THE SPECULATORS IN GRAIN

Finishing Up the Month and Preparing For Holidays.

WHEAT AND CORN CLOSE HIGHER

The Visible Supply Decreased and a Bullish Feeling Manifest-Other Grains Fair-Quotations.

CHICAGO PRODUCE MARKETS.

CHICAGO, April 29 .- [Special Telegram to THE BEE. |- The wheat market was dull and stendy to-day, for new crop futures, and firm and higher for May and June. This was the last business day of the month, and the day before a holiday. Considerable curiosity was felt as to what was going to be done with 8,300,000 busnels of contract wheat in stere here, but diligent inquiry among those who are best posted in such matters failed to develope especial nervousness. It is generally believed that most of the winter wheat, amounting to something like 125,000 bushles, will be delivered out and that it will go into the hands of scattered holders. Elevator people are evincing a desire to hold on to people are evincing a desire to hold on to spring wheat. Baker sarcastically remarks that he learns that all the wheat soid for May, June and July, will be delivered next Wednesday, some 45,000,000 bushels in all, and that he is going to have boys with baskets to pick up the receipts that will be thrown about. He thinks if he could get wheat for nothing he might come out even. The visible supply shows a decrease of 243,000 bushels; making the total in sight 26,046,595 bushels, making the total in sight 26,046,595 bushels against 32,464,000 bushels last year, and 47, 313,476 bushels two years ago. This showing produced an under-current of bullish feeling in all the markets, and prices were well maintained. The northwest exhibited the least strength, comparatively speaking.
The cash markets in the west and at tidewater were steady and a fair degree of
activity is reported, though advices were received from New York that exporters were selling freely against recent purchases. Cables were steady, but private advices in dicated more or less heaviness abroad; on account, it is claimed, of a pressure of consigned American flour. The flour trade just for a moment is commonly quoted as dull, though a great many sales of large lots are reported from a variety of places. Sales are made at concessions, as a rule, it seems. selling freely against recent purchases. Minnesota mills have been pressing their products at a sacrifice recently. By far the most important item in the flour trade was the announcement that 56,000 barrels of flour are to be shipped from Milwaukee through to New York. Exports of wheat and flour from the Atlantic ports, last week, were equivalent to about 1,000,000 bushels. Eight loads were reported to-day for export. Locally, there is a good inquiry for wheat and one cargo of 48,000 bushels was worked for lake shipment. The weather gossip had something to do wifh the regulation of speculatives values, to day. It is cold and rainy through the greater part of the country, west of the Mississippi, though some sections of the northwest are still com-pinining about high winds and dry weather The crop reports from most points in the south and southwest are favorable. There was considerable activy noticeable in May and June wheat to-day. May opened at 81% c, advanced to 81% c and closed at 81% c. June opened at 8134c, sold up to 8234c and closed at 8234c. The initial quotation for July was 7944c; there were sales at 79c and an advance to 79%@79%c. The market worked as low as 70%c, but it closed at 79%c. Dealings were mainly at and around

79%@79%c. During the larger part of the session business was at no time heavy.

Corn was considerably firmer, first in sympathy with wheat and the weather, which was expected to adversely affect the grading. Later a very heavy decrease of 2,382,ing. Later a very heavy decrease of 2,382,000 bushels in the visible supply alarmed the
shorts and started a demand from them
which caused an improvement of about 1/6
per bushel, nearly all of which was retained
until the close. Receipts at Liverpool were
reported for the week at 484,000 bushels.
The export clearances from the Atlantic coast
on Saturday was only moderate and from on Saturday were only moderate and from New Orleans only 10,000 bushels cleared on Saturday for Liverpool. July corn was in good request and liquidation in May was much less urgent than during the closing days of the preceeding week. Receipts, however, continue heavy at this point, in view of which the steadily decreasing visible supply is considered all the more

