to THE BEE. |-CATTLE-The continued big rush, an increase of 12,000 so far, has at last broken the great strength of the market, and values took a down turn to-day of 10 @15c. the decline reaching nearly all the grades, but more particularly steers that neither exporters nor shippers could use, leaving such in the hands of the dressed beef operators and butchers. But at the decline, business was fairly active, the day closing with but few left unsold. Texans are coming along freely and so far are making satisfactory prices. All descriptions of cow stock and prices. All descriptions of low stock and about all varieties of butchers' stock are in good demand and steady, stockers and feeders selling better in proportion than fat cattle. Veal calves are down to low water mark. A carload of milkers and springers were peddled out at \$18 to \$42 per head. Choice to extra beeves, \$4.40@4.75; medium to good steers, 1350 to 1500 lbs, \$3.90@4.35; 1200 to 1350 lbs, \$3.60@4.10; 950 to 1200 lbs,

Hoss—Another drop of 10c to 15c, making a decline for the week of 15@30c. The bulk to day sold at \$4.70@4.75 for the best mixed common packers, going as low as \$4.50@4.65, and a fow fancy heavy and fancy butcher weights at \$4.80@4.85. Light sorts sold within a range of \$4.80@4.85.

FINANCIAL.

NEW YORK, April 11 .- [Special Telegram to THE BEE. |-STOCKS-The early market in stocks to-day was a repetition of many previous days, an active opening, with fractionally higher prices, followed by weaken ing all through the list, and this by a fairly good advance before 11 o'clock in all stocks showing any animation. The active stocks of the morning were Atchison, St. Paul, Reading, Lake Shore, Louisville & Nashville, and in the unlisted department, Sugar Trusts scored a further advance at the opening the gain was 1/4 per cent over the close on Wednesday. The first action was a decline of nearly a point in Atchison, 1/4 in New England, Burlington and Reading, with the entire list sympathizing enough to result in fractional declines from the first figures. The decline was partly the result of the duliness, for about 11 o'clock a. m. there was better activity and a good upward movement, which put prices at even better figures than at the opening. Cotton Oil was a feature, moving up a point from the bottom. The movements up to noon were insignificant, with fair activity and strength in

St. Paul, Atchison and Reading. Cotton Oil, Chesapeake and Ohio preferred and Consolidated Gas each advanced % per cent and attracted some attention. The strength shown in stocks about 11 o'clock a. m. returned later in the day, and during the closing hours very fair advances were made and very fair activity in more than the usual limited number of stocks was exhibited. The strength in grangers was quite favor able, and net gains for the day resulted Coal stocks were strong also. Compared with last night, the gains in a few of the more active securities were: Cotton Oil, 1%; Atchison and Burlington, 1 per cent each; Louisville & Nashville, Lake Shore, Northwestern and Reading, 34 each. The total sales were 272,832 shares. This included Northwestern, 10,700; St. Paul, 22, 400; Rock Island, 5,800; Union Pacific, 6,200; Lackawanna, 8,600; Reading, 7,700; Louisville & Nashville, 16,200, and Burlington, 5.100. The feature of the day was a spurt in Sugar Trusts, which advanced 5 points.

The buyers did not take hold with quite as much vim, but rather held off. However, they bought the bulk of the cattle in good season, and they did not succeed in getting much off from yesterday's prices, certainly not over 5c on an average. In rare cases perhaps cattle sold at a greater decline than that, but on the other hand some cattle did not sell any lower. The dressed beef and shipping steers sold at a range of \$3.50@4.00, but there were no choice heavy cattle. Hutchers' stock was a little more plentiful than the average supply of late, and although the general market was not essentially different eral market was not essentially different from yesterday, the buyers in some instances claimed to have bought their cow stuff a lit the easier. The range of prices paid for cows was \$2.25@3.25. There were a few light stockers and feeders here, but not enough to make much of a test of the market.

Hogs. The market was not very active at a de-cline of 5c, and although the receipts were very light, the morning was well along be-fore a clearance was effected. There were two trades at \$4.50, but everything else sold at a range of \$4.40,24.45. The decline was apparently due to the lower markets at other points,

Sheep. Excepting two loads which were not at all desirable, the sheep received were consigned direct to the packers. The demand contin-ues good and the market strong.
