

MEN ACTING LIKE CHILDREN.

Meeting of the City Council Under Great Difficulties.

JUDGE HASCALL IS ARRESTED.

Several Members Apparently Fly the City to Evade the Performance of Duty—The Mayor's Veto Sustained.

Childish Truancy.

At 7:30 o'clock last night there were fourteen members of the city council present in the council chamber. There was a restless movement in a group composed of Leary, Ford, and O'Connor, that was watched in one corner of the room. The members of the caucus, apparently by mutual consent, began edging toward the door. President Lee observed the movement and called the council to order at ten minutes before 8 o'clock, a little earlier than the usual time, intending, evidently, to catch the members before they could get away. He was too late, however, as the roll call showed only nine members present, viz: Bailey, Burham, Chaffee, Counsman, Schriver, Davis, Sanders, Wheeler and Lee. This was one short of the number requisite for a quorum, and it was evidently for the purpose of preventing a meeting that the group had acted. While the roll was being called, the group held a consultation under the electric light. When it was announced that there was not a quorum present, on Mr. Burham's motion, Sergeant-at-Arms Butler was sent out to corral the delinquent members. He returned in a few minutes with the council members present, and the roll call was resumed. The roll call showed four members missing, viz: Leary, Ford, O'Connor, and Chaffee. The roll call was resumed, and the council proceeded to the consideration of the mayor's veto of the ordinance authorizing the construction of a viaduct across the Eleventh street viaduct, and the ordinance was referred to the committee on roads and bridges.

It remains firm. The Union Pacific Pushing Its Claim for Puget Sound Traffic. In view of the issue between the Union and Northern Pacific for passenger traffic on Puget sound points, the full details of which appeared in The Bee of Monday, the Union Pacific yesterday issued the following circular to connecting lines: "In divisions, we will require from our Missouri river terminals, as an arbitrary, to rates in effect from St. Paul, viz: First-class unlimited, \$70; limited, \$60; second-class, \$35 to all Puget sound points. In divisions, we will accept from one Missouri river terminal the same proportions as we now accept on business to Portland proper. We pledge ourselves to fully protect both the transportation of passengers and their baggage through to destination points on Puget sound. We do not ask you for a ticket representation reading over the Northern Pacific from Portland, therefore any objections that line may offer against our request is entirely unnecessary. We are ready to accept of your terms, if you comply with our rate circular. Please advise the action you will take in the matter."

Pioneer Foreman Discharged. Foreman Frank Johnson, who has had charge of the section men in the yards of the Union Pacific at this place for the past nineteen years, was quietly retired to private life at 6 o'clock Monday morning. At the time specified, Assistant Roadmaster Ryan stepped up to him and handed him his time check, informing him that his services were no longer required. Johnson asked the roadmaster why he had been dismissed. The roadmaster answered that his services were no longer required. Johnson is spoken of as a steady and reliable man. It is intimated that when the Union Pacific, about four months ago, reduced the wages of section men at many points, Johnson interceded for his men, and secured \$1.40 per day instead of \$1.25. Johnson will appeal to the management, and it is intimated that he will be backed up by the Knights of Labor.

Leads Kept Busy. The action of the Rock Island in reducing the rate on ore and ballion from \$5 to \$6 per ton between Colorado and Missouri river points, directly affects the Union Pacific, Burlington, Atchison, Topeka & Santa Fe and the Missouri Pacific. It is for this purpose that the Rock Island has been reduced for Denver Sunday. Chairman Leeds of the Transcontinental association, has been called up to arbitrate.

It is Dull Compared With the Section Where Omaha Thrives. Fred E. Pickens, chief clerk in the post-office, has returned from a sojourn of eighteen days in California. Mr. Pickens went directly from Omaha to Portland, the trip occupying five days. Portland he took the steamer for San Francisco. Mr. Pickens has made the trip three or four times, but says he finds new objects of interest every time he repeats the journey. He finds it the same every time he goes there. The most notable improvement being made there is the erection of the new Chronicle building, which, when completed, will be the finest piece of architecture on the coast. It is a four-story high, but narrow, grotesque building, resembling a tower. From San Francisco he went to Los Angeles, where he found many former Omahans. The Omaha colony, as it is called there, he says, is most delightfully situated, the families all being located in a radius of a few blocks. He returned to Omaha on Monday morning.