oats were in good request and 1/4@1c higher, despite the heavy receipts which exceeded the estimates by fourteen cars, and included 224 cars contract grades. There was also a small increase in the visible supply, which was unimportant. Speculative trading was largely in the way of transferring May holdings into the two fellowing months and with less of the first-named com-ing out. Oats for delivery next month sold up to 23%c, under good buying orders. After a firm opening, June improved to 23c, and July was unsettled at 22½@2334c. Local stocks are larger by about half a million busnels than was the entire visible supply a year ago. On the other hand it was believed by many the country had about sold out. Car lots to go to store were close to May, selling at 22c early, for No. 2; and most of the business was by sample. Provisions were quiet. Parties interested

in May were engaged in covering their con-tracts or changing over the same to July, but in the line of new business there was but little doing. The market was strongly permeated with the holiday fever, and there was a general indisposition to put out or make trades. Considerable May property, however, was provided for, and the demand for July for the purpose of transfer was sufficient to widen the late difference. At the adjournment, July was quoted over May 2214c on pork; 10c on lard, and 20c on short ribs. In pork, the day's fluctuations extended over a range of 15@1734c, in lard of 25@5c, and in short ribs of 10c.

CHICAGO LIVE STOCK.

Cuicago, April 29 .- [Special Telegram to THE BEE. |-CATTLE-There was a demand for about all the cattle, good, bad and indifferent, and prices were steady to a shade stronger than on Friday, light handy steers being the most in demand and generally selling a shade higher. There was some demand for big steers for the London market, but the order was limited and may be the only one on the market this week. Of all the British markets London is the only one that can utilize big cattle; both Glasgow and Liverpool want light to medium weights. Only a few loads of Texans were on sale, some making satisfactory prices. Cow stock was in good demand and steady. There was nothing doing in stockers and feeders. The closing of the shipping division to-morrow had a good deal to do with the activity and strength, most of the shippers being anxious to get more than their ordinary number to make up for the loss of one day. Rather slow trade is anticipated unless the run is kept within bounds. Choice beeves, \$4.00@ 4.25; medium to good steers, 1350 to 1500 lbs., \$1.80@4.10; 1200 to 1350 lbs., \$3.50@3.851@; 800 to 1200 lbs., \$3.30@3.65; stockers and feeders, \$3.40@3.45; cows, bulls and mixed, \$1.70@ 3.30; bulk, \$2.25@2.65; Texas steers, \$3.20 @3.75.

Hogs—Trade was brisk and prices were steady. The great bulk of mixed went at \$4.70, a few at \$4.55@4.67%, and then again a few at \$4.82%@4.85; the quality was prime and as even for number as ever went over the scales. Light sorts sold steady at \$4.72%, \$54.74. The market closed easy, with about everything sold.

PRODUCE MARKETS.

Chicago, April 29 .- Wheat-Easy; May, 81%c; July, 70%c. Corn-Steady; May, 38%c; July, 35%c. Oats-Stronger; cash, 22%c; May, 22%c;

tions, \$4.50@4.60; packing, \$4.30@4.50; light grades, \$4.45@4.55. Sioux City, April 29 —Cattle—Receipts, 624; shipments, 94; steady; steers, \$3.00 (£3.50; stockers, \$2.35(£2.85; feeders, \$2.40(£2.90; canners and bulls, \$1.00(£1.75; veal

calves, \$2.00@4.00. Hogs—Receipts, 1,100; market higher; light and mixed, \$4.45@4.53%; heavy, \$4.50

OMAHA LIVE STOCK.

Cattle.

Monday, April 29, 1889. The principal difference between to-day's market and that of Saturday was this: To day they bought the cattle readily while on Saturday it was hard work to get the buyers to take them. The prices actually paid for cattle were very little different. The desirable light and medium weight cattle were in the best request and sold at strong prices. Heavy cattle moved more slowly and when on the coarsish order they were almost unsaleable, no one appearing to want them. The falling off in the export demand for big cattle is largely responsible for this state of trade. Butchess' stock was scarce and com-manded strong prices. Some choice western heifers brought \$2.20 and the bulk of the cows sold at \$2.00@2.90. The feeder trade was sleady and the holders of such cattle found no difficulty in disposing of them. A load of good westerns brought \$3.15 and some little 620-lb cattle \$2.90. Some stock calves sold at \$3.10.

