Animal Poison.

The fearful increase in mortality, resulting from the bites of rabid animals is alarming, and the fact that there have been fatal results from the bites of animals which had exhibited no signs of rabies, adds to the alarm. The case in Walton county, Ga., is an instance. The poison was communicated by the bite of an ordinary house cat, which had never seemed to be mad. The reporter heard yesterday of a remarkable case of a lady who was poisoned by fonding and kissing a poedle dog. The dog had distemper and died of it and the lady's blood was poisoned to a degree that her body was broken out in great ulcers and sores from head to foot. From a beautiful and healthy woman she soon wasted to a mere skeleton, suffering great agony. No treatment benewoman and soon wasten to a more secretor, suffering great agony. No treatment benefitted her until on the 28th of February she commenced to take Swift's Specific (S. S.) which at once begun to force out the poison, and she is now getting well rapidly.

Stowing Paul Away. Speaking of the alleged appointment of Vandervoortas superintendent of mails in the local postoffice, a gentleman yesterday said : From general superintendent of the railway mail service, which he sought, to so small a place as superintendent of mails, a position below that of chief clerk, is coming down with a vengeance. However, it is no surprise to me. Paul is desperate and willing to take almost anything. I under stand the salary amounts to \$1,600 a year, which of course is better than no salary at all when a man has hung around Washington long enough to know what a salary means."

The position belongs to the railway department, is below in authority that of the chief clerk, who receives but \$1,400, and, in this respect, hard feelings are likely to be engendered. Why the superintendent should receive more for his services than a superior officer on whose shoulders rests the respon sibility, is hard to understand, and the boys interested are already complaining. They say the chief clerk's compensation is too small. If the new position commands \$1,600, his salary, they think, ought to be \$1,800.

Mayor Broatch Wants Neville to Tend to his Own Business.

Judge Neville's letter relating to the Eighteenth and Farnam street site for the postoffice was handed Mayor Broatch and the attention of the laster was called to the paragraph in which it is stated that he (the mayor), being in favor of block 86 as a site for the postofilee, would certainly veto the ordinance vacating the alley of block 115.

"I do not know," said the mayor, "on what authority Judge Neville makes that statement. I do my own thinking and hold my own council in such matters. It is true I endorsed block 86 as a good location for the postoffice, but yet I believe there are better sites than that. "The city has the power." he continued,