Street Railways Tear Up Pavement and Make Good the Loss. Within the past few weeks the street railways have paid, under protest, into the city treasury the sum of \$38,000, in accordance with an ordinance recently passed by the council. The number of the ordinance is 200. It provides that the city shall pay for the street railways to the extent of a certain amount per square yard for paving streets wherever such railway has displaced the paving by constructing a street car line. The ordinance is somewhat indefinite and unspecified as to what fund the money thus paid into the treasury shall go. A portion of it is intended to go to the city fund, and a part of it to be refunded to taxpayers who have heretofore been assessed for the paving of such streets that has been displaced by the street railways. Consequently there is confusion in the offices of the treasurer and city comptroller. At the street railway companies have paid the money for displacing the paved streets under protest. City Treasurer Rush stated that the street railways had been ordered to adopt some other method, as the railway corporations had taken the matter to the courts for adjustment, and it was his belief that they would be victorious in the fight.

Underground Wires in England. In reply to a correspondent complaining of delay in telegrams because of overhead wires breaking, a recent report from the British postmaster general says: "The advantages of laying wires underground are fully appreciated by the department, and a considerable mileage of underground wires already exists, but the system is so much more costly than the laying of wires overhead as to preclude its indefinite extension."

Found Guilty. Hattie Duke, who was tried yesterday in the district court on the charge of grand larceny, was found guilty by the jury.

Canon City coal, 75 per ton. Nebraska Fuel Co., 214 South 13th St.

SOUTH OMAHA NEWS.

Patrick T. Crow's Statement. "You did me a great wrong in 'The Bee.'"

How Sir Henry Profit by a Pommery's Syllvan's Invention. DOMESTICATING THE BUFFALO.

How the Experiment Succeeds in Kansas—Galvanizing Wrought Iron—Tanning by Electricity—Scientific.

It was Kelley's Invention. The following interesting history of the Bessemer invention is from the Blacksmith and Wheelwright, and shows that the process that immortalized the name of Henry Bessemer and gained him his knighthood was an American invention.

Arm Broken in a Runaway. Patrick Holpin drove one of S. D. Ryan's heavy rigs to the depot Tuesday to meet a man, and when at the capillon the team was scared and ran away, throwing Mr. Holpin out of the buggy and badly fracturing the right arm at the elbow.

St. Agnes Building Committee. The building committee of St. Agnes Roman Catholic church consists of Daniel Rafferty, president; Dr. M. J. O'Rourke, secretary; the Rev. Father D. W. Moriarty, treasurer; and Peter J. Corrihan, John J. Breen and Richard Swift.

Locked Horns With a Steer. Tuesday afternoon David Condon, an employe of the commission firm of Savage and Green, while in the driveway at the stock yards, in attempting to lead a steer, was struck on the face and head by the animal, struck on the face and head by the enraged beast, and had it not been for the timely arrival of assistance, the beast would have gored him to death.

Notes About the City. A new boy makes D. D. Murphy glad. Charles Millsbaugh was taken suddenly sick last evening.

Domesticating the Buffalo. Chief among the ranches where the domestication of the buffalo is taking place and its crosses are being bred is that of J. A. Jones, near the mouth of the Kansas, says a writer in the Popular Science Monthly.

DOCTOR C. M. Jordan. Late of the University of New York City and Howard University, Wash. D.C. No. 310 and 311. Removable Cap. For two years I had a terrible headache. It distressed me for work and confined me to my bed for a whole year. I tried many remedies but found relief only when I used your cap. It is a most wonderful remedy. I have used it for 3 months and can now do my work as usual. I have reduced in flesh from 150 to 120 lbs. I was treated only by your cap. I can only grow weaker. Finally I took your cap, and soon began to improve. I have used it for the past five months and have been as well as ever—lost from the effects of my cap. Jan. 8, 1890. W. F. WARD, Ind. Books on Hand and Swift Despatch Co., Atlanta, Ga.

W. BAKER & CO., Dorchester, Mass. BAKER'S Breakfast Cocoa. Warranted absolutely pure. Contains no sugar. Oil has been removed. It has more than three times the strength of any other cocoa. Prepared by W. Baker & Co., Dorchester, Mass. Sold by Grocers everywhere.