Hogs. The buyers were not long in buying all the hogs here, but they bought them a shade to 5c lower. Nearly everything sold at \$3.45 and some of the hogs which brought that price would not have brought any more on Saturday while other loads would have sold at \$4.50. Two very choice loads sold as high as \$4.50, which was as high as anything as \$4.50, which was a brought on Sunday.

Sheep.

There was only one load here and it was very desirable. The demand is very strong and the market here holds up in spite of the the fact that the sheep market at other points has declined 25@30c during the past week or ten days.

roundings attractive. Climate deligh ful and healthful. Twenty-six milr-from Kansas City, Mo., on the C., M. & St. P. railroad. Washington's "Wants."

In that primitive weekly newspaper, the New York Packet, there appeared in May, 1789, just after the inaugura-tion of George Washington as presi-

dent, the following advertisements A cook is wanted for the Family of the President of the United States. No one need apply who is not perfect in the business and can bring indubitable tesmonials of sobriety, honesty, and atten-tion to the duties of the station.

A Coachman who can be well recom-mended for his skill in Driving, attention to Horses, and for his honesty. sobriety, and good disposition would likewise find employment to the Family of the President of the United States.

Pears' soap secures a beautiful com-

The Great Australian Desert. Australian travelers state that the interior of Australia as by no means the desert it has long been supposed to be. Though now unpopulated, it is pro-nounced capable of supporting a large population. Gold has been found there, and the travelers brought home stories of vast pasture lands, abundant water, and finally of deep blue lakes, at least one of which is of large and as yet unknown extent. A great railroad is to extend across the continent from north to south through the eastern part of the country once supposed to be a desert. It is predicted that the "desert" will disappear, as that in America has done.

MRS. WOODS PROVED GUILTY

Not of Murder, But of Criminal Relations With Curtis.

HER HUSBAND'S ALLEGED SLAYER

Curtis' Daughter Testifies Against the Guilty Pair-The Fourth Ward Contest-Other Capital City Items.

Lincoln Bureau of the Omana Bee, 1029 P STREET, Lincoln, April 30. The preliminary hearing of the alleged murderers of Bob Woods was resumed before Judge Stewart this afternoon at 4 o'clock. Though wearysome and tedious, the interest continued unabated until its close, and the court room was packed during the concluding hours. The testimony throughout tended to confirm the investigation and fludings of the coroner's jury. The criminal intimacy, said to have existed between Curtis and Mrs. Woods, was clearly established. Mrs. Alexander, a daughter of Curtis', testified that she had caught them indulging in criminal relations. Nothing developed, however, that implicated her in conniving with Curtis or Taylor for the murder of her husband, though it is was proven that she had confessed a higher regard for Curtis than for Woods, with whom she had passed nearly twenty-five years in married life. But the evidence, all in all, was deemed sufficient to hold the trio to answer to the district court upon the charges as indicated in the verdict of the coroner's jury. Taylor stands committed for murder in the first de stands committed for murder in the first de-gree, and Curtis and Mrs. Woods as acces-sories before the fact. They will be tried at the May term of the district court, which convenes on the 6th day of the month. The temper of the people seems to have quieted down and unless the old adags, "There is a calm before a storm" receives muchar varification there a storm." receives another verification, there a storm," receives another verification, there is no doubt but that the law will be permitted to take its course. Taylor and Cartis reposed in peace at the state pen over Sunday. During the hearing to-day, a rope was occasionally flashed in sight by some of the colored citizens of the city, but only when they thought that the prisoners would catch sight of it. They kent their backs to the they thought that the prisoners would catch sight of it. They kept their backs to the crowd, though, throughout the arguments, but otherwise seemed indifferent to all that was going on. They are both hard looking cases. Mrs. Woods tries to appear stoical, but it can be seen that she is deeply worried. Taylor and Curtis will doubtless receive the punishment they richly deserve. As to Mrs. Woods, there seems to be some doubt as to her guilt. The rope act this afternoon was simply a repitition of what occurred in the court room Saturday morning before adjournment. Arguments of counse! for the state and prisoners closed the first act in the trial drama. The evidence was practically submitted at the close of the hearing on last Saturday morning.

Prohibition in Iowa.

"I have just returned from an extended visit in Iowa," remarked Attorney J. M. Hamilton to The Bee representative this morning, "and I have no hesitation in pro-nouncing prohibition in that state a total failure. It is claimed by prohibitionists of the state, everywhere, that the law is enforced, but I emphatically say it is not. I had a good chance to learn the facts in Burlington and Fort Madison, and improved it. I was able to get drinks whenever I wanted them, and did not have to learn the ropes the boys tall; about. In one place I called for beer, got it back "you mean ginger ale," and on assenting had the pleasure of quaffing as fine lager beer as I ever drank. I want to say, also, that they have a proceedure in law there that I never saw in any other state. It is peculiar to lowa alone. I refer to ther equity proceedings in injunction cases. equity proceedings in injunction cases. An injunction is secured against the building where liquor has been sold, and against the owner of the building. The effect of the proceeding is to shut the building for one year against the selling of liquor there, and also against the opening of the building for any purpose whatever unless the owner gives a heavy bond. In most cases this is not done, and the buildings are alread and buildings are closed and pty. I saw a number of and the stand empty. such places. I also saw a place against which an injunction had been made perma-nent while I was there. It was not over a I also saw a place against block from the court room. Immediately after the decision of the judge 1 saw a stream of people entering this same building, and out of curiosity to see what was going on I followed the crowd. Imagine my surprise to find the saloon running the same as if no injunction had been issued. No atten-tion was paid to the order of the court and the violation of the law was not noticed or punished. It is my opinion that a large por-tion of lowans who voted for prohibition are not only willing, but anxious, to have the state go back to the high license plan."

The Fourth Ward Contest. The Fourth ward election contest case was before the district court to-day. Attorneys Ames and Hall appeared for Mr. Hamilton, and Lamb, Ricketts & Wilson for Mr. Cooper. The case for the plaintiff, in brief, Cooper. The case for the plaintiff, in brief, was as stated by The Bre, viz: The regular municipal election at which Cooper was elected was a valid one, and that he was therefore the legally elected councilman n place of Graham, resigned. The respondent denied that there was a vacancy at the time Cooper claims to have been elected, or, at least, that there was no

was made, and therefore there could not have been a valid election at that time. He also states that before the papers in this in-junction had been filed, he had prepared and executed h s bond, all preliminaries had been gone through with and he was already a member of the city council, and that the injunction simply asked him not to do what he had already done. Affidavits to this effect were submitted. Plaintiff's attorneys asked leave to file affidavits to the contrary. The case was argued this afternoon.

Scott and Murphy vs. the B. & M. In answer to the complaint of Messrs, Murphy and Scott, of Utica, the Chicago, Burlington & Quincy railroad company says: Defendant denies all of the allegations of complainants, except that it owns and operates the line of railroad mentioned through Utica and other places; that at the town there are already located, built and in operation three grain elevators, separate and dis tinet, and that the respondent uses certain right-of-way and depot grounds at the station, but denies the use and ownership of the amount of grounds, right of way and side track stated.

Further answering, the respondent says that the depot ground owned by the company at the station is 1.050 feet long by 250 feet wide; that is the length of the ground and no more; that there are located on the ground three elevators and the stock yards that there is no place or room at said station for the erection and maintainance of another

elevator without interfering with the necessary business of the company at the station; that the erection of another elevator there would not only interfere with the business of the company but the interests and business of the public. The answer is rendered by T. E. Calvort, general superintendent of the road.

New Notaries Public.

New Notaries Public.

The governor to-day appointed the following Nebraskans notaries public: Reuben J. Wailace, Centropolis, Banner county; Clinton P. Burghardt, Sidney, Cheyenne county; Fred M. Hatch, Schuyler, Colfax county; Edgar Howard, Benkleman, Dundy county; Jonas C. Ecker, Minecia, Hoit county; Magnus Theorin, St. Paul, Howard county; Lazard Cahn, Lincoln, Lancaster county; W. F. Bisber, Clinton, Sheridan county.

City News and Notes. There was a red hot time at Red Ribbon hall yesterday afternoon. Third party pro-hibitionists flayed the anti-saloon republicans and the reverse is equally true. Bishop Skinner went at J. W. Cadwallader in a ven omeus way, and Police Officer Green had to quiet the racket of the audience. It was a clear case of hoodlumism on the part of third party men.

The pupils of the Capitol school observed the centennial inauguration of George Wash-ington as president of the United States this afternoon. It is learned that the rooms were decorated with the national "red, white and blue," and the exercises were of a patriotic character. A very large number of the friends and patrons of the school were in attendance, and the occasion proved a very in

teresting one.
Centennial services will be held at St. Theresa's pro-cathedral to-morrow morning at 9 o'clock. They will consist of a high mass and discourse, concluding with a sole "Te Deum." As before indicated by Bishop Bonacum, the subject of the discourse will be "The Life and Character of George Washington and the Constitution of the United States." Catholics are enjoined to keep the day, and non-Catholic citizens are invited to attend the services.

invited to attend the services.

County Judge Steward issued marriage licenses to the following Lincolnites to-day: John Endres and Miss Nancy E. Heller; Conrad Henser and Miss Lena Swartz; Thomas S. Dore and Miss Minnie L. Stewart; Andrew J. McClaine and Miss Hattie M. Seidell. The latter couple were married at 4 o'clock this afternoon by his honor.

R. A. Gunn, M. D., dean and profes-sor of surgery of the United States medical college, editor of "Medical Tribune," author of "Gunn's New Improved Hand-book of Hygiene and Domestic Medicine," says over his own signature, in speaking of a severe case of kidney disease: "A chemical and microscopical examination of the patient's urine revealed quantities of al bumen and granular tube casts, confirming Bright's disease. After trying all the other remedies in vain, I directed him to use Warner's Safe Cure. was greatly surprised to observe a de cided improvement within a month Within four months no tube casts could be found, and only a trace of albumen. and as he expressed it, he felt perfectly

A Story for Bon Vivants.

One man invited another man to dinner at the Manhattan club, of which both were members. It was agreed that the one who arrived first should order the dinner, says a New York letter. Some time after the appointed hour the host of the occasion found his guest at a table in a remote corner of the cafe. "Have you ordered?" asked the host. "Yes." "Well, so have I," was the answer. Both laughed, and then the host with a flash of the eye inquired what soup his guest had ordered The soup was named and the host answered: "Then we've ordered the same dinner; any man with proper notions of sequence in dining would follow that soup with just what I've ordered." The scientific diners compared menus and found that the orders agreed in every particular. Both dinners and all the wines ordered were served.

Catarrh Cured. A clergyman, after years of suffering from that loathsome disease, Catarri and vainly trying every known remedy at last found a racipe which completely cured and saved him from death. Any sufferer from this dreadful disease sending a self-addressed stamped envelope to Prof. J. A. Lawrence, 88 Warren St. New York City, will receive the recipe free of charge.

Am rica! Our Own. M. G. W.

Land of the lakes and prairies free, Land of the mountains and the sea, Birthplace and nome of liberty; Ours are the blessings freedom brings,

Ours is the home where freedom clings, Sheltered beneath thine eagle's wings; America! our own.

Home of our love, our native land, Ever shalt thou unsullied stand By touch of sacrilegious hand; Still in the future, fair to see,

The glorious sun of liberty, Lighting the world shall rise from thee America! our own. Eggs are low now, but one of the best

nome markets is your own table.
